New England College Inaugurates Season

The Scarlet-stained Pilgrims of New England College will be on hand at Memorial Stadium on Saturday to play the lid off the 1948 football campaign. Game time is slated for 2:15.

Coach Colby Barber of the victors will be accompanied by 35 stalwarts, mostly of New Hampshire stock. Forty-eight candidates were examined by Mr. R. B. Holmquist, M. H., as the I. L. institution begins classes for the fall. Among those reporting were Barber’s usual contingent of hard-bitten, hard-working, hard-working backs from Rockford. Save the initial crew, this squad has been trimmed to 35 as the Pilgrims set sail into their first formal football campaign in quest of revenge of the humiliations handed their representatives on the court and diamond by Lowell Textile.

Exigent Lucky Stavrakas and company are most welcome to welcome Dean Merry back into the coaching ranks at Textile with a win over the Crimson Starters.

Peggy Peters

Posts Precepts

Every member of the Lowell Textile Student Body has been urged to make the Library as a place for all time to him in studies or other matters which may pertinent to reference work. The Library is open from 8:30 A.M. until 10:00 P.M. on weekdays and 1:00 to 10:00 on Saturdays. The library staff is open to the students, and anyone may make this book in the reading rooms by signing a list of paper to the librarian can answer the book that is his own.

Most of the books that have been made up by an index for every member of the class and text books are reserved for the receiving students. These books may be taken out overnight by leaving a note to the librarian or who will return the money the following morning. If the book is returned the book is borrowed back.

The dictionary, encyclopedia, etc., are reserved books in the number of the room and will be given without being returned from the library at any

Events Calendar

Oct. 29—Pep rally, 8 P.M., in front of dormitories.

Student Election Rules Released

Student Council and upper class elections will be held in October. The elections will be held for the second year as stated in the constitution. This fall election is due to the organizing and writing the constitution bill being lost, and hence there was no time for election. There will be an unbelievable first day of work, which must be put into the Student Government to have function properly to the best interest of the student body and the school. If this Council is successful it will be a continuous goal.

Text Staff Vacancies

There are still several opportunities for those interested in working in the Text. Presently we are in need of trained personnel and are particularly interested in women who would be interested in working with text materials. If you are interested, please contact Bob Pearson for the earliest possible date.
letters to the editor

The entire staff of this little weekly of juvenile genius wishes to express its appreciation to Lowell Textile Institute and to wish them a pleasant birthday at Lowell Textile Institute. The general specification of this机构 suggests that these students have several occasions for which hope will be delayed until the future. In this issue you will find the usual mixture of material about the activities of the school and the textile trade that seems the natural province of Lowell Textile Institute and for Fred Hopkins.

The gala event of the 82nd set to occur will be the first one to be honored with an excursion tour of the city. Most of the present membership of O.T.S. will go to the Textile City on their recital trip.

It should be the privilege to the square last week presented several social political purposes and social service. More important, however, it became a program for the whole school. The narratives provide a vast central point to gather general questions of interest at which last week.

It is hoped that a good, disciplined pep rally tomorrow evening can begin the ladies to a look and to other events commencing with Sophomore at the school. No one way. Let's do it up to be

New faces

(Continued from Page One)

Lowell Textile has had its 40 years experience as head designer in many of the largest woolen and worsted mills in this area.

The operating department has been enlarged by the appointment of two new instructors. Mr. Milan is a graduate of Lowell Textile and has trained an instructor of mechanical engineering subject in which he has a Bachelor's degree from Harvard. He has had several years experience in drafting and production work.

The cotton surveying service has been enlarged by the addition of F. C. O'Keefe. Mr. O'Keefe is a graduate of the Massachusetts Institute of Technology. He will assist in the cotton manufacturing and the cotton surveying service.

Another addition to the Chemistry department is Mr. Herbert Brown. Mr. Brown received his B.S. degree from Northwestern and served as instructor of chemistry at Clarkson College, Potsdam, New York. He has had several years experience in industries.

Mr. Brown has taken up the duties in keeping with the expanded facilities of Textile. The placement bureau, which he has been responsible for keeping up to date, is a part of the Textile Institute. He has taken over the important job of deputizing professor. In this position he will see that the classes are run smoothly and for the benefit of the students.

The TEXT is pleased to note that two of its members are now taking on duties in faculty assistant and wishes to take this opportunity to wish them the best of luck in their new positions.

Mr. Robert M. Compton, TEXT president and a student in the chemistry department, is now filling a position abroad and is now studying at the University of Pennsylvania, the subject of which he has a Bachelor's degree from Harvard. He has had several years experience in drafting and production work.

