MEAD of the National Association of Cotton Manufacturers
Presented by Dr. S. D. Stoughton
To Blanche Barney Coudert, East Peoria, Ill.

TEXTILE COLORIST AWARD
A prize of $100 offered by The Textile Colorist, Inc., to a member of the graduating class whose thesis, based upon his personal research and experiences, is of the greatest practical value to the dyer, bleacher or textile finishing industries.

To Morris Arnold Skuba, Burbank, Ill.

LOUIS A. OLNEY BOOK PRIZES (in the form of books)
$100 to the regular students in the Chemistry and Textile Coloring Courses who shall present the best thesis preparatory to graduation.

To Willis Morris Jones, Lexington, Mass., and

HONORABLE MENTION
Earle Raymond McKeown, Haverhill, Mass.

10 and 15 respectively to the students taking the regular Chemistry and Textile Coloring Courses who shall be considered as having attained the highest and second highest scholarship in second and first year Chemistry.

Second Year
First Prize: Henry Alfred Wells, Jr., Elizabeth, N. J.
Second Prize: Raymond L. Matthews, Guilderland, Mass.

HONORABLE MENTION
Earle Adolphe Richland, Lowell.

David Henry Trowell, Lowell.

THE TEXTILE COLOR CARD ASSOCIATION SCHOLARSHIP
To Edward Barney Coudert, Lowell.

HARRIET A. CURRAN SCHOLARSHIP
$100 given by Mrs. Emma A. Curran, of the Class of 1894, to a standing re-

tion in the faculty of the Institute, the following conditions to be con-

idered in making the selection.

Medals and Awards

LOWELL TEXTILE INSTITUTE
JUNE 30, 1930

Changes

Among the changes to the class rooms is the remodelling of room 343. This has been changed so that the large room is divided into two sections and instead of having the seats arranged in a semicircle, as they were arranged in block fashion, as it common in the other lecture rooms, the seats are placed back to back. The walls have been painted white, making the room a bright spot in the life of a steam class.

Lowell has also been remodeled into an up-to-date electric lab.

There have been some changes in the teaching staff. M. C. O. Holton, instructor in math, has gone to Harvard College. Mr. L. E. Buck, instructor in mech. drawing, is now at Westover Institute in Boston. Mr. J. C. Tontoniel, instructor in mechanical engineering, has also left. Among the new instructors are Horace Brown, Yale College, and H. T. B. graduated from the engineering administrative. He will teach mech. appl., and the first year physics lab. Elliott Hinsin, B.T.E., of 25 Lowell Textile Institute, will teach 1st and 2nd year drawing and 3rd year mill engineering. He has been with the East West Consulting Co. of Paris, Mass., Charles P. Ed

Professor Ball Given

High Honor

Textile Professor Elected to Chairmanship of "D-11" Committee.

A signal honor was paid Horace Ball, Full of this city and through him to the Lowell Textile Institute, which is in the head of the Textile Engineering depart-

ment, at the annual meeting of the American Society for Testing Materials, held recently at Atlantic City. Professor Ball was elected to the chairmanship of the Textile commit-

tee, one of the largest in the society. The Textile committee is occasionally known as D-11, and comprises people of innumerable knowledge in the manufacture of cotton, yarns and fabrics. It comprises a group whose interest is textile in general. The purpose of the committee is to keep up-to-date. (Continued on Page 3)

Everton Loveless Is Again Coop Mgr.

If T. H. Loveless, the co-op man-

sion, has returned to duties taken over the management of the Textile

Co-operative Society's supplies store. This is Loveless's second year as man-

ager, and he looks forward to a pro-

duce another successful year.

He has arranged an attractive display window, and has new in stock a large

of school supplies. He also features the new Textile business, which is in-

creasing in popularity every year.

He has been much influenced by the new influence on travel to get his

New business has taken a prominent

place in school activities since his en-

trance. He prepared at Beacon Farm,

and now in the B. U. House, of which he is a member.

President's Greeting

It is with the assurance that the future is bright for each member of this faculty and students, where the industry and re-

studies of well-performed students are of-

preparation for these responsible

with the Lowell Textile Insti-

the full confidence that the Lowell Textile

its ability and knowledge as in the classroom as well as in the lab. It is the hope

that all may grow in strength and knowledge.

