Omicron Pi
Is Winner of
Fraternity Cup

The large living cup, which was offered last year to the fraternity and had the highest percentage of active members to President List and is awarded to Omicron Pi.

The winning of Alpha fraternity is as follows:

Omicron Pi
Active members 40
President's List 28
Percentage 65.62
Scholastic Average 71
Sigma Omega Pi
Active members 15
President's List 8
Percentage 53.33
Scholastic Average 71
Delta Kappa Phi
Active members 31
On President's List 1
Percentage 93.55
Scholastic Average 71
Phi Pi
Active members 24
On President's List 5
Scholastic Average 73

These percentages are based on the averages as of June 1933.

Omicron Pi will hold the cup until the averages for the first semester of 1933-1934 are published from the other fraternities. The fraternity which wins the cup for six semester will become the permanent owner of the same.

WHERE IS GEORGE?

For the past few weeks this has been the question which has been heard in all parts of the campus. One can readily realize that after thirty years, George is not seen with his famous duster, reporting the latest events. We are sorry to announce that George Shen is at present confined to the St. John's Hospital in Lowell. If you have a moment why not send him a card which we know he will greatly appreciate.

The Text recently had a wrap which George will have a speedy recovery, and that in the near future he will be seen once more in the corridors.

Lowell Textile
In Scoreless Tie
With City College

City College of New York offers stiff and successful resistance to Textile Institute.

(Especial to Sunday Telegram)
NEW YORK, Oct. 21 — A Lowell Textile (football) team that has never entered City College of New York was held to a 9-9 tie here today by a dash inserted by fumble check all of forward passes and reject it's thrills. After stopping two drives near the goal line, both Lowell and City College had a six to six advantage, but Lowell pulled a newer rally in the fourth period and was twiced on the verge of a victory. The Lowellites, however, contented to be the underdog, scored at any rate, has been the true test of the final round. City College had a six to six advantage, but Lowell gained more on the other. Louis Anna, who have the vote of Lowell's attack, rushed the last minute forward and beat the deadlock. City College had a six to six advantage, but Lowell gained more on the other. Louis Anna, who have the vote of Lowell's attack, rushed the last minute forward and beat the deadlock.

To Whom It May Concern

Miss Florence Linier, Registrar of the Lowell Textile Evening School, announces that the total registration of this year is just under 1939. This is the largest registration in the history of the evening school. Every room is filled.

It is important to note that all the students do not come from Lowell. Lawrence, Methuen, Andover, and North Andover have a combined registration of 305 students. From Chelmsford, Worcester, Waterman, Newton, Winchester, Waltham, Spotswood, and Brockton we have a combined registration of 26. The state of New Hampshire sends 27 students.

To Whom It May Concern

Are you receiving your copy of the Lowell Text every two weeks? If you are not, please let us know immediately, and we will see that you do.

It is our desire that you are kept in touch with all times with your Alma Mater.

EVENING SCHOOL REGISTRATION LARGEST IN SCHOOL HISTORY

To Whom It May Concern

Have you sent in your check for this year's subscription?
We want to keep you on our mailing list, but we have to pay the printer.
If we do not hear from you before November 10, we have to say "Auf wiedersehen.

Send Your Check Today!
Letter from Kautuhl H. Shah to the Editor

To the Editor: "The Text",

It is with great pleasure I must tell you that I have been able to record the happenings of our fraternity, to which I belong, in the present volume of "The Text". I have been a member of this fraternity for the past three years and have had the opportunity to observe and experience the various activities and events that take place in this organization.

Our fraternity is a group of students who share a common interest in the field of textile engineering. We are proud of our record of achievements and the contributions we have made to the field.

In our recent meeting, we discussed the importance of maintaining a balance between academic excellence and personal growth. We agreed that it is essential to develop strong interpersonal skills and a sense of responsibility in order to become successful professionals.

We are excited about our upcoming events, including a trip to the annual conference of the Textile Institute of America, where we will be able to network with other students and professionals in the field.

Thank you for your continued support and encouragement.

