Blast Investigation Started
Trustees Form Committee on Safety

An investigation on the propane gas explosion is being undertaken by the office of the Attorney General according to President Olsen.

Olsen made the statement at last Thursday's Trustees meeting when giving a report of the recent tragedy at the Perini Construction site. Olsen reviewed the facts of the explosion and cited Perini's permit violations.

Olsen said he had contacted the Attorney General's office a week ago and had talked to one of his representatives and requested an investigation. The investigation is to find exactly who is at fault in the incident.

Attorney Lapon asked Olsen what the general level of safety was at the Institute. Olsen replied, "Not what I would like. We are beginning to look now at every aspect of safety, but our funds are limited."

A scholarship was proposed by Olsen in memory of Thomas Brogdon and a moment of silence was held in memory of those dead and injured.

A committee on safety was set up after Lloyd Cuttler spoke out emotionally and effectively on the safety hazards at the Institute.

Cuttler stated that Lowell Tech's lack of safety is about to run out. He cited a few of the safety hazards at the Institute, commenting on the fact that we have a highway running through the middle of the campus with no provisions for safety in that area.

After several attempts by Chairman James T. Curtis to silence him, Cuttler continued to demand that the trustees listen to him. Curtis replied that they had listened to him and that there was an agenda to attend too.

Finally a committee was formed to hear and make recommendations on the students' complaints in the area of safety. The committee appointed Trustees Lapon, Noble, Dorain, Mayor Sampson and Student Trustee Gary Remier as chairman.

Representative Sheehy then spoke to charges made by Trustee Lapon in a letter to the governor charging Sheehy's censure of LTI's request for $69,000 for a Presidential Search Committee as "petty politics by a petty politician." Sheehy continued for about 20 minutes and finally challenged Lapon to do in his entire lifetime what he (Sheehy) had done in five years for LTI. Lapon remained unperturbed throughout the tirade.

Trustee Dorain spoke against Sheehy's remarks saying this only reinforced his view that a major problem of the Institute is its parochialism. Dorain stated that Sheehy's comments constituted the "most outrunish of performances."

In other areas the trustees were told that it is legal to cancel the charges that the city of Lowell had accumulated through its use of the hockey rink. The Athletic Association will review and reform its policy on the selling of ice to outsiders. (Continued on Page 3)

New Freshman Program Proposed

A new freshman program was given preliminary approval by the Board of Trustees at their last meeting. Professor Raymond Hardy was appointed director of the new program. This program was formed in order to keep freshmen at the Institute in the Institute.

The present freshman course is made up of four subjects: English, Chemistry Principles and Lab, Calculus, Physics and Physical Education. The new freshman program would consist of Chemistry Principles and Lab, English, Physical Education, College Math and a Freshman Seminar. Physics would be held off until the second semester.

The College Math course would be four credits. This would amount to an additional seven weeks of instruction over the two semesters. The additional time would help to give the average student a better background of math and would enable him to do better in Physics second semester according to Hardy.

The freshman seminar is a very flexible program at this time. Hardy, who made the presentation before the trustees, stated that it could be used for practically any purpose from giving the students a background of the Institute to a semester long discussion on the social obligations of being an engineer.

In the first semester, the students will begin to be tested and be placed in the honors or standard track. (Continued on Page 3)

LTI Building Authority Cites Safety Hazards in Annexes

The Lowell Tech Building Authority has recommended that the State purchase the houses and property behind the library and old dormitories presently owned by the Authority. The purpose move came as a result of a report from Prof. Kenney Rodgers concerning the dilapidated condition of the annexes. Rodgers pointed out many safety hazards new existing in the main hall dormitories and stated that it was questionable whether those houses met minimum safety requirements. He also revealed that many serious accidents could have occurred except that the situations had been called to his attention and immediately rectified.

The report of the building committee in the basement of Annex 5 were almost totally rotted and there was a distinct possibility that the house could have collapsed. The situation was remedied by replacing the old wooden columns with standard metal supports. This is only one instance of many that were cited by Rodgers.

