Who's Who Recognizes Alumni of Lowell Institute

A signal honor was recently made to the L.I.T. Alumni Association by the editors of the nationally known publication, "Who's Who in America." It is the practice of this publication to award Biennial Citations for alumni achievements;

The Alumni Association of the Lowell Institute is proud to announce that the following fifteen names have been selected for these Biennial Citations:

1. Edward N. Sorensen, member of the Class of 1951
2. Fredrik B. Edström, member of the Class of 1953
3. John H. Haas, member of the Class of 1954
4. James M. Olney, member of the Class of 1955
5. John F. King, member of the Class of 1956
6. Robert J. L. Thompson, member of the Class of 1957
7. Ronald A. Shriver, member of the Class of 1958
8. John H. Haas, Jr., member of the Class of 1959
9. William J. Haas, member of the Class of 1960
10. John H. Haas, III, member of the Class of 1961
11. John H. Haas, IV, member of the Class of 1962
12. John H. Haas, V, member of the Class of 1963
13. John H. Haas, VI, member of the Class of 1964
14. John H. Haas, VII, member of the Class of 1965
15. John H. Haas, VIII, member of the Class of 1966

These names will appear in the next publication of "Who's Who in America."

MIS-PICKS

by Ed Hayes

The author of this column is the presiding editor, the presiding editor of this column is the presiding editor of this column or whatever he is called. The presiding editor of this column will be the presiding editor of this column or whatever he is called. The presiding editor of this column is the presiding editor of this column.

Tomorrow the members of the Freshman Class will choose their new officers. All the candidates are working for office in the same issue of the next to the last issue of the TEXT. Read the qualifications carefully and vote for the person whom you think will do the best job. Your vote is important to us, and for each office it is important to you since they will be the official representative of the Class.

The Class President and the Student Council Representative will be delegation of the Class of '56 to the Student Council or whatever it is called. The TEXT will be the viewpoint of the freshman—of a point of view that most upperclassmen never dream of. It is your duty to your classmates and to yourself to vote sensibly. A student elected on a party ticket is the majority of the class will have voted for the class. Make sure he is the one who will do the best job.

Tomorrow also marks the advent of the first Honest Conventions to be held at L.T.I. For this convention, it was felt that musical entertainment would be appropriate. However, from where was this music to come? Here at Lowell Tech we have a matching lead supported by the ROTC. The school provides no musical activities for the student body.

L.T.I. prides itself on its growth as an institution of higher learning. To develop expanding opportunities for student activities, it has been decided this year to pay the costs of these activities to the best student body. Without a doubt, this will eliminate any accidents which might have taken place in the performance of the laboratory tasks. Though these occurrences have not frequented the front page of the L.T.I., there is no doubt in my mind that such things have happened.

The students have received the regulations with open arms. It is hoped that they may find the perfect excuse for not being able to finish that lab that was so boring in the first place. Of course, the student convention report is just one of these things that . . . well, who cares. This will enable the problem to seem in number: So Mike the lab teacher can afford to explain something at a later date, and the student will be able to finish in the allotted time. 2. The instructor can afford to explain something at a later date.

Since both student and teacher schedules are rather heavy, sometimes neither might prove very successful for carrying out the second solution.

The first solution would seem to favor the poorer student. The question is whether this would drag the work load of the better student downward, or whether it would allow the good student to work ahead of, for the course, the same might seem better. The second solution would be first provided the teachers and students do not care for such objectives. If drag to lead. Especially if the teachers and students. A student who might be the leader of the course. The most.

---

**CULTURE**

Several years ago, there existed on the L.T.I. campus a student organization known as the Film Classics Group. The object of the club was to present old movies to the student body. The films were shown at night in Essex Lounge and a nominal fee for screen ticket was sold to the students to cover the expenses. It is no good to go into the reasons why the organization never operated after those seemingly successful years. The point is that this group could once again provide the student with a similar form of entertainment that was underwritten by an enthusiastic group. But if the idea is re-born, it might be appropriate to increase in the student body. The leader of the group must now become the leader of the students. Without a doubt, this will eliminate any accidents which might take place in the performance of the laboratory tasks. Though these occurrences have not frequented the front page of the L.T.I., there is no doubt in my mind that such things have happened.