Sincerely,
Kautuhl H. Shah
The Text

Delta Kappa Phi Fraternity was organized in 1899 at the Pennsylvania Textile School and was incorporated in 1908. Delta Chapter at Lowell Textile Institute is among the active chapters at the Pennsylvania Textile School. The school is the oldest in the nation. It has the largest number of alumnae in the nation. The scholastic year for Delta Kappa Phi Fraternity are:

President—Joseph T. Britto, '15
Vice President—Leon E. Moody, '14
Recording Secretary—Charles L. Dailey, '14
Corresponding Secretary—Robert J. Thomson, '14
Treasurer—Edward J. Donahue, '14

The following members of the fraternity are members of the Executive Council: Arthur H. Merrell, B. E.; Stewart, Jr., Charles E. Mort, B.; Peck, Charles H. Straw, B.; and W. C. Runkle, B.

In April 1933, William F. Welch, '34, pitched himself to Delta Kappa Phi Fraternity.

In view of the members of the fraternity, Delta Kappa Phi closed its house in September and will open a new house at 48 Riverdale Street early in November. This house is now being remodeled and when opened to the fraternity will undoubtedly be one of the loveliest and most beautiful fraternity houses in the East.

Football officials to reduce fatalities of pigskin season.

The drill field of heavy-built football players is echoing to empty stadiums all over the country. In an attempt to reduce fatalities of pigskin season, football officials have introduced a 60-yard sweep at the kickoff, a new kick starting at the 40-yard line and a hold that will allow the holder to kick from his own end zone.

The Compliments of Delta Kappa Phi Fraternity

OMICRON PI FRATERNITY

In the spring of 1902, five students at the Lowell Textile School, who had become quite intimately associated, decided to found a fraternity. In 1904, they met and formed the fraternity known as Omicron Pi Fraternity. The fraternity consists of five officers elected by the active members, who are selected by the faculty. It is a non-profit organization, and its purpose is to promote scholarship, sportsmanship, and social activities among its members.

OMICRON PI FRATERNITY HOUSE

As the advertising salesmen we admit that a half section of a front page is not a very valuable piece of floor space for advertising. But there exists a few salable rooms. The building has 350 square feet of floor space, and our subscription to The Text is very limited. Very few, indeed, have been sold out. We are not criticized by any of the students for the lack of printed matter, and it is our idea to purchase the Text. We are not careful of our money, and we do not wish to make a profit. We do not wish to make a profit. We have been careful to select the students who are in serious need of work, and we are surprised at the number of students who are in serious need of work. It is our idea to purchase the Text.

OMICRON PI HISTORY

The fraternity was founded in 1921. It has been in existence for over 50 years. The fraternity is active in the city of Lowell, Massachusetts. It is a non-profit organization, and its purpose is to promote scholarship, sportsmanship, and social activities among its members.

In the spring of 1902, five students at the Lowell Textile School, who had become quite intimately associated, decided to found a fraternity. LEARN to STUDY
By Goodwin Watson

(Continued from Previous Issue) Certain things such as smoked and tobacco have been sometimes consid-
ered as destructive. It has been pret-
ely well established that allowed in ma-
form reduces ability to think, to re-
member, and to organise material, but
the effect of tobacco is negligible on
most individuals. It makes very little
difference to the average man whether
he uses tobacco or not. So far as the
efficiency of study is concerned.

Keep on Talking
The most important single sugges-
tion with reference to study processes
is this: The material that is used in
the material that is remembered. The
happy that you discuss with others
that you come back to and forth and
dispute about is the subject that will
linger in your mind. Sometimes things
about which one disagrees with an
author or the things that you
may have the experience of remembering
only the two or three points that you disagree
in a whole lecture, the rest of it has
not just passed in and out again. Ar-
ning, disagreeing, discussing with
others, trying to organize your mate-
rial into large pieces instead of small
ones, trying to connect it with some-
thing else. all these are help to do
a thing in your mind.

