**Texile Wins Close Game**
Basket-ball Team Battles Fitchburg Normal

The Textile team played their first game of the season Saturday afternoon, January 7th, against the Fitchburg Normal team. The Fitchburg team, under the coaching of Mr. Harold Peake, was already well established and was able to draw a large crowd that afternoon. The Fitchburg team was made up of a very strong and experienced group, and they were expected to give the Textile team a tough fight.

Textiles as a Vocation

If the young man of today who is somewhat undecided as to what field of endeavor he should apply his efforts, will stop to consider the matter seriously he is forced to conclude that the textile industry is a soundly handled and manufacturing enterprise. He can enter if he is willing, to work, to study, to forget the last statement made, because it is slightly important. In the first place, the textile industry is one of the most important of all, representing the outlay of billions of dollars. Certain, woolen and worsted, silk and hemp goods, flax fiber, silk goods, hosiery and dozens of other manufactures require the most efficient of all fields. One must have in the near future, when we finally do obtain our own, the much discussed "textile spirit" will become a real and tangible thing.

IF

If you can keep your head when all about you
And loll, and blare and blazon it too;
You can make allowance for their doings too:

If you can quiet the noise of your mind
And not make more dreams your own

If you can meet with Triumph and Disaster
And treat those two imposters just the same:

If you can hear the truth you've spoken
Twisted by knaves to make a trap for fools:

Or watch the things you give your life to,
Broken, and build them up with worn-out tools:

If you can make one epoch of all your winters
And ask it in one year of pitch-and-toss:

And boy, and start again at your beginning
And never breath a word about your love:

If you can force your heart and serve and show
To turn the screw with philanthropy:

If you can click with Kings—war love the common touch
And not be afraid to be rich and poor:

If all men count with you, but none too much:

If you can fill the unending moments
With sixty seconds' worth of distance run:

You're the Earth and everything that's in it.

And—perhaps—it will be a man, my son.

—Henry Wadsworth Longfellow

INTER-FRATERNAL COUNCIL AGREEMENT

The following rules shall govern the four Fraternities in the pooling of crowns attending Lowell Textile School for the first time.

ARTICLE 1.
Give work for each Voterity, which shall be divided upon the various Fraternities by the drawing of lots, shall be set aside before midwinter, with the various Fraternities invite freshmen to their respective houses. At such times no Fraternal matters shall be discussed.

ARTICLE 2.
Sec. 1. On February 7th, 8th, and 9th, 1922, freshmen may be approached on Fraternal matters.

Section 2. No Fraternal matters shall be discussed, except at Fraternity houses.

Sec. 3. A freshman shall be invited for only one visit.

Sec. 4. February 11th to 15th, freshmen shall be considered as a closed house, and no freshmen shall be approached on Fraternal matters.

ARTICLE 3.
Sec. 1. No bids shall be extended during the time stated in Article 2.

ARTICLE 4.
Sec. 1. On Monday morning February 15th candidates shall be summoned to the office of a designated number of the faculty who will present the bids.

Sec. 2. Acceptance of these bids shall be made known to the candidates by Monday, February 13th, by presentation at the Fraternity house concerned.

ARTICLE 5.
Freemasons shall be pledged on acceptance of a bid.

ARTICLE 6.
After midnight, Wednesday, February 15th, all restrictions are removed.

ARTICLE 7.
The Sigma Onega Pi Fraternity may pledge its candidates after November 28th, 1921.

ARTICLE 8.
The above agreement shall be in force until a new agreement is made the following year.

PHI PSI

On Wednesday evening Phi Psi Fraternity had its guests, eighty freshman, instructors, and alumni at their Annual Freshman Dinner, which was held at the local hotel. Captains of the teams in the stool room, all those invited were able to crowd except Fred Hogan, who was detained out of town. Mr. Savage and the "Happy Hour Fan" entertained the latest musical numbers, and the guests were right there on the chairs.

An address of welcome was made by George McVeigh, Phi Psi Fraternity. Short speeches were also made by Mr. R. D. Rich, an alumnus of the school, and by Professor Lemire M. Coaling.

Refreshments were served and the remainder of the evening was spent at music, and a few dances by Phi PSI chapter.

The committee in charge of the affair consisted of Raymond S. Waller, Maurice M. Mathews, and Jewett T. Flagg.

The Editor,
The Text,
Lowell Textile School.

Dear Mr. Editor,

Permit me to make the medium of your paper the following explanation as to the accompanying picture which was taken at a high school basketball game.

