Basketball Schedule Is Announced

The 1938-39 basketball schedule has just been released by Director of Athletics Lester H. Cushing, and is as follows:

Dec. 16—Rhode Island State at Kingston.
Dec. 19—Colby at Lowell.
Jan. 6—Arnold at Lowell.
Jan. 7—Assumption at Lowell.
Jan. 10—St. Anselm’s at Manchester.
Feb. 4—Colby at Waterville.
Feb. 6—New Hampshire at Durham.
Feb. 9—Hustler at Lowell.
Feb. 11—Assumption at Worcester.
Feb. 15—Buckeye at Worcester.
Feb. 18—American International at Springfield.
Feb. 22—Angels of New Haven.
Feb. 23—Wagner at New York.
Feb. 24—Pratt Institute at Brooklyn.

There may be a game previous to R. I. S. and possibly a game after we see what we can get out in Maine. There is also a possibility of a game with the Alumni.

Stor Tackle Injured In A. I. C. Game

Joe Peht, ’30, who formed the other half of Textile’s invincible tackles along with Tom Reddish, received an injury while making a tackle in the closing minutes of the A. I. C. game which required his hospitalization for a week.

After making the tackle Peht got up and was limping. He was carried to the dressing room and when he failed to revive was taken to St. Joseph’s Hospital, where X-rays were taken that showed a fractured sternum or breast-bone. Joe was forced to lie on his back for one week wearing a standing order over the fracture. At present he is confined to his bed in the Phi Psi House with a foot pad strapped tightly to his chest.

Seniors to Sponsor Dedication Dance

December 9 has been officially set as the date for the Dedication Dance to be held in the “ballroom” of Louis Pasteur Hall. The Class of 1938 are sponsoring this affair, which promises to be a most gala occasion.

The committee on decorations is planning some new and unusual color combinations in the creation of the festive atmosphere.

The music will be furnished by a famous orchestra. This band has broadcast over coast to coast networks and is noted for its dance-basement style. Satisfaction guaranteed!

Tickets may be obtained from members of the Senior Class at the very reasonable charge of $1.50 per couple. It is sincerely hoped that everyone who will support this dance, the first to be held on the excellent floor in the new building.

Phi Psi To Hold Open House For Alumni

On Saturday night, December 19, the Phi Psi Gamma Alumni for Colonial and active Gamma Chapter plans to have open house and a get-together for the Gamma Alumni Members. They plan to meet at the Chapter House at left Fletcher St. and show the present house, after which they will all adjourn to the Rec Center for dinner and dancing. If the dinner is to be at eight o’clock, all Phi Psi men are cordially invited to attend and are asked to drop a post card to President Burt Windler at the address above if they have not already been contacted.

Omicron Pi Holds Dance

An informal dance was held at the Mount Pleasant Club on Saturday evening. Brother and Mrs. Burt acted as chairs.

Boyds Chapman was the chairman, assisted by Brothers Thay and Thaycock.

The music was supplied by Ray Harrington and his orchestra, and a good time was had by all.

LOWELL TEXTILE INSTITUTE

Four-Year Degree Courses In

CHEMISTRY AND TEXTILE COLORING — TEXTILE ENGINEERING — Degrees of B. T. C. (Bachelor of Textile Chemistry) and B. T. E. (Bachelor of Textile Engineering) offered for completion of prescribed four-year course.

Three-Year Diploma Courses In

COTTON MANUFACTURING. WOOL MANUFACTURING. TEXTILE DESIGNING

Scientific and practical training in all processes of textile manufacture including all commercial phases.

Certified graduation of High Schools and Academies admitted without examination.

For catalogue address Charles H. Bacon, R. E. President, Lowell, Mass.

Textile Enjoys Another Successful Grid Season

By LESTER H. CUSHING
Director of Athletics

Textile has had the most successful football season since 1928, the year of the undefeated team, as the following record shows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Wins</th>
<th>Losses</th>
<th>Ties</th>
</tr>
</thead>

When the squad was called out for practice on Sept. 13, about fifteen men reported. Many men reported late, and only a small number of candidates appeared from the Freshman class. It was not until Wednesday, September 23, three days before the New Hampshire game, that we had enough men in condition and on the field at one time to have a real scrimmage. In fact, two of those who played against New Hampshire did not report for the last quarter. When only a few minutes left to play, Morton made a successful pass to Defendant for a touchdown, thus deciding the game in favor of the favorite, Lowell. The contest itself was exciting, with neither team being able to make any progress till the end of the last quarter. With only a few minutes remaining, the game was won by Lowell, 30 yard pass to Defendant, which was almost good for a touchdown.