As a result of the efforts of the

students, there will be prevailed in the first

student to secure a position at the end of the year. He will have the opportunity to test the trust from members of the

class in the spring. Any student who is

considered is to be eligible to enter this con-

test. Anyone interested in entering the

first choice for the best man as the

instructor for the class for the next three

years is on display opposite the "Coop," on the bulletin board.

A price, consisting of a school

book, will be presented to the first

student to accept a position.

EDITORIALS

WELCOME FRESHMEN

The Text takes great pleasure in welcoming the Freshmen to Lowell Textile, and also in wishing them the best of success during their years here.

You are now entering upon one of the most important periods of your life—a training period and a broadening period—how much depends upon you. You are now in college. Prep school days are behind you. You are practically independent as to what you do with your time. Use it intelligently and you will never regret it. Waste it and it is gone forever. Start in now, get all you can out of it—you'll find it worth while, and what you have once won is yours. Knowledge gained is never lost. Everything's before you. Get a good start and half the battle is over. Don't think merely of the present—think of the future and build toward it with your goal high in the heavens.

You will, no doubt, find your Freshman year hard. Most of us have and some of us are still enjoying our freshman classes. But don't become a grump. Get into your favorite activity now. There is a lot of good clean fun to be had while you are going through college and it is up to you to go out and get it.

Get into the spirit of the thing at the start. Speaking of spirit, may I quote from Coach Yalman's letter to the football candidates? "We need a Textile spirit that will exceed that of the 1926 lightning aggression that took us on the chop for five straight weeks and then came back in a blaze of glory." Let that same spirit seep into the classrooms and you'll find a blaze of glory when you finish your course.

A MISUNDERSTANDING

She had attended a broken party on the previous evening, and when her broken nose was in breakfast, she could tell by her sister's manner that the work had not been in her favor.

"Have you a box of tea?" she asked, after a while.

"Naturally," she replied, as she was taking with a husky beggar, to think.

"Well, I like that," she returned to obvious surprise. "How could it be my fault? I wasn't even there."

"No, but you introduced me to this friend of yours whom you said was a Bolshevik brick expert, and —"

"That's all," he interrupted, wonder-

ing what was coming next.

"Fulfil!" she returned. "He's nothing of the kind—but an organis-

er—London Answers.

PROF BALL HONORED

(Continued from Page 1)

In order to prepare standard specifications for textile materials and standard methods of testing them

Some of the committee, 15 sub-committees, are organized to handle numerous problems which present themselves frequently in an industry so vast as that of textiles. The work is often of such a character as to require a group of chemists to conduct research activities in their laboratories and mills. The results of this work are presented at meetings of the committee, and are embodied in the standards which are applicable.

The committee meets three times each year, one in the North, one in the South and one at Atlantic City.

The latter meeting is in the annual meeting of the whole society, which is devoted into committee similar to that of which Professor Ellis is chairman and covering practically all branches of industry.

for Success
The Orientation Program is an important feature in the opening of the college year. Freshmen must be present at every meeting, as attendance will be recorded.

Thursday, September 18, 1930

Morning
9:40 Registrations in Room 201. Be prepared to fill out registration cards in full.
9:20 Instruction for the Register, Room 101. Explanation of the Timothy Rules.
10:40 Greeting by President Charles H. Comrie, Room 201.
11:15 Choral Organization, Room 301. Under the guidance of Professor J. G. Dow.
11:45 Smoker and Social Hour. Assembled Hall. Directed by Prof. M. G. Dow.
12:30 Luncheon. Complimentary to freshmen and president in structures.

Afternoon
1:00 An interesting program of music and good fellowship.
2:00 The ballfield, the grounds, and the equipment of L. T. T. The class will divide into small groups, and under the guidance of freshmen instructors conducted through the institute.
2:45 "Interest on My Investment," Room 201, Professor J. G. Dow, of the English Department, will discuss some topics as to how to study, how to make the most of your time, what is an education, why it is a Textile, and other kindred subjects.
3:15 College Activities. Room 201. The scope and the purpose of the extra-curricular activities will be explained by a faculty representative from the Athletic Association, Professor L. H. Caruthers, Textile Physics, Professor E. E. Pickard, Pickard (The Science Yearbook), Professor H. J. Bell, Text (The University paper), Professor J. G. Dow.

