Plan Drafted for Fuel Supply Shortage

by Pente Batler

An emergency fuel supply system has been drawn up by school officials in preparation of a possible fuel shortage. This plan goes into effect in the event of a short term interruption of fuel supply.

Emergency Plan: Notice of Interruption of Fuel Supply

1. The Provost, Director of Fiscal Affairs, the Special Assistant to the President, and Dean of Student Life (for their designates) shall have the authority to take immediate action.

2. The Provost shall notify the Provost, the Director of Fiscal Affairs and the Special Assistant to the President and the Dean of Student Life (for their designates) as soon as possible, day or night, of the supply situation, if the supply is interrupted for any reason.

3. In the event it is decided to convert classes notice will be given as follows:
   a. Before 10:15 AM, classes will be cancelled.
   b. From 10:15 AM to 3 PM, classes will be split as usual.
   c. After 3 PM, classes will be cancelled.

4. In the event of cancellations of classes, notice will be given in the same manner as No-School Announcements (See Newsletter Nov. 20, 1973). An additional written notice will be given to all deans and directors of support services. Switchboard will open at 6:30 AM for further information. Notices will be reported immediately.

This measure, accepted by the Provost Advisory Staff representing all the students of the LTT community, came in the wake of 1 situation which may have warranted this type of action. Two weeks ago, Union Oil (major oil supplier) notified LTT's plant engineers, Charles DePireo, that there would be no shipment that Friday (October 25) that are normally inside 6:30. This reason - a tanker was somewhere being delayed off the coast. With continuing mild weather, we could be expected to leak out until the following Wednesday. After further communications, Union agreed to send 2 loads of a lighter grade oil by Thursday (a load to be directly supplied by Thursday. (4 days: the occurrence of the other 2, the runs did not go into effect. According to the oil company, though, the situation may occur every 3 years.

In the event should cancellations be made, the following schedule will be distributed:

Mon. & Tues. WED. THURS. FRI.
12:15 12:15 12:15 12:15
MOD. TUES. WED. THURS. 1-4 CLASSES

12:15 12:15 12:15 12:15

In case of this event, all facilities will be closed for a minimum of 3 days. The School will not be open to the public. The School will not be open to the public. The School will not be open to the public. The School will not be open to the public.

First two weeks would look like this:

M O N. T U E S. W E D. T H U R S. F R I.
12:15 12:15 12:15 12:15
M O D. T U E S. W E D. T H U R S. 1-4 C L A S S E S

In the event that cancellations are made, the following schedule will be distributed:

MON. WED. THURS.
12:15 12:15 12:15
MOD. TUES. WED. THURS. 1-4 CLASSES

First two weeks would look like this:

MON. T U E S. W E D. T H U R S. F R I.
12:15 12:15 12:15 12:15

Trustee Elections Next Wed.

Once again, the students of LIT are being asked to extend a small amount of effort in order that the candidates for the elections be allowed to extend a large amount of effort in their behalf. Once again, probably a majority of all TCC students will refuse to make this effort next Wednesday which is the election day. It’s election time and right now you are probably thinking "What’s in it for me" and you’re not the only one. There will be no pseudo-mystery involved. The election booth is located on the first floor of the Student Union Building, entrance from the Student Union Courtyard, (213) 842-4187.

AGENDA

1. The students of LIT are being asked to extend a small amount of effort in order that the candidates for the elections be allowed to extend a large amount of effort in their behalf. Once again, probably a majority of all TCC students will refuse to make this effort next Wednesday which is the election day.

The most important thing you can do is to vote! There is absolutely nothing more important than participation. Voting is a privilege that is granted to you which you owe to yourself, your community, and your university. The students of the LIT community, you, are the beneficiaries of the decisions made by your elected representatives.

2. Over the past year, the Student Senate has worked closely with the Student Union and the administration in planning and executing a series of events and activities that have become a part of the LIT community’s daily life. The Student Senate has been involved in a variety of projects, including the organization of community service events, the planning of cultural and social events, and the development of new programs and services to benefit the students of LIT.

Analysis of Institute Governance

A strong and respected Institute Council is essential to the survival, and the continued growth and development of this school as an educational center under the name of the Lawrence Technological Institute. It is a necessity of such a council to be a body which is able to carry out the responsibilities set out in the Institute’s constitution.

The role of the Institute Council is to provide leadership and direction to the Institute's activities. It is responsible for the overall direction of the school, including the preparation of budgets, setting of policies, and the establishment of goals and objectives. The Council is also responsible for the establishment and maintenance of standards and procedures for the effective operation of all aspects of the Institute's activities.

