FRESHMEN WIN ANNUAL GAME WITH SOPHOMORES

McGee's Freak Touchdown Feature of Well Played Game

In the annual class football game between freshmen and sophomores, the punters emerged victorious for the first time in several years. Coach "Hurry" Gragg had welded together a strong aggregation which the second year men were unable to stop.

The game started with a rush, the freshmen calling the ball down the field immediately after the opening kickoff. After gaining inside the twenty yard line it was the first down to go. With about one minute to go in the first half, there was no further indication although the freshmen were a constant threat.

The start of the second half, the sophomores started a drive for the goal line that resulted in McGee's first touchdown of the year. With the score tied 6-6, the teams battled on an even keel until the close of the first half. With about two minutes left to play, a sophomore kick was blocked and recovered by the freshmen on the opposite twenty yard line. On the second try, Folder threw a long pass deep down the sideline where it was intercepted, and it set up the highlight of the afternoon.

Through the efforts of Robert W. Perkins, the Textile Service Association has been organized during the past week. This organization will take the place of the old Textile Christmas Association, and also hold student entertainments. The Textile Service Association is the most important and of the present year one of the most necessary works that will be undertaken in the establishment of an employment bureau where students may register for work. It is evident that this department will have charge of all applications that come into the school and also to advertise to the local papers.

The T. S. A. will put on the annual Textile day at the school and it should be better than ever. It will be open to the students to assemble from the departments and make up the school spirit with their music and moving pictures. The committee on student affairs should prove a most helpful one in straightening out some of the matters in regard to student life. This is an organization in which every student should be entitled to have the heading of the next term, so it is bound to take its place as a regular organization.

The following men were elected as officers:

Robert W. Perkins, President; L. Hudson Logan, Secretary and Treasurer; Arthur Bowditch, Assistant Secretary; and Percy A. Yeates, Faculty Adviser.

New Members:

Robert W. Perkins, President; L. Hudson Logan, Secretary and Treasurer; Arthur Bowditch, Assistant Secretary; and Percy A. Yeates, Faculty Adviser.

Orchestra And Double Quartet Entertain At The Parent-Teachers Meeting

Short Program Given In School Auditorium

By special invitation of the Parent-Teachers Association of the Burlington School District, the Textile Quartet and Orchestra entertained at one of the regular meetings held at the Audubon Club last Wednesday evening of this week. This was the first official program of the Textile Musical Club and the response was enthusiastic. The program opened by a medley played by the string orchestra which was led by Raymond McBride, Jr. The double quartet then sang "The Prayer of Thanksgiving" after which the quartet and orchestra played a number of popular songs and the quartet sang "Written Over Two Years Ago." The program ended with "Alma Mater." After the entertainment, refreshments were served by the students of the department.

Ralph S. Jordan, President; L. Hudson Logan, Vice-President; Robert W. Perkins, Secretary and Treasurer; Percy A. Yeates, Faculty Adviser.

The awards were presented to the following: James A. Magee, Assistant Business Manager; Walter U. Brown, Student; Jerome Franks, Student; John W. Worley, Student; Robert W. Perkins, Secretary and Treasurer; Percy A. Yeates, Faculty Adviser.

New Members:

James A. Magee, Assistant Business Manager; Walter U. Brown, Student; Jerome Franks, Student; John W. Worley, Student; Robert W. Perkins, Secretary and Treasurer; Percy A. Yeates, Faculty Adviser.

The Textile Service Association is organized.

The Textile Service Association has been organized during the past week. This organization will take the place of the old Textile Christmas Association, and also hold student entertainments.

The Textile Service Association is the most important and of the present year one of the most necessary works that will be undertaken in the establishment of an employment bureau where students may register for work. It is evident that this department will have charge of all applications that come into the school and also to advertise to the local papers.