An excellent criterion of learning is
whether or not material gets into day-
dreams or into reviews. When a thing
goes so deep into your thinking that
when you are not thinking of any-
ting special your mind wanders to
it, that is one of the best indi-
Cations that it is really important.
When an idea has a share enough
point to cut its way down into your
personality and come out in a rever-
ie idea, laid on to that idea.

It is possible to study too system-
atically, to take notes too careful-
ly, to make charts and diagrams too re-
cently. Don’t understand any of these
ideas to learning, but don’t forget the
value of the lower type of discussion
that starts anywhere and goes on to
the three or a dozen vital interests.
Some of the ideas that develop in a
quiet room, or a long walk, or just
sitting on a hillside bright with all
the color of October, may lead to
that irreparable dissipation which
is the essence of culture.

LOWELL TEXTILE
IN SCORELESS TIE
WITH CITY COLLEGE

(Continued from page 13) penalties of 15 years each
facing the game.

Early in the final period Lowell
made its two determined bids for
scores. Kopatch took Althaus’s hit-
out for an 18-yard gain to city Col-
lege’s 28-yard line. Four Rice backs
fumbled a first down. Althaus then
fumbled on the 7 and College re-
covered the ball and stopping Lowe-
lows’s effort. Lowell was again in
the same when Jurek intercepted Rosher’s
toss on city College’s 10-yard line and
recovered it for a touchdown. city College
now had a chance to capitalize
the last second of the game.

The following students are members
of Tau Epsilon Sigma: Parker P.
D’Agosta, Paul J. Fox, Robert Gross-
man, Robert C. Greenwald, Glen E.
Kiddie, Kenneth E. Lee, Raymond L.
Mat
What, Lela E. Mosby, Ninon Shapira,
Brenda Thomas, Robert J. Thomas,
Robert C. White.

The eligibility for membership in
Tau Epsilon Sigma is based on the fol-
lowing requirements:

1. The candidate, at the beginning
of the first term of his fourth year,
must have been on the President’s
List for four consecutive terms, and
his freshman marks must be of equal
color.

2. The candidate, at the beginning
of the second term of his fourth year,
must have been on the President’s
List for two consecutive terms and
have second term marks of his fresh-
man year of equal color.

3. The candidate, at the end of the
second term of his fourth year, may
present evidence that his average for
his entire course at least 85% and
that he has no failures.

Smoke a Lucky Cigarette—
A FULLY PACKED CIGARETTE

Choice tobaccos — and no loose ends
— make Luckies burn smoothly

This young lady is one of a small army of inspectors. Her
job is to examine Lucky Strike — to make sure that it comes
up to the exact standards we set. Every Lucky Strike she
takes is “full” weight, fully packed, round and firm —
free from loose ends. And no Lucky that she examines leaves
without this ok. That’s why each and every Lucky draws
so easily — burns so smoothly.

Always the finest tobaccos
Always the finest workmanship
Always Luckies please!

“it’s toasted” FOR THROAT PROTECTION—FOR BETTER TASTE
Rifle Club Holds Annual Meeting and Election

The annual election and election of the rifle club was held Sunday, October 31. The purpose and the nature of the club were discussed in detail, for the benefit of the new members. A favorable balance for the past year was reported by the treasurer. A schedule is now being arranged for the present year.

It is very probable that the rifle club will be much enlarged this year. Under the direction of John H. Y. during the past year, but was defeated by them in the regional championship shoot. The team which reached the finals of both of these strong teams made impressive scores against them, considering the experience of the team.

The team did not lose any regular team members from the team this year; therefore, it is felt that with last year's victorious team, the team will have the benefits of their experience and as a result should have a successful season.

This year, the first match will again take place against the Merrimac Valley Rifle team. This will prove to be a very interesting match, as last year Textile defeated this team by a margin of 30 points. It is believed both teams have improved considerably. Another feature of this match will be a hard-fought battle. This team will have as two of their opponents, their regular faculty members, Mr. Mose and Mr. Irwin. Of course, the Textile team will be out to repeat their victory from last year. This match will not take place until sometime in November, and will serve to test the mettle of the two opposing teams.

