S.C. Rolls On

By Ed Dunbar

The second lively meeting of the Student Body was called to order by President Morrissey last Thursday in K-301. The terrors, Rich Zlatnick, handed out sheets describing last year’s financial status and gave a report of the present condition of the Council. It was called to the attention of those present that the $200 that was to be divided equally between the Lowell Drug Center and the Anabasis House would be given only to the Anabasis House. This was necessary because the LDC is no longer operating.

Phil Morrissey then appointed members to the Student Union Organization Committee which will come up to a proposal to submit to the trustees with respect to taking over the vending machines, enterprise in the school. The funds derived from these operations would be given back to the students in the form of scholarships, loans, etc. This Committee will also deal with setting up a Student Union Organization so that the S.U. would be administrated and staffed by students.

Gerry Brigham, Social Committee chairman, reported that sales for the Concert concert were going poorly. Only 250-300 tickets had been sold by last Thursday with the total expenses amounting to $3500. Hopefully a production of Jesus Christ Superstar will be booked for December.

The Election Committee stated that 20-25 freshmen are running for office with almost half of them vying for the office of President. A convention will be held October 12 where candidates will speak to freshmen. The elections will be held the following day and the runoff a week later. All voting will take place in the bottom of Southwick Hall where 18 pictures were taken. A referendum was suggested for the future with questions concerning grass, co-ed dorms, additional student trustees, and a school-wide public address system.

STUDENT COUNCIL SAYS HIS

The tentative date for the opening of the Coffee House is October 6, but much help is needed in the preceding days before the opening. Professor Kudzma addressed the Council in reference to the Rowing Club’s trip to Europe. He gave a list of all funds from for the trip and also a list of expenses. Funds totaled $2,718.50 and were received from the following sources:

- Alumni of Hill $750
- Joseph Pettigrew $100
- Miss Kennedy $100
- Suburban Daisy $100
- Alumni Matching Funds (from Alumni Assoc.) $1,663.50

The rest of the expenses which totaled $5,874.98 had to be supplied by the union themselves. Kudzma gave the report in order to clear up the misinformation that has been floating around.

Danny Malloy made the most popular motion of the day, “…to adjourn. It was passed unanimously.

New Administrative Positions Proposed for L.T.I.

—Trustees Make Recommendations on A.D. Little Report—

The Committee on Administration of the Board of Trustees has released its initial recommendations for the implementation of the Arthur D. Little report. This report was commissioned by the school three years ago and recommended the distributing of the responsibilities of a few top administrators to new, more administrative positions.

The committee report felt that the top three positions should remain unchanged. However, the following new positions were suggested: a top-level academic level with a Ph.D. in Science Engineering and/or Technology, and a top-level position with demonstrated success in the administration and management of high-level academic matters. Other positions suggested were Directors of Physical Plant and Facilities, a Special Advisor to the President and the Board of Trustees, and a Controller who would “exercise day to day control over state funds” of the Institute.

The recommendations of the committee were released at a 10:30 a.m. press conference in that state. With Curtis were President Lydon, Vice President Olsen, and Mr. Biron, Chairman of the Committee on Administration.

According to Biron none of the decisions made by the committee were conditioned by the possibility of a Tech-State merger in the future.

Phil Morrissey, present at the conference, expressed distress over the section of the report dealing with the Student Union. His major point in contention dealt with the appointment of a Director of Student Union Activities and “appropriate” staff members. Morrissey felt that students could and should administrate the Student Union without the hiring of outsiders.

Concerning Trustee appointments it was recommended that any member absent from four regularly scheduled meetings in a calendar year, exclusive of July and August, could lose his position by a two-third affirmative vote of the Board. Legislation would have to be introduced and passed in the Massachusetts General Assembly in order for this policy to be enacted.

Another interesting area brought out in the committee report was the possibility of changing our departmental system into colleges—such as the College of Engineering, Business Administration, etc. Each college would be directed by an employee in the position of Dean of the College. The committee suggested that consideration be given to appointed division heads to the Deanship, but would not direct that this be done.