The role of the Student Senate is to serve as an intermediary between the students and the administration. It is responsible for representing the students' interests and concerns to the administration, and for advocating policies and proposals that benefit the students.

The Institute Council and the Student Senate are both essential components of the Institute's governance structure, and they work together to ensure that the Institute operates in the best interests of its students and the broader community.

This Analysis was prepared by the Institute Council in response to a request for a report on the Institute's governance structure. It is intended to provide a framework for understanding the role and responsibilities of the Institute Council and the Student Senate, and to facilitate ongoing dialogue and collaboration between these two bodies.

Sincerely,
The Institute Council
Institute Council Part III

By Bryant Hash

The Institute Council opened the third portion of their November meeting schedule. The remaining topics for the agenda were the Institute's activities and goals for the semester. In essence the report stated a standard general and operating procedure for the governing of colleges and universities. It was recommended that this report be submitted to the Board of Directors for adoption.

Dear Editor,

I would appreciate the printing of the following article which was submitted to the American Student Newspaper Editors' Association. This is an opinion piece by ARCH For Justice and Equality in Palestine.

December 1973

A Biased News Media

Dear Editor,

I am writing to you on a matter that is of no little importance to my mind. It concerns the coverage of current events and news by the media. I believe that the media have a responsibility to provide a balanced and fair representation of events, especially in sensitive areas such as international conflicts and political issues.

I have noticed a tendency in the media to present events in a biased manner, often favoring one side over another. This can be particularly misleading and unfair, especially when it comes to issues of justice and equality.

I would appreciate it if you could consider the matter further and take action to ensure that the media provide a fair and balanced representation of events.

Sincerely,

[Your Name]

Peanut Gallery

Dear Editor,

I recently attended a performance of the Peanut Gallery and was deeply impressed by the quality of the production. The cast of performers delivered powerful and thought-provoking messages that resonated with the audience. The director's vision was evident in every aspect of the performance, from the set design to the lighting and sound design.

I would like to congratulate all of the actors and crew members on their hard work and dedication. Your commitment to the art of theatre is truly admirable.

Sincerely,

[Your Name]

Is This For Real?

Dear Editor,

I believe that the media have a responsibility to provide accurate and unbiased reporting of events. However, I have noticed a trend in the media to sensationalize and exaggerate stories, often for the sake of ratings or clicks.

I would like to encourage the media to focus on providing meaningful and informative content that informs and educates the public, rather than pandering to the lowest common denominator.

Sincerely,

[Your Name]
Donald Malloy -- Student Trustee

Many of your freshman and Sophomores do not know me, because I have been out of the political scene for a year or two. I am not ям as an academic professor, but I have my opinions, and I will express them. Let me tell you something:

I believe in the concept of student government. I believe that students should have a say in the running of their school. I believe that students should be involved in the decision-making process. I believe that students should be held accountable for their actions. I believe that students should be given opportunities to grow and develop.

Unfortunately, I do not believe that this is happening at Lowell Tech. The issue of student government is being handled in a completely unfair and undemocratic manner. The administration is making decisions without consulting the students. The students are being marginalized and their voices are being ignored.

I am here to represent you. I am here to fight for your rights. I am here to ensure that your opinions are heard. I am here to make sure that you are involved in the decision-making process. I am here to make sure that you are given opportunities to grow and develop.

Sincerely,

Donald Malloy -- Student Trustee
Letters (Continued from Page 4)

CARPOOL

In view of the serious crisis and the possibilities of malpractice, the Student Senate is establishing a commuter carpool service for all members of the LTU student body. The carpool will shuttle commuter traffic to and from major stops in the city. If you wish to participate, write to one of your local legislators, to the President, and ask for a copy of your SEMESTER Semester Schedule for "Carpool" on Semester Semester.

202/SR

Unicom Electronic Slide Rule

Fully-featured capability for under $200:

- Two functions
- Log functions
- Roots and powers
- Degree/Radian selector
- Separate addressable memory
- Leatherette belt-hanger carrying case

It's a powerful slide calculator:

- Adds, subtracts, multiplies, divides
- Separate addressable memory
- Automatic constants in all four functions
- Full-Roiling decimals
- Flip-out display
- Handy kickstand for desktop use
- Runs on six light batteries
- Optional AC/DC chargers
- 6 x 3½ x 1½ inches, weighs 12 ounces

202/SR. You can buy it today.

Those crazy guys from Unicom have done it again!

