PLAN FOR ALUMNI DAY

On March 9, the Executive Committee of the Lowell Institute Association was in session at the room of the National Association of Cotton Manufacturers in Boston to make plans for the Spring meeting of the Alumni Association. The board of general plans was to meet at Lowell Institute, and the officers asked to be present. The meeting was to be held on March 12th and adjourned to the following day. The meeting was attended by about 50 people, and the following resolutions were adopted:

1. That the Alumni Association be constituted a separate body, with all the privileges and responsibilities of a legal corporation.
2. That the Alumni Association be given the management of all the funds and property of the Lowell Institute.
3. That the Alumni Association be given the power to make and enforce all the rules and regulations necessary to carry out the purposes of the institution.

The resolutions were adopted unanimously.

Scholarship Fund

The President of the Lowell Institute Association, Mr. H. J. Stimson, presented the following resolution:

Resolved, That the Lowell Institute Association be constituted a separate body, with all the privileges and responsibilities of a legal corporation.

The resolution was adopted unanimously.

What a Comeback!

After a loss of three years, the Lowell Institute Association has made a tremendous comeback. In the first nine months of the year, the Association has raised $50,000, and the total amount raised for the year is expected to be about $100,000. The Association has also made a number of important changes, including the appointment of a new secretary and the establishment of a new office.

Meeting of Textile Players

Wednesday, May 3, the Textile Players met for the election of officers. Jack Stimson was elected president. Donald B. Irwin, vice-president. Walter Robbins, secretary. Russell Brown, vice-secretary. It was voted to give the Athletic Association 10% of all money raised. For the election of officers, Jack Stimson was elected president. Donald B. Irwin, vice-president. Walter Robbins, secretary. Russell Brown, vice-secretary. It was voted to give the Athletic Association 10% of all money raised.
As a mass meeting held on April 26, the faculty director of athletics made a plea for support for the baseball team at the Norwich game, the second base game of the season. The spirit of the team was in a critical condition after having lost its first three games. Professor Cushng requested that only a small percentage of the students be present to cheer the players to victory over Norwich.

At the game, however, only a small percentage of the students were in evidence. Barely fifty were present. The rest of the spectators were disinterested persons. The cheer leader could hardly get a whisper when he wanted a cheer. It was being reported that the team go down fighting before an aggregation that was not in the least superior to it. But no team, no matter how good, could win with such poor support, particularly when such support is accredited to its own home-field, where it ought at least to expect a fairly large crowd of critics.

If, on the other hand, the team was a championship team, the students would be one hundred percent present, as was evidenced in football. What kind of sportmanship is this? If we follow our team when it is victorious, yet, when the breaks go against it, and the players need our support in order to pull through, we are not "there."

Think this over, and turn out at the next game.

The Colleges and Defense

From the Class of '93

That the colleges of America have a strategic part in the defensive system of the nation is evidenced from the success of the reserve officers' training corps located in educational centers from the Atlantic to the Pacific coast. It is a part to be made effective to a military point of view, but it is also made effective as part of the educational system of one of the best states and the college to the country.

On American college men, training in the techniques of national defense, this work will not fall. They are made with American models in order to be used for the purposes of the college, and the public interest—are used as the laborers in the building of the American society. It is to be used to the best advantage to be used to the national good. It is to be used for the American society—of the American college men, training in the techniques of national defense.

The idea of the great American is, that the colleges of America have a strategic part in the defensive system of the nation, and that the students of the college are a part of the educational system of the nation. It is to be used to the best advantage to be used to the national good.

The system of the American college is a part of the educational system of the nation, and that the students of the college are a part of the educational system of the nation.
SIGMA OMEGA PSI

News about the house in recent weeks has been fairly good. Some of the older members have talked of leaving the house, but the new members are holding the line. The house is being run fairly well, but there are some problems with the newer members. The house is currently under investigation by the university administration.

DELTA KAPPA PHI

Installation of new members took place on Thursday afternoon, May 29. The fraternity chapter went through their final degrees.

Everett B. Black, '37, was appointed a commission of the college to promote the University and the state. He was known as the President of the University, which is to be presented in full at the annual convention of the University.

The spokesmen of the dedication of the college to honor the late President, Mr. Black, will be at the dedication of the University. The dedication will be held at the Rainbow College on Thursday, May 30, at 3:00 P.M.

SMYTH was sent out last week and was paid off from his job as a tailor. He is a new student in the college, but has already made a name for himself in the campus.

The Theta chapter of the University has been located at the Eta Psi House on College Avenue.

OMICRON PI

The annual meeting of the Omicron Pi Fraternity Alumni Association was held on the campus of the University.

PHI PI NOTES

With the year drawing to a close, we had the boys staying at the house for a little extra in the way of a final exam. In order that they may not be caught unprepared, we have been planning some events for the last week of the term.

Our party has rather fluctuated as the men have taken their leave, but they have been at the party a good deal. We have no idea what will be the result.

A great deal of speculation as to the men's final decision has been going the rounds lately. Some have expressed an interest in the matter, but we have no idea what will be the result.

With a cigarette as good as Camels, the simple truth is enough.

CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

Camels are made of the choicest tobaccos grown—cured and blended with expert care. Camels are mild and mellow. The taste of Camels is smooth and satisfying. Camels are cool and refreshing. The fragrance of Camels is always pleasant, indoors or out. They do not tire the taste nor leave any after-taste.
Drippings from the Forget

Birth control is just an attempt to avoid the forget.

... When a woman takes a man she likes a perfect chance, she doesn’t expect this plan to give her what she’s talking about.

... We now hear of a young merchant who won a lot of flying words and handed in his with.

... Mrs. Newsworthy cleaned her paws every five years—whether it needed it again!

One Scotchman said that he was so careful to prevent the forget that he even taught his military drinking cap and they all drank out of it.

Dear Alumni:
May 10TH IS THE DAY.
LOWELL.
Most of the followers seem to want to
see both TULIP for western.
The Alumni Clubs in Boston and
New York are enthusiastic, and will
both need his depositions. Both
will have reports.
In planning the program we intend to
have something for everyone to do.
There will be plenty of interest.
Look on the program.
Do you want to take off your coat
and play? You have a chance.
Do you want to go to the game? Plenty of opportunity.
Do you want to take a trip? This is
proposed for too.
Will this be the season of the
collaborative game? Leave it to him to get it
either. For those who want to
take a trip, Ed. Fowle, Weeck, Fetter,
and Dean Winslow are the committee
preparing a program with plenty in it.
Then there is the baseball game.
It will do you good to get out and
enjoy your bases. Athletic
meet something at TULIP these days.
A special feature follows the game.
