Carnival Successful

The Second Annual Spring Carnival happened last Friday at Lowell Tech. The carnival, which has become in one year the major social event at LTI, was a complete success. The Carnival opened at 9:00 am when the South Street Avenue was blocked off to all traffic. The crowd was so large that the entire site was sold out and it was impossible to get past the booths opened and started to form lines.

The opening ceremony included a large parade of students dressed in colorful costumes and carrying placards. The parade was followed by a large-scale clean-up week, which was organized by the Student Council. The students were divided into groups and assigned specific areas to clean.

There were booths for everything, fried dough, tequila, sunshine, jewelry, candles, munchies, hot dogs, soda, and beer. The beer truck dispensed 25 cases and 27 kegs of beer.

Live music was provided throughout the day by various groups and individual performers, playing on the stage that was set up outside Cumnock Hall. The crowd was, as last year, the most interesting part of the carnival and those who came to the Carnival were basically two types: those who had come last year and were out to see if they could have a better time and those who didn't come last year and were out to make up for it.

Reflecting on the day Spring Carnival Committee chairman Lloyd Cutter said, "It was almost like being at a carnival as last year's. Last year everybody was in and this year a lot of people were in and themselves and the carnival came second. I hope the "togetherness" spirit of the first Spring Carnival won't be lost, still this year's Carnival was good."

Clean-Up Day Finalized

Tuesday, May 9, has been officially declared a clean-up day by acting President Olsen. LTI, was in full swing when Olsen met with the clean-up committee which is composed of faculty, students and administrators. It was decided that classes and labs would not be canceled and that students would be asked to help clean up the campus during their free time.

Committees have already been set up to organize the cleaning up of the facilities and the dormitories. The ROTC Cadet Corps will be cleaning up the athletic fields and the River Street parking lot. The Biology Club is going to collect recyclable materials behind Leitch and Bourgeois Halls. All trash must be cleaned and flattened, bottles must be cleaned and the metal rings removed and paper must be tied in bundles.

The maintenance department should be notified (ext. 394) if any large amounts of disposable material need to be removed. It is hoped that all members of the LTI community will aid in cleaning up the campus.

SC Gives Olsen Vote of Confidence

The Student Council gave a vote of confidence to acting President Olsen when they motioned to draft a statement approving the search committee's recommendation of Everett Olsen as the President of LTI.

In the discussion, the SC agreed with the search committee that Olsen is presently doing an outstanding job and, while the merger question is still pending, it would be in the best interest of the school to keep Olsen as President and hire a vice-president who can learn the workings of the Institute and the state government and prepare himself as a candidate for the future job of the President.

The search committee has recommended to the Trustees that Olsen be made President and assume the office without tenure until the future of LTI is more stable.

Lloyd Cutter
New Student Trustee

Elections last week showed probably the lowest turnout of voters at the polls in LTI's history, with only 6% of the student body voting. Lloyd Cutter received 254 votes out of a possible 350 for Student Trustee. The Institute Council race resulted in Phil Morrissey receiving the most votes with 258, thus procuring a seat on the Student Council. Mark Mortensen also won a seat on the Institute Council with 207 votes and a re-count is being made for John Curty who lost to Mike Terry by only seven votes.

In the SC elections for vacant offices and runoffs, Cathy Reuss received 199 votes to secure the office of SC Corresponding Secretary against Fred Rider who had 78 votes. Derek Forde-Coates won the office of SC Treasurer uncontested.

In the run-offs, Gary Hesseltine beat Peter Fritz for the office of SC Representative for the class of 1973 by a vote of 62 to 33. In the class of 1974, Sheila Fox won the office of Secretary uncontested and John Doherty beat Bill Alderman for SC Representative by a vote of 57 to 52. Tim Triebel, also uncontested, was the winner of the Vice President in that class.

To all the beautiful people who made the Spring Carnival Possible. Especially:

Maintenance Dept.
LTI, LSC Students
Lowell Police Dept.
God, for stepping the rain
Administrators Who Helped
Long enough.
Ivy Hall Caterers
Everyone who was there

Anyone we forgot:
Thank you for allowing us to keep our insanity.

Spring Carnival Committee

This is the last TEXT
of the year.
Good luck on finals.
Have a good summer.
STUDENT UNION BUILDING PART III

As the school year draws to a close and the Student Union Building slowly nears completion, the Student Union Committee becomes more involved in attempting to alter plans to suit student needs.

The dormitory furniture expedition is scheduled for Friday, May 12 and Monday, May 15. Four companies are presently shipping samples of dormitory furniture to Tech for review by students.