President Olsen supported the idea of the State purchasing the annexes, stating that they were not originally designed for heavy student use and they were showing it.

The Building Authority pledged revenue to make immediate repairs that would be recommended when the annexes are surveyed by a safety inspector which will take place in the immediate future.

MICHAE L CASEY
-A 1968 Graduate of Lowell Tech
and a winner of the 1972 Yale Younger Poet Award
for his work Obscenities-
will read selections of his poetry Thursday, March 23
from 1:00 - 2:00 PM in B-214.
Students Can Register in Lowell Now

According to the city of Lowell Election Commission, residents of Lowell Tech who have been residents of Lowell for the past six months may register to vote in Lowell, provided they are at least 18 years of age and are, of course, not registered to vote anywhere else. While this means that students of Tech who have been living in Lowell since last September, including dormitory students, will be able to vote in Lowell in the Massachusetts Presidential Primary on April 25, if they register at the Election Commission at City Hall before March 25.

The Greater-Lowell McGovern for President Committee will conduct a voter registration drive at Lowell Tech this Thursday, March 23. Transportation will be provided from Tech to City Hall that day at 10 am, 12 noon, 2 pm, and 4 pm for any student who is eligible to register and who wish to do so. Elec will leave from in front of Southwick Hall and from in front of Welch Hall. For further information, please contact Jerry Young, Box 2399 or McGovern for President Headquarters, 31 Herrick St., Tel. 455-6125.

Inmate Program—Good for All

The education program for inmates that was proposed at last year's meeting is indeed a good idea. Basically, the proposed program, still in extremely early stages, would consist of bringing inmates from the Ellinna House of Corrections and giving them six and twelve week courses in the areas of the social sciences and industrial mechanics.

It was the unanimous opinion of the Board that this would be an excellent field for the Institute to involve itself in. The Text agrees.

The services rendered by such a program would be one of benefit to the inmates and the community as a whole. The Institute will be able to help these men in their overall rehabilitation.

Mr. Winfield Russell, a counselor for Youth Incorporated and an ex-convict, conveyed to the trustees his feeling that the Institute could be of great service to the area inmates.

Trustees Lapon, Mitchell and Curtis all spoke in favor of the program due to its multiple benefits to the community.

The trustees voted to encourage Professor Chase to continue investigating the possibilities of the program and to get in touch with the faculty to see just what their feelings on the program are.

Judge Mitchell, was of the opinion that we should jump at the opportunity of this proposal. The whole idea of this program is good and has been worked successfully at other institutions of higher learning.

The institution of such a program at Lowell Tech would indeed be a large step forward for the Institute in the area of community service and could only benefit those who participate in the program.

Help McGovern—Help the U.S.

Is it possible that Senator McGovern might win the democratic nomination in 1972 and then go on to defeat Nixon for the Presidency? Yes, it is possible; Senator McGovern proved he is a strong national candidate in the New Hampshire primary by getting 37% of the vote. Senator McGovern has continued to increase his support while Senator Muskie's support has continued to decline and after his defeat in Florida he is no longer the frontrunner. The democratic nominations is now a wide open race where anyone can win.

The Massachusetts primary will play a major role in who will win the nomination. Senator McGovern will be making a major effort to win the Mass. primary and we need your help. We need your help to carry the towns here at Tech and to help form a strong McGovern organization here on campus.

We need help in our voter registration drive. Most of us need help to make sure that we do not vote at school.

This weekend we will be helping the Lowell McGovern headquarters in registering voters in the city and the following weekends up to the primary we will be canvassing Lowell and surrounding cities.

If you would like more information or want to help call Jerry Young 957-1035 or come by our table 3rd floor corner of Kimball and Falmouth.

Don't forget to register to vote by March 25.

FRESHMAN UNITY WEEK APRIL 5 - APRIL 8

A week of fun. There'll be girls everywhere! We want your help and talent.

