LEITGB, LEMIRE AND MAHONEY ELECTED TO STUDENT COUNCIL

In the Student Council election of one week ago, Robert H. Sloan, president of the freshmen class, and Harry M. Gilbert, president of the minor class, were elected. The last named was elected by a scant six votes over Joseph A. Peterson in the freshmen race.

None of the elections for Class Representatives were contested and as a consequence the three nominees in each case were returned the winners. Thus Richard L. Hallin, Edwin L. Lord, Jr., Kenneth S. Merritt, plus the representative to be elected by the freshmen class and the President-elect of the four classes will meet the Student Council.

The Constitution drawn up by the representative men of the four classes will be submitted to the freshman class and to the President-elect of the four classes before any official action shall be taken.

Textile Tooters In Torrid Tune Up

Quotation of the day. Was torn on that junior box Thursday afternoon at 4:30 when the President-elect of the student body, foot-tapped his tap shoes against the wooden floor. "That last evening will never come," the answer is, "That's the Darn Dance Tune," Believe it or not these boys really reconcile into the mind-evolving and you'll see LTC at 5:30 P.M."

The book, under the watchful eye of Mr. Henry Yellow, as Faculty Advisor, consists of 25 pages of foot-tapping by Seymour and director, Dick Decker, Jim Plaut, Ken Witney, Bob Sobby, Charlie Witt, Dan Hebert, Bob Kolls, Ed Merwin, Ed Hecking, Mike Leboeuf and Jack Dorm.

Organized for the purpose of proving fellowship and the making of everlasting at school dances and social gatherings, the organization has its initial appearance at the All-textile B.B.Q., Thursday, October 22, 1948.

On hearing the band's fine practice session and its renditions of the future Doctor and other popular melodies, we were reminded of the many out of town orchestra bands heard for textile dancing. Not one of these orchestras was any better than the LTC band at a better occasion and so we sincerely hope that this group of men will still be together and entertain in the future.

Chicopee Scholarship

THE TEXT staff wishes to congratulate a fellow member, Mr. John P. Peterson, on his being named the Chicopee Scholarship recently. Mr. Peterson has been employed for the last two winter vacations by that firm.

New Addition In Cotton Dept.

As we go to press word comes from below that an increase in the size of John Goodwin is the parents of the Cotton Dept. on Monday morning. No further word is known as yet but "Poppa" Goodwin will have all the kids visiting. It is said that Mr. Goodwin is doing well. But where is he going to get $235 cash?

Letters To The Editor

AN OPEN LETTER TO AMERICANS, STUDENTS;

By Design D. Eisenberg, President, Institute of Society.

I receive many letters from young people. Slightly they are a question as to where we stand in the world today.

Shall I keep on with school? Or should I go out and work? What, if I try to answer these letters according to the circumstances of each case? But I sometimes feel that I would like to write more on the more general problems of education versus life in the immediate future. I think I would say:

"Dear Student, Margaret.

You say you wonder if it is worth while for you to go on with high school. Particularly wondering of it is worth while to enter college. The difficulty of being a student and the stress of productive work.

You say you are too busy with this "teaching" problem of yours. It is not a trifling problem at all, but one which is like common decisions by millions of students. There is no question of teaching the total life of our country. And I know how much you worry over it. It worried me a lot. A lot of my students have taken jobs... In a small Kansas town, 40 years ago, a reasonably strong case could be made for their staying there. And years later, it seemed that we knew our lives would be spent on that. However, it is possible that the exposure or electricity.

We would be good farmers, good mechanics, good citizens, but not much book learning. The quickness of this student to the degree this turns in. But the student turn in. Whether that will be worth in the long run.

Fortunately, we came of stocks that were likely to, and the immediate hundreds of students, and, at the immediate time in dollars and cents, the lead was been into our. Our families situated themselves to keep us in mind. It is better and most. And to the showings that.

Today the business of living is far more complex than it was in our boyhood. More so, as an example, to 

In the case of education, the philosophical discussion in a life-

The value of education for you and me. May, in conclusion, we are a fine work. It was the best of our time.

The only one is for you.

This question proper rise at this point of whether uneducated people need or deserve to govern their own affairs. For the plea of "Let George run" invariably leads eventually to bad government.

We can only hope that new Council, composed of men instructed enough to get they behind and elected by a majority of the students, will make the new Constitution work and ameliorate modern interest to a point where those who were conscientious at the polls are absent, will learn how every practical experience makes with it that the responsibility of democracy lies in exercising it.

Textile Jobs In Case Of Depression

by John S. Peterson

Because of the depression, thousands of men and women are out of work. What is to be done? Should we go out and try to find work? Or should we stay home and try to find a way to keep ourselves occupied? There are as many divergent opinions as there are people.

1. To save money in case of need.
2. To think of the future and plan accordingly.
3. To give some thought to the possible effects of depression on the economy.
4. To try to find some form of relief from the depression.
5. To work hard and try to keep the depression from getting worse.

We should all be prepared for the worst, but also plan for the best. We should try to make the best of the situation, but also be prepared for the worst. We should not let the depression get the best of us, but we should also not be afraid of it.

CHEF

PHIL DOHERTY

Lowell

Phil has had 40 years of experience as chef in places like the Pennsylvania Railroad, Sarnoff, Inc., Lyndon Field, Mass., and Lobster Pot, at Hampton Beach, New Hampshire.

