Textile Defeated
By Brooklyn 18-0

Led by the highest scorer in the East, a fairly strong Brooklyn College team defeated Textile, Sid White, are running back for Brooklyn, scored all their points.

Textile was in scoring position three times but fumbles proved costly. The Yarnallian displayed a wonderful line defense but lost because of their poor pass defense.

The DI5 Committee
Meets in New York

On October 21, at the Hotel New Yorker, the DI5 Committee of the A. S. T. M. held its fall meeting.

Professor Herbert J. Ball of the Lowell Textile Institute was the only one present interested in paper on "Abrasion and wear testing machinery."

At this meeting Lowell textile institute was represented by the following members: C. E. Brandt, ’89; L. A. Devine, ’91; R. A. Davies, ’19; G. A. Cottrell, ’21; E. W. Foster, ’17; R. T. Fisher, ’11; H. R. M. Schloffer, ’16, and H. L. Swain, ’98.

Henry R. Dick, formerly in the textile was also present.

Annual Meeting
And Convention
of A. A. T. C.

The annual meeting and convention of the American Association of Textile Chemists and Colorists will be held on December 3 and 4 at the Bellevue-Stratford Hotel, Philadelphia, Pa. The Institute is well represented in this Association.

Dr. Louis A. Olney is the President Emeritus and Chairman of the Research Committee, while Dr. Harald C. Chapin holds the office of Secretary.

The Northern New England Section of the Association will hold a meeting, scheduled for the first part of November at the Massachusetts Institute of Technology. The main speaker will be Professor E. L. Sisson.

The Lowell Textile Institute's Student Section of the Association will hold their first meeting in November. The officers are Lee Gale Johnson, Chairman, and

NEW SORORITY AT LOWELL TEXTILE INSTITUTE

Office and members of "Phiane" the newly formed sorority at the Lowell Textile Institute. Reading left to right, first row: Miss Edgar M. O'Donovan, vice president, Miss Anita N. Dier, president, Miss Phyllis M. Baker, recording secretary and Miss Helen E. Jarock, corresponding secretary. Second row: Miss Alda J. Coss, Miss Louise Fox, treasurer, and Miss Larry W. Robbins, one of the founders of the sorority. Third row: Miss Joan M. Biron, Miss Dorothy E. Lewis, Miss Elizabeth A. Hastings, Miss Elmer Keiser, Miss Alice M. Woodard and Miss Charlotte M. Rich.

"Texte" Contest
Draws to a Close

The results of the novel, prize subscription contest sponsored by the Texte have been most gratifying. Most of the contestants so far have been members of the sophomore and the freshman class. As the juniors and seniors have fallen behind in entries, it looks as if it will be the luck of a sophomore or a freshman to receive the prize money.

The prize drawing will take place on Wednesday, November 16th, at 11 a.m. in Room 310. Subscribers to be counted in the contest will be accepted until November 15.

You may enter, thereby supporting your class, your school paper, and possibly yourself. Is your number on the Texte bulletin?

Results of Election
Class of 1941

Following are the names and addresses of students elected as officers of the Class of 1941:

President: Frederick R. Mason, Glendale, R. L.
Vice-President: Francis A. Murphy, Brooklyn, Mass.
Secretary: Miss Joan Biron, Lowell, Mass.
Representative to Executive Council: Maurice G. Philips, Southbridge, Mass.

The Parker Lectures

Dr. Moses Greely Parker was a well-known physician and a citizen of Lowell. At the time of his death, he left a sum of money, in trust, with the stipulation that the income should be used for the education of the general public through lectures, music, and art, that the city should provide a place where those lectures may be held, and that the public should have free admission.

The trustees are M. Theodore Parker, a nephew of the founder, Mr. Philip S. Marchi, the head of the Lowell High School, the Lowell Textile Institute, and the Lowell Teachers' College, the Mayor of the City of Lowell, and M. C. Colby Fessett.

