Golden Gate Movie And Lecture Well Received

On Wednesday evening, one of the first of what it is hoped will be a series of popular lectures and movies arranged by the Student's Council, was given in Southwick Hall through the courtesy of the Bethlehem Steel Corporation. A capacity audience, made up of students, faculty and townsmen was welcomed by President Charles H. Eames, who spoke briefly before introducing the main feature of the evening.

The portion of the program consisted of a short motion picture dealing with the evolution of the modern motor car and was subject of accident prevention. Following this presentation, the main feature of the evening was introduced by Mr. Riddle of the Bethlehem Steel Corporation, a picture dealing with the process of manufacture of high grade structural steel from the low grade ore. This picture proved of interest to everyone present. More particularly to the members of the Franklin Chemistry club who found the pictorial description of an instructive supplement to the lecture work that they had received the week previous.

The second portion dealt with the building of the world's largest suspension bridges, the Golden Gate, in which Bethlehem steel played such an important part. Perhaps for the first time many realized what a tremendous and magnificent undertaking is the erection of construction of this nature. The program was concluded with an open forum conducted by Mr. Riddle who answered any technical or practical questions put to him.

The success of the program was evident and there is no doubt but that others of the same nature would be well accepted.

Annual Basketball Tournament Held By S.O.P. Chapters

The chapters of S.O.P. in New England held their first basketball tournament at Lowell when the teams from Fitchburg (M. Tuffs) Theta (Worcester Tech) and Iota (Boston U.) met in a game played in Mt. Iota Hall. The tournament was arranged for by Mr. James Kenney of the Wood Department, who introduced Professor Parker who in turn introduced Mr. Kenney.

Mr. Kenney’s firm has supplied the Wood Department with many of the finest examples of the latest in student furniture. The students wish to express thanks to Mr. Kenney for arranging the lecture and to Mr. Kenney for his sincere interest.

Wool Classes Hear Lecture On Rabbit Fur

The students in the wool classes were treated to a most interesting lecture on the subject of “Fur Fibers For Yarn” by James A. Jonas, Vice-President of Pellissier, Jonas, & Co. for the instruction his lecture with many yarn samples and types of rabbit furs. Clues were shown illustrating the effect of up to 30% rabbit fur in combination with other fibers.

Following the lecture Mr. Jonas answered questions in a most helpful manner. The program was concluded with an open forum conducted by Mr. Riddle who answered any technical or practical questions put to him.

The success of the program was evident and there is no doubt but that others of the same nature would be well accepted.

Textile Announces Baseball Schedule

The Textile baseball squad is very busy preparing for one of the toughest schedules in years. Coach “Rusty” Yarnall has his hands full with the large number of new students returning and may have obtained from them the necessary ability to fill the team. The price of admission is $3.00 cash or $3.00 per couple and may be obtained from any of the committee. The captains of the various teams will also be elected on Friday evening.

INTER-FRATERNITY

Formal Dance A Huge Success

The Inter-Fraternity formal dance was held on March 15, at the Andover Club. A huge success that it gives promise of becoming an annual event. The dance, at the Andover Club, was well attended and several new couples spent a most enjoyable evening dancing to the strains of Gene Denis and his excellent string orchestra. The Patrons and Patronesses were Mr. and Mrs. Russell Fox; Mr. and Mrs. Arthur A. Stewart, Mr. Charles Rolland and Miss Martha H. and Mr. and Mrs. Mrs. H. Goldman.

As a result of the formal, the evening was a great success. The champion bowler, was purchased a sum set aside for future activities and expenses. The Inter-Fraternity Council that must be congratulated upon its excellent handling of all arrangements.

The Graduate students of the Lowell Textile Institute and Inter-Fraternity Club will be on hand on Wednesday evening, April 11th, at 7:15, in Liberty Hall at the Lowell Auditorium. The Honorable John C. Currie, Mayor of Medford, and the Honorable Dewey G. Arcambault, Mayor of Lowell, both Trustees of the Lowell Textile Institute, will be the speakers of the evening.

To Whom It May Concern

Have you sent your check for this year’s subscription? We want to keep you on our mailing list, but we have to pay the printer.

If we do not hear from you before May 4, we will have to say “Auf wiedersehen.”

