PRESIDENT LYDON, DEAN EULUND INTERVIEWED BY TEXT; DISCUSS PROBLEMS OF GENERAL STUDENTS

Expansion, Student Responsibility, Admissions Are Among Topics Brought up at Meeting

The problem of allowing the student body greater responsibility in the management of their own affairs seems to lie clearly in the hands of the students themselves. Said President Martin Lydon and Dean of Faculty Charles Eulund to the TEXT:

"When the administration feels that the student body is at a level of maturity and responsibility, then they will be given a greater say in management of their affairs. Expansion in the past has been slow, it has not been given and not handled in a manner indicative that such power was deserved. The prime example cited was the formation of the student council. When the administration realized the importance and introduced some years ago, only to find that it would not work at the Institute. Other examples mentioned were student councils not living up to the level of responsibility expected of them."

Concerning the home system, the administration does not feel that the climate present at Lowell Tech is favorable to the adoption of such a system and further stated that the prime requisite for such a system is a united, coherently knit student body, capable of exerting the social and moral pressures necessary for the successful operation of such a system.

Enlargement of Scope:

In discussing the enlargement of the scope of the Institute to better serve the needs of Massachusetts industry, it was emphasized that textiles has not been developed but is commonly known, but implemented by such land courses which are placed to place Lowell Tech foremost among the engineering schools of the state, if not the nation. However, another entirely different approach to the textile curriculum has been adopted on an experimental basis, which is designed to keep step with different approaches and changes in industry. Now the fundamentals, rather than the actual mechanics, are stressed, giving the student a more general and broader scope concerning the problems of the industry. In keeping with the growing textile industry, the fact that 120,000 people are already added to the staff in recent years was cited. The increased emphasis of the staff is in keeping with the greater stress on fundamentals and higher-level courses. In the foreseeable future, it is expected that Lowell Tech will offer career specialties in either pure chemistry or textile chemistry, although no definite selection has been made as yet. Also, an engineering major is contemplated is an earned doctorate in physics or engineering.
THAT THE "OPEN-DOOR SLAM SHUT?"

It is appalling to review the results of the first semester examinations and discover the number of freshmen who are not up to college level as regards their one of their major subjects, i.e., physics, math, and chemistry.

Two hypotheses immediately come to mind: the first, that the condensation of (2) is rejected; the second, that if a caliber of a student is not up to college level as regards their major subjects, i.e., physics, math, and chemistry, the answer is an open question.

WILL THE OPEN-DOOR SLAM SHUT?

They that give up essential liberty to obtain a little temporary safety deserve neither liberty nor safety.

Benjamin Franklin

NO MORE ORDERS TO DESCRIBE "BROTHERHOOD"

With malice toward none; with charity for all.

Dr. Franklin

This is published in the interest of Brotherhood Week, February 17, sponsored by the National Conference of Christians and Jews.

The cost of privilege to American industry is $3000,000,000 a year in wasted manpower, production, and morale. The decision includes the invaluable and for more terrible cost in human suffering.

"That means that 310 out of every 573 paycheck are wasted on the plush luxury of indulging our prejudices," says Dr. Everett D. Clancy, who acts as the National Conference of Christians and Jews has been laboring for 28 years to convert hatred to understanding.

Discrimination in industry is most commonly based on color, religion, language and national origin, colorate status, education and publics. (Try being a Republican in some areas of Southern California or a Democrat in Vermont.) But prejudice at the hiring gate, or the dislike of the job of white for Negro, German for Pole, Protestant for Catholic or Jew is only one part of the vast hate problem that affects our society and the world.

"It is a truism that freedom from hate always brings the individual happiness," says Dr. Clancy, and then he concludes that science has boiled down all the enmities and made it possible.

"The object is to save us to learn as much about the human personality as we can about the stars."

Dr. Franklin
CAMPUS COMMENTS

DEAR EDITOR,

The Text is supposed to be a school newspaper, a paper which traditionally represents the viewpoint of the student body. As such, I would like to express my disagreement with the recent issue.

My suggestion is that the Text should write about the school and leave it to the hand of writers to write on their own. Very truly yours,

NRMK

PARKING PRIVILEGES PERENNIAL PROBLEM

Girlfriend,

This year, as in the past several years, an uproar has developed within the class concerning the battle of our parking privileges on campus.

