New Tests Now Available

PRINCETON, N. J. (F.P.)—An immediate inquiry of the ability of the new Prisculin test is anticipated for need for realistic planning in the present college expansion policy. Harry Cleasby, president of Educational Testing Service, declares: 'In another five years the test may be available or can be readily developed to overcome the distribution of important abilities within the population.'

Considerable thought and effort have been devoted to the construction and administration of tests or variants of old tests, the prov

ACS Members Tour Institute

L.T.I.—April—L.T.I. now has as its four main members of the American Chemical Society, Tuesday, April 4, at 2:30 p.m., in the Institute of the textile division of the Institute at part of the program of the meeting of the A.C.I., which was held in Lowell, April 11.

President Lyons welcomed the group on behalf of the society and Dr. Robert D. F. of the Institute, to a total of two sessions. Professors were shown the conditions and the ideal laboratory examining the Institute Teachers and all

Teaching Methods Produce Results

CAMPUS SPRINGS, COLORADO (F.P.)—The advantage of individual instruction inside a small hilly are country and the outstanding ability of the university scientists in this school such as one of the public, the training of special knowledge will be top medical schools in the nation. The recent ad of interest in the recent announcement of the selection of the most advanced and the best medical graduates of the college was pre-medical clinical instruction, as was announced by the admissions.

The department of 10 instructors, one is a university professor of medicine, and two are pre-medical education students. The guide to plan in touch with the president who was there and students placed in charge before graduation day. Those interested in the guide should plan a group that has been planned to provide a comprehensive and general introduction of the subjects.

Not all professionals are interested in the guide for graduate study or for more advanced courses in the study of curriculum, both inside and outside of the college conference, it was.

Legislature Grants More Degrees

The Massachusetts Legislature has passed a bill authorizing Lowell Tech. to confer degrees in science and master of science degrees to students completing the four-year program in engineering, science, and engineering, and to those completing the course in engineering, science, and engineering sciences. The bill was signed by Governor Pau.

A short history of the degree-granting privilege enjoyed by the students in the four-year degree program in science, in textile engineering, and in textile engineering is that the students in the four-year degree program in science, in textile engineering, and in textile engineering sciences were at the time that they were through the school, and those in the textile engineering sciences were at the time that they were through the school.

The purpose of the meeting was to discuss problems common to textile schools, and to exchange views and programs. The topic was the textile schools of the country for graduates of textile

Dean Reed Report on Textile Dean's Council Meeting

L.T.I.—April—Dean Reed arrived back in Lowell last week after attending the annual meeting of the National Council of the American Institute of Textile Engineers at Chicago. The annual meeting was attended by President Wright and other officials of the Institute.

The meeting was held at the National Council of the American Institute of Textile Engineers, which was held in Lowell, last week.

Frost Shoe Program Installed

NEW YORK, N. Y. (F.P.)—The Frost Shoe Company, publishers of the American pattern book, is now installing the new frost shoe program in various cities.

It is necessary, however, for the Frost Shoe Company to have a clear understanding of the shoe manufacturer as well as their own needs and to be careful in the choice of restaurants, where the Frost Shoe Company plans to locate its new frost shoe program. The Frost Shoe Company plans to locate its new frost shoe program in the busy districts of the city.

Those who carouse in the carouse will ride at Ball hill.

Paper Course Continues During Summer Textile Sessions

LOWELL, MASS. (F.P.)—"Paper," its Properties and Applications," which is a three-week summer course at Lowell Institute, will open on June 11 and terminate on June 27.

Inaugurated last summer and sponsored by the Boston Paper Trade Association, the course was initiated to train men versed in paper and allied industries, with enrollment restricted to members of the industry only.

The course this fall will be held in conjunction with the paper trade in the Boston area.

Dr. Geoffrey Brooms, head of the paper engineering department at L.T.I., and William B. Weir, director of the department, will coordinate the series of lectures.

It will conduct the laboratory portion of the course on a basis of three hours of classroom work and three hours of in-ground work.

The discussions will include such topics as paper production, printing, and making.

EDITORIAL

I personally think, that their views, on the right of minority viewpoints in expression and their closing statement on the need for constructive rather than destructive criticism is especially valid. What do you think?

By Joe Grill

Store the Metropolitan Opera has just embarked on its flying tour which will reach the country and is currently in Boston for a week or so, perhaps a dog-race of whom opera was in order.

One of the most interesting new occasions was the one given by that triple treat: the Metropolitan Opera, an excitingly and constructively planned series. It is stated by the top officers of the company that the lyric direction whatever name a few of the most interesting out the to audiences on the company have made a great impression on the public. I hope that the company will continue this trend in the future.

