Capt. Hardman On Road To Recovery

"Joe" Hardman, captain of the football team, is on the road to recovery after the injury he received in the New Hampshire game. Joe's wrist was broken, but it was not expected that it would be a permanent injury.

Saturday, November 3rd, 11:30 A.M., the game was scheduled to be played. The weather was not favorable for the players, as it was raining heavily. The crowd was excited and eager to see the game. The ball was kicked off, and the players engaged in a fierce battle. In the end, the team from Lowell was victorious, winning by a score of 14-0.

Head of Textile Engineering Department Appointed Chairman of Testing Methods Research Committee

Professor Herbert J. Ball, head of the Textile Engineering Department, was recently appointed chairman of the Testing Methods Research Committee of the S. Institute for Textile Research.

As of October 31st, 1931, the committee will begin its work. The committee's mission is to conduct research and develop new methods for testing textiles. The committee will work closely with industry to ensure that the methods developed are practical and effective.

Textile Defeats Middlebury 21-13

Lowell Textile played a tough game against Middlebury, winning by a score of 21-13. The team's performance was impressive, and they were able to keep their opponents from scoring.

Savard and King Star in Exciting Game

Bill Savard and John King were the stars of the game, with Savard leading his team to victory with a strong performance.

Freshman Football Star Becomes A Marathoner

A well-known freshman football star has decided to train for the marathon. During the summer, he trained for the event and is now ready to compete.

Attendance!!

On Saturday, October 19th, Lowell Textile played against Andover College of Lowell Til. In this first home game of the season, the team put up a strong performance.

Cotton Industry Can Help Itself

The cotton industry can help itself by focusing on innovation and development. The industry can also benefit from new technologies and methods.

Announcement

Julius W. Cox, Jr. and George Fuller announce that the partnership formerly carried on by them will be continued by Cooper & Fuller, consulting textile specialists. Their address is 120 Broadway, New York City.
**TEXT DESIRES MIDDLESBROUGH!**

(Continued from Page 2)

The first quarter opened with Mid-

dlebury kicking off. Walker received

e the kickoff and started up center in

two yards. Middlebury kicked it off in

eight yard line. In three downs the

Vermont team copied the same two
times. Their defensive line and Textile

recovered on the fifteen yard line. Walker

then got the ball and started up center in

ten yards. The remaining part of the

quarter was lost in the quarter part of the

field. In the second quarter the

Middlebury

made their second score after

Howard intercepted a pass on Middlebury's line.

Kicker took it over for the touchdown. Pils-

igan again made a pass for the extra point

but Walker had a second chance to

throw it in for the Vermont team. The

quarter was lost in the last part

of the field. Textile 21, Middletown 21.

The entire team is to be congratu-

lated on their work. It can be called a

team of rare men. There were 34

players and only 27 were used.

Next Saturday they have another

strong club to play against. When

Arnold comes to Lowell.

The Textile Institute was estab-

lished in 1868 to meet the needs of the

textile industry. It is located in the heart

of the state and is accessible by train or

car. The institute offers a variety of pro-

grams for students interested in the

textile industry, including undergraduate

and graduate degrees. It also houses a
collection of textiles from around the

world, which is open to the public.

The Textile Institute is committed
to providing high-quality education and

research opportunities for students

interested in the textile industry. It is

a nonprofit organization that provides

financial aid to students who qualify.

The Textile Institute is dedicated
to promoting the textile industry and

advancing the field through research,

education, and outreach. It is a leading

voice in the textile industry and is

recognized for its contributions to

advancing the field.
SIGMA OMEGA PSI

Well, here, here we are again, ready to publish the "line and outs" of the brothers.

Balance is now equal to a new bank in the state of the prints were sold out of the house. J. N. We wonder how he’ll spend his30 days of leisure.

Beware of the dog! The S. H. vine House at 372 White Street is well guarded by a very fierce dog, usually of police dog, and we hope he will make his escape with the police officer.

Harold Smith seems to be doing quite well with his new "River." These little dogs are not so bad to have and may be a good substitute for the human system. Harold, so watch him carefully.

Joe Leland is all smiles! The painting business need have been getting pretty good this summer, eh? Joe? Better get some striped paint for the front door. Joe.

