VOTE NOW FOR ALL-TECH QUEEN!

Queen Contest Formal Highlight

One of the highlights of the Student Council-sponsored ALL-TECH WEEKEND, which is due to start within a few hours, is the choosing of a Queen and her court at the Formal Dance tomorrow night. Pictured above are the candidates for the Royal Assembly. One of these girls will be Queen for the Lowell Tech social highlight of the year. From this group, five girls will be selected by the student body, by means of the ballot elsewhere on this page, to vie for the final honors tomorrow night.

The Weekend starts off with a bang tonight at the "Artist's Ball" where an All-Star jazz show, featuring a battle royal between two popular jazz bands, will feature a variety show of entertainers. A master of ceremonies will be on hand for additional entertainment.

Tomorrow night, of course, speaks for itself. Les Elgart and his nationally acclaimed group will play for the enjoyment of those present in Cummick Hall. Of course, the highlight of the evening will be the selection of the All-Tech Queen and her entourage. In addition, two door prizes will be awarded; one is an all-expense trip to Boston for two, and the other is a ride in a jet plane, which will be awarded to the ROTC cadet present.

To supplement and compliment the official proceedings of the Weekend will be the gala parties which the fraternities are planning.
GREAT EXPECTATIONS

This is the start of the All-Teeth Weekend, which should prove to be one of the biggest and best social affairs the students have ever enjoyed. Many of these "great expectations" are due to the efforts of the Student Council and the administration. It is not the only effort, however, since the students have pulled together, and of Ken Cohen in particular, who is chairman of the entertainment committee. The weekend is going to be big, but the Olagora aggregation under extraordinary circumstances.

BAD TIMING

What seems to be one of the most practical ideas to send around here in a long time appeared a few issues ago in the TEXT. In essence, it presented the proposition that the scheduling of the IFC was forlorn, for that would allow the office staff sufficient time to process the marks and get them out last, even with the more efficient system, and not have to spend an entire Saturday night on the floor for a few such, "mark-happy," but nevertheless eager to know if they mule the way safely through the most recent part of the marathon, which would not be a great idea.

Determination

"A Key to Success"

The primary requisite or virtue that a person must have in order to achieve a goal is hard work. Since many cannot be considered hard workers, this is a problem. However, in most cases one must have some measure of personal success. For this reason, the following tips are given.

1. Start in finding your passion. All of us have that one passion. In most cases, it is a cause or a hobby. If you do not have a passion, you will not succeed.

2. Set realistic goals. If you set impossible goals, you will never reach them.

3. Make a plan. A plan will help you succeed.

4. Take action. If you do not take action, you will not succeed.

5. Learn from failure. If you do not learn from failure, you will not succeed.

6. Keep trying. If you give up, you will not succeed.
LIBRARY RENOVATIONS ALMOST COMPLETED

The modern four-story bookstacks in Amon's Menlo Park Library are nearing completion. The new stacks have a capacity of 40,000 books and are designed to facilitate the open-stack system which will be in effect when they are finished.

All periodicals from 10 to 15 years ago are now being brought down to the lower floor of the library. About 10,000 of the older periodicals will be available on the lower level beginning around the middle of the year, and the entire collection of government publications will be available from the beginning of the year. A million books, including a large number of older books, will be stored on the top floor. Each floor will also have four study rooms for the use of students doing research work.

Handpicks in the stacks, with the exception of the rare work, will be taken out and replaced with either open stacks or learning aids for the student to take to and from their shelves.

Under the new system the stacks, with the exception of the rare work, will be taken out and replaced with either open stacks or learning aids for the student to take to and from their shelves. The book贵州 in the stacks are not to be replaced until the books are returned or the student's are removed to be replaced with either open stacks or learning aids for the student to take to and from their shelves.

How Not To Become A Photographer

BY R.

Whoever says that photography is the easiest thing in the world of creative work is probably thinking of the ones who do it well. It’s true that photography is easy to learn, but it’s not easy to do well.

I wonder why it is that people, when talking about their desire to become photographers, say they want to become "great photographers." I often hear people say things like "I want to become a great photographer," but I wonder if they really mean it.

The answer to this question is simple: they don’t mean it. They only mean it because they want to make a living as photographers. It’s not enough to say you want to become a great photographer, you have to work hard at it.

MARCH TO SEE 33 COMPANIES INTERVIEWING ON CAMPUSS

Placement Director James W. Bell announced that 33 companies are coming to the campus for a job interview day this month. The companies include:

- American McGraw-Hill
- Charles Scribner's Sons
- Doubleday
- Random House
- Viking Press

The day will be held on Monday, March 21, from 10 a.m. to 5 p.m. Interviews will be conducted from 10 a.m. to 3 p.m. The companies will interview college students and recent graduates.

SERVICE TO COUNTRY DEBATED

Are you willing to accept your duty as an American citizen, to serve your country in one of the various branches of the armed forces? This is a controversial question that is often raised, especially when someone is considering entering the military.

You, the American citizen, are classified into a variety of categories ranging from "Honorably Discharged" to "Authorized Absentee." As an ex-service veteran, I was able to listen to many arguments, pro and con, in the service and now in civilian life.

