ARE WE ADVANCING?

I feel that the school is not advancing, and in my opinion the students are not advancing. It seems as if we stay in the same old rut. The only change that has occurred is in the faculty. I do not think that the students have improved in any way. I believe that the school should be more progressive and that the students should be encouraged to think for themselves.

THE SPRING A YOUNG MAN'S FANCY

We went down to the fine weather last week and noticed a gypsy on the street. He was a very nice fellow and we decided to follow him around.

The school newspaper mentioned that there was going to be a dance at the end of the month. We decided to go to the dance and see how things looked.

When we arrived at the dance, we found that the place was packed with students. There was music playing and people were dancing. We decided to go inside and see what was going on.

We were surprised to find that there were many students who did not know each other. It seemed as if everyone was having a good time. We decided to stay and see what happened.

The dance lasted until late at night and we were tired but happy. We decided to go home and think about what we had seen.

Our school should do more to encourage students to think for themselves and to follow their own interests. The school newspaper should report more on local events and activities.
