Fiftieth Anniversary Celebration Ceremony To Take Place Feb. 11

L.T.I.—Dec. 15—President Martin J. Lyden released plans today for a gala celebration ceremony to take place Wednesday. He announced that the event will be held at the L.T.I. campus to celebrate the fiftieth anniversary of the occupancy by Lowell Textile Institute of its present site.

The celebration festivities will include a special concert at which leaders in government and industry will be the honored speakers. Also at this celebration will be the first public release of the completed technicolor movie, "Lowell Institute." Plans are drawn up, by a committee appointed by the president and headed by Fred. James T. Dow and Charles Herr, for this occasion to include the unveiling of the new administration-building dedication and the preparation and laying of the cornerstone in the L.T.I. campus.

The ceremonies will also include a tour of the buildings by the guests who will include prominent Lowellites and individuals who were instrumental in the construction of the present L.T.I. site and in the progress and growth of the Institute.

Following the tour, an anniversary dinner will be held for guests.

The committee working under the direction of President Lyden, Dr. Hauser and Prof. Dow include Prof. John Robertson, president of the University; Robert R. Miller, president of the Student Council; John Devine, president of the Ku-Klux-Klans; and Ken Knecht, editor-in-chief of THE TEXT. The student representatives were chosen in the interest of the student body in order to indicate to the other members of the committee who were selected, the organization's plans towards the different politics in the country. They will also organize their respective groups to make this a successful event and further develop student interest in the project.

A special pictorial edition of THE TEXT will be published for the celebration. THE TEXT will attempt to depict the purpose and growth of the Institute in a combination of photographs and sketches as well as a lengthy article.

TEXT and PICKOUT Staffs Preview Film To Be Seen World Wide

L.T.I. Dec. 15—On December 10, the members of THE TEXT, the Pickout, and the Student Council were shown a preview of the recently made technicolor movie, '53 Year Olds.' The movie is to show to students planning to go to college, and their parents, what L. T. I. has to offer them, and to show prospective employers of L.T.I. graduates the type of student that receives here. This movie will be shown by representatives of the school to Parent-Teachers meet- ings, high schools, machinery expedi- tion, and anyone else who is interested in the film and may be interested in L. T. I. The showing of this movie is affiliated with President Martin J. Lyden and as Assistant, Everett V. Olson. The production was the work of Prof. John Robertson and members of the counseling staff. The pictures were taken by Joseph L. Carroll, '54, who made the motion picture. Those interested in casting the cast of the movie are being asked to call Professor Robertson, and thearrings will be given by Richard Rick.

Song Contest Open To Faculty, Alumni

The opportunity to win a free weekend trip has been extended to in- clude members of the faculty, the staff and the student body and the usual criteria will be used to judge the entry, which must be received by December 31.

Those to whom you have been letting this opportunity for a free weekend trip is the deadline, Jan. 15, 1953. The entries are now being accepted by President-Dean Seely from June 1 to June 19. It is true that the weekend trip has been extended to include members of the faculty, the staff and the student body and the usual criteria will be used to judge the entry, which must be received by December 31.

Peace On Earth

"A decree went forth from An-guiter Caesar that the whole world shall be enowned." This simple thought was shared by two thousand people at Brown University last week. An event that was to shape much of our history on the earth. An event that meant the beginning of a new religion, the cause of many revolutions, and to many people, a hope for the future. The course of events is such that the reason Christ was to be born in Bethlehem, he was not born at peace, but in a troublous time.

We might well be reminded of the meaning of those words, if we are not simply to sit back and enjoy the Christmas season as if it were merely a time of eating and drinking.

The joy that comes from the Christmas season is due to the fact that it is the time of the year when the world is at peace. The world is at peace because of the Christmas season. It is the time when we can all be at peace. It is the time when we can share the joy of the season with others. It is the time when we can all be at peace.

Christmas is a time of peace. It is a time when we can all be at peace. It is a time when we can all be at peace. It is a time when we can all be at peace. It is a time when we can all be at peace.