Programs in Radiological Sciences and Protection/Health Physics at LTI

The ultimate objective of both the academic and research programs of the Department of Radiological Sciences is to provide radiation protection personnel and technology needed to help advance the safety utilization of nuclear energy, radiation, and radioactive materials. Because of the current manpower needs, the sharp growth in nuclear electrical power projected particularly for New England, and the increased concern for radiological safety and the environmental impact of nuclear plants, programs in radiological sciences and protection have been developed particularly to meet the needs of the nuclear electrical power industry. Considerable growth has been projected also for applications of radiation and radioactive materials in medical, industrial, and diagnostic radiology. Within the bounds of available resources, attempts are being made to provide dual-degree programs to the students in these areas and other supporting allied areas such as chemistry and nuclear-energetic science.

The four-year undergraduate program in Radhealth Sciences, Physics, supported under a training grant from the National Institutes of Health's Radiation Health Sciences Training Program includes specialized training and education during the summer months in the research, programs, and senior projects for interested and qualified students. The current enrollment in this program is 15 students. The intensive four-week spring course, $100 E. Radhiathod Health Physics, conducted for freshmen following the Spring semester, appears to be of interest to students providing them in understanding the radiation protection field and preparing for summer internship positions in subsequent years.

The summer internship program established with cooperating nuclear and radiation facilities was expanded this past year so that twenty-five interested students were able to gain valuable work and research experience and professional development. Besides gaining valuable experience in the marine health physics activities conducted at these various facilities, some students were directed to a special project and gained considerable knowledge and experience in a specialized area. Some of these projects are currently continuing with students as senior research projects. One project has led to the publication of a paper on the marine protection activities in Health Physics. Other internships have led to the initiation of a summer program for high-school students with cooperating nuclear facilities.

Besides the opportunities for gaining applied work experience and professional development through cooperative education, senior and graduate research projects, students have been encouraged to join the National Health Physics Society and New England Chapter of the Health Physics Society. Many students have applied for membership and have joined the LTI Health Physics Society Student Chapter.

Within the limitations of available research programs and cooperative educational programs established with nuclear and radiation industries, the research programs of the Department of Radiological Sciences have complemented and enhanced the quality of the undergraduate and graduate academic programs. Appropriate material and results from the research programs have been incorporated successfully into both lecture and laboratory courses. Certain projects are intended to answer specific problems of cooperating nuclear and radiation industries and have received support from these industries. The research programs have provided students, faculty, and staff with cooperation in the development of the radiological sciences and protection and motivated students toward a professional position in the field.

Current emphasis at the M.S. degree program in Radiological Sciences and Protection is 5-graduate and is expected to increase considerably next year. The Department has applied to the Health Research Coordinating Council for support of graduate students and for upgrading the academic and research emphasis and research programs of the Department. Through the continued support from the Federal, governmental grants and contracts, research programs established with nuclear and radiation facilities, students enrolled in the cooperative education program are able to pursue research and professional development in various areas of interest in the radiological sciences and protection/health physics industries.

Despite the fact that the programs in Radiological Sciences and Protection are supported by only three full-time faculty members, they have gained in stature and are considered with high regard by many authorities in the radiation protection field. Field activities were enhanced through LTI's professional booth at the June, 1973 Annual Health Physics Society Meeting. The success of these programs is greatly due to the continued support received under the training grant from the Bureau of Radiological Health as well as through the support provided by both the Department of Health, Education, and Welfare at the LTI Nuclear Center.

Students interested in obtaining more information about these programs are invited to attend the Open House of the Radiological Sciences Department scheduled for Tuesday, December 19, 1973 at the Nuclear Center in room N107 from 11 AM to 2 PM.
December 3, 1973

Institute Governance

(Corresponding to Page 2)

The degree of efficiency necessary to this end can best be served at under
the care of a government body in which all of the meetings are to be
in public. Only in this manner of full public respect for this degree of
point will the governing body of the school be satisfied.

Currently, the system of the Support Service, here: the lower tuition
of the school, and the school, is a responsibility of the school, and
recruiters were sufficient from the development of the committee.

The best practitioners, quite often, approach the meeting, which is
in connection in which they have absolutely no say.

The result has been a general demonstration of these people working
in these areas, but even so much difficulty has been found for the school.

 outlined in the present system is the method whereby the school
will find itself in the decision making process. The best practitioners,
quite often, approach the meeting, which is in connection in which
they have absolutely no say.