Shaw's performance, however, was received with rapt attention. The audience was completely captivated by his superb acting and delightful wit. After the performance, Shaw received a standing ovation from the audience, and many students expressed their admiration for his talent.

The evening concluded with a musical performance by the school orchestra, which was conducted by Mr. Eames. The orchestra played a variety of popular songs, including "The Star-Spangled Banner" and "My Country 'Tis of Thee." The performance was well-received, and the audience sang along with enthusiasm.

The evening was a success, and it was clear that the students appreciated the efforts of the faculty and staff to organize such an enjoyable event.
THE TEXT

STUDENTS WANT A COURSE IN "HOW TO LIVE"

Rutgers students want to know "How to Live."

Intelligent living is one of the main proposals in an undergraduate report on the state of Rutgers education (modelled after the famous Dartmouth Report). The proposed course would consider the responsibilities of fatherhood, sex hygiene and the fundamental principles of psychology. While athletics is also proposed by these students who have been considering the needs of Rutgers for six months. A full professor would head this department. It is suggested that each student be required to minor in athletics.

"The committee feels that some of the apathy in students at the present time is due to no small degree to the methods of teaching and the phases of life that make. It is felt that there are many instructors who have been deprived of their opportunities as a given field because of their abilities as teachers."

The report proposes introduction of the honors course and abolition of compulsory military training.

Y. M. C. A. OF THIS GENERATION MEETS AT MILWAUKEE

"For this generation—it will be Milwaukee," announces the Y. M. C. A.

In contrast, this means three thousand students under one roof: the Milwaukee auditorium.

In conclusion, it means that the Y. M. C. A. can possibly work through the agency of its regular galaxy: G. A. Studdert-Kennedy or "Woodbine Billy," Charles W. Gasky, Kitty Page, Bruce Gentry, Minnie Johnson, Harrison Elliott, Henry Shaw, Collin.

The topic is the radical one of Christianity itself: the question what it means, and what it was to mean.

The trains will pour into Milwaukee three days after Christmas, as in other years. The train will be divided into mid-Western stations at Des Moines in 1919, the date of the last Y. M. C. A. train, and there was the question of the Y. M. C. A. train.

The Milwaukee Y. M. C. A. train is due in Des Moines in 1921 for the Student Volunteers in which the Y. M. had a share.

FEWER RULES, TRADITIONS AND CONFORMITY

Dean Armstrong of Northwestern announced in a speech that the present student body has been demanding a week in the management of its own affairs. We have just recently granted membership to four students on the highest faculty board for the supervision of student activities.

The Student Council of the University of Texas (Okla.) decided on the matter of the system first made up in 1919. It adopted the following: "I. The student council goes on record as being against cheating of any kind. 2. Any member of the council found cheating shall be automatically expelled from the council." All of this ought to go without saying, but it always has to be said.

The Cornell Daily Sun, having found a tradition on its campus costly, cumbersome, and silly, proceeded to try nailing it out. Junior Week was its name, and its effect hollow-eyed, and expensive. The duty imposed by the week was that of glorious merriment for three days and nights, so it appears; for, as the Annual News shows, this was one of the greatest and most expensive merriments of the year.

The freshman class is going to hold its annual Froshmen-Brosseau Dance December 22 in Student Union Hall. This dance was sponsored last year by the class and if the affair is half as good as it was last year it will be "all right!"

The Delta Kappa Phi Fraternity held its annual Froshmen Tuxedo Dinner December 1. From all reports the bonnie was a great success.

STUDENT CO-OPERATIVES IN TROUBLE

Whether or not the university Co-op which supplies Wisconsin students with textbooks at low rates is truly a co-operative will be disclosed at a coming investigation. The Gatwood Book Company, a competing firm, brought charges. The business practices of the Co-op will be aired in the coming investigation by Harry Rentor, state official responsible for the enforcement of co-operative laws.

Meanwhile the co-operative girls dormitory at Ohio State University was temporarily discontinued, though its sponsors report it a workable plan. The dormitory is offered for sale and its supervision is looking for another place to carry on the idea.