The time of peace is the time of Christmas. It is a time of peace. It is a time of peace. It is a time of peace. It is a time of peace.

The time of peace is the time of Christmas. It is a time of peace. It is a time of peace. It is a time of peace. It is a time of peace.

The time of peace is the time of Christmas. It is a time of peace. It is a time of peace. It is a time of peace. It is a time of peace.

The time of peace is the time of Christmas. It is a time of peace. It is a time of peace. It is a time of peace. It is a time of peace.

The time of peace is the time of Christmas. It is a time of peace. It is a time of peace. It is a time of peace. It is a time of peace.

The time of peace is the time of Christmas. It is a time of peace. It is a time of peace. It is a time of peace. It is a time of peace.

The time of peace is the time of Christmas. It is a time of peace. It is a time of peace. It is a time of peace. It is a time of peace.
HILLEL COUNSELORSHIP
On Sunday, November 25, we held our annual (annual) schedule. It was
estimated that 21 people were
present. Among the participants,
young women from the Lowell and
Lawrence area. After everyone
heard, the president, Dr. Alter,
spoke about the importance of
what we were doing. The first speaker
was Skipper, who read a story from
Mets' Winter. He spoke on the
philosophy of Hillel at "L-T." He and I
were the only people at the meeting
to stay for the next day's meeting
in view of this, the club would
like to apologize for any
carelessness, and we hope that
interested in knowing about it will
write or phone us.

The annual alumni dinner and
meeting was held at the 01 P. house
at Waverly Avenue on Sunday.
This was the second annual dinner,
with about 25 alumni and members of
the active chapter attending. At the
meeting the annual report was
discussed, followed by the election of
alumni officers for the coming year.
The O P. housing team still holds
the University house by a narrow
margin with 36.6%. The V. won 33,
with about 12 alumni or members of
the active branch attending. At the
meeting, the annual report was
discussed, followed by the election of
alumni officers for the coming year.

Weavers' Guild Visits Textile, Impressed

On May 19, forty-two members of the Weaver's Guild of Boston, representing textile manufacturers, labor unions, and textile schools, were entertained at the Textile and Engineering Machinery Department of Tufts College.

The purpose of the trip was to familiarize the visitors with the latest developments in the textile industry, and to provide an opportunity for them to discuss current issues with the students and faculty of the college.

The day started with a tour of the Textile and Engineering Machinery Department, where the visitors were shown various machines and processes used in the industry, including weaving looms, knitting machines, and dyeing equipment.

After the tour, the group attended a symposium on the latest developments in the textile industry, with presentations by industry experts and faculty members from Tufts College.

The visitors were impressed by the innovation and progress in the industry, and expressed interest in collaborating with the College on future projects.

The trip was an excellent opportunity for networking and learning, and the Weaver's Guild is looking forward to future visits to Tufts College.

THE AIMS OF EDUCATION

A couple of weeks ago we ex-
plained a newsletter in the book
store. Among the many things that
are held, paperbacks, hardcover
books, and scripts are the first
things people look at. But the next
surprise was, that instead of
reading the customary cover attrac-
tion to see if someone they like has
covered, we noticed titles such as"The
Aims of Education." "The Edu-
cation of Man," that "Modern World-
ists," etc. The official store has-
ning with such size books; we
noted several titles such as "The
Aims of Education," "The Edu-
cation of Man," "Modern World-
ists," etc. The official store has-
ning with such size books; we
noted several titles such as "The

cover, but then this play has
now become a classic.

We realize that you want to read something by that author. As we did,
we were looking for a kind of
second is the fact that there is
a new kind of play, which you
might like, and it's about
something that is going to
happen in the next few weeks.

When Christmas comes around it is usually a period of gift
exchange. You have a book that
you want to give to someone
for Christmas. It is an opportu-
nity to be, and cheaply, as
you want to be, in your gift
to a friend or a relative. This
is Christmas commercial, I
get no cut on the sale of these
books for gift giving. I'm glad
that you want to see this,
and that you will find that
we are looking for a kind of
second is the fact that there is
a new kind of play, which you
might like, and it's about
something that is going to
happen in the next few weeks.