The lectures, which are held at the Lowell Memorial Auditorium, begin each year in October and extend into the spring of the following year. The tickets are free, but may only be obtained by applying for them to Clarence M. Weed, Andover Street, Lowell.

Ekstrom Nomes

Frederic L. Ekstrom, the head of the Lowell Textile Institute, was recently named to the committee of college representatives who are to work with the governor's highway safety committee in an effort to reduce the accident toll among students.

Panzer Upsets
Textile, 19-0

The injury jinx has again been following the Textile team as they went down in defeat at the hands of Panzer College.

In the first few plays of the first quarter it looked as if we would register our first victory of the season as Mickey Gass led the Textile team on a march down the field only to be stopped by a fumble recovery by the Panzer team. The victorious captain on track to push across their first touchdown. Textile made a great light but Panzer had a hard charging and heavy line. Their backfield proved too fast and smart for our Textile boys.
**Ye Editor Rambles**

Ye Editor had the opportunity to witness one of the "Big Apple" type games in action last week. A football game involving seven girls performed their gyrations before a sophisticated audience; one certainly is prompted to quote the Bard of Avon in saying, "What fools these mortals be!"

"Savage and irreverent might be the adjectives to describe this latest dance craze. When the girls let the somber rhythms of dance numbers take possession of them and swing about and do precise steps, that arele be savage. Irreverent may be applied to the raucous war whoops of the early American square dance. To see the rustic folk dances joined up to jaunty, jazz songs, there seems to be carrying things a little too far.

"—Ye Editor, trying to learn "the Big Apple.""

**Did You Know...**

That this school finally has a testing laboratory second to none? All the equipment from each department was collected in a common properly "conditioned" room. All that prevails, a laboratory is inter-departmental, as is to be sure of our day subjects.

That this school has one drinking fountain and that one relies on the men's room fountains for ice to cool the water? In this era of electric refrigeration in a witnessing age, we are content to stuff some of that dastardly system.

**Shortsights**

A most gratifying feature of the Northwestern game was the large attendance on hand to witness the team breaking out of its slump. Although textile did not win, the play of the line was the best seen for several years and the backs seemed most encouraging in the first half but apparently could not stand the pace. Nevertheless, we're still cuttin' on the Roby band, ready to kick their stride in time to win two-thirds of the remaining games.

At present in the State of Massachusetts is a drive taking place known as the "Governor's Highway Safety Campaign." This campaign is sponsored by a committee of one hundred public officials and leading citizens, appointed by the Governor of Massachusetts to register motor vehicle fatalities within the state during the period ending January 31, 1922.

Hon. Charles F. Hurley, Governor of Massachusetts, is general chairman of the campaign, and it is his earnest desire that all operators of motor vehicles exercise care in the least amount of time during the above-mentioned period. Records show that during the first one month of the college year in 1923, a considerable number of students were involved in motor vehicle accidents.

Let's all cooperate with the Governor in keeping the highways safe in order that motor vehicle mishaps may reach a new minimum.

"Frequent water-drinking" is the special problem, "prevents you from becoming stiff in the joints." Yes, you might as well, "but some of the joints don't serve water.'

**Editorials**

**Freshmen Overwhelm Sophomores, 62-38**

The Annual Freshman-Sophomore Football Field Day was held Wednesday, October 27, 1927. The Freshman Five took place in the school gym, where the freshmen collected under the supervision of a closely contested game of basketball. The Freshman Five gave a brillian performance throughout the game and although the playing of the game was not mistakeless, they lost much of their force in the second half. Siegel, very effective throughout the game, was one of the most capable players in the defensive work. Gann and Ferneke equally acquitted themselves on the offensive.

The summary:

**FRESMEN**—Pernick, Make; M. McCallion, Gann, Ferneke, Gann. 

Source: Freshmen 29, Sophomores 16.

**Can't**—Yarbrough, Culp, Cold, Fricke.

"Class of '27 is the most capable, and already a rival with the class of '28."

**The engineering society here at the Textile Institute is by no means attended, the A. S. M. E., but is known by the new name taken on, "The Flame," but the "Flame." That's all we can say about you. Maybe you can figure it out.

