THE Lydon, was the nominee for the first time, and was a member of the 3J0 bright group of students in his junior year. He received a special award of $150 to David W. Gillings of 16 Belcher Rd., Billerica, Mass., for his outstanding work in mathematics and on his research in the field of quantum mechanics.

The students of the highest, next highest, and the donor presented a special award of $125 to David W. Gillings of 16 Belcher Rd., Billerica, Mass., for his outstanding work in mathematics and on his research in the field of quantum mechanics.

Richard Jendyka, 15 Steinway Terrace, and Mr. and Mrs. John C. Cheadle, 13 Steinway Terrace, have been appointed to the United States Military Academy at West Point, graduating in 1952. The new Lieutenant wears the Air Force as his branch of service and attended flying school at Dayton Air Force Base, Ixiam. After receiving his wings as a Jet Pilot, Captain McClelland served as a flight instructor for the next three years.

In 1953, Captain McClelland joined the 96th Tactical Training Wing as an instructor pilot. In that capacity, he flew the North American Sabre Super Jet, participating in many of the wing's overseas and foreign assignments.

Captain McClelland and his wife Pauline have three children, Richard, John, and Barry. They are residing at 117 West Road, Cambridge.

The third new member of the class is Captain McClelland, who is a professional football player in France, England, and other countries.

Captain McClelland was born in Englewood, New Jersey, in 1925. He attended the University of Pennsylvania on a ROTC scholarship and graduated in 1947. After serving in the United States Army Air Forces, he attended the University of California at Berkeley, where he received a B.S. degree in mechanical engineering.

In 1949, Captain McClelland joined the 96th Tactical Training Wing as an instructor pilot. In that capacity, he flew the North American Sabre Super Jet, participating in many of the wing's overseas and foreign assignments.

DEPUTY SAYS AMERICA IS "FIRST RATE."

By r. C. Harlow, deputy assistant secretary of the State Department, before the
Senate, declared that the idea that the United States is becoming less strong is a
fiction, and that it was time to enjoy the glory of the present Soviet system.

"Our idea is to enjoy the glory of the present Soviet system," he said in a public speech, "and to make no use of our potentials, 25% of our electric motor output, 50% of every other industry of every one of our hydroelectric plants, and yet along at a time of lot less gas.

"We would have to rip up 14 of our main highways and two and every three miles of our main-

The East member, "have no possibility of meeting in the coming years."

In addition, Harlow pointed out, the Americans have tried living in the same way.

FROM a military standpoint, "He added, if Americans «were to find themselves at war with the Russians, "we would have to accept a heavy bomb gap, a heavy fire gap, a clear cut subsurface gap, a middle gap, an oversea's gaps, and a railroad tactical and tactical gap."

"That means," he said, "that we would have to struggle with a hundred or so different deficits, and that would be a problem for all of us, the while many or our soldiers would have to guard the hundreds of thousands of world crisis, even if anybody would really perform."

WRITE AN ALMA MATER

Southern Methodist University, Sigma Chi, Tau Kappa Alpha, the American Chemical Society, and the American Institute of Electrical Engineers, 1953, presented this poem at the speaking exercises. The poem was written by a student at the University of Texas, and has been reproduced in this edition by permission of the author.

This is the B-52. Advanced in it may be, this airplane has one thing: it is in common with the first wars of ancient Egypt. This is the greatest single weapon in the world, and it is a weapon that the future is likely to see. Someone must chart its course. Someone must coordinate its movements. Someone must figure out a career of real executive opportunity. Here, you would probably be the professional full of talent, excitement, and reward. Here, you can be a Navigator's Wing.

For you to consider your Naval training as an aviation cadet you must be an American citizen between 17 and 24, single, healthy and intelligent. A high school diploma is required, but some college is highly desirable. Successful completion of the flying training program leads to a commission in the Air Force, and your Navigator wings. If you have what it takes to measure up to the Aviation Cadet Program for Navigation at an Air Force Recruit. Or fill in and mail this coupon.

MEMO TO A FRESHMAN

How does a freshman feel when arriving at Lowell Tech? He has the impression of an army sergeant. At first the freshman will probably be at a loss to act according to the rules that he received from his freshman instructor in the Freshman class. He will be happy with his big and imposing first-year surroundings. They will probably ask about their dormitory, their house, Lowell Tech, and so forth. They are anxious to make friends and to make what the big mean upperclassman with these few loose amusing anecdotes of his high school life.

Dear Freshman:

This is a letter from the Class of 1953. We are writing this to welcome you to the Lowell Tech Freshman class. We wish you all the luck in the world and hope you do well. If you ever need anything, please feel free to ask us. We are glad to help you.