Wed. April 5 - 7:00 Variety Show in Cumnock Hall. Come show what you've got.

Thurs. April 6 - 8:00 Dance Featuring "Junior Circle" at Cumnock Hall.

Fri. April 7 - 12-2 KITE DAY; 12-2 SUB DAY; 8:00 COFFEE HOUSE

Sat. April 8 - 1:00 Swim Party with games and surprises; 8:00 Flashboyant Apparel Nite

Help Bring State and Tech Closer Together.

FRESHMAN UNITY WEEK APRIL 5 - APRIL 8

Student Lounge Initiated

Several students met with Dr. Rigby and Prof. Rogers to discuss the minimum amount of work on the student lounge. This lounge will be located in the basement of Southwick Hall just below the Chemistry lecture-room.

It was decided that the school would supply the necessary furniture for construction of the lounge and furnish it, and the students would supply the labor and the materials. Dr. Rigby assured the students that approximately $1000 would be secured to finance the lounge.

Everyone agreed that this definitely needs a lounge on this side of the river so students can spend time together, relaxing between classes. Plans were also discussed concerning a student owned and operated coffee shop in the lounge. Work on the lounge can start as soon as the funds are available.

Another area which will be converted into a student lounge in the future is the place now the south door of Falmouth Hall. This room is ideally located and has favorable potential as a lounge, including facilities for a snack bar.

LITTLE MAN ON CAMPUS

**Letters to the Editor**

All letters to the Editor should be signed. All signed letters will be printed without censorship. Censorship on unsigned letters or letters with a pen name will be left to the discretion of the editors. There is no length restriction on letters.

**There'll Be Some Changes Here**

On Saturday night, March 11, two dozen students broke into Leitch Dining Hall and stole about $10 worth of food. It's a deal, right? Everybody's been doing that all year and nothing has been done about it.

Well, not anymore. Two were caught and given the choice of going to court for the felony charge of breaking and entering or withdrawing from the Institute. Either way, they would have been out of school at least a year and had a lifetime time over getting back into college again, anywhere.

They lucked off with expulsion from the dorms (no refund) and disciplinary probation until next February.

The next person caught by the Security Force, or Dean King's staff (RA's, others), for a similar crime will be taken straight to the police and booked. Think about that.

Pissed off? Sounds like a person? Well, now think about what causes him to be.

It was to be that the security force was off campus at 11:00 pm and any infractions were brought to the judicial boards in each dorm. That's when we make mistakes without guards watching over us. By the continual break-ins, rip-offs, we have proven we are still high school kids. True, this is partly due to the RA's and the rest are not involved. The judicial boards are a waste because the students don't take their commitals to heart. The screw-overs just keep going until the pressure gets put on the security force to stop it. And they come down hard.

Like to see the guards disappear again? Then get involved. If you see or hear someone ready to break out of bed or destroy someone, step in before law and order. Nobody wants a criminal record, and nobody wants the security force watching over every move we make, either.

Greg Houston

**I.D.C. President**

**QUESTIONS**

When we are teaching how to wake up, how to get up, and shake up our school, force our school to advance ahead of the 1970's? When will we get together and realize that apathy is another word for death? When will all the kids at school learn to spell S-P-I-R-I-T or A-C-T-I-O-N or L-A-B-O-R? And how will we be aware of an atmosphere of social interaction and togetherness? Or teach a little bit of philosophy, since we have never learned ourselves? Just when it appears the Tech is selling, something squashes that momentum, the end of a season, or the closing of a coffee-house, or the introduction of people moving forward, or the growth of apathy and death.

Personally, I get sick of asking the questions, searching for the answers, of fighting for the rights for all at the expense of mine.

Unless a majority of you learn to mix questions with WHY, WHAT, and HOW, when and where the Tech will continue to ripen on the vine until it rots, will continue to produce wise Denizens for wrongs for incompetence, and continuous to cover up its mistakes and deaths. But only if you let it.

