Death of ‘Bernie’ Larkin Mourned

The death of ‘Bernie’ Larkin, Monday, April 23, marked the end of one of Lowell’s greatest musical and stage personalities. Born and educated in Chelmsford, his life was typical of the home town boy.

‘Bernie’ was the director of St. John’s Band, director and founder of the Chelmsford High School band, director of the Lowell Textile Institute A.F. 2 T. O. C. Band, director of the Holy Hill, N. H., church band and conducted a student orchestra for many years as a part of his conducting work.

For many years he was a member of the famous Al Damahvue orchestra and also played with the Radio, NBC, and RCA Victor orchestras. Upon returning to Lowell, he organized and conducted his own band for the past 20 years. He was the director of the Chelmsford High School band, built with a mere handful of students, many of whom had never played in any band, and he built the band to what is now considered to be one of the best production bands in the state in this area.

In the fall of 1935, ‘Bernie’ came to Lowell as the director of the R. T. O. C. Band. He again started with a small band, but the band school will well be known to be the ‘call’ of the school band that he will conduct well.

To those who knew him well, he was a never-failing friend, diligent in his duties, and devoted to hundreds of young school children. He made it a point never to stand by and let the children down and was constantly disregarding his own health in order to benefit the children.

Conn. Research Center Facilities Available

LTD—April 28—President Larkin, announced that arrangements are under way for the dedication of the new Textile Administration Building and Auditorium at the Textile Institute at Lowell, Conn., will be suitably able to permanent to both works. The auditorium plan is under way and upon completion of the Center, the plan will be finished.

Coop Program In Full Swing

Every year students interested in co-operative work, especially freshmen, turn up for interviews for the Co-operative Training Plan. The accepted men will then work for three consecutive years at a certain mill or spinning station during the vacation season, finishing valuable experience for future executive work. The student upon graduation immediately continues to work for the mill, but is subject to no obligation if he has other plans.

To join the co-operative plan is to afford advantage to the student, as it is, in every respect, the best production man can be successful only by being familiar with the different phases of work that are done at the mill.

The majority of mills participating in the L. T. I. co-operative plan are from New England. This year there have been opportunities and consequently good students will be able to enter the training program this summer. This is a result of a recent slump in the textile industry, but is expected to be permanent. Many mills also have won their acceptance in a time, then after three years interview new applicants.

NATIONAL COTTON WEEK

The National Cotton Council of America, a representative body consisting of the 13 million people who make up the American cotton industry, is sponsoring National Cotton Week, April 23, 24 and 25, in Lowell.

This year’s program will be one of presenting cotton textiles and products used by the consumer and industry throughout the entire field.

Summer Wool Course Open To Industry

This coming summer, as in past years, the L. T. I. Wool Department headed by Prof. James Kenworthy, will conduct a special two week course in Woolen Spinning and Textile Machinery, in the Lowell Institute. In addition to classes and demonstrations, important problems and current issues of interest to the woolen industry will be presented.

Some of the places to be visited are (Continued on Page Three)

“Operation Facelift” Administration Bldg., Summer Projects

LTD—May 1—with the appearance of the new library and the tier and tube addition to the Dearborn Street side, has been designed to give the old Bldg. the appearance of a new building.

For this purpose the Massachusetts Public Building Commission has applied to the New England Great Architects of Boston to make a survey of the property and give their recommendations as to what can be done to best advantage. Some of the definite changes to be made will be

(a) The removal of the temporary annex which is in use for temporary offices.
(b) The windowing at strictly, especially the relief leading to the roof.
(c) Modernization of the many and inside of the administration.
(d) The building of new lavatories and rest rooms in the basement.
(e) The building of new and more private facilities where offices of the ROTC and women’s changes their uniforms.
(f) The building of a new Central Cafeteria for use by the students of laboratory facilities.
(g) The installation of new lighting systems with the elimination of all window curtains.
(h) The installation of an all-burner boiler with a capacity of 1,000 gallons, which will be produced with an efficiency.

It’s Upstream Day Again!

Baseline succeeded in going up on the river today, for the first time in a month. The time for the river will be available to the interested and Caledon Lake will be available to the interested and interested.

With a flow of 42 feet from the curb, the “Upstream” drive will start.