The Comforts of the freshman had been victorious in baseball, basketball and football, and had proven themselves capable of meeting any opponents in the state.

Sophomores Nose Out Freshmen In Football, 6 to 0

The annual football game between the freshmen and the sophomores was played on November 3, concluding the interclass series of athletic events. Both teams ran high among the students, with a large number of them, and members of the faculty turning out to witness the event. The contest itself was exciting, with neither team being able to make any progress. A touchdown, thus deciding the game in favor of the sophomores, was scored by the second-string backfield, with an end pass to Defendant.

Our star right end of the current football season, Chauncey Mackle, has the distinction of being chosen for the position of right end on the Northeastern "All-Americans" mythical football eleven.

Nice going, Chauncey, your great playing surely deserved this honor. — Ed.

LOWELL TEXTILE INSTITUTE

Lowell Textile Closes Season With Victory

Defeats American International College by Score 29 to 0, Menden Scores Three Touchdowns and Passes to Macker For Fourth.

After being held scoreless for the first period, Lowell Textile Gridshakers unleashed a real Arnoldean fury of second-quarter passes to score in each of the subsequent periods and register a 29-0 win over a game, but outclassed, American International eleven.

Aerial Twinos Star

The victory was the sixth and final of the season for the Millmen, who have experienced one of their most successful grid campaigns in years. As in past performances, it was the sturdy forward pass which saved the day. On a few occasions, the forward pass was successful, but the attack of the visitors seemed to lose all momentum when the clock got in pay dirt.

Interception passes hark back to the Springfielders considerably and time and again the "Tiny Giants" pulled out of a tight spot by grabbing a well.

“A Thanksgiving Message from the President”

THANKSGIVING

The return of the festival that has come down to us from Colonial Days stirs in our hearts and minds the grateful thanks for the many blessings that are ours because the founders and their descendants have bequeathed to us a country not only a freedom of action, of thought, and of speech, but creates and fosters institutions which train, stimulate, and guide the people in the exercise of these privileges.

In recognition of the great contribution that each generation has made to American ideals and ideals, which make our lives happier and more reconestmable, shall we not accept as a challenge the defense, the protection, and the exercise of those rights, responsibilities, and obligations that strengthen our social structure and regulate our form of government.

Thanksgiving brings satisfaction, happiness, and gratitude. It also brings the determination that these forces which have contributed to this kind of a harvest shall not be destroyed.

It is the hope of the president, the faculty, and the instructing staff that all members of the student body have a most enjoyable Thanksgiving.

If It Could Only Cook

We’ve heard of machines possessing almost human versatility but none of which tops them all.

As we know, to knit full-fashioned stocking blanks it is customary to knit the leg portion on a machine known as a “legger” and finally knit the foot portion of the stocking blank.

Eliminating all the slow-up operations of manual transfers a machine invented by Alfred E. Eichbacher, requires only the initial push on the starting button. The inventor claims this machine to be the first completely automatic full-fashioned knitting and construction, which is highly complicated. In addition to the usual pattern chain and eam shaft of the conventional machine it has an auxiliary shaft at the rear to carry the modules, which are carried on the machine by the loop chain of which automatically controls the operation of the whole mechanism.

With no other requirement than that of pushing the starting button, the machine produces simultaneously twenty complete full-fashioned stocking blanks and with further supervision of the operator removes the blanks from the machine.

The advantages over the two machine methods and the transferring method as described, is its line of pens. Besides eliminating, all manually performed operations, it produces one machine that will produce twenty pairs of stockings in one hour. The inventor of the machine claims that the machine can be operated on the most economical basis by the use of power, and that the speed of the machine can be increased to a speed of 200 feet per minute.

Omican Pi News

We wish to announce that the pledges and "Hell Week" will begin on December 9.

***

The trip that week was most successful in every way. Charlie "Two-Gun" Merritt brought along the bacon. By the way- isn't that Peterson see through legs. Brothers Shore and Siegler got some of the Friday night boys in icy water up there.

We hope our friend, Joe Pelt, makes a quick recovery from his injury in the A.L.C. game.

What could Frankie Siegler have been stuttering over Wednesday night?

***

We wish to congratulate "Randy" Xormall and his team for such a successful football season and hope he has a good basketball season.

Well, boys, be sure to have a Xmas party and Xmas vacation, but don't eat too much.

Home Phlickers

The basketball season being almost upon us, we take this opportunity to offer our support to those going to see the game.