Jerry Bridgman

**Blast Investigation**

(Continued from Page 1)

I am enclosing a copy of the Rules and Regulations Governing Disciplinary Procedures and Appeals for Academic Violations which is currently being formulated by the Student Affairs Committee of the Institute Council. This document will, in addition to other things, encompass the student's right to appeal whenever he feels that his has been treated unfairly in academic matters.

I am enclosing a copy of the K-203 12:00 waste faculty T requested for recording the formation of such a board if a proposal was made by the students.

The subcommittee of the Student Affairs Committee with formulating these rules and regulations is composed of two undergraduate students, one graduate student, four faculty members, and the Dean of Student Affairs. Significant progress has been made to this point and the results of the subcommittee's work will soon be released. It is beginning to report that all of the rules that have formulated in the rules and regulations has had unanimous approval by all members of the subcommittee.

The rules and regulations in the form of a report, will eventually get into the Institute Council where it will be either passed or defeated. Prior to that it will have been reviewed by all parties concerned either through an open hearing or independently by the faculty and the Student Council at one of their meetings.

**Letters to a Head**

Man, bring the only known animal that reasons, is unique in his problems. His environment, besides being physical, is also mental. The ability to reason is the basis for the various mental stressors and strain arising from the place for work. Man, if it is made of exile of these factors makes it possible for smoking (to) suicide, none of which is an effective release.

The philosophers have contemplated for centuries what happiness is. Aristotle described happiness as "an activity according to the highest form of excellence." It is important to note that happiness does not consider happiness as a condition, or something that we can catch, such as a disease. It only comes through activity, an activity of exertion, enjoyment of mind and body. This exerting activity makes it possible to relax, and this is where happiness is, employment is exertion and a means to the end, the end being relaxation. The type of employment is not critical; "it is possible to perform fine actions without being master of land and sea.

It is the responsibility of the individual to solve the problems of the present, which are made effective. The only restrictions being that they do not interfere with his employment or form to be the result of his employment and with the current of other that man is capable of amusing himself. However, certain circumstances, which is stressed that these rules cannot be continued. Among these is smoking (getting off).

For this form of escape is the most, it takes the most for all these resolutions, cannot be continued. Among these is smoking (getting off). For this form of escape is the most, it takes the most for all these resolutions, cannot be continued. Among these is smoking (getting off).

In summary, I have presented a philosophy, a general structure for living. It may not be the best. It is constructive and can only contribute. I hope you find some worth in it.

Royd Reynolds

**HAPPENINGS**

**WEEK OF MARCH 20-24**

This Bulletin Board service is offered to everyone from the Lowell Tech Community. Type or write your notice on 3x5 card and deliver it to the Text office or the mailbox. To ensure placement in a Monday edition, hand it in by the previous Wednesday. This service is available at absolute no cost.

**Monday, March 20**
- Monday classes as usual, 8:00 am to 6:00 pm
- Belated Happy St. Patrick's Day

**Tuesday, March 21**
- 9:00 to 4:00, Juniors sign up for class pictures; appointments in the mailbox.
- Technical Writing, Silicate Fair in Commons
- 12:00, Armenian Students meeting in K-303 to vote on constitution.

**Wednesday, March 22**
- 9:00 to 4:00, Juniors sign up for class pictures; appointments in the mailbox.
- 9:00 to 4:00, Cup and Gown fittings in the Bookstore.
- 6:30 to 8:30, Cup and Gown fittings in the cafeteria.
- 12:00, Text sports staff meeting in the Text office.

**Thursday, March 23**
- 9:00 to 4:00, Juniors sign up for class pictures; appointments in the mailbox.
- 9:00 to 4:00, Cup and Gown fittings in the Bookstore.
- 6:30 to 8:30, Cup and Gown fittings in the cafeteria.
- 12:00, Club week banquet in the Commons.
- 1:00, U1-1 graduate Michael Casey will be reading poetry from his award-winning book Observations in R-214.