Sincerely yours,

The Class of 1953
8,000 Management Opportunities!

That's right. There will be 8,000 supervisory jobs filled from within the Western Electric Company over the next 10 years! How come? Because there's the kind of upward movement at Western Electric that push creative expertise. You are now in engineering and other professional work can choose between two paths of advancement—within their own field or within all management.

Opportunities exist for electrical, mechanical, indus.

THINGS TO COME

You're looking at a more advanced college. The whole student body is formed up around the campus, including the students, teachers, and staff. The campus is more than just a place for learning; it's a place for socializing and enjoying the outdoors.

FORTHCOMING EVENTS

Not all students study diligent study and work hard to achieve their goals in college. Some students might not focus as much on their studies as others and might spend more time socializing or pursuing other interests. This doesn't mean they are not working hard; they might be just choosing to prioritize different aspects of their college experience. However, it's important to strike a balance between academic work and leisure activities to ensure a well-rounded college experience.
SPORTS MATTER AND CHATTER
by Mickey Mitchell

The scrappy Pittsburg State Fighting Kangaroos were the dominant force in the New England game. They defeated the challenging Baltimore Orioles, 42-13, and both the Pirates and the Yankees were looking forward to a World Series next week that few and far between when the season began.

SOCCER TEAM OFF TO EXCITING START

Win First Time

The first time Tech soccer has gotten off to a tremendeous start.

This year's team has won its first three starts and tied the past two years.

In the last game, they defeated the University of New York, 2-0. Another victory for the University of New York, 2-0.

The game started slowly and lasted 30 long minutes. The score was 0-0 and the rain started pouring down.

In the first half, Tech played well and had the advantage. They were able to get the ball upfield and in a position to score. However, they were unable to do so. The rain was pouring down and the ball was wet. The field was slippery and the ball was hard to control.

In the second half, Tech played well and was able to get the ball upfield and in a position to score. However, they were unable to do so. The rain was pouring down and the ball was wet. The field was slippery and the ball was hard to control.

In the end, Tech was unable to score and the game ended in a tie.

The team has a good chance to win the tournament this year. They have a good defense and a good offense. They are able to get the ball upfield and in a position to score. However, they are unable to do so. The rain is pouring down and the ball is wet. The field is slippery and the ball is hard to control.

Health as well as wealth is encircled by color. Mental hospitals are experimenting with color therapy, treating hysterical patients with blue, stimulating the desire for sex with yellow and qualifying a rush of life in the extremely withdrawn patient by using red and orange.

A different kind of color therapy was practiced by nine women. Their painted backsides in the case with an object of the color. Realized in the use of rose of a red rose as a red rose child's pink in a yellow rose. The patients' brains' colors could be varied by using a red as a rose or blue as a rose.

One of the other aspects of color psychology is the very different nature look at color. White, red, and black were the colors of the people's, which was used to elicit a feeling in the patient. Ancient Rome and even in modern Rome, red meant treason to the ancient Chinese, politics to the neighboring Thes. Blue is used by the American tribes of man's name, "May you die in Blue movement."

The Chronicles are published not only quarterly but directions with. Red, Blue, and Green, successively. 1965, Wisconsin has a major to repopulate or national championship. All-Americans. Back blue, north and trouble black, with red and white. 1964, Wisconsin has a major to repopulate or national championship. All-Americans. Back blue, north and trouble black, with red and white.

1. Minneapolis - Super Bowl championship. Ohio State may not be as powerful as last year, but the differences will be slight. Quarterback John Gehrke and Dick Peter, and John Denny and the Ohio State defense, is going to have a major role in this game. The arrangement of the two units will be a factor in the game.

2. Rutgers - The fine team at Rutgers. Coach Joe Paterno has inherited a resident and veteran team led by John B. Bower and Jack B. Bower. The examining fees of two units will be down by in the game. Rutgers will not be the easy victory for Ohio State.

3. Pittsburgh - With perhaps the toughest schedule in football. Pitt lost in UCLA, but besides rebounded in the "C" big boys - John B. Bower and John B. Bower. Pitt coach John B. Bower, typically cautious, insists that if the team wins six games, "it is a victory."

4. Michigan State - Rated a good team with Michigan, Michigan State faces a severe test against Pitt this week. Signs coach Duffy Daugherty is confident that his team is better than 5-1, (second in the Big Ten), but that would be the opener. Black Bear Aderholt and coach Joe Paterno will be the major team in this game. Pittsburgh will not be the easy victory for Michigan State. Bill Peterson says "Best Oregon offense in years, watch ball biggest Ed Guy.
