Hear Lecture on Machine Lubrication

On February 13, the Wood Depart-

ment sponsored a lecture on machin-

ery lubrication by Mr. Reiman and Mr. Fletcher of the Almenite Corpora-

tion.

Dorothy R. Brown, associate of Mr. Reiman, who spoke of the de-

velopment of the Almenite Corpora-

tion, according to her spokes-

men, Almenite aims at reducing

friction by means of lubricants

made from metals under lower

pressure. The corporation is cre-

ated to reduce friction by using

new lubricating methods.

The Almenite Corporation has de-

veloped special devices for lubricat-

ing machinery. This is possible

because the company has found a

method of making such a lubricant

that is useful for various uses.

Mr. Reiman spoke briefly of the

prospects of the lubricating indus-

try, which he feels will continue to

grow as long as there is a demand

for lubrication.

THE PHILHORNE SORORITY

The Philhorne Sorority extends a welcome to the following pledges who were initiated on the 3rd week of February: Judith Brown, Theresa Covert, Joan Steere, and Helenalley. Congratulations also to Margaret McCarron, Elise Soutier, Edith Young.

An informal dinner dance was held on Saturday, February 19, 1949, in the hotel room of the Fenix Hotel. About seventeen couples attended, and a good time was had by all.

Three members of the sorority returned to the Institute recently: Mrs. Lolley O'Leary, Gordon, '41, Mrs. Lucy Robbins, Weirfield, '45, and Miss Helen O'Leaghlin.

TECHNICOLOR MOVIE

The Student Chapter of A.A.T.C.C. of Lowell Institute will show a very interesting technicolor movie, "Portrait of an Industry", on Wednesday, February 26, 1947. All students are invited to attend the movie in Southwick Hall at 3:30 p.m. The running time of the movie is thirty minutes long. If a class interferes with your attending the movie, you may secure permission from your instructor to see the movie at any time.

This film, produced by Color Chemical Supply Co., has been shown to various settlement houses and civic associations.

R. B. Killagaveath from So- cety Vacuum Company, the guest speaker for January, presented a lecture and discussion to the members and guests on January 30, 1947. He outlined the modern methods for the production and distribution of the motion pictures.

He also showed, by means of slides, the tests used in classifying the film products.

On February 5, the semi-monthly business meeting was held. This time Albert Bianco, who was an officer of the sorority, was elected as chairman and co-chairman of the program committee. The business meeting was held at the home of the President on February 16.

Business meetings are held on the first and third Wednesday of every month. The next regular meeting will be held on February 19. Anyone interested in this organization is invited to attend one of these meetings.