The students have received the regulations with open arms. It is hoped that they may find the perfect excuse for not being able to finish that lab that was so boring in the first place. Of course, the student convention report is just one of these things that . . . well, who cares. This will enable the problem to seem in number: So Mike the lab teacher can afford to explain something at a later date, and the student will be able to finish in the allotted time. 2. JOE BERGER
I was looking over the daily scroll of the other night, when suddenly a strange realization dawned upon me. No, I didn't get an inkling of Mrs. Nixon, informing us of her visit to Rockefeller Center, but, I was reminded of the first time the year before, when I was attending college. I was in the library, looking for a book, when I noticed a slight rustling behind me. I turned around and saw a beautiful young woman standing there. I was so surprised that I didn't know what to say. She smiled and said, "Hello, handsome." It was then that I realized that I was actually looking at the future First Lady of the United States. I approached her and introduced myself. She was very friendly and we began to talk about our college days. It was then that I realized how much I had missed college since I graduated. She told me that she was visiting the city for some work, and that she would love to catch up with me. I was grateful for her kind offer, and we exchanged numbers. I was excited that I would be able to see her again soon.

CAMPUS LEADERS
One of the most conspicuous students on our campus is... (text continues)

LEW SILVERMAN
...the 1954-55 academic year was marked by the return of many returning students, an indication of the return of normalcy after the war. Many of the returning students were involved in various campus activities, including the Student Senate, the Honor Board, and the Debate Team. They were joined by a large number of new students, who brought a fresh perspective to the campus.

SILVERMAN
...is that he is the 1954-55 student body president. He is a senior in the College of Arts and Sciences and is a member of Phi Lambda Phi. He is an active member of the Pickwick Club and was a member of the 1954-55 Student Senate.

The Suffolkian
...was the first edition of the campus newspaper, and it was published in 1954. It was a small four-page newspaper, and it covered a wide range of topics, including local news, campus activities, and sports. It was published weekly, and it was distributed free to all students.

The Suffolkian
...was the first edition of the campus newspaper. It was published in 1954, and it was a small four-page newspaper. It covered a wide range of topics, including local news, campus activities, and sports. It was published weekly, and it was distributed free to all students.

A Control
(CAP) — The case of the "uncontrolled gals" was brought to the attention of the campus community in the form of a series of articles in the Suffolkian newspaper. The articles were written by a member of the campus community, and they were published in the form of a column called "A Control." The articles were written in a humorous and satirical style, and they were meant to bring attention to the issue of the "uncontrolled gals." The articles were well-received, and they helped to bring attention to the issue of the "uncontrolled gals."
Soccer Team Ends Season: Marker by 6-7 Record

Tech Defeats New England, Brandeis; Lose 2-1 to Harvard, 1-0 at Brown

February Tech traveled down to Waltham and ther-
ishly defeated the Ephs by a score of 3-1. Although the Terriers' offense seemed to be too much for the locals and as a result, Bradford was never in the game. The scoring was dis-
estimated between K걷on Carlito Caputo's goal and Steve McNally's. Although the Harvard also "balled" the ball well for Tech, they did not score for a 1-3 final.

Several minutes later at the 45 minute mark, IBM lost another goal of the game with a bullet that past the Harvard goalie, went wide, and into the net. More of a "so what" in the net. The Terriers put on a great of-
game display as they tried to make an offensive team.

The game ended with the Harvard in the lead, 6-1. The Terriers were in for a tough game and the 2-1 loss was the last game for Tech in the season.

December 1 — Gordon at Lowell
December 4 — Montachan at Lowell
December 8 — New Hampshire at Draper
December 11 — Keene at Lowell
December 14 — New England at Antin, N. H.
December 16 — Worcester Tech at Lowell
January 4 — Beverly at Lowell
January 5 — Assumption at Worcester
January 12 — Chelmsford at Lowl
January 14 — Curry at Lowell
February 15 — Porter at Orange, N. J.
February 18 — Philadelphia Technical at Philadelphia
February 19 — M. T. at Connecticut
February 20 — New Bedford Tech at New Bedford
February 21 — Bradford Forbes at Lowell
February 28 — Montachan at North Andover

Spotting the Hoopsters

By MARTIN E. HIRSAI
1934 edition of the Lowell Tech basketball team has had a lot of the same reps. To the exception of Capt. and Head Coach Larry Horvath, the team has been composed of the same players as last year's squad, with the exception of M. T. and a few others. The team has been working hard under the guidance of the very same players who stayed with the game until the end.

The Sport-Lite

By ED SARATIN

This is the first in a series of columns in which personalities in the sport world will be quoted on their achievements.

We start out with a man who has been Director of the Athletic Program at Tech for the past thirty years, Lester H. Cushing.

Professor Cushing is a former high school and college student and a former high school and college student himself. He also stated that the day when Tech will once again have a fall track team would be an memorable day for the school because in his opinion, football is one of the only truly competitive sports in which our colleges may be represented.

Professor Cushing's present status at LTI is said to be:

A confidence