I recognize the excellence of the game which precipitated the exhibition of these pictures, showing the difference between the manufacture of cordage, and rope of which Manila hemp has proved itself incomparably the best material. However, in the presentation of the pictures, with this apology to the exhibitors of the rope who, perhaps, withholding from the probable effect on the average mind, rather underpopularized the names of the average native Filipino. Unfortunately for my people the pictures were taken in some outlying way section of the island where more menace of appearance is in that still in vain. It will not be the least bit of wood to pass a judgment on the many, based on the exhibition of the few. We can for the present only hope for their better establishment, for perfection here, as in all other things, is still a consummation devoutly to be wished for.

Sincerely,

P. Flagg

Textile Engineering Society Notes

(Continued from Page 1)

A ship has less vibration, and due to a lowered center of gravity by the location of the driving machinery the roll of the ship would be greatly reduced. Furthermore, he brought out the fact that there would be less and the cargo capacity would be greatly increased. Mr. Mathews then gave a report of the conference held at New York on Dec. 11th. The following outline gives a brief review of the activities.

Dec. 6. Registered at Headquarters.
November 11th. "Alumni Dinner."
December 8th. "Exploration in Internal Combustion Engines.""Roberts, Kansas. Discussion on the activities of the Student Branch.

Second Game of Season 5 Victory for Textile Team

(Continued from Page 1)

Valentine, manager of Football, wrote to Providence for a football game and they replied that they were playing college only so could not give us a team. That left us to the basketball team to show them where we stood in college activities. And the boys certainly did a good job for Providence never had a chance. The game was well attended, and started on time, and Textile quickly pulled up a small score. Then the team clung up a bid and Providence made some baskets, but from the middle of the first half it was all Textile. With plenty of clever team work by Smith and Matthews and some pretty baskets by both, the bid ended with a safe lead for Textile.

Between the halves, Marshall and Mathews entertained the crowd with some fancy shooting, and placed their turn with a spectacular exit. It is rumored that these two fellows are practicing a brand new thriller for next Saturday night's game. So don't miss the game. The show between the halves is worth the price of admission.

The second half only went to show how much better Lowell is than Providence. Providence tried to use a five man defense, which was nearly disastrous a week ago, but they played it poorly and it was easy for Ken Smith to eke out the ball thru one two or three players.

Early in the half Coach Cushin started using his substitutes. Hilt was the first man in, and replaced Matthews who took Marshall's place at forward. Before the half was up, every one of the men on the bench had been in the game. And it must be noted that the second team could have beaten Providence College, as well as the regulars, if they had gave the whole district.

The final score was 51 to 19, and business by players as follows: Smith 11, Matthews 7, Lambard 2, Fairwell 1. Bartlett 1, Danilson 1. From Freshmen: Smith 3.

After the game an informal dance was given by the social committee. The music was by Father's four piece orchestra, and refreshments were served during the evening. The couple present had a very pleasant evening, and it is to be hoped that more will enjoy these dances in the future. The basketball team is delivering the goods and are to try to support the team and the dentist for basketball has to be self-supporting at L. T. S. and in Manager Navy said "We've got to have more fellows, that's all there is to it."

The Bear Hunt
Continued from Last Issue

We went on in this way for nearly an hour, when we saw a thicket of thorny bushes, and here we decided to take a rest. We sat in the bushes, smoking and conversing. I understood Mr. Mother to smoke more than usual, and I was surprised to see the quantity of tobacco he smoked. However, I did not notice this, as my nerves were too much occupied by the sight of the bears. I was deeply interested in the way in which the bears were eating the thistles, and I could not help thinking how pleasant it would be to have a bear hunt of my own.

At about three o'clock, we started again, and continued our hunt until about six o'clock. We then decided to return home, as the weather was getting bad.

We reached home about eight o'clock, and found our friends waiting for us. We told them of our adventures, and they were greatly surprised and interested.

I was tired and hungry, and I could not help thinking how pleasant it would be to have a bear hunt of my own. I was deeply interested in the way in which the bears were eating the thistles, and I could not help thinking how pleasant it would be to have a bear hunt of my own.

In any case, the bears gave me another chance.

I returned to my work, and found it not so hard as before.

I was tired and hungry, and I could not help thinking how pleasant it would be to have a bear hunt of my own. I was deeply interested in the way in which the bears were eating the thistles, and I could not help thinking how pleasant it would be to have a bear hunt of my own.