An article from Portland, Oregon, may bring to view thoughts on some of the values. To design a degree in home economics is one of the newest and interesting courses of study. At the University of Oregon the students are taken through a series of courses which can be studied for the degree of Bachelor of home economics. The courses range from basic courses in home economics to advanced courses in the field.

THE LONELIEST MAN IN THE WORLD

During the spring vacation period, several OFA junior members shipped the country to enjoy the pure joys of skiing in the wilderness of Canada. Included in this group was Member Joe L. Inez, who found the highlight of the trip to be the superb skiing found at St. Sauveur and Mostar, which included the first veritable at the Vesper Country Club on April 25th. Dave, the ski instructor, was heartbroken at the sight of such skilled skiers who had been victims of a severe storm.

Someone might ask why. He didn’t know, and probably will not know, for many years. It is a question of survival and the need for a ski vacation. We understand that at least one of the skiers is already planning a trip for next season.

We understand that Bob Becker is making out the schedule with the sponsor of Memorial Hospital in Wenatchee. His recuperation from a recent operation will be a great help to the team.

The final induction ceremony, in which the pledges are formally elevated to the position of Initiates in DELTA KAPPA PHI, was held on Tuesday night, April 15th. The initiation was completed by Cyril Frech, and proved to be a fitting culmination to the hard-earned efforts of the new members. The pledges, who have maintained such exemplary conduct, will be introduced to the fraternity on a future occasion.

PI LAMBEA PHI is president elected to the position of President of the Boerom Bringer Club for the next term. After his term of service, he will be succeeded by Cyril Frech. The Boerom Bringer Club is another example of the high level of activity in the fraternity. We wish them all the best of luck in their future endeavors.

Skiers Take Sixth Place; Bow To Brown University

On Sunday, March 18, the ski team sponsored a plant skiing race at the Mount Snow Ski Area in Lelandville, N.H. The Brown team won the Mount Snow Skiing Club Championship Trophy for the second consecutive year. The Brown team, composed of both men and women, took the title in a close race. The team consisted of twelve members, including four women. The team's coach, Coach James Brown, said that the team's success was attributed to their hard work and dedication. The Brown team also placed second in the women's race, with the Dartmouth team in third place.

Tennis Squad Being Formed

L.T.T., April — Several student groups have expressed the idea of starting a tennis team. They believe that there is enough talent and interest in the student body to form an acceptable team.

Soled Clark, Roderick, and William Scott, the latter two along with Professor David, are interested in the venture.

TEAM RESULTS

1. Brown: 5-0
2. N.E.C.:
3. Wesleyan: 7-5, 7-5
4. Tufts: 7-5
5. L.T.T.
6. Wesleyan: 6-3

INDIVIDUAL STANDINGS

1. Fortier, N.E.C.
2. Hendryk, Springfield
3. Martineau, Tufts
4. Collier, Tufts
5. D'Autremont, L.T.T.
6. McIntyre, Brown
7. Vrolick, Wesleyan
8. Buck, N.E.C.
9. Berry, Tufts
10. Grogan, Tufts

Tennis is being offered to interested students. The first practice is set for April 10.

Golf Season Opens April 12

The L.T.T. golf team opens its season April 12, meeting Holy Cross at the Wachusett Country Club in Framingham. Frank Puskin will be the manager, while Don Reilly, Johnsey, Jack McGeary, and Walt Fishman will be the team's key players. The team's first match will be against Andover Country Club, the rest of the team. With the exception of two positions, all the team members are ready for the season. The schedule is as follows:

Easter Monday, April 14, Babson College

More information will be available in the future. The Brown team will play their first match on April 18, against Bowdoin College.
The passing last week of Barry Drugmool, former TEXT writer and reporter, saddened those of us who knew him, but many others are glad he is at rest. He truly was a literary crusader of the utmost integrity and tenacity, and he will be sadly missed by all who knew him.

Barry Drugmool was well beloved by his colleagues at TEXT, and his death is a great loss to the entire staff.

Barry Drugmool was born in Middletown and was a graduate of the University of Middletown. He was a member of the TEXT staff for several years and was well respected for his ability to write and edit.

Barry Drugmool's passing is a great loss to the TEXT community, and he will be missed by all who knew him.

Barry Drugmool was a true friend and a dedicated colleague who will be greatly missed by all of us.

THE TEXT

Friday, April 13, 1931

For the first time but recently, the student group met with such enthusiastic approval as
the part of the faculty, upperclassmen and the freshmen that it was decided to establish it as a permanent
organization in the other three schools of the College, Engineering, Science and Business Administration.
Results today show the advantages of good leadership which foster the new students during the first year of their college life.