Under this plan the students were able to secure rooms and board for $8 a quarter. Each girl works for two weeks, caring for rooms or assisting with the cooking.

BASKETBALL MEN REPORT
Prospects Are Good for a Successful Season

On Monday, Nov. 21st about 25 men, most of whom were veterans on the squad and reported to Captain Kenney for the entering season. Captain Kenney gave a short talk to the entire squad stresses particularly the factors of condition, training, strength, practice and the spirit of cooperation, all of which are necessary to build up a winning combination.

The team will be supplied with several veteran of former years although the loss of "Hank" Pikel, "Benny," and "Bunny" Colby will not be felt. Due to an operation, "Bunny" will be out of the game until a later date at least.

The letter men back however are Captain Kenney, "Jumbo" Logan, "Norm" Marcellus, "Benny" McKay, "Lou" Goldbarn, "Johnny" Lockwood and "Hank" Greenwood, all of whom the Manager, Crane, is looking for.

None of the regulars are by any means sure of positions as Carpenter, Burns, Cole, Gray, Marcellus and others among other promising talent are all battles for a Varsity Job.

"Bucky" Ryan, 78, in managing the team is the captain and is striving to help out the team by "Jack" Stewart, 29.

Wedge Gate Valve

NO. 437
Subcontracted to hydraulic pressure from 500 to 2000 lbs., and withstood 2000 lbs., without leaking. Recommended for pressures up to 150 lbs.

Through Your Working Career

When commencement is over and your working days begin, Crane stands ready and glad to advise with you regarding numberless problems of equipment. Crane will co-operate with you as it has since 1855 with the engineers who have preceded you. It was Crane that first began the systematic testing of metals to determine their reaction under varied conditions of pressure and temperature. It pioneered in the chemical control of raw materials. Into the valves, fittings and piping materials now offered, 71 years of experience has been put. This experience is devoted to your service.
OMICRON PI
Most of the boys went home for the Thanksgiving holidays. Among these left to their unaided desert were Car- lotta Serrano and others. It is believed that they had a fairly respectable time.

During the holidays, Dr. Freeman Andrews '26 dropped in to see the boys. He is said to have found the chemistry course quite well adapted to the art of storytelling.

Bob Chase came up Friday and spent the night at the house. Win- Cody '25 showed up and was much disappointed to find the house empty.

At lever had a touch break last Monday night. He sent Hard's card over to the tailors for cleaning. Thinking it was his own, Al has the sympathy of the brothers.

Andy Beavonell nearly trod a cobblestone home in his revolving bug, leaping, native to only such as he, prevented the denouement.

Ed Johnstone, who casually put a job of the smoker crier in his suitcase, had reason to regret the action. The bug expatiated and just put rougher cool suitscases, not to mention the ceiling and surrounding landscape.

Ed Wingate and Larry Gunt- schnitz would like to hear from them capable of constructing a mouse trap with materials such as a shadow, piece of string, etc.

A campaign of bed wrinkling is on at the House. It is hoped that few will follow the example of Brother Williams, who after extracting a Bol- gian blank from his bed, tried to bounce it on the floor.

That's why Camel is the most popular cigarette ever made. In all tobacco history there has never been a cigarette preference like Camel's. Nothing is too good or expensive that will make Camels the world's finest smoke.

Camel is the friendliest cigarette ever made. From early morning to night's last reluctant parting you just can't smoke enough Camels to tire the taste. Camels are the celebrated smoke that brought an end forever to cigarette after-taste.

If you've not yet learned how really satisfying a cigarette can be, just try Camels. Into this one cig- arette the world's largest tobacco organization puts every good qual- ity that could be wished for in a cigarette. All the mild and mellow fragrance. The most perfect blending. The utmost in smoking enjoyment and contentment, regardless of price.

Have a Camel!