**Friday, March 24**
- 9:00 to 4:00, Juniors sign up for class pictures; appointments in the mailbox.
- 6:30 to 8:30, Cup and Gown fittings in the cafeteria.
- 12:00, Club week banquet in the Commons.
- 1:00, U1-1 graduate Michael Casey will be reading poetry from his award-winning book Observations in R-214.

1972 PHOTOGRAPHY CONTEST RESULTS
Of all the bikes that I have written about this year, I am perhaps best qualified to talk about Harley Sportsters, simply because I own one. Before I say a little of my prejudice on you, let me give you some of the machine's specs:

- **Frame Type**: 4-Stroke DJV Single
- **Bore & Stroke**: 2.19 x 3.15 inches
- **Displacement**: 250 cc
- **Wheelbase**: 57 inches
- **Weight**: 204 lbs.
- **Gas Cap**: 2.65 gals.

**Sprint SX**

The Sprint SX is the "Off the Road" tribute to the Sportster, which is strictly for street driving. Actually, what Harley has done is that they have taken the Sportster and evaded so that it can do six things in the woods. Some of the revisions in the SX Sportster are that they have eliminated the chromed fuel tank, and have replaced it with a polished black, lightweight fuel tank, designed for high efficiency exhaust scavenging, and reduced noise levels. The engine is the same reliable single cylinder with a wide power band to keep your shifting at a minimum. The frame has been reinforced to take the punishment offered by a rocky road, or a trail through the woods. The Ceriani in both the front and rear do a marvellous job of soaking up the terrain. Although most of the SX's revisions make it a more machine off the road, it doesn't mean that you can't take to the highway. If you go on the road with it, you'll definitely get a bumpy ride because of the knobby Fioccini tires, and the only way to remedy this is to slap on a rear street tire. As far as how this little machine moves, you'll find that it's probably one of the lowest accelerating 350's, but it will keep up with just about any 350cc, as far as top end is concerned, meaning that it will go almost 110 mph., when it's equipped for the street. The remarkable thing about this single cylinder is that it has incredible pulling power, i.e., you and your chick can ride all day and never have to worry about any loss of power or overheating.

About the only 350cc machine that you can beat acceleration wise is the Honda, and that's not much, either. The basic problem with the newer Sportsters has been with the electronic systems, due to a malfunction governor, so if you ever plan to buy an SX, make sure that the governor fits properly, and that the brakes don't catch up your wheel, as before your warranty runs out (that's expensive talking). A minor problem is with the speedometer cable, they like to break.

Alpine Clubber Take Note

The Alpine Club has been relatively quiet this term at Tech this year. One reason is the lack of students joining the club which is generally considered a rough house although its trophy collection has increased during the last two years,赚 by winning sports events, offiers by acquisition.

The house boasts 18 compartments with partition facilities consisting of a color T.V., a pool table, a refreshment center, and eighteen beds of privacy.

Concerts by professionals at Lowell Tech have parties on weekends. Looking the formidable solitude to wait until summer, we open up facilities every Wednesday night.

A short statement is all I gather you are consuming into two cerebral brains is a life of wild women, with, and fifty songs.

Spring Carnival

Slides of last year's Spring Carnival will be shown at the LSC Lounge Wednesday at 12:00 noon. There will be a meeting of the Spring Carnival Committee following the showing. All those who want to help with the Carnival in any way this year please attend.

Sub Day Once Again

Back at the beginning of the semester the Sophomore Class sponsored a Sub Day"All you can eat" for only 25 cents. Well worked out for those of us who needed an appetite boost. We still have the opportunity to have a fun Sub Day again. The day is Friday. The place is the Tech cafeteria and nothing is as easy as the fun you'll realize with the buns, meat, and condiments. Sub Day's no place to be when we miss out on this great event.

