A. S. M. E. Awards for 1926

Professor Weston, Honorary Chairman of the Lowell Textile Student Branch of the American Society of Mechanical Engineers, recently received the following communication from headquarters in New York City to the Honorary Chairman of Student Branches:

On behalf of the Committee on Relations with Colleges and the Committee on Awards, we wish to call your attention once more to the three awards open to students in engineering colleges. These awards are set up, not to be very well understood by our Student Branches as evidenced by the fact that there is little competition for them, and as if there is not sufficient attention paid to the form which prize paper is presented.

Two cash awards of $25.00 each are available this year for any paper, 10 pages or more in length, that is judged by the Committee on Awards to be of value in disseminating knowledge of the Society. These papers should be submitted to the engineering college authorities and be judged, as in the past, by the same committee. Thereafter, two of the papers will be selected, one of which will be presented with a certificate of appreciation, the other with a check for $25.00.

There is a third cash award of $50.00, under the Charles T. Main Fund, for a paper by a student of engineering, preferably a member of a Student Branch of the A. S. M. E., for the best paper within the general subject of the work of the College on Textile, under the general title of "The Influence of the Textile Industry on the Life of the United States." This subject shall be limited to "The Effect of the Cotton Ginnage on the Economy of the United States." If students can find time to read some history and the discussions in this issue, they will find this on engineering subject.

Any further information on this subject may be obtained from Professor Weston.

TEXTILE STUDENTS Disport at "Y"

The Christmas celebration of Lowell Textile was held Dec. 18th in Sunnyside Hall.

The speaker was Rev. Edward S. Swift, an alumnus of L. T. S. of the class of 1890, Fr. Swift brought a surprise Christmas message to the boys in which he compared the formation of character to the press of cotton from the time it enters the mill as a raw product till it leaves as a finished product. He pointed out the need of men of the right caliber at educators today, in addition to his address, Fr. Swift made three selections in his clear voice which is already highly known to the many Boys.

Another pleasing feature of the program was the first appearance of the Textile Musical Clubs. The Philharmonic under the direction of Messrs. Leavitt and Hosley, and the Orchestra under the leadership of Ray McKinstry, was warmly received by the students.

The Xmas Ball under the charge of the Student Council, was heartily received both in its selection and in its music. Much credit is due the faculty who expected from the orchestra in the future.

Another feature of the evening was a good floor of dancing, the life of which was a lively success and a happy New Year. After the lunch of cheese and crackers, the program was closed with the entire assembly singing "Auld Lang Syne."

The officers of Lowell Textile Musical Clubs are an Executive: President Harry L. Swain; 2nd, President Charles W. Plutti; 3rd, President Harold A. Carver; 4th, Secretary R. M. Fox; 5th, Secretary of Student Council, George E. Burns; planet, Mrs. R. M. Fox; leader of orchestra, Ray McKnight; 2nd, manager, Professor James Catherow.

Annual "Night" Provides Enjoyable Program of Indoor Sports

The Lowell Textile School observed its annual "Twelfth Night" Dec. 17th at the T. V. C. A. when the four classes engaged in various indoor contests and took part in the "Y." A large representation from all four classes was present as several members of the faculty. The feature of the evening was a skating basketball game between the freshmen and sophomores. The older classes were victorious 15-13.

The "Night" opened the evening after the basketball game with Northwestern on the 13th of January.

The picket will soon go to the printer.

The editors of the Picket are busy with printer's proofs. Readers, those who have questioned us, are sure of our presence. It is our intention to publish as soon as possible and thank you for your patience.

The new bulletin is a gift to L. T. S. from the Text. Bob Simmons will gladly give that notice on your behalf. You may be sure that you will receive a bulletin before the next issue is due.

The committee is charged with the final assignment: General chairman, Harry Swain; basketball, E. Perkins: Dancing: Lawrence Gold; swimming: W. Martin; pool, Bob Perkins.

The first event of the evening was the bowling match in which each of the four fraternities entered a team. The representatives of Delta Kappa Phi won with Phi Psi a rather poor second, 145 points. The Delta Kappa Phi took the high total with 279, Sigma Delta Psi, 249, Eta Delta Chi, 220, and Eta Sigma Delta, 186.

The final event was the bowling match in which each of the four fraternities entered a team. The representatives of Delta Kappa Phi won with Phi Psi a rather poor second,145 points. The Delta Kappa Phi took the high total with 279, Sigma Delta Psi, 249, Eta Delta Chi, 220, and Eta Sigma Delta, 186.