In the service, you are expected to sit at home and let the other fellow do his duty. It is very difficult to understand the reasoning behind many of our country's decisions. The American public should be a definite change in our attitudes if the armed forces were suddenly done away with and our free country was suddenly won by a brutal end.

Text Adviser To Attend Newspaper Convention

Miss Barbara A. Brown, secretary/adviser to The Text, will appear as one of the speakers at the annual convention of the Columbia University School of Journalism, New York, March 13 to 15. Miss Brown is a prominent figure in the field of journalism and her appearance at the convention is expected.

Our freedom has been taken too much for granted, and our selfishness has caused the service to be used for means other than for the benefit of the people. It is time that we realized the importance of the service and appreciated the sacrifices made by those who serve.

Many of the young men of today are not interested in the struggle about the armed forces and the service. They are more concerned with the sports, movies, and other activities that are happening in their lives. The service should be a great source of pride and not a form of punishment.

It is time that we realized the importance of the service and appreciated the sacrifices made by those who serve. We should be proud of our country and our service and not allow it to be used for means other than for the benefit of the people.

Players Cast for Show "Out of the Frying Pan"

There are six main characters in this year's Tech Players production, "Out of the Frying Pan." Those characters will be, for the first time, roles that are not filled by students and, though still, but still requiring equal acting ability as the older characters. Some of the characters will be played by students, but the main role will be played by a professional actor, miesky Alger, with an American accent.

This year's play, which will be presented Saturday night, May 15, should be an equal step forward in the year and a great dramatic success. Some of the reviews given the play by national dramatic critics include:

- "To have heard the audience reacting favorably to, for instance, that "Hooligan" has been called "it's a pleasant play." - New York Times.
- "memorial ceremony -- it began on appreciative audience lang (all dramatic) -- New York Journal.
- "- genuinely moving and picturesque with laughter and tears..." - Washington News.
PHI PSI HOLDS HAWAIIAN PARTY

Pledge drive at PHI Psi began on Monday, February 11, under the leadership of Senior Warden Jack Bieler and Junior Warden Mike Schneider. The group is one of the most prominent in recent years and consists of the following: Robert Abraham, Joseph Boone, Cste Brown, Oscar Dostlakar, Joseph Lemp, Ray Sauer, Kenneth Danu, Charles Fagan, Kevin Fipps, Joseph Twitch, Thomas Maryskyj, Jorge Miel, Raymond Almendrez, Thomas Mills, William Mylin, Dwayne O'Donnell, Stanley Salve, Robert Shen, Ralph Steyn, Joseph Talbot, Frank Fredrick and William Wolf.

On February 23, a dance party was held at the house with guests providing the entertainment under "Hawaiian" theme. The catering was very well attended and everyone enjoyed the evening atmosphere.

Reinforcement of officers for the coming year was held at the regular February meeting of the fraternity. The election of the officers will occur at the March meeting, and the newly elected men will officially take over their responsibilities shortly afterward.

The fraternity basketball team is currently leading the LIT league with a 3 and 1 record, under the leadership of Fred Green and Jim Shadle. This good start has stimulated the interest of the fraternity in all other sports. PHI Psi is now formulating plans for active participation in the "A1L Tech" league and the fraternity indicates that this function will be one of the highlights of social activity this year.

AATCC MEETS

The Tech student chapter of AATCC met on February 12 at a business meeting held at the home of L. H. S. in the evening. The meeting, which was open to the members of the fraternity, was attended by the officers of the fraternity, members of the AATCC and a group of students interested in the activities of the group.

Leather Men's For Open House

The Leather Engineering Society is planning for a big spring schedule. The leather men in cooperation with the Institute are preparing to give their annual technical banquet which will convey to the public the techniques involved in the manufacture of a fine piece of leather.

Chairman of the Leather Engineering Department, Professor Taylor, has invited all students who are interested in the study of leather to attend the meeting. The meeting will be held on Thursday, March 4, at 7:30 p.m. in the Engineering Building. All students who are interested in leather are urged to attend the meeting and participate in the discussion of the subject.

Moreymen End Season With 12-4 Record; Best Winning Record Since 1936

TAKE TWO OF THREE KEY GAMES ON THE ROAD; DOWN Hillyer-LIU., Lose To P.TI; Brune Among Nation's Leaders

The Lowell Tech basketball team rounded out a very successful 12-4 season by winning 3 out of the final four games.

The first of the four was against Babson Institute at Babson Park, Mass. Here Carl Brune hit for 31 points on 12 field goals, and 7 foul shots, as the team built up an early lead and stayed on top all the way. Chris Chingros and Dave Hannon added another 45 points between them to help build up the final score of 88 - 49.

The next game played at Hillyer University in Hartford Connecticut proved to be another victory, taken easily in the giant steps of the Tech men. In this game Carl Brune racked up 26 points, with Dave Hannon adding 23 points, which paced the Terriers to a final 77 - 50 score.