Prof. Rogers, Dean King and Phil Montgomery are presently meeting with the architect and Bertie Burns of the Building Authority to discuss suggestions and make recommendations to the Authority concerning changes. Currently, the items that the committee agrees should be included and their estimated prices are: telephone jacks in the dorm rooms ($20,000), screens for dorm room windows ($4,100), ladies toilets on each floor ($52,000), a stair and a click on each floor for the use of the residents.

Items such as television and FM radio antennas in each room ($50,000), and dukbord in the second floor roof have been ruled out.

The Student Union Committee recommended that the front three rooms on each dorm floor be altered to make a larger lounge on each floor. This however is extremely unlikely due to the large amount of revenue that would be lost if the rooms were altered. The exclusion of the three rooms would mean a loss of $36,000 a year to the Building Authority. According to the bond interest and principle setup, this would constitute approximately $500,000 worth of construction.

The floor pictured above is typical of floor three. Through the study, the student activities area features a large reading room in the center core and club and organization offices in both wings. The allocation of these offices has been delegated to the Student Union Committee. The clubs have already been contacted to see if there are any special facilities that they might require. The final allocations will be made soon.

The furniture in these offices will be desks, chairs, and filing cabinets. Nothing more than the cabinets.

This series will be continued in the fall, when hopefully many more issues concerning the Student Union will be settled.

The Student Council is presently conducting a referendum concerning tuition and also passed a motion to initiate investigation of the possibility of getting increased amounts of financial aid.

It is a known fact that the state government is pressed for revenues and also that any revenues coming from state schools will be put into the general fund of the state with go guarantee that any of the money will be re-invested back into the schools. It was the general feeling of the Council that the student had acted prematurely and that they were succumbing to political pressure.

The Student Council is presently conducting a referendum concerning tuition and also passed a motion to initiate investigation of the possibility of getting increased amounts of financial aid.

Council Recommends Tuition Rollback

EVERYBODY’S DOING IT!

WASHINGTON, D.C. (CPS) — Quakerfolk agreed the country went to the White House May 3 to hold a silent vigil and fast “to protest the war policies of their fellow Quaker President.”

The Quaker vigil is a repeat of a similar vigil three years ago, shortly after Nixon took office.

Then, according to the American Friends Service Committee, National Service Advisor Henry Kissing explained a delegation inside the White House: “Give us six months. If we haven’t ended the war when you can come back and tear down the fence.”

In addition to AFSC, the vigil was called by leaders of the Friends General Conference, Friends United Meeting, and Friends Yearly Meeting, which together represent the majority of American Quakers.

At the quaker, a 10-page paper on the subject had been prepared and the subjects had acted prematurely and that they were succumbing to political pressure.

I Smell A Rat

To the Editor: Student Council;

I am advised that a number of people are concerned about the reputation of the IBM Corporation Center. Some of my friends have expressed doubts about the general integrity of the corporation. If you would like more data on this subject, please send me a questionnaire.

Sincerely yours,

Student Council Member

A Job Well Done

Dear Editor,

As a member of the faculty, I have been impressed with the sense of community that has been developed in the IBM Corporation Center. I believe that this is due in part to the efforts of our student volunteers, who make a significant contribution to the center.

Sincerely yours,

Professor

Cool It

At the commencement ceremony, the temperature was very high. It seemed to me that the students were being asked to do too much work.

Sincerely yours,

Student Council Member

A Short Senior Soliloquy

To be or not to be, that is the question. Whether it's better to live on an uncharted island or in the midst of a bureaucratic maze. A difficult decision, but one that must be made.

Sincerely yours,

Senior Student

Tech Happenings

We will be having a barbecue this Saturday on campus. The weather is expected to be perfect, so come out and enjoy the day.

Sincerely yours,

Tech Happenings Editor

Senior Weekend

Tickets for the Senior Weekend will be on sale in the main lobby beginning on Monday, May 8th until Wednesday, May 17th. Tickets will be sold for the whole weekend only at $5.00 per person. The weekend will be filled with events on Friday night (as most weekends do) with a boat trip around Boston Harbor leaving from Rowe's Wharf at 8 p.m. The guards will be high, and life savers will be provided on coast exactly dressed but not supplied as mixed drinks are $1.00 and beer is $1.50. A rock group will be on board along with a rock & roll extension. On Saturday night, there will be a bar and barbecue at Lola's Grow, a new bar on the street from 11:00 p.m. to 2:00 a.m. There are Senior_on_Mandatory Attendance at Graduation

Up until this year, attendance at graduation has been mandatory. Several seniors have expressed concern about attending, especially those who have volunteered for other activities.