VOL. VII
NO. 7

EXAMINATIONS

What are examinations? We hear a wee voice somewhere saying, "You'll find out in a couple of weeks." Which is true enough. In two weeks we start on our mid-term schedule of examinations. At the close of the examination period we all will have found out of what an examination consists; but will we be any wiser as to the best methods of passing one? Will they serve to show in our own shortcomings, or shall we blame the professors for what we don't know or for the marks we get?

We are not going to attempt to formulate any rules on how to pass an examination. We leave this for the Professors, who are far more capable than we. They are always ready to help you whether you realize it or not. The next two weeks is the time to call for that help. You'll need all you can get. Daily work and the re-reading of lectures have a decided influence on the way you do on an examination. It's a very rare case where a student learns fifteen weeks work the night before the examination. Some advocate going out and having a good time the night before an examination, but we are inclined to disagree on this point. However, we do mean to say that you should stay up until morning studying. We mean that the bulk of the work should be done before the "night before," that night being used for a review and a good night's sleep. You come back with the argument that you have an examination each day and only have time to prepare for the next one in the time between the end of the previous one and the beginning of the one in question. Why not start now? RIGHT NOW is the time to start studying for examinations, so that you will have time to bring up topics that you are doubtful about with your instructors.

MASS MEETINGS

Nothing but praise is due to those who conceived, planned, and executed the Mass Meeting on the last Friday before the Christmas vacation. We believe this was the first time in the history of the school that we had a Christmas gathering and we sincerely hope it has established a precedent that will be held to not only at Christmas time but at the various other holidays throughout the school year. More than that we should like to see some such program carried out every week, or at least every two weeks. We think there is no better way of instilling the elusory school spirit than in this manner. It is also a very agreeable way to send the boys off on a holiday recess. We see right now where our affiliated clubs are to be a great help in getting these meetings over in the best form. The orchestras and glee club are to be congratulated on their fine work. Rev. Swift was exception-
The annual convention was held in Boston this year and it certainly did turn out to be a wonderful affair. Table clothes and the Shield completed M. R. Upton's chairmanship of the convention. The Studebaker, which was made by the firm of Studebaker, was on display at the convention. The chair was made by the firm of Studebaker, and the chair was made by the firm of Studebaker. The chair was made by the firm of Studebaker.

The evening was broken up with music, entertainment, cards, etc. The convention was held in Boston, the city of Boston, and the convention was held in Boston.

**FRATERNITIES**

**Phi Psi Notes**

We were more than pleased to hear that Guy Harnon, our one-time president, is now working for R. B. Bradshaw & Company, Boston.

**Delta Kappa Phi Notes**

Our annual Christmas party was held at the fraternity house on the evening of December 19, 1925, with a capacity crowd present. Many of the alumni showed up for this event, and the alumni showed up for this event, and the alumni showed up for this event, and the alumni showed up for this event, and the alumni showed up for this event, and the alumni showed up for this event.

Ed Sullivan's new gas tank is a great addition to his room, and we are glad to have heard that the gas tank is a great addition to his room.

**FRESHMAN HONOR LIST**

The following members of the Freshmen Class passed all subjects for the second five weeks of this term:

- Alfred Ballard Anderson, Pembroke, Mass. (Lowell High School)
- Ralph Benjamin Bialik, Billerica, Mass. (Lowell High School, Billerica)
- Harold Conrad Bane, Lawrence, Mass. (Lowell High School)
- Horace Dickman Ballou, Auburn, Maine (Newton High School)
- John Bodney, North Andover, Mass. (Johnson High School, North Andover)
- Harry Neville Bausell, Lowell, Mass. (Lowell High School and Hoban Academy)

Daniel Joseph Cough, Pittsfield, Mass. (Pittsfield High School)

Jesse David Cullen, Roxbury, Mass. (Hancock High School, Boston)

Simon Sylvaia de Jesus, Brockton, Mass. (English High School, Boston)

Julius Olver Ellis, Chicopee, Mass. (Chicopee High School)

Edward Ellsworth Field, Springfield, Mass. (Springfield High School)

Walter Urban Gansett, Pawtucket, R. I. (LaSalle Academy, Providence)

Perley Chamberlin Hinckley, West Roxbury, Mass. (English High School, Boston)