**COOL**—We're not only all through this game, but we're also out of this season completely."

**COOL**—We're not only all through this game, but we're also out of this season completely."

**Here and There**

This section will be devoted to a little bit of correction just in case anyone is a little bit vague on some of the statistics in the last proof. The Business Manager read the proofs.

From the "Did You Know" column, we take our first problem. As published the page was between the 1930 gift and the gift of Battery B. It was given by the Class of '38. Consequently, in reality the donors did not intend that it be an entrance was certainly needed.

**The engineering society here at the Textile Institute is by no means attended, the A. S. M. E., but is known by the new name taken on, "The Flame," but the "Flame." That's all we can say about you. Maybe you can figure it out.**

No, there are not two classes of 1949. No doubting the evidence that the lower column should have been titled Class of 1949.

The latercomer really hasn't any nickname. It's really Bob Pyle.

**Please forgive our errors. We're only human. Nevertheless we shall endeavor to prevent too many slips in the future. Humble apologies from Ye Editor.**

Omicron Pi News

By ARTHUR COHLES

Omicron held its first party of the season on Saturday, the 16th of October in the form of a scavenger hunt and informal dance. The winning scavengers were Ken Fox and Si White. "It is to be noted," said President Jackson, "that no one was permitted to be seen off campus without a scavenger on their arm." The prizes were awarded to the winners, who were shown to the dance floor by the scavengers. The dance was enjoyed by all, and was considered a great success.

PHome Sorority Notes

This is the initial publication in the Text of the new, all-female Sorority of the Lowell Textile Institute. This group was founded in March 1997, by the girls attending the Institute, namely, Anita Dori, Edith Douchin, Phyllis Barker, Louise Fox, Helen Jarek, Loyd Robbins, and Marion Caldar. Dorothy DeRose was made the initial sorority president, who is an honorary member.

The sorority's constitution was drafted by Anita Dori and Phyllis Barker and was subject to the approval of the other members.

Thus for the sorority has held five meetings and many plans have been made one of which is to accept the former girl graduates of the school as honorary members.

Mrs. Louis A. Olpey and Miss Foote have accepted invitations to become official sponsors of the sorority.

The sorority in the near future will hold a formal initiation of the new members. On Saturday night 10/31.

To eliminate any further confusion the initials of the name PHMaen, it must be stated here that the initials of the founders constitute the lettering making the name up.

The official sorority for the current year are: Anita Dori, President; Edith Douchin, Vice-President, Phyllis Barker, Recording Secretary; Helen Jarek, Corresponding Secretary; Lorraine Foote, Treasurer.

It seems that Edith made her breakfast the other morning and burned two fingers in the toaster. The offerings of Textile should have a course in cooking for some of the coast.

Maybe you don't know it, but Edith has recently showed some of the girls her inspiration of a kangaroo jumping down two flights of stairs.

The section of the paper featuring the ladies should help some of the football players to get the word out.

Personals: Helen, why do you have to shirk at the football games?

Andya, do you have to be so noisy in everything you say or do?

Alda, do you really like to have your name publicized in a certain column of a daily paper?

Eilen, can't you be a little more discriminating in your choice of reading material? Eileen, 137.

To the French Girls—won't you please try to keep the table in the Girls' Locker Room clear of books, papers, and the like?

Delta Kippo Phi

By JAMES F. LYNCH, Jr.

Francis Quality achieved his god. He made the New York trip with the football team.

"Sugart" Monahan had a run of the latter. He had every trouble possible except a first date. That arrived two days ago.

Patsoszak and Karegestes, the Greeks, remarked that the treatment was very mild.

Pledge Welford now enjoys the weeks-end broth while.

Leo Sheehan, the candy boy, won the fifth quarter of the moon shines over Lowell.

The absence of Joe Maloney's automobile has been noted lately in the vicinity of the St. John's Hospital.

No remarks from Brother Marsh on the results of the election. The book was failed him in a pinch.

