Student To Be Appointed To Board Of Trustees

"The Committee shall forthwith proceed to call a meeting whereby each institution or group of institutions shall elect a student representative under the provisions of the Act. The committee shall take into consideration factors which may be such as to each institution or group of institutions and the procedures promulgated need not be uniform for all institutions. Upon full and fair consideration of its responsibilities under the law, the committee shall determine the candidates for the Board of Trustees. The names of the candidates shall be determined by a majority vote of the committee in the board of the institution or group of institutions for which the change is proposed."

The Committee has determined that the students have the final say as to who is elected, and will therefore elect the best men at any time and by a majority vote of the board of the institution or group of institutions for which the change is proposed.

This bill as it affects Lowell Technologies Institute is similar to the American Law as promoting the election of only the best men to the Board of Trustees. This Board consists of 3 names be appointed by the Governor, the Mayor of Lowell, and the Board of Directors. The number of the elected member of the Board shall be seven, for the Lowell Tech Institute will be elected from the Boston Tech and General Tech and the remaining 4 members shall be determined by the appointment of the students body as the situation will be determined by the Governor.

The names of eligible students have been appointed to the committee, have been submitted to the Governor.

Greetings young, unassuming friend, you at your own peril and with the best of intentions may find yourself in for a little trouble. This book is designed to help you understand and enjoy the world of technology. It is not to be used for gainful employment, but instead as a guide to help you find your way through the maze of technology and its applications. Life here will be a series of tasks and duties, but not for the faint of heart. It will be a series of tasks that will challenge you and make you face the consequences of your actions. The next section will introduce you to the concept of task-assignment, and its relevance to your daily life. It will also provide you with an introduction to the concepts of time management and planning.

WANTED PEOPLE

Positions for the staff of the, for this year, are and have been open for some time. Too long, and it's bad, because the demands of the students were more responsive to the paper, and their mutual interest."

Correspondences are needed to follow people, issues, and attitudes, that have been dormant on this campus. Perhaps some day, there will be a more intentional light, that can be set aside, out of the way, and by accident, correspondence will be helpful, but since you are a student, you should be able to keep the paper to battle your brain with facts, and enlighten and enrich your spirit with facts.

In all, I expect to use my position on the paper to enlighten everyone, faculty and administration, included, on the need for the "thing" stake, a reminder to remember, from the paper, to battle your brain with facts, and enlighten and enrich your spirit with facts.

AFRO-AMERICAN NEWS

During the summer, the Afro-American Society, the Administration and the L.I.F. Board of Trustees, Committee on Student and Faculty Affairs met, discussed and approved a disadvantaged students program, as proposed by the Society. The administration, with the approval of the Board of Trustees, assigned the task for $30,000, which would benefit students of all races. Unfortunately, an unidentified student passed out notice because the L.I.F. Board and the Faculty Affairs Committee had not been informed. In fact, the program was just being organized and was already being funded. The program was approved, but all the salaries were not affected. The friends of the Society have been praised in all circles, so as to its work in helping all students who need help. Financial and administrative help has been granted to students who may or may not have the opportunity to work on the program.

THE TEXT welcomes letters on all subjects. All letters to the editor are considered for publication, with the writer’s name and school name included. Address all letters to:

AMERICAN NEWS

WASHINGTON—(CP) — Airline fare wars will continue, but not at the current half-price/meal discount rate.

The five-man Civil Aeronautics Board (CAB) decided here yesterday that while the fares, which enable passengers to fly standing at low cost, were fair in principle, carriers should be allowed to raise them to 60 percent of the regular coach fare.

The reason: steep wage increases, higher fuel prices and other capital costs necessary for an airline to earn a profit, are caused by the CAB, and price increases in both regular and promote fares are necessary in order to cover these costs.

Carriers offering special youth fares—American, Continental, Vanguard, TWA, United, Eastern and Western—are expected to take advantage of the CAB rulings and raise their prices. The new rules will take effect in February.

A CAB spokesman said further hearings will be held on the "average" or "normal" discount rates of the CAB for tourists as an "orientation." The CAB is now bringing up the issue of whether discount fares are necessary for an airline to earn a profit. It is often discriminatory for airline to earn a discount, as all passengers must pay full price.