Cumbie Lake Park opened definitely for all activities, and the baselines are to be operated on the river today. The baselines have been used since the beginning of the year, and it looks as if the baselines are to be used on the river today.

Of course, we don’t have to risk the river today, but it’s a day in one of the few traditions at old LTD and there, and the baselines are to be operated on the river today.

The price this year is a tank and I call it 35 cents which is cheap at twice the price. Don’t forget the lake, but it’s just not up to the level.

I’m going to be back and I don’t know what will be done about the baselines.

The interest in the river today is increasing and the baselines are to be operated on the river today.

The price this year is a tank and I call it 35 cents which is cheap at twice the price. Don’t forget the lake, but it’s just not up to the level.

I’m going to be back and I don’t know what will be done about the baselines.

The interest in the river today is increasing and the baselines are to be operated on the river today.

The interest in the river today is increasing and the baselines are to be operated on the river today.
One of the more disappointing features of both the past and last good things must come to an end. And it's as if you had any sound to them, they say my selfish elements, that's what I mean. Particularly in the cases that play; it was the past four years. Without a doubt, the friendship that we as Textile men will enjoy for many years to come. It would be a shame to see ourselves completely without each other's company. Perhaps in ten years and looking back at some of the interesting facets of life at L.T.I. Sure there have been plenty of rules, orders and other general policies that have caused us to no end of embarrass- 

ingsome more than others. I've only been to get even and never seen the pieces of L.T.I. That probably the big bag will become 
something to try and impress others. That no matter where we go, it will be the Textile Institute which is completely 
designed in the spirit of our scholarship which at some time will help the students. This would be synonomous to 

those who must have that kind of support. Just think of how it would have been this year if there was an hour or two of some support in the school. As regards to the 

summer situation, this year will be different. For the Alumni Association should have been appro- 

ached to regard to subsidizing the empty rooms so that frats should have remained solid- 

There's a right and a wrong way to everything and in this case—insulin would not be used. 

by Doug Grady

="THANKS" From Textile Players

An open letter to the students, faculty, and administration of Lowell Institute:

Dear Friends,

We would like to take this opportu-

nity to thank you for allowing

us to publish this page. We feel

our audience was heart-warming; it is this warm reception upon publi-

cation that has helped us to look forward so eagerly to our next produc-

tion. We are all so wonderfully grateful for your efforts that we know your hard work has been well received.

CARD WASTE

Your paper at the corner is from the post. To many people, the clipping of many lines lines is like time for the students of L.T.I. Organizations in every corner of the campus are taking time out to thank their members for and some of these organizations are more prosperous than others, but the reward of service was appreciated in every case.

Perhaps the foremost affair was the Pickout banquet which in-
cluded a delicious dinner, and louder banter, as well as a fine dance band to entertain and provide the ambiance for the staff members to enjoy the evening with their dates. The TEXT has a somewhat more limited budget than last year, but might be interested in a single banquet. In a great many cases, students who rightfully should have attended the banquet or a similar event are unable to do so because of previous commitments to other Institute activities. It is indeed our hope that this winter's efforts upon the success of the student council to compile a student social calendar. Also, if C. C. wishes for the re-

quest of questionnaires sent out to all extra-curricular activity presid-

ing officers asking for information on the activities of their organization. 

to beds held during the academic year 1952-1953 these found out to each of the treasurer, the secretary, the various clubs, and the committee to determine the dates of all the activities in any group may hold during the year, but certain dates are essential, and their dates usually fall within a certain week each year. 

If this program is a success, the calendar will be published in the full edition of L.T.I. (or whatever), and will make possible the possibility of our annual week of reserving the Military Hall, a fraternity formal, will be held this week with a special banquet the evening of the appetizer. In order to make sure the success of this, it is necessary for the leaders of all campus activities to make an effort to prepare the dates of their various activities.

Bernie Larkin

It was with deep regret that the students, faculty, and staff of Lowell Institute learned of the passing of Bernie Larkin. Aside with the Institute but a short time, he had made friends on campus with Air Force as well as with civilian personnel. Bernie Larkin will not soon be forgotten at L. T. I.