"Sugar" Monahan entered the "26 Road Race" last week. He had a good time. He is quite well.

The woods of New Hampshire have no more interest for Harris, our basketball team, than a baseball plant taking up its evenings now.

Snod is a noted commentator on the fiery Quinoa-Olloa crisis in early "O." 35

Will Campbell and several of the prominent athletes for the Northeastern game, visited the low house and cast many favorable comments.

Johannis Gill finally got in the "swing" of the session at the house last week.

Annual Meeting

And Convention of A. A. T. C.

(Continued from page 3)

Hugh Francis Carroll, Secretary. All students of chemistry of the Insti- tute should be present in this Association, for it brings to you, at least some advantages.

All members receive the monthly "American Dental Reporter," the official publication of the A.A.T.C. This, in itself, greatly helps the high price of the meetings. Members also receive the year book of the Association, which is an invaluable aid to the Association, which is a great help to the members who are not available for the meetings.

The eighth annual meeting of the American Association of Textile Research will be held on November 19 at the Hotel Commonwealth, and the Proprietors of the Looms and Dams on the Merrimack River.

-Southwick Hall was contributed by the corporation of Massachusetts and the shipping Anerican Fanning Ayer, Esq. It is a mea- sure of honor to the city and to its supporting manufacturer, a public man of early days, and a mater- ial acquaintance. The Institute is founded.

-Kirk Hall, dedicated to the memory of Richard Kirkman, was built by the Sons of Kirkman, and the daughter of the Organizing Committee of Lowell, founded him, was also a generous contributor.

**Freshman Facts**

by E. KEISER

Did you know that Alice is a fisherman in town carrots for the complexion? **

Did you also know that the "Candy Man" rates high with the freshmen girls? How about a discount for this, Charlie? **

Overheard in Textile Design: John Brown says, "My twills just aren't! Oh, joy!" **

Of great joy to the Phi Psi pledges is the decision on the part of the fraternity to initiate pledging this year. Maybe they won't get paddled, but... **

Flash! Charlotte is "going New York." **

Contrary to a bulletin in an early Text, Dot is not well-taking care of in Chelmsford. There are no armies available at this time. **

Did anyone notice the beautiful slow motion dive made by Mickey Finn in the first play of the Freshman - Sophomore football game? **

**

**Current Question: What started the freshmen eating foin aunts?**

Leary: "John and his furniture lived in the very small room." **

**

**Textile Bows To Northeastern, 18-0**

A strong, highly favored Northeastern team defeated a determined and stubborn Textile eleven. The Huskies made two one-yard runs in the first three plays but could do no more as the Milliners line tightened up and played a brilliant defensive game during the first half. The Milliners outplayed the favorites throughout the first half. O'Connor displayed powerful line plunging as he led the Textile attack. With three seconds to play the Huskies put across a touchdown to end the first half. The try for point failed.

Early in the third period Northeastern was on Textile's three-yard line with four downs to go, but failed to put the ball across the Milliners' goal line. A thirteen-yard run through center netted the Huskies their second touchdown. A pass for the extra point failed.

Northeastern's reverse plays proved too much for the now weary Milliners. A fake reverse play scored the third and last touchdown for the Huskies. A third attempt for the extra point again failed.

"Tuffy" Birchie, Pei, Reddish, O'Connor and Grodin played well for Textile.

**

**Class of 1939**

by ROBES and EV

Hope you enjoyed the Junior Class Dance. Everyone seems to agree that the music was good, the decorations appropriate, and that they had a good time. The credit for this success goes to Phyll Baker, Samu1levin, Jack Gertzen, Ted Fox, Fredley Ekstrand, and the other juniors who helped put it over.

The juniors still remember the extra days got from the last petition. AL Bean and the general engineers went out and purchased the book "How to Make Friends and Influence People," to help him in his work. We wonder where the objection comes in?

The general engineers went out hunting for the "Influence People" to help him in his work. We wonder where the objection comes in?