When questioned as to the advantage of having colleges instead of divisions President Lydon replied, “It is a matter of growth. We decided upon a departmental division structure when we were very much smaller. It is in the interest of efficiency to have a different structure, one that is more traditional, one that is more accepted at other colleges and universities.”

The committee will continue to study the A.D. Little report and will submit to the trustees additional recommendations in the future.

Due to the fact that America was discovered -

Fresh Elections 3, 4, 5
Who’s Who 6
Bookstore Report 6

Vol. 50, No. 5
October 4, 1971

Lowell Technological Institute

On Wednesday, October 6, 1971, there will be a meeting of all those seniors who wish to work on the following committees.

1. Recruit Graduation Committee
2. Senior Wreath Committee
3. Black Diplomas Committee
4. Optional Final Committee
5. Social Committee
6. Advisory Committee to the Pickout
7. Class Gift Committee
8. Graduation Speaker Committee

THE MEETING WILL TAKE PLACE AT 4:30 P.M.
IN THE MULTIPURPOSE ROOM!!!
LITTLE CAN BE DONE WITHOUT YOUR HELP!!!
THE TEXT

There Is

A Solution

Somewhere, somebody, even a somebody who is making a great deal of money. Who is this person? Who ever is, is making all this money talking prey on many tech students. This would be the excess money found in the Service-maintenance, that is, Rip-Off money. Money that another tech student has thoughtly put in the machine for something, and doesn't get a damned thing.

Personally, I have been ripped off along the last time. I received a double-whammy from machines for the total loss of 20.00 (a substantial amount for a lot of students to lose). In the morning I lost a quarter in the parking machine, no pastry, no change return, no quarter. NOTHING! In the afternoon, I figured I would gamble again but this time with more favorable odds: different machine, correct change. So, I dropped my 10 cents into the Coke machine and WHOA! I get taken again no Coke, no money, continue rip-off...

Therefore, I propose a solution, somewhere centrally located at LTI there should be an office or a stand, where there should be a Service-request Reps who would be on duty for the entire day (and night for right students) taking care of those students that lose money in the machines. An honesty system would be set up where the student would report his loss along with his name and his box number, and the amount lost on a piece of paper (or report stard for the sake of records) and submit it to the representative, who would then refund the loss. (This program is presently successful at Northern Essex and other colleges.)

Phil Morrisey

THE BOX IS HERE

The grievance box has found its way to the main buildings and it is waiting to devour any grievance submitted by the student body. If you have a legitimate complaint and you think you are getting screwed, give a call to the box and get some help from the Student Council.

Get someone else behind you easier to help you find a solutions to your problem. All the information you need to know about the Grievance Committee is in the key along with information on how to file a grievance. Don't allow yourself to be exploited, file a grievance.

"The best of our government being the opinion of the people, the very first object should be to keep that right; and were it left to me to decide whether we should have a government without newspapers, or newspapers without a government, I should not hesitate a moment to prefer the latter." - Thomas Jefferson 1787

The text

Campus Book Supply

102 Textile Ave.

Lowell, Mass.

FRESHMEN: Tom Nealley is actively participating in LTI's functions. He is manager of the LTI football team, a member of the Social Committee, and is active in the Coffee House preparation. Through these organizations and the influential upperclassmen he knows, he can get a lot done for both the class and the school if he is elected to the Student Council for what campus life is like here (even the dual weekends that are going to change). So all you freshmen go to vote on Oct. 13 in the basement of Southwick, where you had your I.D. pictures taken.

Lucy Deng, Treasurer

As a candidate for Treasurer for the class of 1975, I am willing to give my time and do my best, because I feel that the class is part of your life and mine too. From now until election day time does not allow me to become known to everyone. But my ability will show after I am elected. I would appreciate your vote. Thank You.

Dan Pereira, Treasurer

Our class will move ahead with great advances and will be the most successful class ever. LTI!!