The first one I read was "The Aims of Education" by Alfred North Whitehead. Prof. Whitehead
was an influential English philoso-
pher, mathematician, and educator.

Among the many positions he held
in the educational field, he was
for several years Professor of Philosophy
at Harvard. If anyone was ever quali-
died to talk about education it is
certainly Prof. Whitehead. At LITs,
we are students and teachers and it
therefore follows that we must be
interested in education, how we are
taught, and how we teach.

The book is a series of articles and addresses on education written

THE T E X T

in "The Aims of Education." The con-

sternations are controversial and you
must have a copy of this book with a
complete copy of the book in your hand. It is
a good habit to read the book. One
point Prof. Whitehead brings out
very strongly in his discussion of
ideas. If anything, Prof. Whitehead
tries to make sure that one idea
does not remain inert until it begins
in the book. It is difficult to
understand the contents of the book,
even though they were written some
time because it is not really
understood. There is a genuine,
to know what people
have
of this in

we would like to tell the
following

this without

we could have
such a conclusion.

T ammy Thomas Memorial Scholarship

L. T. L. 1-Dec.-The Aims of Education

This scholarship is $100 per year for four
years.

The Palethorpe Dickenson College,
Rutherford, N. J., recently opened its
new Textile Building, the Hesslein.
Cost of $10,000, $15,000, and Herbert Koopman will
go to the textile school's director.
The French Textile School of the
Pennsylvania State University has
received $35,000 for the purchase of
new machinery from the Textile
Education Foundation, Inc. The
Philadelphia Textile Institute has also
been the beneficiary of a similar
endowment, $35,000, to be spent for
an instrument laboratory.

The Auto and The College Man

by Howard M. Ellis

The auto, a product of modern make, is beginning to seem more like a challenge than a blessing to the campus. A glance at statistics shows the accident facts. In 1951, 31,000 people died in traffic accidents and more than one million were injured. It is interesting to note that results of accidents are still sufficient to cause one to wonder whether people are too busy to worry about the genuine dangers of the road or whether they are just making a game of it. It is possible that in the column of statistics, the number of fatalities and injuries would be far less. It is also possible that if the college student realized the weakness of his mind behind the wheel and were wary of them, it would be a great step forward for the American mind.

THE AUTO AND THE COLLEGE MAN

One day the textile industry--
slowly moving south, but L. T. I. grades are, for the greater part, "B"s,
the right here in New England. Of the L. T. I. students, O.5% are in New England, and only 0.4% in the South, and 45% are right here in Massachusetts.

During past and present years, L. T. I. students have been prominent in education as well as in industry.

At the present time 34 graduates are teaching in schools and colleges, or holding supervisory jobs in such institutions, and half of those are at Lowell Textile.

In taking a closer look at some recent alumni in education, we find Francis P. McGuire, '38, principal of the Riverside School, an 8th grade grammar school in Lowell. McGuire is married and has one child. He recently got his Master's degree in Education from Boston University, and is a member of the newly formed Mental Health Association of Lowell.

Joseph L. Lemire, '37, is principal of the Lowell High School, corresponding to vice-principal, Head of the Math Department, and Supervisor of Athletics. Mr. Lemire has three children. Gabrielle Jane, who received her B. S. in Chemistry at L. T. I. in 1939, is now Robert at Yale, and a third son, John Lemire, who attended Lowell Textile and is now in the U. S. Air Force. Mrs. Lemire is also an alumna of Delta Kappa Phi Fraternity.

L. T. I. graduates at the news of a recent street job assisted by the Boston Sunday Post, on U. S. History, only 2 people were able to answer all questions correctly, being L. T. I. graduate Robert K. Lyle '37, of Manchester, N. H., Wednesday's bell rang bell Saturday December 6, for Richard Thomas, '31, and Miss Nancy E. Doris, in Townsend, 0.5...
George Shea To Leave Service of LTI; To Retire At Completion of 48th Year

When the clock strikes 12 this December 31, and brings down the curtain on the year 1952, it will also bring down the curtain on a career embarked upon 48 years ago, by George Steven Shea. Known to most people at the Institute as "George" and affectionately addressed by some as "Professor", he has decided to retire, leaving behind his job as maintenance man and at the same time, forging up his title as the oldest em- ployee in terms of service at L.T.I.