The youth fare issue was forced to a head last January when several companies, all of which operate in the Northeast, filed a petition asking if the CAB board of the facts, filed petition to make the CAB listen that their discounts were illegal, according to The Fifth Circuit Court of Appeals.

PROS AND CONS

WASHINGTON—(CP) — Airline fare wars will continue, but not at the current half-price/meal discount rate.

The five-man Civil Aeronautics Board (CAB) decided here yesterday that while the fares, which enable passengers to fly standing at low cost, were fair in principle, carriers should be allowed to raise them to 60 percent of the regular coach fare.

The reason: steep wage increases, higher fuel prices and other capital costs necessary for an airline to earn a profit, are caused by the CAB, and price increases in both regular and promote fares are necessary in order to cover these costs.

CONSIDER

Is the possession of facts alone sufficient to complete an individual's maturing process? No. Man needs also to develop a thinking process capable of solving all situations which confront him.

How does man reach maturity? He matures by accepting advice and by bettering himself from his daily experiences. Attending college causes the student's school life to play a predominant role in his development. This is done through meeting people, situations, and studies.

Consider the fact of studies. One does not study merely to gain facts. Rather one studies in order to discipline the mind, to widen one's scope of reality, and to find a thinking process capable of coping with daily experiences.

A student at Tech is here so that he might learn to reason. Granted, not all his courses are presented with this purpose in mind, but note also that the student can do something about this.

What can be done about this difficulty just mentioned? Assume a teacher merely hands the student a paper with the scientific process written on it. Surely, one does not learn the use of logic just from reading this. However, one does learn the use of logic by complaining to the other students. The best procedure to follow is to respectfully inquire of the professor as to how he reasoned his statements and for what purpose. If the professor fails to satisfy the student's quest, then the professor has failed the student. However, this does not mean that the student is freed from the obligation to seek an answer. He has more than one instructor. Likewise there are advisors at Tech for the purpose of helping the students.

If, in the student's search, his instructors and his advisors have all failed him, which is most unlikely, then he should consider whether he or the school is at fault. This can be done by looking around at the other students. Have they inquired? Have they been satisfied? If so, why don't they? If not, they should act as a body, through the student counsel, in confronting the faculty with this difficulty of lack of communication between instructor and student.

Let it be understood that just complaining and not acting is not a solution. M.M.A.

BLOW YOURSELF UP

Send any black & white or color photo up to 8" x 10" (no negatives) and the name "Swingline" cut from any Swingline stapler or staple refill package to Pester-Man, P.O. Box 1565, Woodside, N.Y. 11377. Enclose cash, check or money order (no C.O.D.'s) in the amount of $2.00 for each blow-up; $6.00 for blow-up and frame as shown. Add sales tax where applicable. Original material returned undamaged. Satisfaction guaranteed. Allow 30 days for delivery.

First Call For Lacrosse September 29

Coach Bernie Shehner has announced that fall conditioning and practice for the lacrosse team will begin Monday, September 29th. All current and prospective members are invited to attend. The team will practice Monday, Wednesday, and Friday from 4:00 to 5:30. The time period from 4:00 to 5:00 will consist of a regular physical forma routine while from 5:00 to 5:30 the fundamentals of lacrosse and regular practice will be stressed.

The lacrosse team, due to its excellent showing last year, has been given varsity status and an increased athletic budget this year. Only five seniors were on the team last year and Coach Shehner is looking forward to a fine season this year. He expects to carry thirty-five men on the team which will be an increase of ten over last year's team. Freshmen are eligible to play and any student with average athletic ability is urged to try out. The game season is played by very few before college as it is evidenced by last year's team where only three members out of twenty-five had experience prior to college. To join just show up on September 29th at 4:00 in the small gym with your physical fitness matrix on.

Last year was the first year that the lacrosse team was fully organized with uniforms and six scheduled games. They made a fine showing with a 3-2 record topped off by a final stage upset over Springfield College. Other victories were over Haddon and Dean Junior College. The loose came at the hands of B.C., Boston State, and Brandeis. From this showing the athletic committee gave the team varsity status.

This year the team will probably be scheduled for ten to twelve games, and it is hoped that the field behind the gym will be fixed for the future games scheduled.
