WELCOME

President's Address of Welcome

The closing of the vacation period of summer and the approach of the autumn days bring us to the opening doors of school and college. Young men and young women full of ambition, hope and confidence, are commencing their preparation which will lead them into careers of usefulness, service and leadership that bring success and satisfaction.

To those who enter the gates of the Lowell Textile School a most cordial greeting is extended by the student body and faculty. It would be the hope of the former that the new students will help to maintain and advance the reputation and ideals of this institution and of the latter that the standards of scholarship and attainments will be raised to higher levels.

Freshmen Advisors

The following is a list of the members of the Class of 1928 with their advisors to whom they are to go in case of questions which may arise relative to their school work. The advisors will be only too glad to help the new men in questions pertaining to selection of courses, class rooms and the general questions that arise when new men at any institution. Freshmen whose names do not appear in this list, will follow the general plan of this layout and determine for themselves where they shall go for advice.

Collegiate Clippings

This column is but another of the new features planned in connection with this year’s Text. A special endeavor will be made to keep it chock full of interesting notes from other colleges.

B. U. SOPH'S INITIATE FRESHMEN

Freshmen at the different departments of the Boston University are forced to obey the strict rules and regulations laid down by the haughty sophomores, who received their degree of initiation last Thursday. At a meeting of the freshmen held last week, the president of the senior class presented the freshmen rules which became effective immediately. “Prep” school instants must be banished, the university songs must be learned before a stipulated date, men students are not to use the elevator, and must not be in the canteen without a pass. This afternoon the annual purge of the freshmen will be held on the streets of Back Bay, and all the new men must appear in fine dress in the room where the college clergy clothes that they can purchase of $750 a year and food allowance, and the figures show that this $10,000 expenditure, which can be without expense to the benefactor often goes begging.

UNDESIRED EDUCATION

A writer in the Monitor states that while the maximum number of cadets allowed by law at the military academy at West Point is 325, the greatest number ever enrolled there was about 1200. Each Representative and each Senator is allowed two appointments; but over a hundred of them have not been filled. The estimated cost of educating a cadet is $10,000, including his pay of $750 a year and food allowance, and the figures show that this $10,000 expenditure, which can be without expense to the benefactor often goes begging.

FALL BASEBALL AT HARVARD

Full baseball practice at Harvard started last week with a squad of over 10 candidates reported for duty. Fred Mitchell, former manager of the Braves, was in charge of the workout and will supervise all the baseball work at Cambridge this autumn. Head Coach E. M. Lewis, who has directed the training program and then returned to his work as coach of the football team.

"AT THE BRIDGE"
Delta Kappa Phi Notes

One of the interesting incidents following last June's graduation was the marriage of two of the high ranking scholastics, George Petrich, chemical instructor of the chemistry department, and Eclectic on the football team, was married shortly after graduation to Miss Ruth Marion Kilpatrick of Dedham, Mass., and Mrs. Wilbur then moved to Rockford, Ill., where George secured a position as band director with the Evanston High Co. at that city. Mr. Jones noted Everett Riddell, holder of many prominent scholastic and organization offices and also an assistant instructor in the same department at Lowell Textile, also joined the married men's organization. Mr. Streele took his bride Miss Frances Elizabeth Wilcox of Marlborough, Mass. Mr. Streele is now employed as the eastern representative of the Hosiery and Hosiery Co., of Bristol, Pa.

Although some of the fellows have been leaving at the chapter house for over two weeks, the official opening was made this morning with about 25 fellows making their home there. Maurice Villemeneau is the president for the second year, while Arnold Smith is the house manager.

Mr. and Mrs. Josephin Orthodox of Oxford are the proud parents of a son born early last summer.

Word has been received from Hill friends that he has secured a position with the National War Co., of Northfield, Vermont, where he is assistant to the superintendent.

Paul Cossel has returned from a vacation stay in the South where he assisted in creating a mild for the Lockwood and Rogers concerts.

Miss Temple is at present located in the knitting department of the Berman Hosiery Co., of Rockford, Ill., but is expecting to be transferred to the planning department at an early date.

Word has been received from Ed. Feindel saying that he will again accept his offer of giving awardees to the eleven men starting against Worchester Tech. If the local grid stars defeat their aged rivals, Worchester Tech, in the annual grid clash.

Russell T. Fisher, former grand president of the Delta Kappa Phi fraternity, and now head of the investigating board connected with the research department of the National Association of Cotton Manufacturers, troops in occasionally at the house.

"Dodge" House is still looking for laundry and Company.

"Mud" mill is working in Rhode Island.

Mr. and Mrs. Albert "Dick" Bonsack are the proud parents of a daughter born recently.

Cecil Prewatt: Do not let your dreams at the end of help. A word is the beginning of a million.

Omicron Pi Chat

The Fraternity House is having a general overhauling and at present is considerably away. A new bathroom is being installed by the alumni of the Fraternity. A large number of last year's students are present for the year and will take rooms at the house, and from present prospect it looks like a full house this year.