In the latter part of 1956, the Student Council voted to prevent the freshmen from parking their cars on campus. Immediately, the freshmen went to the All-Day Parking Council, the freshman Student Council, representatives put the problem before the All-Day Parking Council, and this group agreed to allow the freshmen to park in accordance with the rules, and the result was that 500 freshmen were given parking permits.

For the benefit of those who still feel that they should be allowed to park, I would like to point out the following:

1) The freshmen aren't allowed to park on campus at random; there would be no room for the upperclassmen, who have priority.

2) If the freshmen were allowed to park in the freshman section of the stadium, they could very likely drive over the diamond, ruining it.

3) This argument is valid and reasonable in all respects. The first point is obvious; the second point is obvious; the third point is obvious.

For the benefit of the freshmen, I would like to add that I believe you are entitled to park on campus.

Yours,

Geralda Lee

GENTLEMEN,

At the beginning of October at a conference, Preston Lyon brought up the ever-present problem of parking. He advised us to park on the edge of town where there is no traffic, but that is not possible for many of us.

I think that the purpose of this plan is to improve parking facilities at the Student Council. At the beginning of the school year, before this plan was adopted, nearly twice as many cars were parked on the athletic field as are allowed there now. Now, much of that land is plowed and used for the Freshmen's election. It is important that this land be used for the benefit of the students.

Yours sincerely,

Goth Mats

DARTMOUTH WINTER CARNIVAL

For those who were not fortunate enough to be able to present the 1957 Dartmouth Winter Carnival at the University of Illinois, there is a part of the fantastic and incredible events which took place for a few weeks at the end of the semester. The weather, utilizing the most ideal conditions, made for the environment of this special New England college campus to bring out its finest qualities. It was, however, up to us to enjoy. Nevertheless, there was enough snow and cold weather to allow the students to perform, make the students to perform, and make the best of the situation.

The main theme for this weekend was "Winter Drama," exemplifying the energies of the fine faculty and students who performed. The Friday evening, Saturday, and Sunday events included a variety of activities, such as dances, plays, and music. The highlight of the weekend was the "Winter Drama," which took place on Saturday evening.

EVEN "ELIVIE" GOT AN HONORABLE MENTION

At the closing of the 1957 season, the "Elivie" was selected as the most outstanding candidate for the female crown. At the presentation of "Elivie," the participants were given a variety of gifts, including flowers, drinks, and chocolates. The Elivie was chosen by the student body, and she was presented with a trophy and a grant for the rest of her time at Dartmouth.

"Who's Who at LTJ"

The Institute has inaugurated a series of lectures, in order to bring to the attention of the students of the Institute the work of those who have been in at least one of the distinguished contributors to the world of letters. The Institute is pleased to announce the following schedule of lectures:

Monday, January 6, at 4:00 p.m., in the Lecture Hall:

Tuesday, January 7, at 4:00 p.m., in the Lecture Hall:

Wednesday, January 8, at 4:00 p.m., in the Lecture Hall:

Thursday, January 9, at 4:00 p.m., in the Lecture Hall:

Friday, January 10, at 4:00 p.m., in the Lecture Hall:

Saturday, January 11, at 4:00 p.m., in the Lecture Hall:

Sunday, January 12, at 4:00 p.m., in the Lecture Hall:

Monday, January 13, at 4:00 p.m., in the Lecture Hall:

Tuesday, January 14, at 4:00 p.m., in the Lecture Hall:

Wednesday, January 15, at 4:00 p.m., in the Lecture Hall:

Thursday, January 16, at 4:00 p.m., in the Lecture Hall:

Friday, January 17, at 4:00 p.m., in the Lecture Hall:

Saturday, January 18, at 4:00 p.m., in the Lecture Hall:

Sunday, January 19, at 4:00 p.m., in the Lecture Hall:

Monday, January 20, at 4:00 p.m., in the Lecture Hall:

Saturday, January 25, at 4:00 p.m., in the Lecture Hall:

Sunday, January 26, at 4:00 p.m., in the Lecture Hall:

Monday, January 27, at 4:00 p.m., in the Lecture Hall:

Tuesday, January 28, at 4:00 p.m., in the Lecture Hall:

Wednesday, January 29, at 4:00 p.m., in the Lecture Hall:

Thursday, January 30, at 4:00 p.m., in the Lecture Hall:

Friday, February 1, at 4:00 p.m., in the Lecture Hall:

Saturday, February 2, at 4:00 p.m., in the Lecture Hall:
Moreymen Riding High: 9 and 3; Brune Sets New High With 40 Points Against New Britain; Is 15th High In New England

Monday night the Terriers came from behind in a tight battle to defeat Clark University by the score of 56-53. The game was full of exciting action with neither team taking the lead. The game was won by the Terriers who had nine points and three defeater. The team was in a state of high, with Carl Brunet making the highest score with 17 points, then giving him an average of 223 points per game for the season. Also outstanding was Coach Chris Chongos who scored 21, and 0 points respectively. Much credit must also go to Eric Clancy and Dave Hammon in the half court keeping the Moreymen in the lead.

Carl Brunet, Tech's outstanding star, set a new high of 9 points, 9 digits against the University of New Britain, with a new high of 40 points. His performance was outstanding, leading the Terriers to victory with a point total of 41 points. His average for the season was 223 points per game. Coach Chris Chongos also made a significant contribution, scoring 21 points and 0 points respectively. The team's performance was commendable, with Eric Clancy and Dave Hammon playing a crucial role in the half-court defense to keep the Moreymen in the lead.

An important part of fraternity life is the interfraternity competition. Besides the fraternity members, many Lowell students are also showing interest in the IFC basketball games which are played prior to the large varsity games. The independents, a team consisting of non-fraternity members, were permitted to join in the IFC competition. Male and female fraternities, inclusive of all the various groups and enjoy the IFC competition.

Because the IFC Basketball season is only half over, it is still possible for any team to obtain the championship. At the present, the team standings are as follows: Phi Psi, two wins; Lambda Chi, one win; and Kappa Phi, no wins. The independents, a team consisting of non-fraternity members, were permitted to join in the IFC competition. Male and female fraternities, inclusive of all the various groups and enjoy the IFC competition.

The independents, a team consisting of non-fraternity members, were permitted to join in the IFC competition. Male and female fraternities, inclusive of all the various groups and enjoy the IFC competition.

The independents team of the University of Washington also played a significant role in the competition, with a record of 22-3. They faced tough opposition from the independents, a team consisting of non-fraternity members, who put up a strong fight. The independents' record of 22-3 was a testament to their dedication and hard work.

STUDENT COUNCIL MEETS

The meeting was opened Feb. 14 with the roll call given by Harvey McGinn. All the members and the guests except Cloyd Strange, who is hospitalized, were present. The following items were presented.

New Officers

When Cloyd Strange Group presented the information on the new officers, the roll call was then called. The list of candidates was presented, and the rolls were turned over to the Council. A member of the Council then asked for a show of hands to indicate whether or not Strange was to be returned. This motion was seconded by Kay Oehlenden to return the money ($50) paid to the students.

The All-Year Weekend

The ticket sales for the All-Year Weekend began February 9. The tickets will be sold daily between 10:00 a.m. and 3:00 p.m. at the box office in the Student Union. The price is $5 a couple for single tickets, $10 for double tickets. The weekend will feature the following events:

1. Fashion show.
2. Follow-up meeting.

TENNIS 2-3 1/2

Cost from pp.

The following are the costs for the events:

- Tickets: $5 for single, $10 for double

THE ENDING TUESDAY, FEBRUARY 27

By Anna Tureff

KEITH THEATRE
Feb. 19

Clark Gable and Eleanor Parker in a new western story, "A Ring and a Rose Groom." The story is played in "Tombstone," starring Jula Payne and Buck Roman.

Feb. 24

Feb. 27

"The Silent Film," with Victor Mature. "Gamma People," the only story of the three weird science fiction acting bits, starring Paul Draper, rounds out the program.

ROYAL THEATRE
Feb. 16

With Disney's animated animated cartoon feature, "Cinderella," a story that is just right for our sensitive little minds.

Feb. 23

Rock Hudson and Marilyn Monroe bring to the screen, one of the best of the current western pictures, "Battle Bunny." Also Ralph Meeker and Jane Rule in "Coyote Country."