Then, on Friday evening, the Moreymen beat a highly-talented Long Island University team to the score of 60 - 63. In this game, Carl Brune totaled out early in the second half thus keeping his point total to a low 15, but the other members of the team included their efforts and Chingros, Hannon, and Brune scored 24, 19, and 20 points respectively. In this game Ernie Glantz, bottled up the highly-talented LIU scorer so that he was able to score only 13 points.

In the final game of the season, Lowell Tech played Philadelphia Textile Institute at Philadelphia, and, due in part to tiredness from the long trip dropped a closely contested game by 8 points, although the Moreymen led at the half by 9 points. In this game, Carl Brune scored 24 points, and Chingros and Chingros together scored 34 points.

In all four games, co-captain Rich Silver, although seriously injured by a badly injured ankle, helped the team a great deal with his brilliant rebounding on both the offensive and the defensive boards.

-- Sportsmail

By Bob Kriegel

Last Saturday night Lowell Terriers finished their most successful season in twenty years. The terriers away on the annual New York trip took two out of their three games on this journey. At last year's trip where they dropped all three of their games.

The whole season went like that for the Morey men, with outstanding team spirit and cooperation.

The biggest single factor on the team was Carl Brune. I mean big in all respects, the 6'7" 220 pound sophomore was the mainstay all throughout the season. Carl averaged 22.4 points per game to rank him 17th for small college basketball scoring, and 8th in New England for all schools. This I'd say is pretty good for a boy in his first year at college. Carl also broke the city of Lowell scoring record, scoring 194 points in 16 games. Another record that he has under his belt is the school scoring record, when he scored 40 points against New Begin. One of the four games that we lost to, breaking Lou Atenas 16 year old record. Carl also was the team's leading rebounder. Just think he will be around for two more years.

Another very big help was Chris "The Cat" Chingros. Chris, who played for Coach Morey before he was in the Navy, added tremendous spirit to the team with his fantastic driving and playmaking. Chingros was second to Brune with 28 points in 16 games for a 1.7 average.

Co-Captain Rich Silver had a very good season averaging over 10 points per game before the road trip. He will be a great loss to the team.

In my opinion the most under rated ball player and unsung hero of the squad was the other Co-Capt, Dave Hannon. Dave never stopped running and fighting for a second while he was in there. Being opposed to the tallest man enough, but Dave also scored 194 points for a 12.1 average for the season. Incidentally Dave is an officer on the Student Council as "Mr. P". on the Electronics Corporation.

A great help, after missing the first part of the season, was Ernie Glantz. Ernie was another outstanding hustler, and a great playmaker. His sure fire hustle added tremendously spark to the Club.

Next year the Techmen look to be pretty good shape, although Hannon, Chingros, and Silver will be missed sorely. Tech will still have from their starting eight, and Gerry Kelly a very promising freshman who worked very good for the first part of the season. Rumor also has it that Bernie Newman and Dave Rice scoring are of the past two years will be back in school next year. Coach Morey also predicts that Bill Dixon will be a great asset to the team for his outstanding rebounding.

I think that Coach Dave Morey, the man behind the team, deserves a standing ovation for the fine job he has done, and he is wished the same for next year.

SPORTS CORNER

This on 'Tha

Three Americans will be entered in the Grand Prix at Havana During March. All three regularly drive for Italian side racing factory teams. They are Harry Sheh, Maurice Gavel, and Rentg Hill. Each will drive a privately owned and entered car, as will world champion Juan Manuel Fangio of Argentina, who will also be in the race... Perhaps a prospect for somebody's basketball team, the world's tallest man is reportedly "tallup" in New York. If he makes the scoring pace of the past two years will take place next year will be back in school next year. Coach Morey also predicts that Bill Dixon will be a great asset to the team for his outstanding rebounding.

OPEN HOUSE TO INCLUDE INDUSTRIAL EXHIBITS

Progress is being made in regard to the Open House weekend of April 5 and 6, The Steering Committee, which is coordinating and organizing all events of the Open House Weekend, has not received an official report from the President, but it is expected to be ready to lay out more detailed plans for the area needed and the projects to be displayed by all participants in the Open House.

One of the principal events of the Open House will be sponsored by the Physical Department and will consist of the display of the various exhibits of the physics coursed here. It will show in a simple manner the transition from the basic principles of physics to the more complex applications of physics in everyday life. The Exhibition will also enable visitors to obtain a better understanding of the physical laws that govern our world.

For the students interested in the industrial arts, there will be several booths including a large display of industrial exhibits. The students in the industrial arts will be busy creating and operating these exhibits.

The program is planned to include not only the exhibits but also demonstrations which can be seen in a live performance. These will be of the type which have been successful in other similar programs.

The exhibits will include a variety of projects which have been designed and constructed by students in the various departments.

BLOOD DRIVE SUCCESSFUL!

On Wednesday, February 27, the Red Cross bloodstream unit made its annual visit to Lowell Tech. Capt. John J. Lennie of the Air Force ROTC faculty and Dean of Students Richard W. Thompson, members of the program of voluntary giving. More than 100 students volunteered to donate blood, and 70 were accepted. Blood was also donated by 50 faculty members and 30 outsiders.