Sincerely yours,

Senior Student

Tech Happenings

The Tech Record Service is offered to everyone from the Lowell Tech Campus. Types or write your notice on a 3x5 card and deliver it to the Tech Office in the mailroom. To learn placement in a Monday edition, hand it in to the previous Wednesday. This service is available at any time.

Monday, May 8:
10:00 - Dr. Hugh Holmestead speaks on "Some Engineering Problems and how they were Solved" on the multi-purpose room.

Tuesday, May 9:
9:00 - Clean-Up Day begins.

12:00 - Final presentation of ME projects by the AVS in room A-207.

12:00 - Cross Country Team meeting in the mailroom.

1:00 - Dr. Dennis Sehok from the Massachusetts Institute of Technology talks in the multi-purpose room.

3:00 - Final presentation of ME projects by the AVS in room A-207.

Wednesday, May 10:
5:00 - All regularly scheduled classes will be held as regularly scheduled.

Thursday, May 11:
12:00 - Amateur students meeting in room A-207.

12:00 - International students meeting in room A-207.

5:00 - Trustees meeting.

Friday, May 12:
6:00 - Computer break for the week-end.

Saturday, May 13:
8:00 - Mr. Cross, LT&I graduate 1963, speaks on "Where to Get Jobs" at the Newman Center.
International Night

The first International Night in the history of Lowell Tech was held in Commons Hall on Thursday, April 23, 1973.

The event opened with the viewing of exhibits from China, Latin America, Iran, Egypt, Turkey, Greece, Africa, Tanzania, Cambodia and Vietnam. The small group that attended, until the fortunate to sample delicacies from some of the above mentioned countries. The close of the exhibits session was followed by entertainment, which was put up by a student representing countries.

The highlight for the evening was the Adjutant Performance by the above-mentioned students, Mr. D. DeRosile, who first danced to the music of records, and finally sang an old song by one of the foreign students to dance to the music of his country.

Prizes were awarded for:
- The best entertainment which went to the representatives of the Indian students, who prepared a national dance called the "Changme." The best foods which was also awarded by the students from Turkey, Greece and Armenia.
- The best exhibits for which a tough decision was made and two prizes were awarded: to the student from Tanzania and those from China.

The executive officers and the members of the social connection with the students were very special thanks to Mr. James Danforth and Prof. Burns, the faculty advisor for the ISG, who worked with all intensity to make the circle a success it has been all along.

Special thanks too, to Miss Dugan, who with Prof. Burns and Mr. Danforth co-hosted the judging at the right.

We wish to express our apologies to everyone who was unaware of the "Night," because of the lack of advertisement and to the members of the faculty who had to be wholly isolated at the last moment due to the mix-up in the invitation circle.

Leslie F. Consolides
Vice Pres. of the ISG

Since this is my last article, I won't be writing about any specific motorcycle, instead I will write about my own feelings in general, hope to try some local events.

First of all, I'd like to sincerely thank all of you who read and took an interest in my articles, and hope that all have learned more about bikes than we previously knew. And for those who didn't read my articles, well, "May you ride into heaven!"

The first thing that I want to concern with is the fact that several bikes have been stolen, here, at Tech. I was approached by one of our Tech mechanics, the Foreman, with the proposition that something be done about this. So, as a result of this problem, Mr. Sweeney and I went through the typical lesson of bike thefts where we finally reached Professor Rogers, who is in charge of the grounds keeping at Tech. What we finally established is that the bike will be lost long motorcycle rack consisting of steel beam, 4 inches thick, which will be 21/2 feet, high. It will be black, solid. This will be in front of Emma Hall, where the bikes park now, and will allow each bike to be chained by their front wheel seat. I know when this bike will be constructed, so all I can say to those of you who are concerned with this problem, is that you should keep your Professor Rogers, who is in charge of the grounds keeping at Tech.

The last thing I'd like to leave you with are the "Tips For Motorcycle Riding Safety," as proposed by the Motorcycle Industry Council, as adapted by the Bell's Airport:

1) Check the condition of your bike at all times, unless, of course, it's not feasible.

2) Never ride faster than you can see to stop in front of you. In England you can see to ride.

3) Keep your wiper intact, but if you don't, you won't know about it because it doesn't matter anyway.

4) Dress protectively for the terrain, because it's better than understanding protectively for the terrain at all!