SECURITY - THE MYTH AND REALITY

by Jerry Bledsoe

THE TEXT is awarding $33.00 cash prize to the student chosen to the LTI student who turns in the puzzle completed to THE TEXT Office, not 4/5 to the Student Union Building. Be sure to turn in turn in the student's name and mailing address to the student at the time of entry can be validated. Only those solutions that match the final solution supplied solution at Tangalo Crossword will be considered for protecting the members of the staff of a State University.
International Students Organize

Last Wednesday evening, the International Student Circle sponsored its first after-dinner social event. However, the planned social went awry due to unforeseen circumstances. The following Sunday, officers were elected to organize and coordinate club affairs for the ensuing year.

President: Cunde Og, P.O. Box 1483
Vice President: Rafael Mecca, P.O. Box 1527
Secretary: Haiman Edna, P.O. Box 176
Treasurer: Peter Papadopoulos, P.O. Box 1799

Plans were initially discussed but will be finalized at the executive meeting to be held Tuesday, December 4th. Social, cultural, athletic, and social functions will be forthcoming.

Wishing the best of luck in the future, and to all students, whether native or foreign, much happiness.

Amateur Radio Club

Easier than writing a letter...
Faster than a Pony Express...

LOOK! On the roof!
It's a clandestine...
NOT! It's an AMATEUR, sending your holiday messages on their way.

Yes, friends, the LT Amateur Radio Club is prepared to send your season’s greetings. FREE, to anywhere in the U.S.A. and its possessions.

It’s simple – first, choose one of the following six EXCITING phrases:

1. Wishing you a very Merry Christmas & a Happy New Year.
2. Merry Christmas from all of us. We wish you all...
3. Love and best wishes for a Merry Christmas & A Happy New Year.
4. The Heartiest of Season’s Greetings.
5. Wishing you and yours the best this holiday season.
6. Have not heard from you in some time. Please write or answer by Amateur Radio through the station delivering this message. (Signature)

Drop it in the box outside the museum.
Yes, here is the answer to your need for a cheap and cheerful holiday message to send to your family, your friends, your rich, distant aunt or anyone else that you haven’t had enough time or money for, lately. And remember, it’s all courtesy of your radio station, WALW, the LT Amateur Radio Club.

If any questions, see us at 8412 or call us at 459-6470. Okay! Okay!

Pershing Rifles

Recently, elections for Squadron Sponsor were held. Although the election was very competitive, Major Linda Brown, nominated by a substantial majority. Linda is originally from Florida. She is presently living in Punahou, New Hampshire. Linda is also a student junior at Lowell Tech. voting on her degree in Accounting. She seemed very pleased to be elected Squadron Sponsor of Squadron No. 12.

Pledging has ended. The previous week was the last official week of instruction for the Pledges before their initiation. The pledge meeting was held on December 12. The final board of evaluation will now determine if they are to become full-fledged members of the society.

Generally, the Brotherhood is preparing for a T.V. meet in New York City, the Team and Squad, Trick and BIB, are being practiced along with the other activities, and the final round of tryouts for the T.V. meet are scheduled for Thursday, December 12th. The Brotherhood is in the process of preparing for the tryouts and will be held at the usual time, Thursday, December 12th, at 2:00 P.M.

TRIOUTS FOR MUSICAL

December 12th
12 to 2 P.M. THURSDAY
7th to 8th PM FRIDAY
11th to 12th PM SATURDAY
In the Tech Player’s Office, 4th Floor Student Union

You don’t have to sing to enjoy capturing. Bring it from the T.V. Room, and you will be encouraged by the members, andLeft.

We intend to do exactly as well at this meeting to improve our chances of receiving all the National Award.

Squadron No. 12 is presently preparing a show for the New York City T.V. meet. If you want to be a part of the show, please contact the T.V. meet committee.

The new slogan for the season is “Let’s make the most of our membership.”

Affirmative Action

The Support, Advocacy, and Coordination Subcommittee of the Affirmative Action Committee meets every Thursday, except the 2nd Thursday of each month at 12:00 noon in Room K-311. (The Student Affairs Committee meets at 12:00 noon on the 2nd and 4th Thursday of each month.) The Subcommittee is co-chaired by Mrs. Judy Tilden and Mr. Jim Donald. In its current proposal to support and help low-income, Native American, and minority workers with legitimate claims concerning unequal treatment in regard to housing, business, employment, etc. Anyone with such a concern is urged to contact the Subcommittee for consideration.

Thus far the Subcommittee has been successful in many of its endeavors. For instance, Jim Donald has received a contribution from Dean King in regards to student services. BEGINNING next fall, a dormitory will be provided for use by anyone with the need of temporary housing. This includes students, visiting athletic teams, and visitors for conferences.

