The Battle of Lowell

On Saturday, March 11, 1915, the annual war maneuvers of the Lowell Textile Institute were held. The Black Army defended the fort while the Chemists, under the name of the Blue Forces, were the attackers. At 12:15 A.M. Doc. Beattie multiplied over the bridge and up to the iron gates. As the Doc. carried a flag of truce he was allowed to deliver ultimatums of unconditional surrender. Beattie advised the negative, he returned to his superior.

"C. H." Entries and "Jiggy" Ball gave their usual pep talk and all agreed to do it in five. About 11:45 the Chemists were sighted on the upper bank of the river. A few minutes later, and their artillery put over a barrage. Heavy metal such as dye pots and ring stands prevailed, but to no avail. However, the chemical engineers still held an ace in the hole. Chase set off a terre haute bombardon. It blew off the left corner of Southwick Hall, but in the set off the funeral bells of Chace's mortalities. It was the first serious casualty of the day. In the meantime good old Horton rushed impetuously and filled the gap. Skinkle entered a gas attack and Elmer Wells reversed the course. "This" Hindle was on the alert and caught him on an intersection by dropping the asbestos valve on him.

But the tide was soon turned and the shock troops (what a shock) of Leile Ollary finally entered. The heartbroken engineers battled desperatly and the battle swayed back and forth (also the libelians). Eddie Barker and Russ Brown from Everett

A doctor recently said that chocolate was a good substitute for beer. We have yet to see the chocolate that will make men like areas in the street at 3:00 A.M. and like "Sweet Alibi." A Seattle, Wash. farmer has just reported that the man who ate this chocolate did not return to his farm, and that the cows were very restless.

"No-Prize" Problem

Q. Why doesn't Horton give a decent lecture?
A. - The printing in the book isn't clear.

Reflections

There was a professor called "Lilnoy." When worried, he'd keep him. But one day the man was起草, hid the draft was too low.

And his end came out Tonight, not too bad.

"Who ever has dared to change the draft?"

Asked of those who were standing near.

The boys met his gaze yet seemed to have no interest in someone the answer was clear.

No answer came to meet his eye. Yet strictly his bill box must have a new year. So off he did run, creating much fun.

For he brought back a rat, shirt that died.

HowLoader did yell and Pete giggled too.

And Emery sat out a bow-boy-boy.

While Pete wiped his eye, and ready to cry.

And Thomas just heavenward flew.

The devil's feet horse with this pink sheet.

And tomorrow we'll have to be more dapper.

But after all is said and done, we know it is all fun.

What ever of jokes you'll have to meet, this is the truth.

They can't be beat.

Mrs. Ansonaso.

Saint Peter was interviewing the face down at the pearly gate: "Did you while on earth, he asked, in deference to petting, smoking, or drinking?"

"Never!" she retorted emphatically.

"Then why haven't you reported it?" asked the good Saint. "You have been dead a long time." (Continued on page 4)

ZANGAR (Alias Abrahamsky)

Shoots Down Dye-Lab Twins By Mistake.

While Prexy and the dye-lab twins were sitting in the sun parlor, enjoying the heat of the dye-lab, Abrahamsky managed an attempt to assassinate Prexy. But he does not belong to the rifle club, he was a very poor shot and missed his man. Abrahamsky (alias as he is no man—known, who has been suffering throughout his life with the effects of a bad asthmatic, had a groove against Prexy because he didn't shoot down our institute four days every week.

The twins are now residing at an adventurist bed in the police station. As happened that they were taken by the police, but due to the fact that they had spent many nights in the cells before, they felt right at home and didn't want to move. There is still hope that they won't get through.

Abrahamsky was brought to trial. The lawyer for the defense was Perc Hall, Judge Chambers presiding. The judge, with his usual tact, had a hard time keeping the jury awake. The plaintiff pleaded for leniency, due to the fact that Abrahamsky was declared harmless. He was bound guilty in the fifth degree and sentenced to death.

The great problem confronting Professor Olney is to find someone to fill the position of the "dreadful twin." He has sent out letters to all of the large institutions of the country, but he cannot seem to find a pair of twins to fill all the requirements.