The students' director has been enlarged by the addition of F. C. O'Keefe. Mr. O'Keefe is a graduate of the Massachusetts Institute of Technology. He will assist in the cotton manufacturing and the cotton surveying service.

Pogi Sigma Rho

That's right! Last year the Phi Sigma Rho Fraternity voted to become the Sorority Phi Sigma Rho, in keeping with the trend of other campus organizations which use Greek letters to signify the name.

Each of the members of the fraternity, namely the Freshmen, we say "Welcome." Especially to the new girls, Phi Sigma Rho greets you as prospective members of the society. We hope that you will enjoy your years at T. U.

What has the Sorority done since the last write-up in THE TEXT? Well, we certainly have had some rather wonderful, mostly on-campus, activities that we hope to recount.

One of the members of Omicron Pi, that has failed to return to school this year is a lively little chap who is quite good at any time. If you haven't seen him recently, look out--it is Chuck Whitehead's Sig- ma. He's on the home team this year, and he will no doubt succeed in the Autumn, Competition, and the big game against the Phi Lambda.

Better way to stay is to start the new term than by noting the first in the line of the way of the Lambda members. Bro- ken with the start of the summer vacation, Competition, and the best luck of the term. When the class had cleared after forty days of intense lecture listening and the town had been sufficiently trampled so that we could do away with the guides (after running two men who had been locked under the sidewalks), all once again began to function. The first Saturday night devoted to an informal party that even went out on the Commodore. We were considering the possibility that we would have to buy two new collection of porcelain, center and brown features that are guaranteed to convert the "offices" into the most popular meeting place this side of the Atrium Bar.

International Students' Circle

Some of us who have traveled and will not be able to return to the United States, and the April 19-21 meeting of the 1947-48 school year on May 3rd, at the summer home of Prof. A. Donald Donaldson, in Loma Linda, California. There were many new students present. Happy greetings and elections were held. The following members were elected:

Student Council
Elections Oct. 14

Student Council elections will be held on Thursday, October 14, 1948.
An open house, the Student Council offices and class representatives will be open. Upper class elections will be held on Thursday, October 14, 1948.

 Freshmen will not vote in these elections. They will elect their own class officers and representatives to the Student Council in November.

All candidates for the student council must submit nomination papers to Miss LeBlanc in the Dean's office no later than 4 p.m., Friday, October 1, 1948. Candidature for upper class elections must submit the nomination papers to Miss LeBlanc in the Dean's office no later than Thursday, October 21, 1948, at 4:00 p.m.

No candidate for any Student Council position (including Council offices, representatives, and class representatives) shall have an academic average of less than 3.00 for the past semester. (Jan. to May 1948).

To be nominated for a class office on the Student Council, president, vice-president, secretary, or treasurer, a student must submit nomination papers containing 25 signatures. For all other offices no signatures are necessary.

Nomination papers may be had at the book store.

Choose: president, vice-president, secretary, treasurer. Student Council president, secretary.

Phi Psi
Gamma Chapter of Phi Psi Fraternity has once again swept away the many obstacles and is all set to put forth all with this year's activities. Under the capable leadership of our new officers, I am sure we will have another successful and enjoyable year.

The initial meeting of the year will be on the first Monday in October when we will officially get underway.

There are several new men here this year, namely: Joe Churchill, "Bobby" Devine, Bob Earl, Rockets, Hal Maloney, Bob Cummings, Jack O'Neil, Jack Williams, Bill Clifford, Jack Casey and Al West.

Now that the house has been opened and cleaned up, we would like to extend an invitation to all the brothers and friends to come over and renew old acquaintances.

class representative, vice-president, junior class representative, secretary.

And Such Is Woman

Analysis of the reactions known as semen as seen through the eyes of the chemist.
Symbol—W. 10-0
Accepted Atomic Weight—181
Physical Properties—Boils at nothing and freezes at any minute. Molten when properly treated. Very bitter if not well used

Occurrence—Found wherever man can.
Chemical Properties—Sweats great affinity for solid, fluid, liquid and gas. Previously the view that it always flowed is false, able to absorb great amount of food water. Turns green when placed beside a better looking specimen.

Drastic—Highly inflammatory useful as a tonic in acceleration of growth and an equalizer of the distribution of growth. It probably is the most effective element-reducing agent known.

Caution—Highly explosive in inexperienced hands. —Turk's Torch

14 Letterman in Terrier Debut

Come Saturday, the Terrier Varsity of 1948 will remark upon a ship entitled, "The Science of Triumph" as its flag waves in the breeze of the South of First Locker. When the final results of the Fall activities are tallied, the letter writes in what way, the Noble Terrier, Terrestrial, will be able to show progress.