Bob Hogan 112

Chess Tournament

"The Lowell Tech Chess Tournament will be held at Euler Hall Lounge on Saturday, April 8, 1972. This tournament will feature students and faculty of Lowell Technological Institute. This is a one day affair and sponsored by the Phi Gamma Phi. It will be held so all members should attend this important meeting. Also, any other member of the LTT community who wishes to participate in this activity is welcome to attend this meeting. Plans for spring,秋季,采矿, and coaching will also be discussed. Anyone planning to attend ICCA conference next month should bring $5 to pay for the hotel so we may pay for it.}

Lobby B: Sorry about the ring and the regularity. If you will come to see me, I'll be at 6th floor room 19. I will be there until 5:30 p.m. Also, you can talk to me in any of the common areas.

P.S. If you have any questions, just give me a ring. I will be there until 5:30 p.m. Also, you can talk to me in any of the common areas.

Sub Day Once Again

Back at the beginning of the semester the Sophomore Class sponsored a Sub Day"All you can eat" for only 25 cents. Well worked out for those of us who needed an appetite boost. We still have the opportunity to have a fun Sub Day again. The day is Friday. The place is the Tech cafeteria and nothing is as easy as the fun you'll realize with the buns, meat, and condiments. Sub Day's no place to be when we miss out on this great event.

Bob Hogan 112

Chess Tournament

"The Lowell Tech Chess Tournament will be held at Euler Hall Lounge on Saturday, April 8, 1972. This tournament will feature students and faculty of Lowell Technological Institute. This is a one day affair and sponsored by the Phi Gamma Phi. It will be held so all members should attend this important meeting. Also, any other member of the LTT community who wishes to participate in this activity is welcome to attend this meeting. Plans for spring,秋季,采矿, and coaching will also be discussed. Anyone planning to attend ICCA conference next month should bring $5 to pay for the hotel so we may pay for it.}

Lobby B: Sorry about the ring and the regularity. If you will come to see me, I'll be at 6th floor room 19. I will be there until 5:30 p.m. Also, you can talk to me in any of the common areas.

P.S. If you have any questions, just give me a ring. I will be there until 5:30 p.m. Also, you can talk to me in any of the common areas.

Answer this one: What is the name of the apartment you are staying in? We are all staying in the same one, but it seems to be the only one available.

First question: What is the name of the apartment you are staying in? We are all staying in the same one, but it seems to be the only one available.

Baseball Outlook Bright

With three weeks of indoor practice already behind them, the 1972 version of the LTI Varsity Baseball team promises to be one of the best in the school's history. Last season the Terriers were 12-7 and set an LTI baseball record for the most wins in a season. Coach Jim Stone's squad, bolstered by the return of eleven lettermen from last year, is aiming to improve last season's victory total.

The team is scheduled to play 31 games this year, which is the largest schedule ever attempted for a Lowell Tech baseball team. The schedule although has 31 games will be played in a season which is only 43 days long. This year's schedule has four doubleheaders, two of which will be played on Sundays.

Captain Mike Cusano will be leading the pitching staff again this year. Cusano, who is a senior from Lawrence, compiled a 6-3 record with 85 strike outs in 78 innings for a 2.19 ERA last season. Mike, who has a career record of 10-6, also aids the Terriers at the plate, last year batting .304, the team's second best hitter.

The other two probable starters are seniors Ed Thompson and Ken Scita. Thompson is a lefty who has compiled a 1-0 record for the past two years and has a 6.70 ERA. Ken Scita is a sophomore from Westboro who didn't see much action last year as a freshman, but has the potential to be a regular in the pitching rotation.

The other pitchers who will be doing most of the relief work and maybe some starting are Dan Concesi, Ken Russo, Steve Whitman, Bill Eggers (also an outfielder), Scott Linder (who doubles as a catcher), and Paul DiCicco.

Dan Domingo, who was supposed to be the team's number two pitcher, was recently injured in a foul ball accident and is a doubtful player for this year. Last season Dan had a 2.60 ERA for the 35 innings he pitched.