This idealistic statement can become a reality if you vote for responsible class officers. I am a dorm student and a BA major, and running for class Treasurer, and sincerely want to help the class of '75. So when you're voting Oct. 13th please consider me.

Penny Looney, Secretary

As a class, we have been at Lowell Tech for about 3 weeks. During this time we have all gotten the chance to see the school and get adjusted to the "Lowell Tech Life": good points and bad.

In the coming elections (Oct. 13) we have the chance to vote for certain people to represent our class. Through the office of secretary, I feel I would capably be able to do that. It is now up to us the class to vote in the coming election for the people who are willing to work and put in the time necessary to make our Freshmen Year a good year.

Mike Beegle, S.C. Rep

Do you really give admission to who gets elected as your Student Council Representative? I do and that's why I'm running. Allow me to explain why you should want me to be your Student Council Representative.

I am experienced in student government; having served three years in high school as a legislative representative, as our Council Treasurer, and as Council President. I possess the maturity to be realistic and still maintain the ingenuity to be progressive.

There are some ready-made, dedicated, and qualified people running for the various class officers. I feel I am one of them and sincerely believe I can do a lot of good for this class. Feel free to contact me at Box 345 or Room 129 Smith Hall with any questions or concerns you might have.

Please and most importantly, on October 13, show your spirit and VOTE! Thanks for reading this. I would appreciate your support and vote.

James Bender, V.P.

I sincerely want to be elected Vice President of the Class of '75, because this class needs people who will dedicate themselves to the interests of our class and school. I feel that I am one of those people and I want to help. You can be sure that I will be informed and involved with all decisions, especially when our class is affected. We can make LTI a more profitable and enjoyable place for all. However, we cannot expect significant changes without good leaders.

The first and most important step toward a great class, is to elect qualified, honest and intelligent representatives. Vote for me as your class President because you were hiring them for a job, not just to have fun! Consider this is who is best.

COFFEE HOUSE

- Tentative opening Wed., Oct. 6 in Eames Hall Lounge at 8 p.m.
- Three Folk Groups to play Wednesday and Thursday nites

This Bulletin Board service is offered to everyone from the Lowell Tech Community. Type or write your notice on a 3 x 5 card and deliver it to the Tech office or the mailroom. To insure placement in a Monday edition, hand it in by the previous Wednesday. This service is available at absolutely no cost.
Art Dufault, 
Pres.
I am mainly interested in organizing a good functioning Freshmen student body. Freshmen are not as realistic as some upperclassmen and administrators tend to think. Freshmen really do care about the school both academically and socially, otherwise we wouldn't have chosen LTI as our institute of higher learning.
Therefore, we must organize with the aid of a strong leader, who can negotiate with the administration to seek their full cooperation to help solve our problems and dissolve our rip-offs.
Personally, this is my second time starting at Tech. Last year, I started as an engineering student, this year as a BA student. If you can, vote for your class officers on Oct. 13. The elections will be held in the basement of Southwick Hall, and if you really can, vote Gary Woods President.

Gary Woods, 
Pres.
The council in the past years has accomplished much, but there still are loose ends to be tied. The food is still poor in the cafeteria, the social life dead, and four years are still ahead of us with few elections. This is your school, as well as it is mine. I care about LTI, I want three next few years as enjoyable as possible, and if you can, vote for your class officers on Oct. 13. The elections will be held in the basement of Southwick Hall, and if you really can, vote Gary Woods President.

V.P. Candidates

John Herron
I take great pride in knowing that I am a part of Lowell Tech's class of '75. Although each individual is just a small part of this school, no one should feel helpless in trying to change whatever needs to be changed. My feeling is that as good as the school is, it still lacks something. The opinion of the students, residents and continues alike, very rarely becomes a part of Tech. I feel that all that the school has to offer them is an illusion. Getting involved in school activities is one way of showing people that you want change. I'm going to do my best to bring about these changes.