Send Your Check Today
John C. Lowe of the Lowell Textile Institute says he is looking forward to an issue of the "Howard Way" in which we will editorialize on the value of character, not only in a person, but also in the man who makes you and the men who use it. He says a good product gives you good service unless it is properly used. Mr. Lowe says his job is to deliver instruction to the students. He thinks one of the greatest and most efficient yarn manufacturers, but he also feels that the employer should stand before his students as an example of right living. He writes, "The right person is the value of our graduates is said to consist of personal worth with only twenty percent coming from the technical training. If sound character is absent then that man is doomed to failure unless he changes. You see, we've let Mr. Lowe do his own editorializing." The Howard Way

**Rifle Club Review**

The rifle club has participated in a series of three postal matches from March 31st with City College, the State Textile Institute and, Muscle Shells, Rose Polytechnic Institute.

There are three gunners on the rosters who are: Chapman, Howard, Miss Woodward, Miss Rich, M. Wood, Uchida, Sargent, and Canav-

Several high scores have been recorded and the team expects to produce a good avenue to send to these colleges.

The Textile Sharpshooters host the invading Northern team last Friday night with the score of 800-93. The follow-

The three gunners who are: Chapman, Howard, Miss Woodward, Miss Rich, M. Wood, Uchida, Sargent, and Can-

Only the next match is scheduled before the season ends. This match is with Merrimack Valley next Monday night. After the match, letters will be given to those aspirants who have qualified: Woodward 119, Kennedy 171, Casavant 159, Miss Rich 69, Howard 153. The next match is scheduled before the season ends. This match is with Merrimack Valley next Monday night. After the match, letters will be given to those aspirants who have qualified: Woodward 119, Kennedy 171, Casavant 159, Miss Rich 69, Howard 153.

Mr. Chase is negotiating for several new rides and it is hoped that more students will join the Rifle Club next fall.

Delta Kappa News

Congratulations to the bowling team on its annexation of the National Invitational Interfraternity League.***

Brothers from the New Bedford Chapter were present at the final roll-off with the fellows from Omicron Pi, Pha for the annual convention of the Alpha Omicron Phi. A visit was received, a return visit to New Bedford was planned for the near future.

The Beta Chapter has been very successful athletically this school year with the annexing of the bowling and basketball titles.

The chapter was well represented at the inter-fraternity formal held at Andover.

"Vonnie" Mahoney has the goods on the baseball field, but can he deliver them?

The fraternities bowling team captured a win this week against the heavily bowling team in the closing game. Mr. Viewer bowed on an excellent trip of twenty pins on 310 points but not enough to handicap many of the other members of the tenancy team were, Prof. Chinsing, Prof. Russell Brown, and Mr. F. F. Baker.

Cinematons

Friday, April 2 — Bob Burns, John Link, and Bill Baker in Radio City Revels. Sally Elley and Anne Shirley are Condemned for Murder.

MERRIMACK SQUARE — Friday, April 1 — Gary Patrick and John Timmons. Anxiously looking for, to know, and Lewis who discovers that you're Only Young Once.

Friday, April 8 — Wayne Morris and John Halpin thatafka, John Baker and Gladys Swatworth and Romance in the Dark.

Saturday, April 9 — Claudette Colbert becomes Blue bead's English Wife, Gary Cooper subs in the town's special Georgian Sergeant Murphy.

Saturday, April 9 — Edward G. Robinson and Melvyn Douglas with A Blind Eye of Murderer. Here's where wires find expensive vacancies.

SIGMA OMEGA PSI NEWS

Who tacked a ramous note speak to your established bulletin board? What is the difference now, Joe Silverman has his Good Friday the first time in a year.

The fraternity who attended the inter-fraternity formal heartily encored it for an annual affair at Textile.

Chet Grafton, past football captain and one of the best of the season was a ten pin man at the house, took host of a few days ago. Could anybody have recommended it after a recent bit of oratory.

We are glad to see the new surge of fraternity spirit among you all. Congrats to the school gnomes Paul Roth.

Phleom Sorority

Eileen has finally discovered that being a chemist and wearing one's best clothes to lab just doesn't work out.

Why doesn't Ritchie give the coeds a break? There are at least four of them who wish to be the object of his affection.

