SOME BABY!
Memorial Auditorium, April 30th, 1926
MARK THE DATE

The stage of the Lowell Textile Players has been cleared and is now ready for the greatest production that L. T. & S. has ever owned. This year's production is to be "Some Baby!" a farce in three acts by Cowington and Simmons. This farce is full of some

PINK ISSUE SOON
Scribes and sibilants! Critics and would-be Authors! ATTENTION! The next issue of the Text will come out on March 15th, and you will be the celebrated Pink issue. This is your

THE PICKOUT

This is PICKOUT week! That means that there will be a special drive for subscriptions, material, and advertisements during this week. Subscriptions will be solicited by the business manager and his assistants. Material can be handed to Professor Smith or any member of the board. On Thursday group pictures will be taken in the "barn".

Fourth hour on Wednesday morning, Feb. 23 was given over to one of the assemblies which have from time to time this year been a welcome interlude in the routine of school work. In this occasion the combined music clubs were the chief attraction. Those of us who missed the opportunity of hearing them last Tuesday when they appeared at 111 Union Park House and were apparently surprised to note the progress they are making toward becoming finished organizations.

The Faculty and instructing staff entered into "Problem of the Mystic Maud" by those earnest girls. The first number on the program proper was "The Winter Song" by the Glee Club. The selection was executed with harmony and feeling.

Drum roll for P.A. announcer. Moody, little "Alma Mater" continued the program.

H. H. is to have hoped that there will be more of these assemblies in the future. "All work and no play makes Jack a dull boy."
THE TEXT

AN OLD SUBJECT BROUGHT UP AGAIN

About this time every year it is deemed advisable to emphasize the fact that fraternities are an outgrowth of the college, and should be treated as such with respect to college events. Fraternities are fine for the development of the social life of groups of students. Yet, they should not interfere with college events. In the classes and at college social events we note groups of men gathering together, each group belonging to a particular fraternity. Of course, this is natural, since men from the same fraternity see more of each other at their respective homes; but, we think this spirit is carried too far at times. Grouping together at social events is unavoidable; yet, how much better it would be if, at affairs sponsored by the college, classes would group and forget fraternities for the time. The affair would take on the aspect of being run by the college and not by the fraternities, which are a subdivision of the college.

COMMENTS ON CURRENT COLLEGE EVENTS

The freshmen are to be congratulated on their handling of their issue of the TEXT. Would there that were enough interest among the other classes to attempt an issue of their own.

The social debut of the Musical Clubs was enjoyed by all present. Let's have more of these. It will help to establish the good name of our college. More Textile men might have been present.

Again, we have nothing but praise for the way in which the recent mass meeting was carried out. It came on the birthday of one who deserves remembrance by a mutual gathering, Abraham Lincoln. The Musical Clubs were largely responsible for its success.

Don't forget to save your money for the PICKOUT. It is worth every bit you spend on it.

The Textile Players are in action again. Save the show date by all means.

We are planning another Textile Night. Keith's will be the scene this time and we have something new to offer. Make it a point to go. Let's divide into classes this time. What? The class presidents can have charge of the tickets.

EDITORIAL FROM THE PHILLIPIAN—Andover, Mass.

This is by general consensus of opinion the working term. Our faculty gives longer and harder assignments than in the others and expects us to handle them. However we must not imagine that we need all of our spare afternoons to study. The members of the varsity team have made such work as any of the rest of us in classroom besides the physical and mental tests of the sink, tank or floor. They spend their half holidays working for the betterment of Andover's athletics yet they seem able to keep up their studies. Therefore it does not seem at all unreasonable to demand that the rest of the school be present at these meets and games to support our teams.

The Phillipian

Comment—Lowell has a whole day off, Saturday. While Andover has only Wednesday and Saturday afternoons, why can't we double if not triple our attendance at Lowell Textile games on a Saturday. It gives them the best of opportunity and no excuse for remaining away.

Gleaned From The Press

A German chemist says he can supply liquid coal at half the price. That's nothing. A German今晚 supplies it at half price—and then goes.