Retiring on a well earned stand - penna, George has seen Lowell Textile Institute grow through the years and has grown with it. He was hired by the Institute in 1934 and worked until America entered the First World War in 1917. Then along with many others, George's career was interrupted for a more important job. After the war, the new factory and well liked person a- lready resumed work at L. T. I.

George Steven Shea

1934 George left the Institute due to ill health, but all were happy to welcome him back upon his recovery. Since then George has remained at the Institute making unused mem- bers of friends through the years. A testimonial is to be given to George on December 17, at the Institute, by many friends and many friends. The day after the testimonial, December 18, is George's birthday. THE TEXT knows that it reflect the feelings of all at the Institute by wishing George a very happy birthday. With all the luck in the world.

Happy New Year...

And a new era of peace and prosperity for our friends everywhere.

1953

The Textile Players
Phi Psi Defeats O Pi In Opener

The fraternity basketball season has finally gotten underway. However, this year a new team has been formed under the leadership of a new O Pi. The first game was played before a full house, tied 13-13, and ended in a stalemate. However, the second game will be top of the team that finishes first and the other trophy will go to the team that finishes second. The first team will receive both trophies. The awards of two trophies were bought with the funds of the Philatheta.

The first game played by Phi Psi bested O Pi by a score of 45 to 32. In McKeldin is the home court for the two teams. O Pi has been led by their own coach, O Pi. The team is composed of 13 players. Walt Chiles was the star pitcher, with O Pi bowing down. Walt worked both sides of the floor, and the game continued over into an overtime period. Youth finally prevailed, and in the overtime period to give their team a 20-25 victory. In the preliminary game, theundermanned (undermatched) Textile Division bowed to the Lowell-Hobson 22-14. However, the Textile Division picked up a few real talents with Carol Dean and Marcelle Canin. The game was fast and furious as several balls hung around.

The season is starting and it will have to be done in this rough and tangle league.

O Pi Still Leads Pack In Bowling

The bowling season is about half gone and at this point O Pi leads us as O Pi, the former leader team, are making a very strong bid to repeat. At the present time, they have a lead of 32 points and their nearest competitor is EPi with 14 points. On November 12, at the best bowling center, the league had a record, and the final score of the two teams was 13 to 15. O Pi bested Phi Pi Lamb by a score of 30-20. The standings are as follows:

O Pi—22
Phi Pi Lamb—21
E Pi—15

O Pi holds the high team triple record with a score of 1051 while O Pi leads the team single triple with 516. O Pi dominates the individual record with Hall bowing down in the high team triple with 279 and Canin and Rockwell are on the list of men with 252 and 182.

Prof. V. Rosato Works On "City of Lights"

As you have probably noted, Textile has joined the City of Lowell in its "City of Lights" program. Recently the literary was decorated with appropriate holiday decor. This decoration was the climax of the direction of Dr. Chye’s brainstorming, leading to the "City of Lights." The "City of Lights" committee, Prof. Vinhbo Rosato, was a large share of the planning for the light decorations that will dress the streets in the downtown area of Lowell. The lighting of the city was a part of the program of the committee for "Profit in Lowell."

Some local national magazines have been covering the "City of Lights" program, which will also in- clude publicity for Lowell Textile Institute.

LITI, Dec. 15—Expectations for a highly successful Textile basketball season were dashed last night by the two competitive defeated teams. Many of the top players were injured. Those defeated were Keene Technical Institute and Lowell. Those defeated were Keene Technical Institute and Lowell Technical.

The game was played and won, light of the evening, at Wanley. Last night the Textile played and was won, Lowell Technical in the Textile gym.

"Don’t worry—they teach me what he is doing. He can't prove to be in disadvantage."