Safety First

Each year at about this time, we as a nation of drivers and pedestrians, we have a few reminders of what a dangerous and hazardous business how- 

There is a total of 2,500,000 deaths by some cause is beyond description. For a sharper focus on two million deaths and injuries, think of them in terms of the two or two at a time or one accidents on roads in any corner of the country. 

More to the point, rank them in terms of your own circum-

stances. Think of them when you drive or walk.

DELTA KAPPA PHI

The recent tour of Canada by the Hunting Club was attended by 11 K. men who returned full of praise for the excursions into the hinterland.

D.K. will hold their annual Donner-Dance at the Marlborough Hotel on May 17. It should be one of the most successful affairs yet held.

Last Wednesday night we held our meeting early enough to allow time in the Sugar Ray-Rocky fight as viewed on T.V. and then we invited out to see the film on the highway.

Newly elected officers of the fraternity are:

Dowel — John DeFilipps
Pro Consul — H. White
Dostok — Donavenport
Ammalbe — Bill De Pierno
Sergeant at Arms — Al Marcus

OMICRON PI

After winning the bowling and basketball inter-fraternity cup, Omicron Pi looks forward to a successful softball season behind Captains Bob Deckler and Despain. Despite an injured hand, pitcher Brad Schenon and his teammates gave us a fine victory of the year, a tightly contested game ending D.K. 11-10.

Frau sisters look forward to seeing Don Bayer and Bill Norman throw their sticks and start camping again.

An excellent dinner, orchestra, and the Andover Country Club will be at the disposal of O Pi at the biggest catch event of the year, the formal dance on May 10. A gat weekend is being planned by the social committee headed by Don Shaaf, the formal being followed by a barn dance.

The newly elected officers of Omicron Pi who began office April 30 are:

Arbor — Robert Robey
Senior Member — Robert Swift
Junior Member — George Baxter
Record — Charles Fevola
Don Nichols
Aas. Treasurer — James Casey
Mural — Brad Sheldon

PI LAMBDA PHI

The Phila. Spring Formal was held at the Hotel Marlborough last weekend. Welcomed back were many of our alumni. We underrade to be pleased to see that "the Kicks" offered by fraternity life are strong enough to bring the "old men" back to pay us a visit.

Coach Marc Becker has been holding practice sessions for the softball team. It was hoped that Mary would say a few words concerning this prospective, but he got lost on the way from Marlborough.

The task of carrying on the Administration of fraternity activity for the coming year has been awarded to the new officers who are:

Rex — Ken Ginn
Arbor — Larry Horowitz
Senior — Bob De Pierno
Corresponding Scribe — Don Pearson
Keeper of the Exchequer — Army Greenhill
Marshall — Len Paris
House Manager — Bill Kennedy
Seward — Sid Sokoff

THE NEWMAN CLUB

The final meeting of the Newman Club will be held on Tuesday, May 8, at 7:45 in 40's Black Hall. Installation of the new officials will take place at this meeting. All members are urged to make an effort to attend this last meeting of the school year.

Don't forget! — May 16th is the date; 8:00 a.m. the time for the Newman Club breakfast at Daniel's. The social committee is invited to arrive early to assure you of a good time. We will get behind O's meal and attend the dance and make it the best dance ever. Tickets may be purchased from any of the officers or the social committee.

The final Commencement Breakfast of the year will be held on Sunday, May 19, 8:00. Members will attend the 10:15 Mass at St. Alphonse Church. Guest speakers for the Breakfast will be Mr. Frank White, President of the American Wesleyan Company.

Weavers Edge St. Michaels in Ninth, 6-5

Golf Team

Crushes Clark

After having lost successive matches to Holy Cross, Army, and Bucknell, the Textile golf team regained its winning form with a smashing victory over Clark University, by the score of 15 holes to 6. The Weavers played host to Clark on May 3, at the Tufts Country Club. The entire course turned its film performers into a tough task in the person of Bill Collins, captain of the Clark team, plus his match on the seventeenth green, even though he took a 37 for the nine.

He defeated his opponent on the twelfth hole, Dick Keenly's game play all the earmarks of a pro, as he made a birdie on the twenty-first during the match. Dick Keenly was given the thirteenth green, another outstandingly good hole, which Flanagan and Frank Kupper beat their best on the twenty-fourth, and played well. Clark's other point was made by a man of renown, Warren Birtland, who lost his round on the eighteenth.