Hi! Guadalupe is back to work again, between washing out his engine problems and talking about the 8.0 P.J. basketball team on the near future. It seems to have hit a bit of a wall pretty well occupied.

We see that brother Don Cohen is turning out to be quite a bookish lad.

We’ll be looking to see Cohen in the All-New-New England football title-up soon. But, you’ll have to have to give the right book.

Ray Cohen is also playing football and doing about, thank you! We’re glad to see S. O. P. no. 3 well represented in sports.

Sol Mason says he’s saving his money for basketball so that R大豆’s going to take a trip on the boat.

Glenn now quotes his幡t word philosophical saying:

“If you want to appreciate the value of a dollar, try to borrow one.

“We should not be too quick in our own actions, but we should call our own mistakes for others.

“Told him not to face the heavens but to have his head around it. He told him it was a Tuesday, and he was going to let the dog do it everything we don’t know what he said to that.

“The reason why a person is not successful is because they are not competitive!”

Bill Greene has accepted a position in Providence. We wish him luck.

We wonder if the Dean is going on vacation. He seems to have enough work to keep him busy.

Who said the woman. And the Moonlander finished the front 9 on and 9 in.

"Bust off." Shesh, car wam! I think he would have been a good choice for a market to the extent of several thousand. He cared, evolved, and didn’t want to become a sugar daddy along with your success.

We wonder if it is the Halley’s comet myth that makes him a natural leader, or is it the result of the current conditions of ADV. Stevens.

No money loose over lassoed many times that the new crop is not a good selling of the pair of brown, black and brown.

"Sailor" Crawford of the shop "Shark," has dropped anchor and will take up the charge of a bandleader for the winter months. He claims to have been a sailor on a boat once. Was the coffee good, John?

Guitar for everyone in the band. We all will vote for him, especially the boys in the nucleus of the northwest wind.

We advise Cohan that the quickest way to escape the law is to let "Sailor" take the fall.

With nine men living in the house, and improvements like Mr. Morgan’s and Brown’s room, we are all looking forward to a successful year.

For the benefit of a few brothers who seem to be in need of a place, the authors of this column would like to say that the school opened for the new year. Now we will see what it is a temporary or a permanent one.

John Dan Lathrop, also the "Colonial Wildcat," recently arrived at Colby to take care of some studies. Mr. Lathrop could not be approached personally, but through his proxy agents we have learned that he has opened a small "Advice to the Lover," or a letter in the "How to Learn Persian in 20 Hour Lessons." Those who may desire this book may get one by calling with their name on the back of an offering of the text messages you can cover and mailing to him.

In this column, throughout the coming year, we will try to publish the latest exciting studies on the latest developments in this column. At this time there seems to be a lot of money invested in it, but the return on the money is practically nothing.

The "Messing-Schlechtnard jazz band has not started rehearsals yet, as one of the boys is still in the hospital. They plan to go to the boys in the Con and do quite well over the regular stage. It is the best of the old place. The boys have made several of the regulars over to Royal Street to see them perform.

Joe Sullivan has resumed his studies at the Commodore, where he has been transferred from Lakeville.

The Davis brothers, incorporated, have done something serious, but we can’t make it out. They are in here in case something does happen before the fall term begins.

When we asked Jim Brown about the trip he was going to take with the band the only answer we got was a smile, Jim just too sweet for oaths.

"Black Pete" Phillips is still on a diet, instead of eating positions on the baseball team.

COTTON INDUSTRY CAN HELP ITSELF
(Continued from Page 1)

In the covering of the Akron 26,000-yd. yards of type II burlas cloth was used. It was covered with four coats of cellophane dope and then a coat of aluminum pigment powder.

The aluminum pigment waterproofs the cloth and makes the surface to repel any spritz when the air strikes on it. It also reduces friction and wind resistance.

In his closing remarks he urged the cooperation of all sections of the industry for the solution of further problems.

The meeting was presided over by Adolph J. Wundler, president of the chapter. Plans were discussed for the following ball game with Long Island University on Oct. 10th. Tickets may be obtained from Lawrence Gottschalk, at home of William, or from Louis Hinson, at the Osborn Silk Hosiery Co.
