**A PRODUCTION YEAR**

**Reported by S. Almery**

In a recent interview, Past President of the Student Council, Pete Wieg, announced that this year was "a productive year". When asked what Pete thought about the work of the council this year, he said he thought it was "a productive year" and that he thought this was "the best group of people on the Council ever to hold office". With regard to All-Tech, he said that he felt that All-Tech did a "rather good job" but that he had his reservations about All-Tech. He felt that the twelve weeks of All-Tech would not be long enough for All-Tech to do a good job.

Regarding All-Tech, Wieg said that the blunders were "a bit of a frustration", but that he was "pleased with the work of the council". He felt that the twelve young people on the council were working hard and that All-Tech did a "good job".

When asked when the movies were going to be shown, Wieg said that the movies were "going to be shown next week". Pete said that the movies were "going to be shown next week".

As a final note, Pete said that he hoped that the all-Tech students would "enjoy the movies". He felt that the movies were "going to be shown next week".

**MAY 20, 1964**

**GROUNDBREAKING AND DEDICATION**

On Saturday, May 16, groundbreaking ceremonies were held for the new gymnasium and physical education center to be located behind the school along the F.W.P. highway. In a short speech, President Lydon said that the new gymnasium was "a step forward in the development of our school". He expressed the hope that the new facility would be "a place where the students can enjoy themselves".

**Fraternal Scholarship Awards Continue To Climb Nationally For Exceeding All-Men's Averages**

Scholarship awards of members of college fraternities throughout the nation continue to climb above the respective all-men's averages for the past academic year, according to an analysis released by the National Interfraternity Council. The total reported for the academic year, 1963-1964, was $36.9 billion, revealing that more than one-third of the total scholarship awards were reported for the academic year, 1963-1964.

The increase in fraternity scholarship awards was pronounced during the past decade. In 1954, the awards were only $14.9 billion. The increase in scholarship awards has shown a steady, consistent rise. For the previous academic year, the figure was $28.3 billion. Two previous years the figure was $20.3 billion.

**SPRING HAS SPRUNG (TACPS)**

In the spring a young man's fancy lightly turns to thoughts of baseball, football, sports cars, water skiing, sleep, fishing, movies, girls, sports (in that order, of course), water sports, golf, polo, tennis,8 croquet, frisbee, bikes,8 and girls. Young people also think of the New Massachussets as "the land of opportunity".

Also on Saturday the new facility was dedicated in memory of the late Dr. J. Wallace Ball, a member of the faculty and long-time supporter of the College. Professor Herbert J. Ball, a member of the faculty and long-time supporter of the College, delivered the dedication speech and gave the new facility to the College.

**UPSTREAM DAY A BIG SUCCESS**

Again this year, the Student Council sponsored Upstream Day, a big success for those who attended. Clubs were sponsored by the Dean of Student, William Yarnell, May 13 and a large number of students and faculty found their way to Yarnell's Coffee Shop and joined in on the day's activities. These activities consisted of volleyball, softball, football, soccer for the very energetic, horse-shoes and shuffleboard for the less active, and just plain loafing and doing nothing for the least active. A golf tournament was held and many challengers were present to try and win the trophy. At noon, a chicken buffet was served and consequently devoured by everyone from the active to the lazy. In fact, it was a day of fun and frolic for all those who attended and it provided a welcome relief from the old rat race of Tech before the assault by finals next week.

**Everyone seems to be enjoying themselves, except one, but maybe he just lost a bet. For more action, see the pictures on p.**

**Teachers for the Millions**

From the palm-thatched schools of Southeast Asia to the glass-and-steel classrooms of America, the teacher shortage is a disturbing phenomenon.

The world's primary schools alone need 8 million more teachers, according to the United Nations Educational, Scientific and Cultural Organization.

Statistics show that 700 million children, or one-third of the world's population, are illiterate. Unless the proportion of children in school increases, UNESCO official said, "adult illiteracy will continue to grow by 20 to 30 percent per year." This danger explains UNESCO's survey of teacher training. Seventy UNESCO-sponsored teacher training programs have trained 55,000 school teachers and instructors, and the program is growing. Only recently, 14 new projects were undertaken by secondary schools in general. Teacher-training programs in Asia, Africa and Latin America, in cooperation with UNESCO, are helping tens of thousands of educators to study in the United States and Europe.

It will take a flood of teachers to quench the thirst of learning in emerging countries.
Letters to the Editor

Mr. Montgomery

Editor: You remember on civil rights, how we know that you are taking advantage of the press and are there any other examples of this? I know that civil disobedience is the only method that has worked for the Negro, and it is still the only method. If you take into consideration all the facts, you will find that the Negro is not in any way to blame at all.

Civil disobedience was the only method that has worked for the Negro, and it is still the only method. If you take into consideration all the facts, you will find that the Negro is not in any way to blame at all.

The use of nonviolent resistance by the Negro has been effective because it is a method that is not based on violence. It is a method that is based on love and understanding. It is a method that is based on the belief that the only way to solve problems is by talking to each other and finding common ground.

TENNIS

In its last three games, the Tech tennis team, which has a season record of 9-3, won with one of the finest performances Tech has ever seen over Curry and lost to Chatham. The team ended its season on May 4.

On May 4 Tech swept Curry 9-0 in singles. Barry Pfenning scored 6-3, 6-1. Dave Behler won 6-2, 6-4. Skip Dantum surprised the opponents 6-4, 6-0. The Day Book No. match 6-4, 6-2. Jack Greaney scored 6-4, 6-2 while Dave Beery won Jim's singles total of 30 to 21 in the singles 6-1, 6-0. Tech swept all three of the doubles. Pfenning and Becker won 6-2, 6-0 and Riff and Day scored 6-1, 6-2. Byron Samson paired with Dave Howard to take the final doubles match 6-1, 6-4.

L.T.I. scored its fourth victory of the season May 7 when it beat Clark University 9-0. The Tech tennis team is currently fourth in the league.

Pfenning, Dave Behler, Joe Day, and Skip Dantum all scored victories in this match. Barry won 6-2, 6-1 while Skip beat his opponent 6-3, 6-4. Joe Day took his match in three sets, 6-4, 6-3, 7-5. White Skip went the limit winning 6-4, 6-4, 6-3. In the doubles Pfenning and Becker scored their fifth victory in six games. 6-4, 6-3. Jack Greaney and Byron Samson dropped a three set match 6-1, 6-0, 6-4.

Tech's final match of the season will be held against Tufts College on May 18.