5) Don't ride on pot-holed, or on private property without also riding on it.

6) Check your cycle for reliability and safety, but if you're either stiff or steady, don't check it, because you probably can't see it anyway.

7) Ride with a buddy when possible. If you can't find this, ride with your buddy's girl, but if you don't have a buddy, forget it, because you probably wouldn't be able to find him when you wanted to go riding anyway.

8) Avoid riding over vegetation or tilted ground. Also, don't ride on the grass, unless you're sure there's enough grass for every one to ride on.

9) Don't drink and try to drive your motorcycle, unless, of course, it's for medicinal purposes, and than you should take care how much LSD or milk with your beer and your driving.

10) Give pedestrians and hitch hikers the right of way, but if you can do it yourself, you can make someone go back and run over him again, because you don't want anyone testifying against you in court.

On the serious side, I hope all your bikes have a dynamic summer - RIDE ON!

Special Youth Pass. See Britain for 15 days for $40.

By BrittRail Youth Pass if you're going to Britain this year, it's good for unlimited travel on trains in England, Scotland and Wales.

You can't lose.

If you're between 14 and 22 you can get a 15-day Youth Pass for $40 or a One Month version for $70. That's good for unlimited travel during the time period. Just hop on and off the trains anywhere you like. It's a steal. The 15-day Pass, for example gives you the freedom of Britain for under $2.67 a day.

Meet people, see places.

With only a few super-highways, hiking is difficult and travel by road can take a long time in Britain. So people travel by train a lot. You'll meet them. And see more British trains are fast—London to Edinburgh, 400 miles, in 4 hours 45 minutes. They are frequent, too—over 1600 trains services daily covering nearly 2,000 cities, towns and villages. And comfortable—most long distance trains have dining or buffet cars with full meals or snacks.

DELTA KAPPA PHI

In the past two weeks we have had a lot of fun on this house. We have been a good couple of days and nights with plenty of refreshments and some fine company provided by the local girls' colleges. On Friday April 28, we held our 1971 Semi-Formal at the Sheraton-Young. It was a great time and we all had a good time. All the brothers and their dates got dressed up for some good music, food, and fun. Our bowling team is still on top and we hope to keep it that way after the TKE last Tuesday 3-1. A little disappointment came to us when our softball team went down to two defeats in a row at the hands of Phi Phi and Phi. We have faith in our team and we will return in the following season.

Hopefully everybody had a great time at the Carnival. All of our tutors were hard at work all day and afterward were given nice honest by the brothers.

Now that finals are getting closer everyone is going to be needing something to pick them up. DK is the place to come if you need a good time for those exams. Come on over and watch the Bruin-Ranger series, find out if there is a bigger rivalry on the ice or on the hardwood in the Mann Center.

We'll have a great summer, see you next fall.

Oktawian

The Brothers

TAU EPSILON PHI

Since our arrival on Tech's campus, the brothers of Tau Epsilon Phi have been extremely busy. Our slated preparations of the house for our first party was well worth the effort. Approximately 500 people attended, including representatives from all the fraternities and the associated female organizations. The band, Five and Ten, put on a fantastic show contributing to a good time for all.

We would like to express our thanks to the brothers of the fraternities that helped us in a number of ways in setting up the party. At this time we would like to thank all the fraternity and sorority houses that are open. Due to the weather conditions our house in open. Open by decision.

Our first social will be held on May 16th, and all the freshmen and upperclassmen who are interested in joining are invited. The house is located at 1280 Madison St. Our phone number is 452-8444.

At our meeting the following officers were elected:

V.P. CANCELLOR • Leon Ceschino
VICE CHANCELLOR • Ross Jackson
BIBURSA • Russ Richardson
SCIBKE • Ron Burris
HRENTT • Bob Ward
WARDEN • Pete Holmes
CHAPEL NR. • Mike Thompson
MEMENTO AT LARGE • Joe Fosco

In closing, our first social function was a huge success and we hope for continued success in our first year at LTU.
Sports

Terriers Sweep Double Header

Saturday before last, the Lowell Tech Varsity baseball team swept a doubleheader from Clark. The scores were 13-2 and 7-6. The team's record is now 4-4.

Ed Thompson went the full seven innings giving up two runs, seven hits, and six walks, while fanning seven. His record is 2-1. Tech scored four runs in the first inning. Art Santos drove in two of those runs with a single. In the fourth we scored two runs to make the score 6-2. Then in the sixth, the Terriers scored seven runs. Bob Carroll hit a two-run single and Art Santos hit a three-run homer to make the score 13-2.