Bob Hogan, 
Pres.
My name is Bob Hogan and I'm running for president of the class of '75. I would like to see a change in some of the policies that the institute has established. The one major policy in the meal plan that deters people from using it is that the meal plan must be purchased at the beginning of each semester. I will try to have this changed so that you only need to purchase the meal plan when you want to use it.

Chuck Bechtel, 
Pres.
The class of '75 is a great class with direction and ambition. The student will make this class go places, and it will need that binding force. That bind is known as the class officers.
To lead these officers, we need a man with a sense of responsibility and direction. I feel that I have those capabilities. If I didn't feel that I could lead my fellow students to the best capabilities for the class, I would not have considered this.
I ask those that know me to evaluate me as you can. Compare me to the other candidates and vote for him who is best.
Those that do not know me, I say that I want to meet you, so that you may estimate my worth.

David Roberts, 
Pres.
In introducing myself to all of you, I first wish to express my congratulations upon your membership in the class of '75. We are the low men on the totem pole but somehow hopefully 100% of us will be winners and proud graduates of LTI. We have only been here for a mere three weeks and already freshmen elections are upon us. I feel these freshman elections are of great importance to each and every one of us. To us as freshmen, it is a special importance because when it comes right down to it LTI will be our home for the next four years. Whoever is elected to represent us in Student Govt. will become a long way in determining how enjoyable those four years will be. To voters these elections can be equally important, for you will be affected by almost every decision. I have decided to run for Class President for various reasons and the most important is that I definitely feel I am capable of doing the best job. There are many issues involved in this election and I am painfully attempting to meet each student and find out his opinions. Good and bad and about LTI. I feel I am a good listener and can understand the complaints of students but even more important I feel I have the knowledge and political ambition to see that something is done about them. In short I am willing to represent each and every student in any feasible way at any time. I am a dormitory student and always around LTI. If elected I promise that at any time, day or night, I will always be ready to help. I realize that there are many things that need changing here at LTI but we must take note that the faculty and administration are open to change for the better. The important aspect is that we must have good leaders to make these changes come about. In closing I only wish to say that I hope each and every student will vote and vote wisely—preferably for me. Thank you and good luck in your studies.

Rich Urbanski, 
Pres.
If you want the class of '75 to pass then LTI without being noticed then do not vote for me. But, if you want the class of '75 to be great then do vote for me, Rich Urbanski for President of the class of '75.

Also for Pres.

Gary Gilmore

Noel Pogorselski
Being a transfer student does have its advantages—you have learned something that it is possible to get through that much faster. You don't have to worry about what you are doing or what you are going to do about it. You are aware of the problems that face a freshman and already have adjusted to college life, social and academic. Of course, my experience has taught me to use time wisely, I would have more time to devote to the vice-presidency.

There are problems in every school system, but they can only be corrected when the students become actively involved in change. Turning the heat and choosing to know it does not solve the problem; it only creates it. Contrary and irrational solve problems; you have to care about what is going on and you, on your part would need to receive. We are not a person a parent back and the realistic idea towards the world for it too much an easy way in. Change can only come about when you can stage enough to want and work for a change.

The text is from the October 4, 1971 issue of Lowell Tech. Thank you.
The most important aspect of this or any other election, is being honest. The electorate must make themselves knowledgeable. They must find out who is running, and what each candidate stands for. Only then are they able to cast an intelligent vote.

Elections and democracy become a farce when people vote on party lines, for their friends, or just to vote. Secondly, every person, in this case freshmen, must vote. This is the only way elected officials can really be representatives of the people.

Therefore, I beseech each freshman to become knowledgeable, then vote, so that our elections may be worthwhile.

The best candidate for an elected office is one who will truly represent the people. Often a candidate will make a multitude of promises during the campaign, which coincide with the will of the people. However, after the election has been won, the promises vanish and the elected official's own wants and desires take over, whether they are in conjunction with those of the electorate or not. Thus, at times, the will of the people is not simply ignored, it is fought!