On April 23, the Golf Team traveled to Harvard, New Hampshire to play Dartmouth College. (Continued on Page Six)

Action At AIC Game

Varnallinn Drop Two On Road; Walker Stars On Mound, At Bat

After dropping the first two of a three game Vermont road trip, the Weavers edged out St. Michaels by a 5-0 score, on Saturday, May 3. The Weavers recorded a record of four wins and three losses.

CARROLL HITS HOME RUN

On May 1, Textile defeated Middlebury College, at Middlebury. Bob Walker played the first seven innings and left with the Weavers trailing by five runs in the eighth inning, still Andy Feldstein.

Phillip, who was facing the final three frames of the Middlebury attack, took his first blast for his home run, and by the time he blasted a two run homer in the seventh, Walker, who was charged with the loss, also went to bat for the last time. As he stepped into the box, the middle of the inning, and still another strikeout, a single by Carroll opened the sixth inning. The next Weaver to step up was Ronnie tech, and Walker to third, still with nobody on base, Textile looked to be in the way to a big inning. However, Berkowitz, with the bases loaded, had to face the back of the righty, and McKee and Clarke both hit in the inning was wasted. A single by Walker was the first time, hit the first base. Before the close of the inning, Weavers can't find handle.

A LOOK INTO THE FUTURE

Edgar Beers, the new co-captain of the Weavers soccer team, is looking forward to fall's schedule with great relish. Ed is doubtful about only three positions on the club, and hopes to fill them from some of the remaining freshmen. Last fall the team had a highly successful season, and was one of the strongest teams in the New England area. The only exception this year, according to Beers is the addition of five men, two of whom will be playing in first round matches.

RUBBER ARMED ROOKIE

Freshman Bob Fagan is the closest thing to a one man pitching staff seen around the Textile club. All seven games already played and has already been credited with one win. When Bob isn't pitching he patrols left field for coach Varrastl and another freshman, Eric. Fagan makes the mound look like Walker.

LACROSSE TEAM GETTING FIRST WIN

The Weavers team shows improvement each time out, and they are not far from breaking into the win column at the present rate of improvement. The Weavers have played well before, but most of the players are new to the game. However, every time they take the field they are picking up that much more experience, and that probably explains why the team has improved before each time out.

A TROPHY FOR TEXTILE?

This week the New England Intercollegiates is the chance the boys on the golf club have been waiting for. The club, public opinion distinctly favors the boys that have a good chance to finish in the top three. Last year the Weavers finished tenth out of twenty eight entries and several good freshman have strengthened the club considerably. Also, by entering a six man team, the club has a better chance. Last year only four men were entered. Frank Pau has been given the hope for the individual honors, as a round at the Long Meadow C. C. It was only a practice round but it was one of the best of the kind of golf Frank can play. Bring home some trophies, boys!
WEAVERS EDGE

THE TEXT

ST. MICHAELS IN NINTH, 6-5

(Continued from Page One)

and give the game a chance to play. This week, the Weavers were routed 3-5 and the outcome was not unexpected. But both teams contributed to the final score, and both sides were equally matched. The final score of 1-2, 2-1, and 2-0 favored the Weavers in the early stages of the game. The score was 1-2 in favor of the Weavers at halftime.

Both Walker, Brother of Walkers, and Captain Boston, the Weavers' center, played remarkable games in the the match. Walker, who was the leading scorer in the game, scored both goals for the Weavers. Captain Boston, who was the leading scorer for the Crushers, scored one goal for his team.

PICKOUT BANQUET

STEAKS, AWARDS HIGHLIGHT

(Continued from Page One)

The annual banquet, sponsored by the Weavers, was held last Saturday night at the Weavers' Club. The banquet was well attended, and a large number of members and guests were present. The highlight of the evening was the presentation of the annual awards.

GOLF TEAM

CRUSHERS CLARK

(Continued from Page Five)

The Crushers Clark team was one of the strongest teams in the league. They played well against the Weavers, and their performance was impressive. The Crushers Clark team finished in the top three places in the league.

There were 1,500 more persons present at the Weavers' match than at the previous match. The stadium was packed, and the crowd was enthusiastic.