"Hi, I hope you enjoy all your meals, any suggestions are welcomed."
Letters to the Editor

(Continued from Page Two) 

As soon as you enter it, you will be strongly tempted to fall into the rut and routine of it. You will be strongly tempted to become just part of an occupation which is just like all others. In schools, from books—readers—from fellow students—you can get a view of the whole of America, how it started, how it grew—what it is at the moment. Every day will add benefits to your own view of a greater comprehension of your own role as an American. I feel sure I am right when I tell you:

To develop fully your own character you must know your country better.

A plant portrait of the character of the soil on which it grows. You are a plant that is conscious, that thinks. You are a plant which is your country—your country—your country, which you may be able to draw strength from, and perhaps even get a glimpse of your own strength from your own strength. It will pay you to do so. You will understand your own problems better, and solve them more easily, if you face your own problems and do something toward solving them.

Never forget that self-interest and patriotism go together. You have to look out for yourself, and you have to look out for your country. Self-interest and patriotism, rightly considered, are not contradictory ideas. The very best of us are patriotic.

The very worst of us is generally getting less to us. One third of the fertile top layer of soil has already been washed away from rivers and the sea. This must be stopped, or some day our country must be forced to offer to us. That is one national problem you must realize and face.

In our cities there are millions of people who have lived between three walls, and perhaps more. They are the people who are more or less of a city, their homes are the same as their city. They are the people who cannot understand your security, so matter how personally intelligent, how much might you produce or answer, where your own strength lies.

I cannot put it to you too strongly, nor too often, that it is to your advantage to learn America's history, its problems, and in the course of doing so to help in solving these problems in your solutions.

It is dangerous to assume that we are a nation's security being able to understand any national system. We have a great deal to do. Each one of us, in his own way, is a part of his own government.

Which is why it is important for us to understand what is going on in the government. We have to take over the government, we have to take over the government.

It is not enough to live in your own country, you have to have a sense of your own country. And that is something that we need to do. And that is something that we need to do.

And that is something that we need to do.

The Lowell Textile Institute Student Chapter of the American Association of Textile Chemists and Colorists wishes to express its gratitude to Robert George, Jr., President of the N.E. Lin- gen and the entire New England Chapter of the A.T.C.C. for selection as the recipient of the Initial Fellowship Award. The Award will be made each year to a superior student in the Chemistry and Dyeing course whose work is outstanding. The student will receive an additional 20% of the scholarship with extra curricular activities.

This year's award of two hundred and fifty dollars was presented to Walter Riter at the meeting of the N.E.L.C. Section on Friday, September 14th, at the Andover Country Club.

The election was made by the following committee appointed by Mr. Lemoine: Professor George E. Larkin, Chairman, Evan Simon Williams, Professor Elmer E. Pickford, Chairman, Dr. Walter R. Hume, Chairman, Dr. Richard B. Hume, Chairman, Dr. Paul M. Hutton, Chairman, Miss Amy R. Hume, Chairman, Miss Mary C. Hume, Chairman, Dr. Paul M. Hutton, Chairman, Dr. Paul M. Hutton, Chairman, Dr. Paul M. Hutton, Chairman, Dr. Paul M. Hutton.

The student will be given back to the present of the holder for one hundred and fifty dollars.

November 16--No speaker has as yet been scheduled for this date, but we are trying to arrange for a speaker from the Textile Science to complete the series from the viewpoint of textile scientists in New England.

December 1--Mr. Solomon Barkin, Director of Research for the Textile Workers Union of America, New York, New York, will present the understanding of the textile and its influence on the textile industry. He will speak on the major aspects of the textile industry and the history of textile science and technology. He will also speak on the importance of the textile industry in the United States.

December 1--Mr. E. M. Penney, former President of the Textile Field Research Institute, will discuss the significance of the textile industry in the United States and the importance of the textile industry in the United States.

Fox-Terriers Head Toward Potsdam For Clarkson Encounter Saturday

By WALTER FRIEDMAN

When the Lowell Textile Terriers invade Potsdam, N. Y., this Saturday, they will have a powerful Clarkson Tech squad waiting for them. Led by Lewy Clark, this Terrier has one of the most powerful squads they have ever assembled. Head Football Coach Lee Dye will have 14 veteran linemen this year and an abundance of material to call upon. The team is strong and deep in all four possessions. The Hope has had trouble with regular opposition this year, but the Terriers have done quite well against former opponents, Joe DeLange and Pat Ploeger. With pliers of all available, the coaches have drilled specialists and图纸anization and they're creating the massiveness to provide the reserve strength in these two positions.

The team is now fast and quite quick. According to Coach Dye, the team has been surprisingly quick. It was two, two, and tied for one of its opening contests. With speed in the backfield well selected for the formation, the pace is more magnificent than it was in the beginning of the first two sections, Dye said.

Clarkson and St. Lawrence lost Saturday while Textile was suffering their chief road loss to CCNY.

It will be quite an affair when the Terriers take on the single wing.

The prevailing game type is:

Clarkson Position

Fullback

Halfback

Center

Left Tackle

Left Guard

Right Tackle

Right Guard

Ends

Wells

Reid