The only promise I will make during this election is if I am elected, I will represent the people.

In order to truly represent the people, the official must make himself accessible to them. However, he must not be so busy with getting the votes to come to him; he must actively seek out the issues from the people. Since the beginning of the school year, I have solicited comments, complaints and discussion from the freshmen of LTI. Also most of my spare time has been spent in the lounges, cafeterias, and recreation rooms of the dormitories, listening to anyone who wanted to speak. And can one, in order to understand the problems of the whole school in general, and the freshman class in particular, have attended the meetings of the student council and the board of trustees?

From my contact with the students, the organizations and the programs of LTI, I have collected a list of issues that seem to be the most pressing at this time.

1. The food service in the cafeteria is a big question mark. Reports from the students and personal observation indicate that the service and food fluctuates from fair to worse. Also the consensus is that the status quo is slowly slipping. Will the infamous events of last year repeat themselves?

2. The female population of LTI is discriminated against. Why is there no women gym instructors? Why is it mandatory for women to wear butting caps when swimming, when no such restriction is placed on men with even longer hair? If they qualify, why may not women join the tennis team or swimming team?

3. The athletic department and the rest of the school are not too well conditioned. How can a varsity team hope to win if the players can not make practices or even attend games because of classes. Yet on the other hand have students hope to pass their courses if they miss two classes for every game they do attend?

4. Which is the worse day of the week to try and find something to do? Sunday of course, is naturally that is the day (the gym and grounds are closed tight??)

5. Finally, organization as a whole seems to be pretty poor. Not many activities are well planned or publicized in advance, thus one hears about it after the event. Too often, when there are activities planned, they all fall on the same night!

As these are the main issues of the students, I will do my best to find the answers or solutions which will best help or satisfy the students of the Class of '71.

An elected official of the Freshmen class also becomes a member of the Student Council. I have heard it said that the Council is supposed to govern the students, or even discipline them. I do not see the Student Council as this type of organization. In fact, I envision it as an open type, one that fights and promotes the rights of the students against any and all forms of discrimination or oppression. If I am elected President of the Freshman class, I will make every effort to mold the Student Council into an organization which will really champion the causes of the students of LTI.

In closing I will say that as a presidential candidate I stand for:

1. Personal freedom for each student to decide their own future.

2. Elimination of all unnecessary restrictions.

3. Better coordination in the school, in the community and within colleges.

4. Fair and equal treatment for all students.

5. A student council that will work for, fight for, and honestly represent the students of LTI.

REFRIGERATORS?

Last Thursday night, six students from the basement floor of Leitch Hall went to the dormitory and requested resident students to sign a petition which concerned refrigerators in the dorms for student use. The petition was circulated and over 500 residents signed it with only 12 refusals; consequently, the residents are in favor of this. It must be noted that many residents were attending the A.V.S. movies of the week, and many were in the library doing study. Otherwise, more signatures would have been acquired.

The petition is requesting the permission to have one refrigerator per wing in Leitch and Bourgeois and one per floor in Smith and Eames. Since the annexes already have refrigerators, the petition would not apply to them.

This privilege would allow dorm residents to keep perishables such as milk and cold cuts in order that they may make their own lunches and midnight snacks. This would enable the residents to avoid the disastrous prices which business establishments in the area are charging or which students are forced to pay if they want to eat.

Under this situation, the decision would be left up to the residents of each wing or floor as to whether or not they want to acquire a refrigerator. If they did acquire it, the residents would then decide whose room in which it would be kept.

This request is going through proper channels. Consequently, this may take time and the students will be kept notified of any action taken. Thanks for your support.

Sincerely,

The Residents of the basement of Leitch Hall

1971-72

JAM SESSION

Sponsored by

Beta Tau Sorority

in

Cumnock Hall

Thursday October 7, 1971

OPEN TO ALL

12 noon to 4 p.m.
Who's Who Candidates

Applications for Who's Who in American Colleges and Universities will be available to all interested junior and seniors forty-five years to October 15, 1971 by the Student Council of the College. The instructions sheet is attached to the application.

