Edlund, Ivers Head New Administration

Haley, Robertson, McLean Also Appointed To Head Important Administrative Positions

Many drastic changes in the administration and faculty of the Lowell Institute have been announced by President John J. Robertson, who has been elected to succeed Dean Nahum Newell, who has been announced in the present capacity as Director of Administration as well as the Executive Secretary.

Mr. Arthur P. Hickey, Jr., has been named Assistant Director of Administration. Mr. Hickey was formerly on the faculty of the Institute.

Prof. John G. Robertson has been appointed President of the Lowell Institute to replace Dean Edmonds as Chairman of the Board of Regents. Prof. Robertson has been associated with the Institute in this department, and recently served as Director of Public Relations.

Prof. James A. McLean has been newly appointed as Curator of Collections, and Prof. Eames as Librarian. In filling this position, Prof. McLean returns to the Institute, where he served as a teacher of Botany, and Prof. Eames to the position of Librarian as well as his other functions.

Concerning this new appointment, President Robertson stated: "These changes will add a significant number of capable people to our administrative staff." He also expressed the need for co-operation among all departments on this board of directors.

New Professor

Dr. Philo P. Bistline, who has been appointed a Professor of Botany, has received his Ph.D. from the University of California and his M.A. from the University of Washington.

The President of the Institute, who is a graduate of the Lawrence Massachusetts Institute of Technology, also holds a M.A. and B.S. degree from the same institution.

He has been associated with the Institute in the past for many years, and has served as a member of the Board of Directors. Previously, he served both as a teacher and as an administrator for the Institute.

New Faculty Appointments Mark Opening Of 53-54 School Year

The new opening of the school year has been marked by the appointment of several new faculty members, both in the Lowell Institute and in the Lowell Tech.

The new names include Miss Mary Merrill and Miss Jeanne Bingley, who are joining the faculty of the Institute.

Elmo B. Newell has been appointed as Assistant Professor of Engineering. He has been associated with the Institute since 1931.

Dr. Wentworth, Williams, formerly the head of the Industrial Arts Department, will assist with new duties in the Division of General Studies.

Newly appointed faculty members include Mr. Richard Newell, who has been appointed as a member of the faculty, and Mr. Jack Newell, who has been appointed as an instructor in the Division of General Studies.

President Lydon Reveals Departmental Realignment Names Heads of Divisions

Prof. James Kennedy, head of the new Textile Manufacturing and Division, has announced the appointment of several new faculty members and the reorganization of a few of the old divisions.

Several new members have been added to the staff of the School of Engineering, and new courses have been added to the curriculum. The School of Engineering has been reorganized into several departments, and new courses have been added to the curriculum.

Among the new additions to the School of Engineering are two new departments, the new Textile Engineering and the new Textile Design.

The Textile Manufacturing and Division has announced the appointment of several new faculty members and the reorganization of a few of the old divisions.

The new Textile Engineering Department has been reorganized into several departments, and new courses have been added to the curriculum.

The Textile Design Department has been reorganized into several departments, and new courses have been added to the curriculum.

Library Advances

The America's Museum Library has once again made great strides in its rapid growth.

The growth of the Library has been from 2,000 to 10,000 volumes. The Library has been expanded by the addition of books and materials, and the accession of new members.

The Library has been reorganized into several departments, and new courses have been added to the curriculum.

The Library has been reorganized into several departments, and new courses have been added to the curriculum.

Remember The Farmdale Outdoors

Ray D. Newell Reveals New Machinery Grants

In their report to the Lowell Textile Institute faculty, President Martin J. Lydon outlined the new department, which is to go into effect on October 30, the day of the first official meeting of the new department.

By reorganizing the Institute's present four divisions, the new department will be created which will be more clearly parallel industry and commerce. It will be more closely tied to the many resources available through the Lowell Institute through its new executive facilities.

The four divisions that have been created will include: Textile Chemistry, Textile Engineering, Textile Design, and Textile Textile.

In addition to the new machinery grants, there will be an increase in the number of students who will be attending the Institute in the new executive facilities.

Popping Questions At Dean Richard Wavers; Youthful Head Quizzed By Reporter

by Howard D. Ponty

New Dean, youthful and aggressive, shows optimism for

L. T. and Prudentiation.

Dean Walling a year ago.

The latter, I was born Oct 26, 1936 in Medford, Mississippi.

Q. Where did you receive your public school training?

A. I attended grammar school in Medford; when my family moved to Wilmington, North Carolina, I attended Lowell High School from which I was graduated in 1952. I have also taken additional courses at Medford High School.

Q. What did you receive your B. A. degree from the University in Mississippi?

A. I received the B. A. degree from the University of Mississippi in 1954. My major was Education.

Q. Did you take part in any extracurricular activities at college?

A. Yes, I was a member of the Youthful Staff, the Outing Club, the Basketball and Bowling Society, and a charter member of the Junior Class. I also played on the football team and was a member of The Thespian Kappa Pi Fraternity.

Q. Did you hold any fraternity offices?

A. Yes, I was the Secretary.

Q. Do you remember anything about your fraternity life?

A. I remember very little, except that I was involved in several activities for three years to earn my degree. I am not sure what happened to most people I knew, and I am not sure what happened to most people with whom I lived.