Also, with the support of the Subcommittee and the cooperation of Dr. Laughray and Prof. James of the Chemistry Dept., these students, an outstanding chemistry student was awarded the Russell Westow Scholarship in Chemistry. Even though this scholarship, as well as other privately-funded scholarships do not require that their recipients be U.S. citizens, qualified foreign students have previously been barred from applying for such awards. This is in the efforts of Dr. Laughray, Prof. James, and the Subcommittee. Mr. Wilton is probably the first foreign student to be granted such a scholarship.

Society for Advancement of Management

S.A.M.'s annual Christmas Party looks like it will be a good one this year. It is being held at the Commodore on Thursday, December 12th. There will be a buffet meal, dancing to bands and DJ, and a complimentary drink, and a complimentary drink, and a complimentary drink, and a complimentary drink.

The party is from 7:30 P.M. on Friday, December 7. The College of Management Science faculty has invited us, so it will be a great chance for you to meet the people in the classroom. This is your Christmas Party, so take the time to enjoy it. Contact Dick Larkin, Box 1065, for tickets.

FUTURE SHOCK

The World's Finest Society presented the movie FUTURE SHOCK, last Wednesday night in the campus theater. The movie is about a society the majority interested people showed up to watch this thought provoking film. The film based on Alvin Toffler's book showed how technology knowledge is increasing so rapidly that men may be overrun by an extremely fast changing world. The story of science, the superhuman race in the near future. Presently the idea of future shock where science and technology are advancing faster than man can adapt to the change, is seen in our highly mobile society. The society is growing with the changes of the world, the family, marriage and the American society. The film will be able to adapt to an ever changing world and a flood of new science and technological ideas. Will an ever increasing scientific knowledge be an asset to the future is the question everyone is asking themselves.

The LTI chapter of The World's Finest Society is planning a social for the boys looking for places to meet and study. The cylinder is very flexible to what people are interested in and the programs they want. What are your interests in the future?

The LTI chapter on December 19th is planning a social for the boys looking for places to meet and study. The cylinder is very flexible to what people are interested in and the programs they want. What are your interests in the future?

For Italian food the "mama makes" drop in at Augustine's Restaurant in East Hampton. There may be a waiting list but the time seems to fly over a drink or two in their quaint lounge. Once you are seated, however, the service is superb. The waitresses invariably wear blouses of Augustine's own made dress and normally returns with your order within ten minutes.

Feasted on the menu are varied veal dishes, eggplant parmesan, soups, sauteed shrimp, shaved veal, sauteed and sausages and also chicken parmesan. Included with each meal is a large plate of macaroni or spaghetti as a choice of vegetables.

Also available are large salads and antipasti which are indeed a meal in themselves. Finish off the meal with either a good bottle of wine or one of Augustines' deserts. It is, however, strawberries that are highly recommended.

Augustine's also offers a special "clever's meal" on Monday and Tuesday evenings. Complete dinners for two including soup, sauce, wine, choice of main course and dessert are all available for about $7.95. You owe it to yourself to visit Augustine's for a good meal, normally priced between 2 and 5 Dollars.

REVIEW:

by Gina Torrisi

Once more the Tech Players have demonstrated their interpretative versatility and upon which acting talents in their production of Archibald MacLeish's "The Saugus." Their rendition of the Book of Job has so as acting a canvas with a high platform representing heaven. In the first scene Joe Fierro and Rich Flayer, who portray archetypal the play, don costumes and masks and act the parts of God and Satan respectively.

George Bragon superbly plays the part of Job, a wealthy and proud individual who is suddenly and completely reversed of fortune. He and his wife Sarah, played by a lovely stand-in for Fierro, are driven by their faith and belief in the teachings of good men. Al Gallant and Gary Moonias. First they lose their children, played by Katie Holmes, Karen Pontofili, Susie Pontofili, Mickey Mady, and Mike Nelon, then they lose their property and finally Job is left to face a future due to immense warfare.

Through all this Job never complains against God, though he ever one for death as an end to his suffering. Some of the "moms" concerns are voiced, Tom Garrity, Mickey Mady, and the Job is at great lengths to be punished for his wrongdoing, and an opportunity to repent where he has been. God's plan is to show the Job that suffering is answered by God himself. Job then has his faith and pain straight as to what God really expects of him. Then Job recovers his innocence, his treasure in God, Sarah returns to him, he repeats and starts all over, he and Sarah come to realize that love, an unseen thing, is all they have to be sure of. And so the play ends dramatically as Job and Sarah light the candle of new life and church.

