Textile Wins Out
In Tenth Inning

Clark Pitcher Blows, Passing Three Men—Squeeze Play Follows.

The Textile school baseball team won the opening game of the home season by beating Clark college of Worcester in a 10 inning contest 7 to 6. Textile fought an uphill contest and overcame a three run lead in the fifth inning when Beavan lined out a three bagger and brought in two men.

The first man up in the game, Fowler, started off with a clean hit over second base but was caught asleep at first. Textile went out in quick fashion by fast in field playing. In the third Clark bunched two hits and scored when Fowler stole home. Again in the first half of the fourth, Clark got to Ray Farwell for three more hits and assisted by an error piled up two more runs.

Textile was apparently outclassed by the visitors but a whirlwind rally was started in the fifth and three men were placed on base when Sullivan got hit with a pitched ball and Olson and R. Farwell followed with infield hits. Textile then came through with a hit and run play and

Textile Defeats Bates with Ease

Loose Fielding by Maine Team Big Factor in 13 to 7 Licking.

In a game featured by heavy hitting and with loose fielding by the visitors, Lowell Textile defeated Bates college by a score of 13 to 7. The Textile nine had expected a hard fought game but the Maine college boys did not measure up to their reputed strength and the Lowell team outplayed them all through the game.

In the opening inning after Bates had been retired in quick order, Clayton started off with a clean hit over second base and went to second on Reynolds sacrifice. A hit by Capt. Doran scored Textile's first run and then Sullivan cleaned up with a three-base hit. Three runs were scored in the first inning on heavy hitting.

Bates threatened to tie the score in the second when they bunched three hits and scored two runs, but a fast double play, Beavan to Moore, following Cogan's long fly to centre field, nailed the runner at the plate and closed the inning. Several times in the next three innings Bates

Textile Swamps Norwich in Fourth Straight Victory of Season

In a one-sided game the Textile School baseball nine came thru with a creditable victory against the Norwich University nine, defeating them 11 to 1. After the opening inning the game was a walkaway for the red and black who bunched and fielded as big Leaguers.

In the first round, before the home boys had fairly sensed the situation—by means of a couple of two base hits the 'tizers managed to squeeze in a lone tally. This however was counterbalanced in our half—and the game put on ice in the second.

Exceptional good team work on the part of all the L. T. S. team with very good support to pitcher Claude Farwell made possible the large score in our favor.

Reamush and Griffin were stars of the visiting team while Maeker starred for the home nine. Clayton, Sullivan and Doran played an exceptional game although individual credit falling due all Textile players.

T. C. A. Holds Last Meeting of the Year

Address on Physical Education in India.

On Tuesday afternoon May 2, the T. C. A. held its last meeting of the school year. Dr. Arthur G. Hodson gave a very interesting address on the work in physical education among the natives of India. Dr. Hodson holds the position of National Physical Director of India, and has spent over five years in trying to develop a correct system of physical training among the people of India. During his address, he showed some of the exercises which the ignorant people go thru in the worship of their idols. He cited incidences of the changes brought about in the lives of the people (few of whom live to old age) who performed the correct sort of exercises. To those who were present, his talk was exceedingly interesting and instructive.

T. C. A. Meeting
(Continued from Page 1)

After the meeting the nominating committee, consisting of Spahn, chairman, Vanhoutte, Wilson, Ampollock, Harde and Hall, submitted the names of the officers for the T. C. A. for next year. At the vote of those present the names were accepted as submitted, and consisted of Robert W. Roney, President; Leonard E. Wilcox, Vice President; and Everett V. Steele, Secretary. The remainder of the T. C. A. Cabinet besides the President, Vice-President and Secretary will be composed of

School Notes

'Tag Day' a novel and new feature at Textile proved very successful. About $80 was collected, with a contribution from practically every student in the school. It is hoped that the money will cover the expense of the six basketball sweaters, and the emblems, for the cast of the Textile show. The committee wants to thank the "Taggers" and the "Tagged" for their support.

At a recent meeting of the executive council James A. Nury, ’23 was elected manager for the next basketball season.

On Friday, May 13, the junior and senior chemists visited a number of industrial plants in the vicinity of Boston.

Don't forget that Student Conference at Silver Lake, Lake George, N. Y.