We received word about a month ago of the marriage of J. Milton Washburn to Mrs. Beth F. Cooker of Southingtown, the latter part of August, Mrs. Washburn is a Bargain grade, while "Hill" graduated from Textile in 1921, with a B. T. C. Mr. and Mrs. Washburn are making their new home at 187 Mount Vernon St., Arlington, Mass., and would like to have the fellows look him up while in that city.

Another new member to the "Order of Benantes" is Fred "Ducker" Hurard, who was married this summer. He is planning on returning to Textile and of completing his courses.

Some of the graduated last June secured positions with plenty of opportunity behind them. Harry Dougall is now an advertising man in an East Boston mill.

Al Hurley, another graduate from the cotton course, has secured a position with the Michelin Car Co., of Amsterdam, N. Y.

"Pug" Ellis, captain of baseball and football last year, spent a busy summer in Chicago, where he played at the backstop position on the Town Baseball team.

Ed. Fowle is one of the regular visitors at the house this fall. "Ed"

Textile Loses First Game to Bates
19 to 0

Lowell Textile opened up its 19th
season with a defeat at the hands
of Bates College. The defeat was
due to the fact that the Bates
College team was stronger than
ours. The Bates team won the game
by a score of 19 to 0.

Cracking the Mold

Several years ago in a small New
England college, a poet was conduct-
ing some courses in English literature.
He was not a college graduate, but
had never been on a college campus
before. He had his time been long
enough, he thought, to warrant a
first course in the art of teaching.

The poet was a man of great
philosophical insight, and he was
an expert in the art of teaching.

He knew that the students were
not ready for the course, but he
was determined to teach them.

He spent many hours planning
the course, and he worked hard to
prepare the students for it.

The course was a huge success,
and the students were grateful to
their poet-professor.

1093 CLASS PHOTOGRAPHER 1924
Enthusiastic followers of Lowell Textile sports are looking forward to a most successful season on the grid this fall, because of the abundance of material which seems to be in evidence, and also because of the change in the coaching staff. Eddie Cowley, former Holy Cross College sensation, and onceselected All American half-back, for the famed football authority Walter Camp is holding the coaching reins this fall. Bruce Perry, former Holy Cross, and one of the finest line performing forwards that ever roamed the Maine college is coaching Coach Cowley to full football at Textile, on the place in the college map that it belongs.

For over a week both coaches have been on the job whipping a team into shape, but from the start were seemed what held up by the scarcity of material, away this season the coaches are showing no sign whatsoever for the first game with Bates on Saturday.

And since then in addition to the regular worries which follow making up a team, the two coaches had to contend with falling leaves, bending the signal.

Coach Cowley has had direct charge of the signal and has been devoting the greater part of his time to the development of the backfield. Owing to his practical experience both as a player and since as a coach he has been giving some of the best coaching to the backfield men, no more progress being made in this line than were made in the line last season. Perry has been drilling the line men. He has proved himself a hard backumper, with the exception of stretching weakness, in the endeavor to develop a strong line.

Football practice started on the 15th, when about a dozen candidates showed up for the opening trials. Owing to the fact that the team had had no preparation for the initial game of the season, the coaches had to drive the men up as much as possible over the mere by a shortness of time. For the first five days the candidates were a sore back and knees twice a day up to the day of the first game, but the warriors in the best of condition for the opener.

This year Manager Maurice Underwood arranged one of the finest schedulcs ever attempted by any captain of the previous team. Bates College presented a still disposition for the first game, but by no means was this the hardest opponent of the season. With New Hampshire, Copper Union, Providence, Worcester Tech, Rhode Island State, and Middlebury, the Red and Black warriors may look forward to a stimulation season.

Besides the new material that the freshman class has brought in, the coaches have had an abundance of material from last year's team. Jim McGraw, Martin McGary has re-signed to the team and hopefully will make his mark again. Turnbow and

Cawlley and Perry to Coach

A Liberal Education
That seen, I think, has had a liberal education who has been so trained in his youth that his body is the ready servant of his will, and does with ease and pleasure all things that, as a mechanism it is capable of; whose intellect is in a clear, cold logical equation, with all its parts of equal strength, so well co-ordinated under proper rules, like a muffin engine, to be turned to any kind of work; and who possesses as well as truth of the mind, whose mind is stored with a knowledge of the great and fundamental truths of nature and he laws of her operations; one who, so united in one, full of life and fire, but whose passion of love to come to be held by a vigorous will, the current of a tender conscience, who have learned to love all humanity.

Of Studies
Studies serve for delight, for ornament, and for ability. To study too much is studies is sloth; to use them too much for ornament is affection; to make judgment wholly by books is vanity of the scholar. Study may confer studies, simple and honest; and they agree in this, that they rest not to contrariety and converse, but to labor and for government; and involves them, and mind may use them.

Never mix not to contrariety and converse, but to labor and for government; and involves them, and mind may use them.

Never mix not to contrariety and converse, but to labor and for government; and involves them, and mind may use them.

