Junior Dance Planned

On Tuesday evening, December 2, the Proctor School-wide dance at the Red Box Country Club will be furnished by Surry High Orchestra, which provided the dancing melodies at the dance held by DeLin Kauphi last month. The cost for the festivities will be the nominal sum of seventy-five cents.

Dances is not being held to compete with the Freshman Sophomore dance this month. Plans were announced at a dance held by DeLin Kauphi last month. The cost for the festivities will be the nominal sum of seventy-five cents.

Advertising Sales Manager: R. A. Howard

TEXT PLATFORM

1. Building of school spirit.
2. An adequate student government.
3. A program of vocational guidance.
4. Promotion of school organizations.

THE TEXT serves the best interests of Lowell Textile Institute and will at all times attempt to represent the best interests of the student body in current discussions.

EDITORIALS

SOCIAL FAME FOR L.T.I.? November 21 will herald a new social era here at L.T.I. The conclusion of the annual Undergraduate drama, filling the auditorium with a new kind of music, will be an event of the kind that can only happen once in a blue moon. Although the program will be announced later, it is expected that it will be a dramatic success, and all of the students of L.T.I. will be proud to have their names associated with this memorable event.

SMOKE! SMOKE! SMOKE! There has been enough noise and racket regarding smoking that it is time for a change. The atmosphere of the college is being ruined by the inconsiderate few. If they are not stopped soon, the whole college will have a black cloud hanging over it.

In several of the open-air smoking areas there are smoke dispositions of all kinds. If these areas are not cleaned up, the administration will be forced to take action that might be considered drastic. This will not correct the entire situation, however. Maybe, if a few of these "smokers" were required to sweep up every week, they might be more considerate.

"Action speaks louder than words," they say, so it might be worth a try in this case.

LOWELL TEXTILE INSTITUTE

For Two-Year Degree Courses in:

CHEMISTRY AND TEXTILE COLORING
TEXTILE ENGINEERING
TEXTILE MANUFACTURING

Degree of Bachelor of Science offered for completion of prescribed courses in Chemistry, Knitting, and Textile Engineering.

Scientific and practical training in all processes of textile manufac-
turing and textile design.

There were a few actual Liis less than one hundred Texile students who actually went. The fact that the faculty were in attendance. How do you think the players felt when they looked up into the empty stands? Or did you enjoy it? Is it because we had been so used to seeing him, or is the faculty and students should be ashamed of themselves. Or is it because there is no genuine interest in the sport here at Texile? We think not. Because the football poll now being conducted has been very well received and has invited considerable comment.

What are YOU going to do about it? THERE IS ABSOLUTELY NO EXCUSE FOR SUCH POOR ATTENDANCE AT THESE GAMES.

CONGRATULATIONS to Mr. Joe Norsen, the new LTD building Superintendent. It is suggested that one of his first improvements in the future of the gallery in the student parking. Several students have reported that broken signs have resulted from the existing conditions.

The JUNIOR ENGINEERS were in Wool Field (out to be covered with 'wool')-the other afternoon when Paul Veem's horn had an attack. After the reciting period, the roll of class is merely placed on end in a corner, the excess material accumulating on the floor.

Ventriloquy. Why don't you put a pin under the roll to collect the water, Paul?

Paul. Nowell. Oh, that's all, we don't want to use the water... WHERE OH WHERE are the teapot hiding around? Every student knows that there is a teapot buried somewhere on a faculty member's lawn. We immediately promised one of our bright ideas to the builder on which Bees was working. To know that the interest in the sport here at Texile. We think not, because the football poll now being conducted has been very well received and has invited considerable comment.

Development Program

(Continued from Page One)
your earnings to make it black. Didn't say. "It can be done!" because where there is a will there is a way! The President, Board of Trustees, and Building Assn. certainly have the will to keep L.T.T. out in front and so there is a definite way. With the money that will come in every way there is no limit to the possibilities of Lowell Textile Institute.

VETERAN'S CORNER

Veteran's Corner premier, residences are outside of New England but who are attend-
ning classes here are urged to send their National Service Insurance premium payments to the Veteran Ad-
ministration Branch Office, having jurisdiction over the areas in which their homes are located, according to the Veteran Administration.

If veteran, however, above categories do not apply or states that he has received a discharge certificate, he should address the above mentioned office at the Branch Office in his home area. If "a veteran desires to pay his ENLISTED MEN's insurance he must call his nearest VA Office as stated above."

"Advice to men who volunteer in the military service."

MIS-PICKS

by JIM KING

Once more, Textile's is in the business of a cutting period. This is the period when each student must make the decision of his course which he will be taking in the next academic year. It is an occasion which is fraught with possibilities, quandaries, and decision. It is an opportunity to make a new beginning in life. It is a period of growth and development for all students.

Some students are faced with the decision of whether to take a course in business or a course in technical subjects. This is a decision that must be made carefully. Each student must consider his own future and what he wishes to do in life. Some students may be better suited for business courses, while others may prefer technical subjects. It is important to choose the correct course of study.

Another decision that students must make is whether to continue their education or to enter the workforce. This is a difficult decision that requires careful consideration. Students must consider their financial situation and future career goals. It is important to make the decision that is best for their individual circumstances.

In conclusion, Textile's is in the midst of a cutting period. This is a period of decision and growth for all students. Each student must make careful consideration of their future and make the decision that is best for them.