The Ed. T. S. news to present at the Officers' Training Conference last week-end at Brown University, and gave a report of the Conference which may be found in another part of the Text. Later, Harde and E. V. Steele said they spent a very pleasant weekend, and got a lot of new plans to carry out next year here in school.

The advertisers support the text.
Textile Wins Out in 10th Inning (Continued from Page 1)

Sullivan easily scored the first run, and Olson brought in another on a quick repetition of the same play. A base on balls followed and then Beavan with a long three-bagger scored two more runs, placing Textile in the lead.

Clark tied the score in the seventh and took a two-run lead in the first half of the ninth. With the game apparently lost, Textile went to the bat and again tied the score when Fowler overthrew third base and two men came home. Claude Farrell now pitching for Textile, made short work of the tenth by striking out the first three batters.

Machir, the first Textile batter up in the last of the tenth, faced the ball on top of the Textile school and after walking around the bases had the hit called a foul ball. Ryer of Clark who had been pitching wonderful ball then blew up passing three men. With none out and the bases full Textile tried to squeeze for the third run, and although Ryer pitched an inscribed strike and nailed at the plate an overthrown to third by the catcher allowed Ray Farrell to get home with the winning run.

Textile defeated Bates with Ease (Continued from Page 1)

filled the bases on hits and passes, but clever fielding and good pitching in tight places by C. Farrell prevented scoring.

Textile scored two more runs in the sixth when Jordan overthrew third base and Beavan, after getting his run with the ball in the Textile Blanks. Five hits, including two doubles, were made out both pitchers. With the game safely tucked away, Textile put a substitute battery into the game and scored up a hit.

Bates attempted to stage a come-back and succeeded in getting Ray Farrell for three hits, a base on balls and a hit batsman, which scored four runs. With two men on, Farrell tightened and retired two men on strikeouts. In the eighth Blanchard was given a tryout in the box by Textile and he retired the runners in the inning minus a man reaching second. The score:

New England Officer’s Training Conference

The New England Officer’s Training Conference was held at Brown University April 29, 30 and May 1. About a hundred and two of the delegates who attended the convention will testify. Seventeen New England colleges were represented, and the delegates available through the opportunities of securing new and valuable material and ideas for their college Christian Association.

The convention opened at seven Friday night with a banquet in Sayles Hall. Everyone had a jolly good time during the banquet by getting acquainted with the other fellows there and learning something about their institutions.

The banquet itself was very good, and every thing from soup to demitasse was enjoyed especially the hot-oven served. The cold-locking era is now present emphatically depicted.

After the banquet was over President Pannell of Brown University delivered the address of welcome to the delegation. He was followed by G. Sherwood Eddy who is one of the most prominent religious workers in the world. The address of welcome was "the thing that is making America today". He said, "I believe we are entering the third great crisis in American history, which is as great as that of the Revolution and that of the War in the Pacific War." Eddy outlined two courses and stated that every man in college must be a follower of one of them, one is the doctrine of force and the other is the doctrine of selflessness.

The first is composed of Personality, Brotherhood, Service, Liberty, Justice, Accountability, and Love while the second is composed of Possessions, Strife, Profit, Repression, Injustice, Irresponsibility, and Selfishness.

Eddy’s talk at that meeting of the Intercollegiate council was drawn up to constitute a presentation. This matter was followed by eleven and the conference broke up for the night.

On Monday afternoon of the 29th, there was a discussion of the purpose of college association led by Mr. David G. Porter. The discussion was very thorough and instructive.

After this discussion the subject of how to make your college association worthwhile was taken up by Mr. W. M. Rose. This was one of the best parts of the convention for Mr. Rose very ably pointed out how the associations could help the students, especially the freshmen and secure their co-operation.

There was a baseball game scheduled for the afternoon between Brown and Yarmouth but owing to our usual Saturday rain the game was called off and the delegation had to be satisfied with a show for the afternoon. Saturday was a very pleasant day and the gentleman who voted to the subject of "How to run a Christian Association" were devoted mostly to the subject of the president and how he could help the association. On Sunday night the conference broke up and the delegates set out for their respective homes after spending a very profitable and instructive week-end. The report of which should make itself evident in and around the New England colleges.