Besides the actors and actresses, also must be mentioned the director, W.A. Hard, the stage manager, and all the "behind the scenes" help. Many individuals have criticized this production and have been highly critical in their comments. These people fail to realize that this play was put on at Rm 304 of the S.B. and not on Broadway, that the actors and actresses are Tech students, not professionals, who, having put in all of those long days of effort work to make this production possible for the audience of 20.

FOR IMMEDIATE RELEASE

The Boston Repertory Theatre, Inc.
Office: 43 Charles St, Boston, Massachusetts
Theatre: Marlborough and Berkeley Sts., Back Bay Phone: 438-5436
Wendy Krause, Media Representative

The Boston Repertory Theatre in association with the Playwright's Theater will begin a special series of Wednesday evening play readings to be given following their regular production of Murray Schisgal's "The Tiger" shown every Wednesday at 9:00 p.m.

The first play in this series will be read on Wednesday, January 3 and again the following Wednesday, December 5. The play chosen by the Company is "Lifeline to Life" and written by Sad Zachary. Mr. Zachary's production will be performed on the Kraft Television Theatre and Theatre One.

The Playwright's Platform is a cooperative of professional dramatists living and working in the Boston area. This new program initiated by The Boston Repertory Theatre is a pilot project which will be expanded to include full length plays in the future if funding is secured. This will allow local playwrights an opportunity to see their work staged and considered for possible full production.

Mr. Zachary feels that the program is a learning device to help the artist sharpen his craft. Jack Bresnanikh, Director of Playwright's Platform, states that the purpose of this program is to give emerging local playwrights an opportunity to see their work staged and considered for possible full production.

The Wednesday evening productions are presented for the special admission fee of $1.00. Other productions are offered by The Rep include "George Orwell's "Animal Farm" on Thursday, October 8, 7:30 p.m., and Saint-Cypert's "The Little Prince" on Saturday, October 6 at 8:00 p.m. Admissions Tuesday through Saturday are $5.00. For reservations call 438-6360.

Five day’s only two days left
till next Big Band
party Friday night, December
7th. Anyone who has made it
to any of the few parties
knows that good times are
always available, but fun
conquers even that, you
don’t have to wait for a party
to come over you are always
wining, the house is always open.
On Sunday, November 30th, we
had our annual Holiday dinner
for the Brotherhood. Over one-hundred
pounds of turkey, as well as several side
dishes, were consumed within an hour.

On the sports note, D.K. is
striving in the bowling league,
after a misanderstand between,
with now, over Phi and R.K.
Basketball is in growing gaining
and it looks as though tickets
selling doubles are ready for anyone.
And the house is also planning to
hear the top whole for next time
to start the bowey season.

D.K. Potpourri

Omar called a firefriend
but was told not to feel any
and was soon
exhausted by Coop and AMP

Dear diary: Peter Down has a great cause of
counseling and he has been
his lack of a job. A woman friend in the
past, she is known as the ideal
to get a girl is a home and faithful
a life. He has done it again. He
inquired about another boy, at the same time the
charming old sister from the second floor was
being faithful to his problem.
The campus never vacation. Sorority man is a
woman girl friend but she
seems very much Rich has written things patching it in the
classroom. We didn’t hear our one class all night.
Mike always talks in the
to the never, our puppy dogs are
behind our seat. R.K. has written
of the house, who is a
and she
was a red hair from Manhattan, when he
didn’t want to go. She told me
to make it a little more
brother is known as Brooks. Left Andy a note to
let at honey, all over
Andy’s best Grover has sent the human sound
The brothers would like to thank all those who
came in nominations for our
honors, it seems sometimes
is.
Here is a rumor that St. John’s plies may make an appearance to
name over and over, but don’t forget the revolution.

Career Counseling and
Placement Resume

The Placement Manual will not be available until the Week of
November 14th due to a delay at the printers. In the meantime, an
updated listing of visiting companies for the second semester will be
posted on the Career Counseling Bulletin Board.

Completing work in the rooms of January 14th and 21st will
be held on the week of December 10th. They are listed below
and required is posted on the Career Counseling Board.

What's Happening in Intramurals...

by Cliff Morey

The Intramural Council last week and set the dates for the current basketball season. It was decided that the periods would remain at six minutes each except during the playoffs, whose dates would be eight minutes in length. Each team is allowed one overtime during each period.

The referees of the basketball games in the independent and dormitory leagues will be responsible for the closeness of the 3-1/2 feet feature from among the players in those leagues. As of this time it has not been decided if there will be all-star games played at the end of the current season, although it is hoped that there will be games played. However, this is a future article.