Bob Carrell, a first baseman from Nantucket, was the freshman standout from last year. He led the team at the plate with a .390 batting average as he collected 33 hits, 13 of which came with runs on base.

Moving around the infield to second base, LTI might go with senior Bob Barrington, who played shortstop last year. Barrington last season led the team with 12 stolen bases, 22 walks and had 52 fielding assists at the shortstop position.

Shorthing will probably see Fireman Bill Carrell, Bob's brother who played shortstop last year, for Nesham High School.

Handling the center fielder this season will be a Medfield sophomore, Art "Snooky" Sanos. Art had a .958 fielding average playing both 2nd and 3rd base last season and batted .276.

The Terrier backup infielders are Dennis Kennedy, who saw limited action last year at second; Ken Gagnon, a freshman shortstop, and Tim Feltrinella, a freshman third baseman. Leo Curry, who will probably be in the outfield, could also see some action at third.

The outfield will most likely see many faces this spring, however centerfield now belongs to junior Kevin Walsh. Kevin leads the team in many department last season with the most home runs (6), stolen bases (72), runs scored (15), triples (4), doubles-plus (4), slugging percentage (.471) and had more total bases on his hits than anyone else with 30 on 18 hits. Kevin was second on the team in stolen bases with eleven.

Bob Carrell, a sophomore, will most likely start in rightfield. Artie played both first base and the outfield last season and was a late starter in the outfield. Tom who has improved from last year has the potential for the long ball hit.

The other outfield position will be a toss-up between Mike Cusano (who wasn't pitching) and Leo Casey a sophomore. The other outfielders who will be fighting for a chance at a starting position are junior Bob Minnaert, who played on the team as a freshman, and freshmen Bill Eggers and Al Leblanc.

At the catching spot, the Terriers will use junior Bob Mullen, who is an excellent defensive player, hopefully Bob will be able to produce a little more of the plate when batting this season. The backup catchers are Francis "Hitch" Hallon and Scott Lindamuth. Both are sophomores and freshmen.

With the first game only two weeks and a half weeks away, the team is hopeful that it can get outside for some scrimmage games during the spring vacation. Although it is tough to practice indoors everyone has been hitting in the cage and fielding during the cold.

The pitchers have been throwing off of portable indoor mounds which were helpful supplied by the LTI Maintenance Dept.

Tech Runners Qualify for Boston Marathon

Last Sunday, March 12th, four members of the Lowell Tech Varsity Track team qualified for the April 17th Boston Marathon. The race which was the New England 30 Kilometer Championship was held in New Bedford, Mass.

The meet was won by Ron Wayne, UMass student, who is a former New England college cross country champion. All four LTI runners, Tim Marr, Brad Roberts, Bob Joseph and Bob Becker finished under the qualifying time of 2 hours and 20 minutes on the 18.6 mile course. Approximately 200 runners battled the cold, windy, rainy weather to compete in the race.

LTI Bowling League

Now that the first half of the semester season is over, the race in both divisions has shaped up to be a real battle. The first six teams in Division I are separated by only eight points, while in Division II the first five teams have only two points separating them.

Last week the red-hot Newtoms stormed into first place by taking their 20th straight game in Division I. Meanwhile, the Lucky Strikez managed to hold on to their lead by virtue of total pins in Division II. Chico bowling by the lower teams has been the reason for the tight race in both divisions.

The first half standings are:

Division I
The Molehills 14-22
Uncle Joe's All Stars 13-24
Kho Poee 12-26
Blue Beavers 11-26
Teechenskies 10-26
King Of The Hill 9-28
Lucky Strikez 8-29

Division II
Lucky Strikez 15-20
Family No. 1 14-20
Ballbusters 13-24
Tee Haddaa 12-26
The Odd Couples 12-26
Alpha Chi Rats 12-26
Prohibitionists 12-26

*Total pins describes position in case of ties.

Wonderin' what to do for LUNCH on Friday, April 7th?

Then track on over to the

Greatest

SUB-DAY

EVER!