Newton Hardy

On Friday, May 6 another extremely interesting lecture was given to the student body under the auspices of the Alumnic Society. President Thacher introduced Mr. Ralph F. Porter, Eddy of the Boston Women’s Home and Rubber Co. Five reels of moving pictures were shown, which had been taken on Ex-President Roosevelt’s explorations up the Amazon River.

The modern method of obtaining rubber was shown next. Views of a rubber plantation on the island of Ceylon were given. The trees are first tapped when they are six years old, to make a chemical test. The latex obtained is then left undistilled until a certain amount is collected from each tree, which is then poured into a black bag and hardened in the smoke of burning palm nuts.

The second picture illustrated the process of making the latex. This is made into sheets which are dried in the sun. The rubber obtained in this way is called "white crepe" rubber and is loaded on ships and sent to different countries.

Mr. Porter next described the manipulation of the raw rubber after it enters the factory. The rubber is rolled out on large rollers and chemicals are added this rolling involves a homogeneous mixture of rubber and chemicals. The process of making rubberized cloth is shown in the same detail. The sheets of the soft plastic rubber and the cotton cloth are forced together in large calendars.

The concluding reel of pictures gave an insight into the manufacture of rubber goods. The making of different kinds of hose, each kind for a special use, was taken up thoroughly. The one interesting feature of the manufacture was the making of rubber heels and soles. The rough heels were printed by hand and the smooth ones by steel blocks, the names of the rubber goods are then trimmed by machine.

At the conclusion of Mr. Porter’s talk a rising vote of thanks was given to him by the student body.

Fraternity Notes

New Chapters for Sigma Omega Psi.

Several weeks ago a new chapter was added to Sigma Omega Psi. The new chapter, Kappa, is at Northeastern College, Boston. Mr. Moses Goldman, L.T.S. 1930, officiated at the ceremonies and installation.

On May 6th another step was made by the pledging of a number of men from Tufts College. These men are to be initiated very shortly. The chapter letter is to be Mu.

All the New England chapters are looking forward to the banquet and dance to be held on May nineteenth. The banquet is to be held at Dreyfus's late in the afternoon. It is expected that every New England member will attend, and also delegates from the other chapters. An informal dance is to follow at Aberdeen Studios, Brighton.

Omicron Pi News

At the last regular meeting of the Fraternity, Mr. Arthur G. Pollard, chairman of the Board of Trustees of the school, Mr. Frederick S. Batten, assistant professor in organic chemistry, and Mr. Walter E. Holt, bursar, were taken in as Honorary members. J. Albert Horne '24, and J. Howard Hughes '24, were also taken in as active members.

The Alumni officers have already started extensive repairs on the house, so as to have them completed at the opening of school in the Fall.

Omicron Pi

The Omicron Pi Fraternity held their eighteenth annual banquet at the Boston City Club on Saturday evening, April 20th. The active and inactive members were well represented, and after a very pleasant menu, a short business meeting was held, followed by a few words from some of the men present. During the evening music was furnished by the Jeffersenn-Johnson orchestra.

On Friday evening, May 30th, Omicron Pi will hold "open house" for the Alumni who will be on hand for the Alumni Upstream Day which comes on the following day. A pleasant social evening has been planned, after which the Chapter House will be turned over to the "old men."

L. T. S. Orchestra Closes Very Successful Year

Under the guiding hand of Mr. Holley S. Winkfield the L. T. S. orchestra has become the largest social development of the school. The fair start of last year made a rapid progress, and with the aid of six veterans a very praiseworthy company was collected.

Selections rendered at the "Textile Show," Evening School Graduation, and several socials were very favorably commented upon. The effect that several members of the group will be unable to attend commencement does not prevent their appearing at that time.

The following men have received the "Textile" organization poster for services rendered.

Evening School Graduation

At the recent graduating exercises of the evening classes at the Lowell Textile School, the graduates numbered 58. In his address of welcome President Eames outlined the remarkable growth of the school from its early beginnings, with a handful of students and a few pieces of machinery, until today it ranks with the finest institutions of its kind in the world. The courses at the school have been so developed that the student now has the opportunity either to become a specialist in any particular branch of textile manufacture or receive a broad training in any of the general fields, and President Eames has the confidence and co-operation of America's foremost textile manufacturers. The speaker of the evening was James A. Moyer, Director of the Massachusetts Department of University Extension, who paid high tribute to the school and its work, as did also Perry D. Thompson in his brief address.