Q. What is your future plan to go to college?

A. I am doing graduate study in Wilmington and supervising a minor project in statistical study.

Q. Have you furthered your education since college?

A. I have attended courses at Henderson State College and am planning to return to the college soon. I am also working on a book about the college's history.

Q. What is your first job after college?

A. In 1955, I joined the Osprey Company in Wilmington and supervised a minor project in statistical study.

Q. What is your present occupation?

A. I am a law professor at the University of Mississippi and serving as a consultant for the College of Commerce.

Q. What do you consider your most important task as Dean of Students?

A. It is my responsibility to guide the students and students in their problems. To the best of my ability to provide guidance and all the help I can, I try to help the students.

Q. Do you see any relief in store for the disciplinary situation?

A. I don't think so. The situation is very serious, and I don't think any relief will be possible in the near future.

Q. Do you have any advice to give to the students as to obtaining the most from college?

A. First be in good graces, see to it that you make good social contacts with fellow students and build up a co-operative attitude toward the administration of a college. Second, be interested in the running of a college, and third, don't be in a hurry to get a job after graduating from a college.

Q. Have you a wife and family?

A. Yes, I have a wife and two children.

Q. Do you have any hobbies or interests outside of college work?

A. I enjoy photography, reading, and playing tennis.

Q. Do you take any interest in community affairs or organizations?

A. Yes, I belong to the Beta Theta Pi, a national organization of students, and to the United Youth Fraternity.

Q. Where did you receive your high school training?

A. I attended Charleston High School in Charleston, South Carolina.

Q. What did you receive your B. A. degree from the University in Mississippi?

A. I received the B. A. degree from the University of Mississippi in 1954. My major was Education.

Q. What do you consider important in a student's life?

A. It is important that a student be interested in the running of a college, and that he build up a co-operative attitude toward the administration of a college.

Q. Do you feel that the administration is interested in the student's problems?

A. I think the administration is very interested in the student's problems, and is always willing to help.

Q. Do you think that the student body is properly functioning?

A. I think that the student body is properly functioning, and that the administration is doing a good job.

Q. Do you have any advice for students as to obtaining the most from college?

A. First be in good graces, see to it that you make good social contacts with fellow students and build up a co-operative attitude toward the administration of a college.

Q. What do you consider important in a student's life?

In going through the school, I have been taking stock of the athletic facilities offering our athletes and have come to the conclusion that they are in a deplorable state. The locker room and shower room are of the vintage of 1930 at my school. The whole area where our athletes and those of other schools do work is very uncomfortable.

Lowell Tech wishes to participate in intercollegiate athletics it should provide facilities that are comparable to those of other schools which we play. It is a disgrace that men who give their time of their own voluntarism to participate in varsity athletics should be inconvenienced by such obsolete facilities.

The locker room is in one immense mess as far as dressing space and facilities are concerned. Our team and those of our opponents have to prepare for games in practically the same room. If instructions have to be given by the coach, one of the teams must move to another part of the building. There is no reason for such a situation to exist. Ample space and modern facilities should be provided so that each team can have the utmost privacy in preparing for their games.

I want to make the room the better, as it is, the biggest eyesore imaginable. The showers, old and the walls and floor are of cement and not very desirable to shower in. Also in this room are two very poor excusse for whipping baths. If one of our boys should strain a muscle he is obliged to take the soreness away by sticking the ailing part of his body into a rusty old can, called a whiskey, then the water is poured over and then proceed to be covered by some brown colored rosy.

I have pointed out what is lacking and the only remedy that I can recommend is a complete modernization of the locker room. However, I am happy to say that an improvement fund has been established and is being propitiated in order to modernize the entire building and that part of this fund has been used to improve the C and lowell Tech locker room and shower room. It is a high time that attention really try the swift and decided to give the athletes the even break which they most certainly deserve.

I realize that this rebuilding of the dressing area will not take place in the immediate future due to the fact that the students have not been awarded as yet. I have no definite information as to when this remodeling will take place, but it is comforting to know that the athletic facilities will not be neglected as neglected here at Tech as it appears at first glance.

Soccer Schedule

The following is a copy of the official varsity soccer schedule as released by Prof. Cushing.

Wednesday, October 31—Brford Durfee at Lowell
Saturday, November 1—Keene State at Lowell
Tuesday, November 5—New Hampshire Coll. at Lowell
Sunday, November 17—Boston Coll. at Lowell
Tuesday, November 26—Tufts at Lowell
Thursday, November 28—Tufts at Lowell
Little Man On Campus

"Soccer Team Defeats Keene Teachers 4-2"

A solid victory Lowell Tech soccer team captured the opening game of the 1954 season with a 4-2 victory over Keene Teachers College. This was the third in the row for the Owlsmen and their fifteenth win in sixteen games.

Soccer Tradition Established At Lowell During Past Years

By Arnold Morewitz

Lowell Tech has had, for the past few years, a soccer tradition that any other school would be proud to claim in the city. Here this reporter’s pen at the Institute, Coach George Marck’s forces have made a name for themselves every season.

The 1953 team was a brilliant season with only one loss, that being the Tufts game which solid victory over their mountainous opponents. In Lowell, Tech school, Clark, and Brandeis.

The outlook for the current year looks bright for the Owlsmen as many of the veteran players will return. The Owlsmen will be a force to be reckoned with and will prove to be an exciting team for any school.