Any junior or senior is eligible to apply, and each application is judged on a point system. Points are awarded for academics, clubs, organization and sport membership.

The nominations must be returned to Karen Dickinson through box 2527 on or before September 15. If anyone has any questions, feel free to contact me.

THE IDEA

The basic concept of Who's Who Among Students in American Universities and Colleges is to provide a democratic, national basis for recognition of outstanding campus leaders. First published in 1934, this directory has appeared annually—unique institution which now includes thousands of listings in all 50 states, the District of Columbia and several foreign nations in North and South America.

HOW NOMINEES ARE SELECTED

Only college junior and seniors are nominated in four-year undergraduate institutions or graduate schools which have nominations to Who's Who Among Students in American Universities and Colleges.

Nominations are submitted annually after selection by campus nominating committees. In most cases, these committees are composed of representatives of the administration, the faculty and the student body.

Scores for judging the relative merits of various candidates vary widely, although there has been a growing tendency to use an objective point-scale system to assure fairness in selection. The campus committees are instructed by the national organization to consider students whose academic standing, service to the community, leadership in extracurricular activities and future are definitely above average.

All nominations must be endorsed by a member of the faculty and/or the administration or other person designated by the college to verify nomination and related matters.

Since curricular and extracurricular programs at various schools vary too greatly to permit accurate comparisons, each college is assigned a quota of nominations. This quota is carefully calculated to assure a well-rounded sample of the student body yet it is kept small enough so that nominations are confined to an exceptional group of students.

After the nominations have been submitted to the national office, and have been approved by it, the individual nomination is notified directly by the organization and is required to submit his or her own biographical data.

HOW THE OPERATIONS ARE CONDUCTED

After a nominee's biographical data is received, an entry in the forthcoming edition of the Directory is prepared. At this time a certificate suitable for framing is mailed to the student for presentation at graduation, an award ceremony or other appropriate occasion. The biographical and other data is then transmitted to the Student Placement Office maintained by Who's Who Among Students in American Universities and Colleges for the benefit of the members.

Since many prospective employers, including such government employers as the Peace Corps, State Department and OCS, look upon listing in the Directory as an important indicator in future success, the Organization has undertaken to provide nominees with a special placement service to assist in making employment contacts and/or supplying recommendations.

The Placement Service works in this way:

1) Students seeking employment may send a list of prospective employers to the Organization and may request a letter of recommendation.
2) Or the student may simply list the Organization as a reference on his application for employment. The employer then has the option of contacting the Organization for whatever information is needed.
3) In response to requests from either the student or the potential employer, the Organization will prepare individual letters of recommendation and/or supply the employer with necessary biographical data.

This service is designed primarily for the student and is performed completely without charge to the employer or the student.

THE FUTURE

Who's Who Among Students in American Universities and Colleges is dedicated to the service of students. It is entirely supported financially from the sale of the annual directory and the club and institutional keys. Since its inception over thirty years ago, the organization has endeavored to remain independent, and to reflect the changing student environment across the country.

To achieve this end, the Organization has relied on close contact with its members, college administrations, and faculties. The continued success of the Organization is indicative of the fact that it fulfills a very real need in the academic community. As students change and in the future, we expect to meet to change them.

In summary, any suggestions or comments you would like to make would be greatly appreciated.

Norton-Dunnall 810

Re: J.R. Driftmier's article, a stock Norton-Dunnall 810 production runs 11.9 sec. quarter mile. It gets third gear wheelies, and has an optional 5 speed gearbox. At top end (4 speed gear-box on the other side at 125 mph, Cost of English delivery—$1,770 and American delivery, $2,200. Let me see your Hotrod do that!!!

AVS Movie of the Week

WANT UNTIL DARK

Starring: Audrey Hepburn, Alan Arkin, Richard Crenna, Efrem Zimbalist, Jr., Julie Herrod, and Jack Weston.