- James Kemptin Haynes, Haverhill, Mass. (Haverhill High School)
- Thomas James Heekin, Lowell, Mass. (Lowell High School)
- Harmon Howarth, Nahant, N. H. (Nahant High School)
- Walfred R. Johnson, Rosbury, Mass. (English High School, Boston)
- Edwin Parker Johnston, Jr., New Haven, Conn. (New Haven High School)
- Edward Allen Larrer, Lowell, Mass. (Worcester Academy and Woorcester Polytechnic Institute)
- James Greely McGregor, Levering, Mass. (Leering High School)
- William Peter Michaux, Jr., Haverhill, Mass. (Haverhill High School)
- Morris Raymond Mcinnis, Haverhill, Mass. (Haverhill High School)
- Robert J. Mitchell, Gardner, Mass. (Gardner High School)
- Walter Guittard Myers, Lowell, Mass. (Lowell High School and Boston University)
- Maxwell Prouty, Roxbury, Mass. (English High School, Boston)
- Walter Archibald Robins, Lowell, Mass. (Lowell High School)
- Charles Leopoldo Simon, Jamaica Plain, Mass. (Jamaica Plain High School)
- Jack Woodrow Stewart, Brattleboro, Vt. (Brattleboro High School)
- Francis Patey Wetherbee, Albury, N. Y. (Albury Academy and Princeton University)
- Benjamin Joseph Zalich, Dorchester, Mass. (English High School, Boston)

**CRANE VALVES**

**Why we advertise to you**

To you technical students, the future “gents” of the engineering world, Crane Co. in this and succeeding advertisements, in a manner of speaking, presents its card. Realizing that the friendships formed at school are important and lasting, Crane is glad of the opportunity to bring before the men who will soon be engineers, the name that has guided previous graduates in their choice of dependable and durable fixtures, valves, fittings, and piping.

SYNOPSIS

The following is an extract from the financial statement of a freshman who entered school in the fall of 1894. These figures show the amounts expended for strictly academic purposes and do not include the cost of room, board, entertainment or luxuries. For comparison the present day expenses of a freshman are shown.

First Year—First Term
1894
Tuition
$191.00
Athletic Fee
$3.00

Mechanism
Sympathy
$20.00
Lecture Note Book
$23.00
Text Book
$1.00
Problem Book (5)
$1.25

Chemistry
Note Book (Lab.)
$4.00

OCCASIONAL PROFITS.
The other night Mr. Pollard took Mr. Wells' coat, thinking it was his own and wore it home. Mr. Wells promptly remunerated by sending Mr. Pollard his coat back.

In Prof. Stewart's Wool Spinning class he follows the rule to the letter and does not depart from it.

In a recent letter he expressed the hope that the next change in college government would be to make the president of the college a life position.

The Lowell Textile School during the school year:
The basis for judging the merits of the Theta will be:
1. Originality
2. Thoroughness
3. Vehemence
4. Practicality

All theses must be prepared in accordance with the requirements of the school. The complete typewritten copies must be submitted. A copy is to become the property of the school; the second copy will be used by the judges in awarding the award, and will later be placed in the library of the School of Textile and Industrial Science.

The judges will be:
1. One appointed by the Textile School.
2. One appointed by the National Association of Textile Manufacturers.
3. One appointed by the Lowel Lowell Society.

The judges will be:
1. One appointed by the Textile School.
2. One appointed by the National Association of Textile Manufacturers.
3. One appointed by the South Lowell Society.

Fresh-Soph Basketball Game

In the annual Freshman Sophomore basketball classic held at the Y. M. C. A. on "Textile" night, the worthy sophomores acted according to tradition and defeated the underclassmen 15-10. The game was somewhat slow and devoid of excitement, due to the inefficient practice on the part of both teams; but nevertheless the game proved interesting to the crowd who watched the encounter, since it was a close battle till the way.

"Jimmie" Carbert was the lifeline for the sophs, dribbling in several good passes from the floor. With three baskets to his credit, he was the high point scorer of the evening. Stew, Simms, and Hurst also played well for the sophomores. For the losers, Nightmare was high point man with a couple of nifty close-up shots. Robinson, playing guard for the first year men, proved a headache all the way and managed to drop in a field goal and a free try.

By winning the basketball game along with the football game, the sophs decisively showed their superiority over the younger men in athletics for the year.

THE TEXT

The following conditions should be observed during all examinations.

1. Students must provide themselves with all equipment necessary to take the examinations except paper. No borrowing, or communication of any sort, will be permitted during any examination.

2. The necessary paper for all answers and calculations will be provided and no extra paper or books will be permitted except as required by the department giving the examination.

3. Until he has finished his paper, no student will be permitted to leave the room during an examination. The penalty for the violation of any of the rules of the school is clearly stated in the bound pamphlet of rules.