The officers elected for the coming year are:

President—Owen H. Rider, '34.
Vice-President—Richard H. Hodge, '34.
Secretary—William H. Bell, '34.

A copy of the American Rifleman, the official publication of the National Rifle Association, has been placed in the Textile Library, in a special locker. This magazine is available to any of the club members for reading at any time, for anyone interested in shooting, it is the outstanding magazine of its class and contains a wealth of information and data. It is hoped that the students will avail themselves of this privilege. If you do not

PHI PSI FRATERNITY

PHI PSI FRATERNITY HOUSE

A former chapter of the organization is located at 271 Washington Street, and serves as the Lowell residence for the majority of its members. The house is named after the Lowell Institute, which was founded in 1829, located in the Technology College, Shanghai, Texas.

All members are located in the majority of the leading cities of the country. The majority being those in Boston, New York, Philadelphia, Providence, Chicago, Greensville, Lowell, Massachusetts, and the location of the chapter in Lowell Textile School of Lowell, Massachusetts, was selected to be the site. Theta Chapter was organized in 1914 at the New Bedford Textile School, New Bedford, Massachusetts, and the same year National Chapter at Lowell Textile School of Lowell, Massachusetts, was selected to be the site. Delta Chapter was organized in the Bradford Durfee Textile School at Fall River, Massachusetts, in 1919.

In May, 1924, Eta Chapter was formed at North Carolina State College, Raleigh, North Carolina, and on January 10 of the following year, 1925, Theta Chapter was organized at the Georgia Institute of Technology, Atlanta, Georgia. In May, 1927, Eta Chapter of Clemson College, South Carolina, was given a Charter. This chapter granted a Charter February 13, 1928, located in the Teknology College, North Carolina.

Compliments of

Charles E. Litchfield, Frank O. Lachner, Paul J. Vail, Alvin J. Ehrlich.

The officers of the year 1932-1933 are as follows:

President—Kenneth N. Drake
Vice-President—John F. Heffernan
Treasurer—Kuanama S. Hirsch
Secretary—Louis E. Herrmann

Senior Wardens—Wesley B. Bates
Junior Wardens—Frank O. Lachner, Corresponding Secretary—Alvin J. Ehrlich

for regular membership, or 50 cents for associate membership (the regular membership includes all privileges). Anyone desiring to become a member, or to secure information about the club, should speak to Mr. Chan or one of the club members.

A complete schedule of the matches will be given in one of the following issues of the Text.

HISTORY OF SIGMA OMEGA PSI

SIGMA OMEGA PSI was founded in year 1761, at the College of the City of New York. Since that time, numerous other chapters have been formed in various places in the country, and SIGMA OMEGA PSI stands as one of the outstanding national fraternities in the country. Chapters have been established at Harvard, Yale, Columbia, University of New York, and Worcester Polytechnic.

At the present time, there are eighteen chapters.

The history of the local chapter dates back to 1913 at which time six students got together and formed what was known as the Sigma Psi Club. At the initiation of the Sigma Omega Psi Fraternity, and after careful consideration, the Sigma Psi Club was admitted January 20, 1929, and is now known as Sigma Omega Psi Fraternity.

Since then, the chapter has shown remarkable growth. From the original membership, the membership roster now shows a list of fourteen active members.

The primary purpose of the chapter is to promote high standards of education and ideals among students of both men and women. The aim of the chapter is to promote the highest standards of education and ideals as well as to promote good fellowship. Since the formation of the chapter, it has been well represented at all extra-curricular and curricular activities at Textile.

SIGMA OMEGA PSI FRATERNITY HOUSE at 271 WASHINGTON ST.

The fraternity house is located at 271 WASHINGTON ST. and houses eleven of the active members. At the election of officers held on the first meeting of the previous year, the following officers were elected: President—R. C. Cowan, University. Vice-President—W. A. Smith, Lowell; Treasurer—W. E. Groves, President—J. S. Snell, Secretary—D. E. Groves, Secretary—E. E. Groves, Secretary—J. E. H. Bury, Secretary—J. E. H. Bury, Secretary—J. E. H. Bury,