There are no rivers, or should we say mountains. In the spirit world, says Corin Boyle. What do the older folk think about it?

One American dollar is worth $219, and Russian rubles. However, it doesn't follow that $219.00 rubles are worth one American dollar.

The trouble with the treatment of the crime wave is that they take measures that suggest treatment of a few dupes.

Mr. Ford's project for a street at Andover Schools means merely looks like an appeal for the trash can vote in case he runs for the presidency.

The list of "don'ts" issued by the New York public columnist as a means of avoiding being robbed might have been condensed into one, "Don't go to New York."

Practice makes perfect. Fourteen hours were stolen from the first game played by Ringling brothers.

In view of Corin Boyle's success in getting messages from the dead, we wish he would speak to certain branches of our industry.

Industrial troubles tend to show the wide difference between labor and work.

The trouble we see many of these potent leather shoes is that the patent expires soon.

Goodittle Avenue does not cross Faby Street.

Rockefeller has $7 for every person in America.—News Item. Try and get it.

"What will become of our young people?" asks a reformer. Oh, they'll grow old and worry about the young people.

PHI PSI NOTES

Jewett Fink was stopped in at the house the other day and announced that he is to become a member of the Ball and Chain Associates sometime in April. "Flegly" is now engaged as a solicitor for the Waltham Electric Company and has not yet parted with his Chrysler toady.

Phil St. 60 seems to be "Mrs. Simpson's" jam in school. It seems that Marty had to sign his name before Prof. Crashing would except him from the class. After a couple of weeks or erasers, Marty will soon be in top again.

"Mon" Leonard and Johnny Harper still have the champion one-cord radio set of thirteen stations. "Mon" convinced the boys that he could get Florida and stay stations with the greatest ease. The only stations he missed from are those along the coast of So. Africa.

"Joke" Galloway was "terribly ill" for a few days with some kind of "flu" but the doctors of getting out of steams and history exams proved too much for his constitution. This result was that he improved rapidly and is now playing well again.

James Hogue was home for the weekend and was entertained by Dave Ryan.

"Ken" Smith passed through town the other day, but didn't have time to stop long. He is working in Vermont and was on a business trip to New Haven.

"Mon" Stewart took a week's vacation, due to exams, and traveled up in Maine for a rest. The whole town was out to greet him—nevertheless, we're glad to report that he returned safe and sound to Lowell.

OMICRON PI NOTES

Paul H. Lundergan, "GK, has received a new supplement as manager of the Stiles Repair Dept., Waltham Watch Co. Congratulations, Ript!

"Hickey" Boyd was in town during the past week and called in to see the boys, as did Dick Wood, "23s."

Stanley C. "Get" Kingbury, who is selling for a large Boston wool house.

The Government, says Secretary Hoover, would like to hear from all consumers who have been overcharged for coal. Now, then, all together, ladies and gentlemen.

At times one can't tell which will get here first, prosperity or posterity.

THE TEXT

Sigma Gamma Psi Notes

Eta Chapter of the Sigma Gamma Psi fraternity takes pictures in announcing the pledging of the following freshmen:

Wolfe, Homan, Seymour, S. Dauke, Maxwell, Poppitt.

The officers for this year are as follows:

President, Jack Schollerman; Vice-President, Benjamin Gilchrist; Secretary, Alloys A. Tarnitz.

Delta Kappa Phi Notes

R. Deon Wolk, who spoke at a recent mass meeting in the assembly hall, is a D. K. man, having graduated in 1934.

"Scribe" Campbell keeps the boys amused by retelling his various poems under pressure. We think he will be called upon frequently to "do his stuff."

Bill Butler, "23s," has taken the final leap, according to the latest reports. He is said to have looked well before he leaped, and was much to the liking of the town. Mrs. Butler was formerly known as Helen Burr.

Another to join the ranks of the unfortunate, or are they, is Ferdinand Cady, "23." "Ferdie" fell for Margaret Finigan.