Charlotte has confirmed to us that she likes boys who are shy. There's a lot of good reason to like a bashful boy.

Lucy seems to be setting a bad example for the rest of the girls by growing afternoon classes so much. Maybe it's that fashionable phrase "THENIS."

Have you noticed that Alba has the opposite of her original type, since we considered her of it in the last edition of the Text.

Phyllis held out on Billy the other night. He didn't know she had a limit, and so she went out in a rage.

Since Dot has been arrested so much during the past few weeks, we've decided to leave her name out of the column.

And talking about cutting...  

Alice is growing the dog's fast. She actually should Mite the other day.

There is a contest going on between the two tallest coeds to see which will stay with the two much shorter boys.

Alka has been singing "Sailing on the Robert E. Lee" ever since.

FIVE NEW FELLOWSHIPS FINANCED AT M. I. T.

Five graduate competitive fellowships for young industrial executives have been established at the Massachusetts Institute of Technology through a grant of $1,000,000 from the Alfred P. Sloan Foundation. New York, the college announced recently.

The fellowships will cover 18 months of post-graduate work in the departments of business and engineering administration, economics and social sciences. The following winners will engage in a type of education for managerial leadership which expands the concept of managerial functions to include both technical and executive skill but social responsibility.

The grant is made by the Sloan Foundation as one phase of its endeavor to promote "the increase and diffusion of economic knowledge," namely through the education of leaders.

Candidates for the fellowships should be between 35 and 45 years old and must have at least five years' independent and executive experience of a quality which merits leave of absence by their present employers. They also must have been graduated within the last five years with a degree in science and engineering from a recognized college or university.

The five fellowships will range up to $1150 for single individuals and $1750 for those married. Applications for the fellowships will close April 25, and the awards will be made after a careful study of the qualifications of the candidate and consultation with his employer. Recipients will begin their course next June.

During part of their program the fellows will be given an opportunity to concentrate in a particular branch of industrial activity, such fields as distribution, finance, production and labor relations. The course also provides for conferences and social contacts within the philosophy of American industrialists. Government officials and labor leaders for discussion, recreation, and examination of principles and methods of administration. (Boston Post)

THE TEXT

Electricity Classes
Visit General Electric

On Wednesday, March 16, the members of the electricity classes traveled by chartered bus to the General Electric headquarters where they were privileged to go through the West Lynn and the River Works of the General Electric Company. In their visit to this plant particular interest was aroused in the Street Lighting Department, where street and highway lights, as well as traffic signals and controls that are famous the world over are manufactured. The group attended a most interesting lecture and actually saw the advantages of good street and highway lighting as it is actually reproduced to small scale in the exhibits.

The students, as the shops where G.E. turbines and generators, for generating electricity, and G.E. mowers for using it as practically any industry or home. The gigantic machine shops and factories were visited.

After a most interesting day during the course of which were seen numerous and projects of most beyond conception the group returned to Lowell with sincere appreciation of the opportunities which they had had.

The Dangling Participant

The dangling participant is one of the most deadly pitfalls in theinguish language. It is the opinion of Professor Walter F. Prance of the English Department of Massachusetts State College.

The worst error in English grammar which I find among my students, Professor Prance says, is the use of dangling modifiers, chiefly dangling participles.

As an example of the ludicrous meaning conveyed by use of a dangling participle, Prof. Prance cited the sentence, "Having eaten our lunch, the boat departed.

The state college president also mentioned as examples of badly grammar and idiom often found among college students, the usages of "due to" instead of "because," or "due to the fact that," or "due to" instead of "different from," "hard enough" instead of "hard," and the usage of "therefore" instead of "so that" and "therefore" instead of "so that" and analogues as produce in the usages of "Everyone kept their seats" instead of "Everyone kept their seats."
Mild ripe tobaccos...and pure cigarette paper

....these Chesterfield ingredients are the best a cigarette can have

What you enjoy in Chesterfields

...the reason they give so many smokers more pleasure...is the full flavor and aroma of mild ripe home-grown and aromatic Turkish tobaccos, blended like no other cigarette.

The Champagne cigarette paper used in making Chesterfields is pure...it burns without taste or odor...it's the best cigarette paper money can buy.

....you'll find MORE PLEASURE in Chesterfield's milder better taste