This film that has been so widely heralded is one of the year's most delightful treats. It's sort of well made mystery-horror story that looks so attractive and serious, but its real appeal lies in its genuine charm, its gentle humor, its delightful quality of acting. It is a film that once you have seen it you will find yourself talking about it. It is a sort of a real ghosts story, sort of a real of ghostly happenings, but there is something so appealing, so delightful, so genuine about its treatment that one is completely involved and finds himself talking. It is a very nice film that is completely winning and will definitely appeal to a wide audience.

The plot involves a young lady who is induced to help a friend in an investigation of a mysterious house. She is attracted to a handsome young man who lives in the house and is convinced by him that the house is haunted. She begins to see strange things, hear strange noises, and feel strange sensations. As she becomes more and more involved in the investigation, she realizes that the house is indeed haunted and that there is a malevolent spirit that is trying to possess her. She becomes increasingly terrified as she realizes the danger that she is in, and she must find a way to escape from the house before it is too late.

Directed by Otto Preminger and produced by Robert Aldrich, this film is a wonderful example of film-making at its best. It is beautifully photographed, with an excellent score by Henry Mancini, and it is a truly entertaining and enjoyable film.
1971 Lowell Tech Hawks

By Tom Neby

appearance as a team on the gridiron.

The game did not go in the team's favor; however, there did point out, to the coaches, their weaknesses. With this information, the coaches can help improve these weaknesses for the Hawk's next game on October 9 against Brandeis. The final score was St. Michael's 41, L.T. 13.

The Hawks are a very inexperienced team and this was their first game. Their defensive secondary needs some better control as they were thwarted by St. Michael's aerial attack. The Hawks also received an excess 160 yards in penalties. Punting was also under par as the Hawks punt averaged less than 50 yards per punt.

However there were some good points as seen by the naming of Bill Connon, Steve Hardigan and Steve Warrren while Rocky D'Angelo looked very good at quarterback, engineering the drives for both Hawk touchdowns.

Well, now is the time on Brandeis and hopefully more people will come along to help support the team.

Quarter

SPOUTS

Cross Country Gains Speed

By Ed Cowley

After getting off to a poor start, losing two of their first three meets, it looks as if Coach George Davis' harriers may be able to come back to another fine season. After humiliating Bryant College on their home course September 25, 15-44, they went on to beat New Hampshire College 15-40, 10-46.

Sophomore Jim Roberts continues to lead the team with good running, running in a 2:44.4 performance against Plymouth State in the Lowell Tech home course about two weeks ago. Incidentally, it was at this meet that the course record of 2:48 was set by Betsey Fox. Right behind Roberts are co-captains Bah Ayers of Newburyport, Mass and Ken Johnson of Sutton, Mass. Other veterans returning from last year's team are Bill Carpenter, who has placed in both of Tech's recent races, and Alain Rand.

It looks like Coach Davis has some good freshmen talent coming up. Tim Marc of Randolph, Vermont has occupied another four spot on the team lately, and Rich McGraw and Bob Joseph have been consistently near the front of the pack. Unfortunately, one of the high points of the new recruits for the season, Jerry LaFlamme of Haverhill, Mass. is out for the rest of the season due to injury. LaFlamme was the top two miler in his class last year in Mass.

If the team's performance in these past two meets is any indication of what will come, then it appears that even with two spots missing due to graduation the team will come close to matching last year's 13-2 record. Hopefully, it will win, with a little luck and a lot of hard work.

WINTER SPORTS

officially start practice on October 15

Calling All Jocks!

Many athletes at LTI have gone around grumbling for the past several years that Lowell Tech doesn't do anything for its athletes and is different towards them. Well, now is the time to help change that situation. On Tuesday, October 5, at 12:30 in the Varsity locker room there will be an important meeting of everyone who has earned a Varsity letter or a Froshman number.