New tables are being shipped up to the house every day. They don't break; they merely burn up from excessive use upon certain parts of the anatomy of certain unfortunate individuals known as "serrets."

Newport controls all the processes from mining the coal to the finished intermediate and dyestuff.

Newport qualities are of the highest.

Newport vat colors (Anthrene) are America's standard of excellence.

"Summertime! Thanks, Walt and Ja-
not for the lunch in Mexico."

"She does not,80 hopefully, she
It. She said last night—"

"Yeah, I didn’t get to bed very early
of myself. Wish I could go to bed and
dream about a week."

"So I told him I thought I ought to
get a C at least, but he doesn’t like the
very well. That wasn’t too bad because
I know I hit the exam. And I always
hand my work in, too."

"What say we go up to Montreal
on this excursion? I’ve never been to
Canada, and I’ve always had a thirst
for travel, and bedbug—"

"Look at a date! Say, my next
check isn’t due for three days yet."

"Gee, I’ve got two courses in wool.
How much does an entire course?
It. It all the Pinkerton comes out.
Here’s one Prof. I’m going to try for."

There was a young fellow named
Burns.

Of dancing he never wore ties.
On the eve of a dance
While pressing his pant,
He burned off one leg with the Yron.

Father (to son): “Standing, boy?”
Son: “No sir, this is a Chestfield.”
Tufts-Textile

Tufts College star basketball player easily took Textile into camp to the tune of 11-12 Sunday night. The game was played in Medford where Tufts is impenetrable as a rule. Textile's poor showing was due to faulty movement and hard knock on close and comparatively easy shots. The Tufts team must be given credit, however, for they showed a distinct lack of panic and were brilliant on difficult angle shots.

Van French played the stellar role for the Jumbos and seemed always to be in the right place at the right time. For textile. Capt. Keeney and Dan Coffey played well. Hugh Burke had a tough night, missing several comparatively easy shots at the basket.

In the preliminary game Tufts Frenchman won over Brown Freshman, 17-13.

Where is the Thrill?

We have a picture in mind of a huge stadium crowded to overflowing with thousands and thousands of people—perhaps 30,000. Why do all these people join their way through the doors and multiplied swarms of humans just to gaze upon some athletic event which lasts only an hour or so? Some come as spectators, some as reporting teams and though the game is done as a matter of loyalty, it is always enjoyed and looked forward to. Some come for the thrill of seeing a huge crowd assembled together.

Others come merely as a matter of form and so that they might say they were "there." Those who come and really enjoy the whole spectacle are those who take an interest in the game itself to which they have been brought.

The question comes up, what creates and holds the interest of this happy spectator? There are many minor causes for holding the interest but there is one most telling factor which keeps the spectator interested. The intensity of the stadium may help, friends among the players may help, the crowd itself will tend to keep the spectator interested but the one thing that keeps the "fan" on edge and keeps him so that nothing could distract his attention is the uncertainty of the game—what will happen next? Some contests provide these thrills throughout their course, horizontally, other are dull and mediocre. The spectator is always waiting for the unexpected to happen and therein lies the thrill.

THE INSIDE TRACK

BY THE SPORTING EDITOR

Baseball, the national pastime, is already well on its way towards another large season. February is the month when the league starts their southward trek for the preliminary or boiling out session. Teams training close to each other have already hooked up series of exhibition games.

Dartmouth and Toronto are to be located at Augusta, Ga., the Athletics and the Baltimore Orioles at Fort Myers, the Braves and Providence at St. Petersburg—and so on down the line. Most every big league team has as an auxiliary, some minor league club from which to pick promising players and to which to send cast-offs. Having the teams located together helps the major league team get a line on the younger players of the minor association.

The redoubtable Suzanne has demonstrated that she is the greatest woman tennis player in the world. Our own Helen gave her a valiant battle for the honor, anyway.