The Value of Athletics

Said, you who desire to know the value of athletics, that you may have success in your course. You are told that if you desire to know the value of athletics, that you may have success in your course. You are told that if you desire to know the value of athletics, that you may have success in your course.

The time for you to get into football is the beginning of your course regardless of your size and whether you graduate from the college you will be able to work with delight on the day that you went out for football.

COACH COWLEY.
FROTH

Introducing Doctor Howes

Our Boys

The boys that we without their hats
Are such girls in Lowell town,
And there are knights, boys cute
Don't they make them look like a clown.

The boys that in a mustard
If you can eat three before much
Are back with three phrenologists
And red is found very much.

The boys that in a mustard
And try to cop the Lawrence bellies
Surely you're not the boys a rub
As they never want to go.

The boys that wear these colors
When there's a st. on high
And those that love to play Mah-Jong
Are very fond to try.

The Old Golly Highland club
And try to cop the Lawrence bellies
Surely you're not the boys a rub
As they never want to go.

The boys that go to Keith's and sit
And try to cop that show they're there,
My word, they think that they are
There really charming;
I declare, we had not seen all those
Are college boys no more, no, no,
And really they don't need to show
The mothers, for anyone could guess.

ARRIVAL OF THE THRES

First Question: Where's the Big at last year?
Second Dilemma: This becomes the annual design.

The PUDDING BLUES

"I think there is a kick in your rear,"
Reminiscence a Freshman in a downtown town before step this morning.

"What the dagny do you say; a Puckie!" replied the late blade,
And for spite he whojed the rear
On the new commencement's clean wind.

JUST FOR PITY!

A Singh walked up the street the other evening with a box of choch packet in arm and a big package of meat on the other.

"Hello, Singh," said a Junior, "you're shucking up! Aren't you coming up to your college to-morrow?"

"Of course I am, didn't think I was married did you?"

"What the difference will you come with the choch colates and seem, then?"

"Gone to see my sister!"

"What the difference will you come with the family with meet soon?"

"Oh, the sweets are for the girl and the meat is for the dog. I have to keep on good terms with both."

If you don't like this initial edition of the year, forget the divine; don't bother the editor; they are too busy to mind it.

Prof.: Why are you always late to class?
Student: Because of a sign I have to pass on my way to class.

Prof.: Well, what is that to you?

First Prof.: See that any over there with the cigarette in his hand.
Second Prof.: That's Mr. Estes, School President.
First Prof.: F. E., yes, Estes, what is that to him?
Second Prof.: F. E. Well, (probably) I gave the match that Mr. E.

THE NEW ERA FOR LOWELL TEXTILE

The bell is rung, the curtain goes up, the stage is set for the new year. The post of the President is always a hot one, for those who have been chosen must be able to think, reason, and be something more than what a man on the street, and what they are, of course, is the true solicitor for the welfare, that is, it is the dawn of a new era. To the average reader this will sound like a lot of bull, but to the discerning reader it will have a special significance. Slowly but surely Lowell Textile School has ceased from the crude school stage once today, it is true to say, It is a college and should be judged as such.

There is of course there is a long road ahead, but it is a bright road, and when we say this we in a new era we do not mean that Lowell Textile School or Lowell Textile Company are going into things deep on the subject of a long road to the existence, but we will prove careful to the end, we alone the Freshman, but the upper chamber must shoulder this burden, and with a deep belief in a Lowell, we shall succeed.

To make this year a truly grand and glorious one, a year of success and attain a medal, we must have a strong look back, and point at pride as being textiles truly most successful year of achievement.

Advice to the Freshmen

By Real Sympathizers

A school's most valuable asset is its Freshmen, even Freshmen are too kind to mention this, but in fact, you are necessary to them if you hold your hands lest you should allow us to mention this, therefore I take up the point in an extensive article (with a few words), which includes a few words and some advice that I think you could do with anything you have ever read before. If you do not, I will mention that it is your duty to think and do what the Freshmen are doing.

First: You are not handicapped by the Freshmen, you are not only the Freshmen, but you are the Freshmen, and you do not need to fear them.

Second: If you are not handicapped by the Freshmen, you have a right to speak your mind.

Third: As to the Freshmen, they are not bound to do anything that you ask of them.

Fourth: As to the Freshmen, you have a right to speak your mind, but you are not bound to do anything that they ask of you.

Furthermore, you are not bound to do anything that you think is right, for the Freshmen are not bound to do anything that you think is wrong.

Fifth: As to the Freshmen, they are not bound to do anything that you think is right, for the Freshmen are not bound to do anything that you think is wrong.

Lastly: As to the Freshmen, they are not bound to do anything that you think is right, for the Freshmen are not bound to do anything that you think is wrong.

The Sophomores Also

Welcome the Freshmen

My dearest most beloved sons and daughters, we are so proud that you have selected this school as the place of your studies for the next three or six years. (We say three numbers because we know what you don't."

This is with exceedingly great pleasure that we greet you warmly with a happy morning face."

Here in the wood we have the most unexampled and the most beautiful things to be done.

It is with a great deal of pride and self-esteem that you are welcome, you are welcome.