-Varsity Club To Start Up Again-

The purpose of this meeting is to reorganize the Varsity Club which has been sort of defunct in the past few years. Your Advisor, Coach B.D. Riley will explain the aims of the club and what programs will be offered. Each interested athlete should be present. You can at the meeting, a meeting of officers will be elected and a Varsity Athletic Council will be established consisting of the officers of the club and a supporting membership.

Some of the things that the Varsity Club might take on are: obtaining special awards for seniors (watch, photos, etc.), a Varsity scholarship award, having Varsity athletes work out and show visiting teams to their locker rooms, etc. Do some type of special service project for charity (a Lowell Tech team playing an amateur team in an exhibition game with proceeds going toward charity), arrange to have a well known pro athlete to speak at the annual athletic banquet, having Varsity athletes show interested prospective high school athletes the LTI campus, establish a special scholarship fund. This list goes on and on.

Suggestions for raising money to support the Varsity Club activities have been to change a dollar membership fee to join the club and/or hold a raffle with the winner getting tickets for a Boston Bruins game.

The Varsity Club can only effectively serve the Varsity athletes of Lowell Tech if you (the jocks of Tech) support the club. Come to the meeting on Tuesday (tomorrow). Remember, all you have to do to join the Varsity Club is be a Varsity athlete or a Froshman letter.

LTI Drops Opener

By Ed Gorden

On Sept. 24th, after a 28-0 defeat at Harvard, the LTI's football team met the L.T.I. Owls at Tech. Owls won the date, 28-0, with Harvard in control until the third period.

At 1:30 into the second period Morley of Tech was injured. Even though he looked as though Tech might recapture but at 12:30 into the second, Owls once again scored with a narrow lead. Then once more at 14:15 into the second, Goodmoore scored on an audit from Flaherty. Tech's tackle, who was playing well had no chance on the winning plays and field goals. They were both good luck plays, that even the best can't have trouble with, if they can catch them.

The second half was played pretty evenly, with Tech overstaying the first half, but unable to score and Harvard taking the second period and lasting when they could score. The second half saw more action than in the first half, but the Owls had the advantage, and after Harvard scored a second field goal in the third period. The Owls were 23 points on goal by Harvard and 15 by Tech, both teams played well but the score is what matters. This is the first game that Tech will beat Harvard when they meet in November.

On Oct. 5, Tech meets at home at 1:30, if you can make it, go. The turnout for the first game was very poor, and I hope to see more fans at the next home game Oct. 14 against Worcester Tech.

Try and go to all the games after all, it is your school and team.

Sports Car Club Rally

By D.S.S.

On Sunday, September 26, the most adventurous of LTI's car owners showed up on the Essex Hall parking lot with their navigators for the first rally of the LTI Sports Car Club. Styles ranged from a custom Model T Ford Pickup on a VW chassis to one of Dorothy's full size family cars.

Registration began at 11 am and driver instructions for the novice rally was at 11:45 am. The first 18 cars were out at 12:00 noon, the first cars finishing some 2 1/2 hours later. This was the first rally for many of the drivers and almost everyone got lost at least once. The navigators had a difficult time trying to answer questions while looking for Dorothy's "kites for sale." And now everybody knows that a cow's head is protruding from the side of McGovern Farm.

After this accident, everyone had a great time and is looking forward to the next rally on October 17.

1971 Lowell Tech Hawks

Friday night, the 25th of September, the L.T.I. Hawks left Eames Hall between 7:00 and 8:00 p.m. in a conglomeration of cars and vans for St. Michael's College in Vermont. Most of the players expected to be there between 11:00 p.m. and midnight. Due to transportation difficulties, players were arriving until 2:30 a.m. Saturday. Once there, the players had to sleep on the floor of a gym in which there was no heat. That Friday night was quite cold in Vermont.

At approximately 10:00 a.m. everyone went to the St. Michael's cafeteria and enjoyed a very good meal. After going back to the gym to suit up, the Hawks made their first