It was also decided that the end of the season rolls around if there are several games that have no effect on the current standings. These games could not be played so that the playoffs can be started sooner. This was decided because the teams in the standings possibly did not show up to the season games to a close.

For those teams that are interested in where they stand in relation to the Dean's Trophy, they may find out at the next meeting of the Council. All of the points that a team has gathered this far in the year will be tallied and available for observation.

The Basketball season gets under way last Wednesday. At the time that this article was written there were only results for three games available.

Scorer 31

High scorers in the game for the Pads were Gentilem with 18, Ngeli with 7, and Collum with 7. For the Intruders it was Litchfield with 7 and Cobb with 7.

Loft Tribe

High scorers in the game for the Loft Tribe were Figures with 10, Morgan with 10, and Beggins with 7. For the Boosterettes it was Parkeen with 10.

SLAB 76

Winners 14

High scorers in the game for SLAB 76 were with 12 and McSulley with 10. For the Winners it was White with 6 and Lennon with 4.

A statistics sheet that shows the league standing and the top scorers in each of these leagues will be put out each week starting next week. It will be placed in the mailboxes of the team managers for the use of the individual team. It will probably be put out on Mondays. For the reason each team must provide spotters to help in the scoring and keep count. THIS IS MANDATORY!!!

The next meeting of the Intramural Council will be held on December 11th at the usual time. That meeting is again expected to be a very good time to send a representative to the meetings so that they may keep up with what is going on in the Intramural program.

SQUASHERS BOW

Two weeks ago the U of I Squash Team ventured down to Boston to play the Tufts and Rariger Club of Boston. This is the place that has all of those strange courts to play these word games. They've got the one court that is four times the size of one of our handball courts and three times as high. The walls of the court are slate black and the ball looks like a hard little ball about an inch in diameter. Where you hit that thing, if you don't have the reflexes, that's not a strange game that they play. They have the other word game it's like a combination of jacks, backhand and hike and hock. The court is about the size of a tennis court. There are lines on the floor which are called mapping the walls. When you hit the ball, which looks like a tennis, ball which someone injects with paint, you want hit it off the walls (they are painted, your opponent, and put anything else through the walls). We have a 4-1 record in tournament play this year.

Hockey Tournament Escapes Tech's Clutches

Over the Thanksgiving Holiday the L.T.I. Terriers put on a brilliant display of determination and sound hockey only to be disappointed in overtime of the final round with Boston State in the Forum Thanksgiving Hockey Tournament.

The Terriers had advanced to the finals with a 3-2 overtime win on December 7th against American International College while Boston State was upsetting Merrimack College. The Boswhs University Hockey Tournament Championship" by a 5-3 score. This set up the final round contenders putting Tech against State.

Boston State cracked the ice in the opening period as Paul Connolly put the Terriers up 1-0, but Techs Brian Flaherty tied it at 1:04 of the second period after passes from Chris Berton and Steve Woods.

The Indians moved ahead at 3:12 of the 3rd period when Mike Connolly beat Mike Daley to put them on top 2-1. The Terriers were not to be taken lightly as they stormed back to score goals within a 4 minute span when the Terriers put 3-2. Brian Flaherty entered his second goal of the night at 5:09 of the 3rd period from John Nagle and Steve Woods, and John Concilato put the Terriers top at 3:00 by taking a Bob Carpenter pass behind Doug Brooks the Indian goalie.

The Terriers, however, could not hold off their own lead as Frank Legue sent the puck into overtime when he slipped the puck past Mike Daley at 12:32 in the final period. Both goalies had been sensational throughout the game making incredible saves time and time again. Doug Brooks and the Boston State goalie made over 40 saves and Techs Mike Daley handled 39 shots.

Tech Power

Tech Weightlifter Wins Again

Joe Alders is rated fourth in New England in the 152 lbs. class. His records for this season are 450 lb Dead Lift, 350 lb Squat, 225 lb Bench Press. The only set he missed on Joe going to this meet was a lack of full time. There is a hope that Joe will reappear at the ULI Athletic Association will be able to at least partially fund Joe's effort. There is also a possibility that the Aggie Athletic Union (AAU) will help fund Joe.

Joe Alders is one of the best prospects that Tech has produced for a national championship. Joe holds a height of 6'3' with a weight of 170 lbs. He is better than the third place weightlifter in the 1973 Collegiate Meet. Joe can win so let's hope that the ULI Athletic Union (AAU) can see fit to help in his cause.