It seems that Charlie Huff, the Norwegans, sensation, can do anything along sport lines. Not only is he the greatest pole-vaulter in the world, but he is also an all around track and field star. Boxing and wrestling are in his repertoire too. All these pastimes surely must give him the required exercise for humans.

Another new stadium is to be erected, this time in Chicago. It will be called Grant Park and will seat 40,000 people which is not so bad for a small town.

Al Miller, Harvard's heavy weight dash, won his latest start at the Portland Legion games last week. He beat out Frank Hussey and other fast starters in the 440-yard dash. The big boy is going great guns on the boards this season.

The eyes of sportswriters will soon be focused on the Big Bam once more. The Babe is just craving the action and will do anything to get back into the good graces of the fans again.

The title of "heavyweight champion" doesn't seem to have very much of a meaning when linked up with Dempsey's name. It appears that he will be an old man before he fights again but no matter how old he gets, he will never become much more unpopular with the fight fans of the country.

ALL AMERICA TRACK TEAM

New York, Feb. 16—All-America athletic teams for 1925 have been named by Fred W. Ruhlin, whose position as secretary of the Amateur Athletic Union makes his selections "official."

A college team and a scholastic team were selected, in addition to an aggregation of national track and field stars, which would undoubtedly take first place in any Olympic games.

Ruhlin's "All-America" team follows:

400-yard run—Loren Marchbohn, Newark A. C.

100-yard run—Frank Hussey, New York A. C.

220-yard run—Jackson V. Scholz, New York A. C.

300-yard run—Vincent Sally, St. Andrews' A. C.

100-yard run—Cecil L. Cooke, Salem Crescent A. C.

600-yard run—Alan H. Hellbrich, New York A. C.

880-yard run—Geor. M. Marsters, Georgetown University.

1000-yard run—Fred Hahn, Boston A. A.

1-mile run—Joe W. Roy, Illinois A. C.

2-mile run—W. Ritolo, Finnish-American A. C.

6-mile run—Geo. W. Lermont, Boston A. A.

10-mile run—W. Ritolo, Finnish-American A. C.

15-mile run—Albert Amberson, Grove A. C.

Skeelpchase—Russell Payne, Illinois A. C.

Cross-country run—W. Ritolo, Finnish-American A. C.

Marathon—Chas. F. McIlroy, Illinois A. C.

70-yard hurdles—Chas. Moore, Penn State College.

120-yard hurdles—George Guthrie, Ohio State University.

220-yard hurdles—Chas. Brookins, University of Illinois.

440-yard hurdles—F. Morgan Taylor, Illinois A. C.

1000-yard walk—William Plant, Morningside A. C.

3-mile walk—Harry Hinkel, Harlem Exc. H. S.

7-mile walk—William Plant, Morningside A. C.

Standing broad jump—Harold M. Osborn, Illinois A. C.

Running broad jump—Dellhart Habbard, Univ. of Michigan.

Standing high jump—Harold M. Osborn, Illinois A. C.

Running high jump—Harold M. Osborn, Illinois A. C.

Running hop, step, jump—Horner Martin, Illinois A. C.

Folie volant—Harry Smith, Los Angeles A. C.

Putting 16-lb. shot—Chas. House, Hollywood A. C.

Throwing 36-lb. weight—Matt McGrath, New York A. C.

Throwing 16-lb. hammer—Matt McGrath, New York A. C.

Throwing the discus—Glen Hartman, Olympic Club.

Throwing the javelin—Henry Baura, St. Stanislaus College.

Pentathlon—Paul Courtois, New York A. C.

Decathlon—Harold M. Osborn, Illinois A. C.

63 MARKET ST. LOWELL

Established 1837.
A College Man

As the Magicians Show Mees—

Noon—gets up, puts on a silk shirt, imported suit, and fur coat.

Norwich, 17 P. M.—He switches pocky golden yellow tangerine dollars, fables, and foreign Pall-Mall with a ten dollar bill.

11 P. M.—He and a high-flying, haggard, Pierce-Arrow and sprints down to the best theater in town to attend a hilarious musical comedy.