In the second game, pitching problems for Clark lost them the game. Clark was winning 6-0 halfway through the fifth. In the bottom of the fifth, the Terriers scored six runs to tie the game. Tom Jenkins and Mike Camusso hit two-run singles. In the bottom of the seventh, Mike Camusso led off with a walk. Art Santos then hit a sacrifice bunt. The Clark pitcher tried to get Camusso at second base, but he threw the ball into centerfield. Mike scored on the throwing error to win the game 7-6. Bill Eggers won the game relieving Ken Bissin in the sixth and then pitching the seventh. Bob Carroll had the best day going six for eight with four runs batted in.

There is a home game Wednesday at 3:00 against Fitchburg.

Lacrosse Splits

Co-captain Bill Conner scored three goals to lead the lacrosse team to a 5-4 victory over Babson. His final goal broke a 4-4 tie at 11:02 of the final period. Bob Lown and Chuck Nikolas scored the other two goals for the Terriers.

Tech never trailed, but Babson came back to tie the score twice. Godin Bob Henry made 19 saves for the Terriers.

On April 28, Lowell Tech defeated New England College by the score 4-3. Steve Dowling, Bill Conner, and Dave Brojakowski scored the goals for the Terriers. The team record is now 3-4.

LTI Bowling League

Since this is the last issue of the Test this year, the final results and awards will not be able to be printed. As it stands right now "The Mothers", "Techprockets", and "Under Joe's All Stars" are fighting it out for first and second in Division I. "Parlty No. 1" seems to have first place sewn up in Division II, but several teams are still in contention for second, including "Odd Couples", "Try-Harders", "Bullbatters", "Luckystricker" and "Prohibitionist".

This semester's league has been very close and interesting and tonight will determine who the first and second place teams are in each division. In the play-offs (May 15) the first-place teams in each division will play each other for first and second place in the league. The second-place-place finishers will play for third and fourth place. Each team will play its conscience in order to determine the final league standing.

The success of our league would not have been possible without the work of our secretary, Vin Bentag, and our treasurer, John Adams. They both did a fantastic job and enabled the league to run smoothly and on an organized basis. I want to thank them both for their efforts this year.

Finally, I congratulate the newly elected officers for next year: Ted Moran, president; Jim Mitropoulos, vice president; Gene Tenoldi, secretary; and Nancy Lewis, treasurer. Good luck next year.

Douglas Thomas
League President

Sports

Track Gains Speed

A week ago Saturday the L.T.I. track team had a very successful day in meeting and beating teams from five other schools, including S.M.U., Clark, Gordon, Barrington, and Bryant College. Tech was leading most of the way through the meet, but with two events left S.M.U. had narrowed the margin to 26 points. But a determined Tom Roberts and Dan Ayres had pushed hard in the mile relays for first and second places and then Dan Lobbie, Bernie Richardson, Rich McGrath, and Mike Godero trained up to take second in the mile relay to win the meet. In both these key races, incidently, new school records were set. Roberts at 15:16 and the relay team with a time of 3:56.

However, there were just two or three record days that day. Mary Olin surpassed her own mark in the javelin with a toss of 207', while Bob Holub and Bryant's add points in the same event with third and fourth places. Bernie Richardson ran the 100 yard 10.1 seconds and Rich McGrath a half mile in 2:42, both for new team records.

Besides these records, several other good performances were recorded at the meet. Chris Duigan and freshman Bob Prince captured top two spots in the high jump, while Rich Goulas and Steve Serio placed 1-2 in the intermediate hurdles. Mark Splitspan took third in the triple jump, Mike Godero a second in the 440 yard run, and Mike Maron second in the high hurdles plus a fifth place in the high jump.

With each meet this season the Terriers have been looking stronger, as freshmen gain experience and each team member has a chance to perfect his performance in his event. With graduation the team will lose several key competitors, including Ayers, co-captain Duigan, Strano, and Holub. But it also has a lot of freshman talent developing this year, so Coach Davis should have another strong team ready when next spring brings another season.

Football Club News

The Lowell Tech Football Club is proud to announce the election of its officers for the upcoming season. Elected officers were: President, Bill Trettter; Vice Pres., Rocky Angelo; Sec., John Mathe.

The new officers would like to thank all of the past officers. We hope to be able to count on them for added support in the future. We also would like to encourage anyone who feels they can help in any way to contact us.

(Hope to See You All in the Fall)

John Mathe, Sec.