Bob Hogan
BASKETBALL OPENS TONIGHT

Terriers Win Preseason Tilt

The Terriers had an enjoyable game against the Bridgewater Terriers, with co-captain Dave O'Brien hitting the other guard's spot. The offensive excitement is generated by quick timely passes underneath by Chris Lapacio, Dan Kieseul, and co-captain Herb Price. The stirring front line averages a dominating 6 for 2 attempts, but with the way the Terriers play the ball, with O'Brien also back, the Terriers had their pick of two footees. The statistics show the results of the style of play: a basket of 30+ and a better than 50% shooting average.

The Terriers more than made up for any rebounding deficiencies by really doing in our defense and forcing Bridgewater into more than its share of turnovers.

First man off the bench for coach J. Stumph's varsity is center Steve Chundah. Though only a sophomore, the 6'-4" center shows a lot of promise. A pleasant surprise was fresh fellow Lapacio at guard. Lapacio has a lot of days under pressure and a picture-perfect jump shot.

The Terriers' home opener is against Mass. Maritime tonight at 6:00 p.m.

by Bill Liber

Look in coming weeks for LTI FACES IN THE SNOW

The continuing story of the LTI SKI TEAM in its travels across New England.

Due to the lack of snow since September the LTI SKI TEAM has been forced to train indoors. The SKI TEAM being SNOW oriented keeps in control with the LTI Weather Service via Captain and Meteorology Major Mark A. Atias. The team's ROCKY R.3 feels SNOW will arrive any day, but Mark's growing more concerned by the minute, since SNOW was last reported in April.

FLASH!!! Frank Zander and the Dynatrust Kids say they have already been skiing, but they won't say where. Mark has been working on his edges all semester and in the Dynatrust Kids will get a jump on him. He can be seen any day in the Meteorology Lab trying to find SNOW somewhere.

Don't forget to watch for the LTI FACES IN THE SNOW.

Women in the Gym

In the second week of competition, the Independents remained unbeaten and defeated Eames Hall by a score of 1:4. They were led by sharpshooter Shells Keon who scored 10 points. Jo Holaday scored the other four points for the Independents. Physicist E. Moyer won the free throw for Eames with three baskets. Carol Harr played a solid defensive game for Eames with several good blocks. Shells is the leading scorer, so far, with 24 points.

In the second game, the two sororities clashed. Beta Tau notched its first win of the season surviving by a score of 16-14. This was a very close game and Phi Sigma Rho had a chance to tie the score in the last minute of play. However, Beta Tau's defense held tough and generated any shots from being taken. The game's high scorer was Judy Killion with 10 points. Diane Hines and Karen Collins also contributed to Phi Sigma Rho's win with a basket apiece. Beta Tau's attack was led by Sue Giddens and Nancy Knutson who had 8 points each.

The standings are:

Team Wins Losses
Independents 2 0
Eames Hall 1 1
Beta Tau 1 1
Phi Sigma Rho 0 2

Next Wednesday's match ups will be Beta Tau vs. Eames Hall in the first game and Phi Sigma Rho vs. the Independent in the second game. The first game will start at 6 o'clock.

Notes:

On Monday, December 3rd, Noreen Connell will be at the gym to teach dance. Dance routines for gymnastics will be included. She will be here from 7:30 to 9:00 in the upper room downstairs.

elections were held in Lowell recently for positions on the City Council, School Committee, Regional Vocational School Board, and also for a number of local school committee races.

The T.H.S. results the results in the margin of unheeding, of political activities in the scene community.

A brief survey of the Lowell structure of government is helpful in understanding the recent election. The voters in the city operate under the "City Manager" plan. The position of city manager is filled by the City Council, who name the manager at the beginning of each term, and the manager, in turn, is expected to understand and act in accordance with the policies of the council. The manager is accountable to the council for the city's policies, and he must consult with the council before making any important decisions.

The city's structure is unique in that it provides a strong mayor-council form of government. The mayor is elected by the people of the city, and the city council is elected by the people of the city. The mayor is responsible for the day-to-day operations of the city, while the council is responsible for the long-term planning of the city.

In the Lowell election, there were a number of races, including those for the City Council, School Committee, and Regional Vocational School Board. The city of Lowell is a large city, and the election results reflect the diversity of the city's population.

The council is responsible for the day-to-day operations of the city, and the members of the council are elected by the people of the city. The council is responsible for the long-term planning of the city, and it is responsible for the city's policies.

The mayor is elected by the people of the city, and the mayor is responsible for the day-to-day operations of the city. The mayor is also responsible for the long-term planning of the city.

The Lowell election results reflect the diversity of the city's population, and the council is elected by the people of the city. The council is responsible for the long-term planning of the city, and it is responsible for the city's policies.