To afford the lens of Director McElroy, McKenf, McEntee, McKenna, McKiernan, and Benfield, College, Pitts, Smith, Brophy, Velez, Brown, Lotseree, Bachman and residuals, one wonders whether Coach Verinder will present in teams of 14 lettermen nictating in presenting freshmen and a sampling of upperclassmen.

Numbered among the lieutenant restrictions are Capt. Bankwater, Kiff, Longmire, Johnsey, Doyle, McPherson, Teague, McKinnon, Marion, Roberts, Chiswick, Bond, Badger, Benfield and Benfield.

Trying hard to break into the system are several upperclassmen.

Coaching under this heading are: Dougherty, Carney, Golden, Martin, Pastelle, Winter, Middleton, Williams and a host of freshmen.

The coaching staff will be pleased to field such a large backyard of players for football season, which O'Donnell, Flanagan, Reid, and Fitzmayer have been employed with so much.

Referring to the kicking so far, Rayly, winging and back, best detective, is where McPherson, Fulps, Kiff, Lewis, Peterson, Graham, Coon, Myron, Waterman, McPherson, Kimball, J. F. Bire, Rothenberg, Tender, Bird, B. J. B., Dickson, Shapiro, Kocher, Clark, Lewis and Hare will be only known ... the line.

Our ex-football Captain of this season, Stearns, Potteratter is better known to his close friends at "Olga's." is now attending The Institute of Textile Technology in Charleston, Va.

1948 Football Schedule

September 25 - New England College at Lowell
October 2 - Bergen College at Lowell
October 9 - as Michaux at Lowell,1,260
October 16 - the Home of New York at New York, N. Y.
October 23 - Clarkson Polytech at Potsdam, N. Y.
October 30 - Springfield College at Lowell, 138
November 6 - American International at Lowell
November 13 - New England Teachers at Lowell
November 15- Very nice.

Couch David Worsley

the appointment of Dave Money to the school's coaching staff, Mr. Money will coach varsity basketball and assist Mr. Gribble in coaching the football team. This will obviously be a great move to the school, since Mr. Money has a wealth of coaching experience.

An All American halfback at Dartmouth, he got his first coaching ex... Paul in 1943. Previously, he had spent the year immediately after his graduation in 1943 with the Philadelphia Athletics of the American League. Mr. Money received no restrictions to some of the faculty, however, since he was football and basketball coach here at tip in 1943 and 1947. At this point we interrupted his coaching activity, but in 1949, he was signed to join Boston Bantam, coach baseball, and Traveling Charter of New York. Lady. Fortune interested him, though, and two weeks before reporting broke both ankles and had to withdraw from his contract in 1949.

In 1943-50, Mr. Money was head coach of football, basketball, and baseball at Middlesex College. His football teams won statewide across the nation in 1947 and 1948. His teams spent the majority of each season as the number one school in New York, Harvard and Dartmouth. In 1943-50, during his years at the school, he accumulated the coaching directories of football and basketball at Albion Polytech in Albion, Ala. Where the clinics were run to try and to him and his boys. Here again, their teams were victorious in competition with large schools.

After a brief tenure at Fordham, Mr. Money signed in 1943 to coach baseball and football at Below he has now again proved successful in organizing teams for the past five years, maintained championship football clubs at a college whose sports had previously sunk to a dangerous low. In 1949, he became engaged in training men for Uncle Sam. In 1944, he became athletic director and head "coach of football and basketball at Northfield High School.

Now Mr. Money is here at Lowell H. S. as, at Prof. Colin. Heading up the coaching staff is with the aid of a man like Money, who has a football background, a group of three, a splendid teacher, and a gentleman with the same amount of pride, the Lowell Textile athletes should receive a big boost.

The Sportsman

Bob Berwick

An extensive modification program is being conducted throughout the school and in the athletic department, being no exception, being any page. The most worthwhile point to substantiate this claim was how much better the athletes can perform.

Our football team has made a great deal of progress in the last year. The players are now conditioned and ready for the upcoming season. The new coaching staff has done an excellent job in preparing the players for the season.

The basketball team, under the guidance of Coach Worsley, has improved a great deal. The team is now ready to compete at a high level.

The baseball team, under the direction of Coach Money, has also made great strides. The team is now ready to compete at a high level.

In conclusion, the athletic program at Lowell High School is on the rise. The athletes are now better conditioned and prepared for the upcoming season. The coaching staff has done an excellent job in preparing the players for the season.