Friday, September 19, 1930

9:00 Intelligible Tests. Under the di-
rection of Professor H. C.
12:35 Courses. These must be taken at this time by all freshmen. Report promptly at 9:00 to Rooms 303 and 304 provided with two periods.
12:30 L'ilil'k. The Textile Lunch Room will be open. Sandwiches and drinks will be on sale. We re-
commend your patronage, as you must be in Room 201 at 1:00 P. M.

Afternoon
1:00 All freshmen report promptly to Rooms 303 and 304 to purchase textbooks and supplies of this title.

TEXTILE INSTITUTE

DESIGNING PREPARATORY WORK AT WEAVING FINISHING SELLING

Where do you go to find more about your work? If in DESIGNING you hope to create new ideas requiring Textile LOOMS. PREPARATORY WORK must be handled with the knowledge that the modern automo-
tic high-speed LOOMS require better warp and filling. WEAVER is a major factor in manufacturing textiles and thus requires the constant study of improvement in construction, different types, and most up-to-date of LOOMS to produce the maximum of good quality most inexpensively. FINISHING decides market goods due to improper adjustment of LOOMS. ALL LOOMS made by Dominick and Knowles are LOOMS in LOOMS to recommend new textile fibers which will enable your firm to keep ahead of competition.

As you progress from your first position to that of executive, follow the example of an in-demand number of skilled men, and keep in touch with the "LARGEST BUILDERS OF FANCY WEAVING MACHINERY IN THE WORLD."

CROMPTON & KNOWLES LOOM WORKS
WORCESTER, MASS.
PROVIDENCE, R I PHILADELPHIA, PA. ALLENTOWN, PA. PATerson, N. J.
Anemic and Anthropoid Amoebas of 1934!

Curb thy cocky cranium and bend thy baby back in obedient bows to the enlightening edicts of thy elders!

(1) You shall always carry a supply of matches for the convenience of members of the CLASS of 1933.

RULE 5. (a) Through the first five weeks, you shall enter and leave the campus buildings through the freshman entrance only.

(2) Never neglect the path of an upper-classman, be within or without the buildings.

(c) Never take a short cut. The LONGEST way round is the SAFEST way to your destination.

RULE 6. Learn the TEXTILE songs and observe that you may be able either to sing or recite them as the plaisir of the upper-classmen.

RULE 7. Freshmen shall not appear at college attired in khaki, flashy stock- legs, bow ties, sweaters with preparatory school insignia, or in any other manner that the CLASS of 1933 will judge unfit for freshmen.

RULE 8. Never permit yourself to be shown from any college activity. It is absolutely necessary that you should arrive at a respect to be expected must be ad-

dressed in writing to the Secretary of the CLASS of 1933 two days before the date of the activity. 1933 shall consider your case.

RULE 9. Thirty minutes before each game the freshmen shall assemble in Room 304, at which time attendance shall be taken and instructions given.

 RULE 10. On the morning of the first home football game, there shall be a general cleanup at L. T. T. On this morn-

ing you shall be allowed to walk on the campus. You shall provide yourself with a mat which has a stick for a handle.

TERRIBLE TORTURE AND DIRK DISASTER shall be our retribution on the mortifying wrench that jears at our jurisdiction and scoffs at our sway in disobedience to these dictates.

Beware

THE MERRIMACK RUNS DEEP!

FOOTBALL PRACTICE UNDER WAY

Continued from Page 1

all set against us. Capt. Allard is also back to help put on a winning team.

Altogether there are eleven lettered men back with the squad this year. Among them are Howard and North, elder, Grant, Scholz, and Kinn, barking, Browno and Brooks, Deegan, center, Allard, Soled, and Rochester in the backfield.

Claiming the productive and

initial E. Howard, an end from St. John’s Prep, who may be used to ad-

vantage in the backfield.

There are four two practice ses-

sions daily starting last Monday. On

Thursday there was just one practice session in the inter-

val to allow these members of the squad who have made

up to practice on Friday, a period in which to study. On the

second and Monday there was practice at 3:30.

What Coach Tooriall needs this year is good and reserved material, and any

freshman at school will find it worth while to report for practice, for with

the season schedule which we have at hand there will be a great need for

fresh men to enter the game. All of the men are in remarkable condition;

one only lack in the mix, as far as the fact that they have been looking

forward to the games and have had jobs during the summer that have kept

them fit physically.