Ask Helen why she gave up smoking for almost an entire week. It must have been a very good cause.

Phyllis looked as though she was pregnant rather than fifteen years. Personally, we liked the hair do.

By the way, Phyllis, why was it so important that the fog clean up Friday?

The socials of the sorority have been rather high this year, due to a misgathering of eight workers and five workers. Monday evening, the girls are planning a dinner at the Clover Club. The sisters hope to get there before the start of a very enjoyable year.

June, who is the current frat boy who makes you giggle?

***

We like the Hitler greeting on Betty. If you haven't noticed just say "hi" to her and note the reaction.

Eleen has been unusually happy this past two weeks. Maybe it is because her mother has returned from Florida to relieve her of many domestic responsibilities.

We are happy to see the affair of artillery running along very smoothly. You both have all of our congratulations.

Charlotte, we missed your wise and breezy greetings earlier this week. The sorority wishes your mother a speedy recovery.

In closing, Helen and ye author wish to request every once in a while to mention Elia (it will probably take both) to be sure to have socks and mittens. Thank you.

SPORTS

Lowell Textile
Routs A. I. C.
With Score 25-0
(Continued from last page)

hurled international pass out of the back to complete this type which set the first Textile touchdown and started the ball rolling on the Vanilla charges.

The Internats held the Mitte mash in the first chapter but met trouble in the second when the local boys tallied twice. Hanna passed in Textile territory in the early moments of this period. Roberts intercepted and carried deeply into international ground. Madden came up with a 41-yard run to hang up the initial tally of the session.

Corner Kick Helps

The second touchdown was brought about by a corner kick by Tom Reddish. The ball sailed on the international three-yard line. Wood kicked right back, the ball sailing out side on the Textile 35-yard stripe. Here Textile opened a march that found Madden doing most of the legwork to tally from the one-yard stripe.

International gave Lowell score in the third period when it unloaded a series of wild passing plays, which carried it to the local's 36. Here the attack stalled and the Textifans took over the ball on downs. During the drive, Hanna did most of the passing although Barnops did see some fancy lateral work.

After Lowell had booted deeply into international territory the visitors attempted a quick kick. The boot was blocked by Reddish and recovered by Mackie on the visitors' 20. Here, Madden passed to Mackie, bringing the ball to the fourth-yard line. Madden sliced off tackle for the score and Mackie converted from placement.

Textile's final tally came in the last chapter. Reddish went back to kick from his own 20 but faked and hurled a pass to Madden, who traveled to the Textile 48. As the ballmen were not removed the referee was forced to call a blunder and remove the ball after each goal had been scored. It was these quick kicks, of course, which gave the game its name.

IRONY

By Helen Welshimer

I shall be the one to weep,
Lac in bed and count white sheep,
Wondering how pain could accrue:
From the bliss of loving you.
You will be the one to sleep,
Oh, such pleasant dreams you'll reap
When our brief romance is through.
That's the way men often do.

This is what I prophesied,
But I find my senses lied,
I don't know which way you went,
But I'm perfectly content!

Improvements Being Made on Diamond

Basketball Prospects

The 1938-39 basketball outlook is none too bright at the present moment. We lost by graduation Captain Charlie Kelakos, Johnnie Pleshoed, and Dave Freedman, while a bitter blow was dealt us when, genial "Pop" Roberts, had to undergo an operation last summer, forcing him to forgo his return to Textile.

The nucleus, around which this year's team must be built, will be Captain elect George "Candy-kid" Ganisars, "Astha" Perrich, "Sonny-Boy" Gass, "Hunter" Macnell, and "Governor" Siegler. Other up-to-classmen reporting are Harry Neumann, Sam Saltzman, Art Pronik, and Pete Peterson.

The freshman class has turned out with some fine prospects including Lissinger, Coffin, Stakheen, Schifer, McElhanney, McGee, Cartwright, Kent, and Johnson.

The first three aforementioned boys, even if the best are not to present themselves, will form the nucleus of the team that will form the nucleus of the team that will hold prospective years in store for the institution.

Skillful is the word that best describes Chesterfield's can't-be-cooped blend

It is the RIGHT COMBINATION of mild ripe home-grown and aromatic Turkish....the world's best cigarette tobaccos...that makes Chesterfield different from all other cigarettes.

And it's the skillful blending of these tobaccos with each other...for flavor, for aroma, for mildness and for taste, that has made Chesterfield the cigarette in which millions of smokers find a new pleasure in smoking.