11 P. M.—Midnight—They eat a swell midnight lunch at the cheapest joint in town.

Midnight—3 A. M.—They sit in the parlor and crack, although rather loitering he is reading in the next room.

3 A. M.—He gives her a parting kiss.

6 A. M.—She and the rest of the boys return to their luxurious apartments and get dead drunk.

6 A. M.—They have all passed out, so the girls put them to bed.

As It Really Is:

7 A. M.—Gets up, puts on his clean shirt and a sailor made by Dobbs and Company of Spokane, Arkansas.

7 A. M.—Noon—Does the classes.

9 A. M.—Packed with a nickel-bill poker and various other games. Loses fourteen cents and proves off everything forever.

6 P. M.—Makes a meal of chickens in the shell, seafoods, hand-in-hand, and cold pack and home, in the college on the stop—dinner.

10 P. M.—After his girl gets out of work, they get on the street car and go to a parade.

10 P. M.—He, his girl, her mother, Aunt Martha, and Little Oscar look at the scenery album, the latter stolidly marking each brilliant remark on it. She, where is that piece of cheese he said she was going to buy home with her?

11 P. M.—He tells all the bald-goods, returns to the hole-in-the-wall in the college dormitory and finds everybody asleep.

11 P. M.—He makes a while, gets a breath of water and goes to bed.

She's been walking the streets all day.

"How do you know?"

"I've been following her."

Education is wonderful. Take the fellow who worked in the coal yard. He discovered that 1800 pounds make a ton.

Her: "May I come, too?"

She: "You'll never come to, unless you're sensible."

He: "Of course I play golf."

"Oh, hell. Played Pheasants once in a while."

"You're a liar. It wasn't built until 1645."

How to Study

After dinner, a few hands of bridge are efficient in clearing one's mind, followed by intensive concentration during which plays should have been best.

In view of future games, and to prove that the mentality and reasoning power of one's partner, beside those of the average housewife, are in truth insinuated.

By this time it will be a little after eight, and due time to begin preparation for the morrow's tasks. It is true that one should first make himself as comfortable as possible to his habits. In order that he may concentrate easily. Since it is a known fact that a good mechanic keeps his tools in good repair. It is next, evident that one sharpens his pencil till his pen, and all his idle chafe, after which he must make a tour of the house and collect his books. Next he packs his pipe, preserving until it is going to his satisfaction and then sits down to apply himself intently to his work.

In case the first subject proves difficult to master, one should lay it aside and give a hearty quotient to the object of one's affection. This will serve to take one's mind off his work.

Too long a period of concentration on one subject without results calls for the resuming powers.

One next turns to the knotty problem again, and unless it yields to solution, lays the work aside, at the same time making a mental note, by whom and from whom one will obtain the work the next day.

By this time one will feel rather exhausted mentally, and should visit the adjacent room in search of a half coolie. Very likely one will always read two or three in progress. Selecting the one which seems to be provoking along the lines which please him most, one should obtain a cigarette, select a seat, and assume a reverie.

Concentrating, facing, joining in with∨

There are no sessions in progress at the moment, recent one or two himred souls and start one of your own. The value of ball sessions cannot be overestimated. There is an infrequency in technical schools for undergraduates to become bored. The ball session equates this tendency, adding generally to one's education. A ball session conscientiously conducted, is a liberal education by itself.

After a deck of cigarettes later it will be about twelve o'clock. One should remember that with a student most one should have the necessary yard and avidity for knowledge, and should at this time govern himself accordingly.

Beginning is mind the purpose for which he was sent here, he will collect as much of his homework as he can from his neighbors, copy it neatly, tell it carefully, and place it in his various books, which should be scattered where they can be easily poked up in the morning. This done, he gets into his pajamas, brushes his teeth, turns on his light, and ascends to the frigid region to win Morlocks, with that mean feeling that comes with doing one's work with.

If followed carefully, a schedule like the above inexorably results in being placed on one or the other of the President's Lists.
