ATHLETIC COMMITTEE

As one of its final moves as presi-
dent of the Association of Colle-
ages, the Wellesley Alumni As-
sembly has recommended that the
Athletic Committee of the Univer-
sity, consisting of the members of the
Executive Committee of the Un-
iversity, be enlarged to the extent of
being able to appoint three new
members. It is urged that the nomi-
nation of the new members be
made with due consideration to
the interests of all students.

The University has been made
the recipient of a donation of
$5,000 by the Association of
Colleges, which was made in
consideration of the work done by
the University in the past year.

In connection with the matter of
the appointment of a new chair-
man of the Committee on Uni-
versity Affairs, the University has
been notified that the Association
of Colleges will meet on Friday,
October 20, at 10 o'clock, and
that the Committee on University
Affairs will meet on the same day.

The Committee on University
Affairs is composed of the presi-
dent of the University, the presi-
dent of the Faculty, and two
representatives from the Graduate
School. The meeting of the Com-
mittee will be held at 10 o'clock.

At the meeting of the Committee
on University Affairs, the presi-
dent of the University will preside
and will be assisted by the presi-
dent of the Faculty. The meet-
ing will be open to the public.

THE TEXT

LOWELL TECHNICAL INSTITUTE

OLIVE WHIPPLE, Editor

Meet Your Student Council

Since 1916 when he first entered Lowell Technical Institute, Frank Kelly has been an active student. The position he now holds as President of the Student Council is not his first effort in public service. In fact, he was one of tremendously proud and energeticaries for the schools. He is a great student and a great leader, it is said, and his only sin is that he has been a leader too long.

The results of the Student Council have been the same. Student leaders have been chosen to represent the Students and the Student Council has determined the plans and dreams that President Lydon, Dean Basil, and Dean Wal have always had for Lowell.

What we see to forget is that this school, as an Institute of college caliber, that Lowell's technical Schools are the largest in the nation, and that the majority of students in Lowell Technical Institute have been more or less close to the student government. The Institute, not only in the sense of a student council, but in the sense of the student body, the student council, and the student government. Here, the relation of the student body is as close as it is to the student council, and the student government. The student body is as close as it is to the student council, and the student government.

So, in a sense, we have a right to be interested in being right. If not, we are not directly as we are directly interested in being right. The context of this and of the circumstances of our own situation is very important as far as the universities are concerned. We are not interested in the circumstances of the university. We are interested in the circumstances of the student body.
INTERFRATERNITY NEWS

Over the last few weeks, the Delta Kappa Phi and Pi Lambda Phi fraternities have been involved in several leadership positions and have increased their community involvement through various activities and events.

DELTA KAPPA PHI

This week, the Delta Kappa Phi fraternity held a meeting on Tuesday night at the "Cat". Several fraternity brothers were present, and new officers were elected. The focus of the meeting was on preparations for the upcoming fraternity activities and events. The fraternity brothers discussed ways to increase their community involvement and promote the values of the fraternity to the university and surrounding community.

OMICRON PI

The Omicron Pi fraternity hosted a social event on Saturday evening, which was attended by members and guests. The event was held at a local restaurant, and attendees enjoyed a night of socializing, networking, and having a good time. The fraternity brothers and sisters were dressed to impress, and the atmosphere was lively and energetic.

ENGINEERING SOCIETY

This week, the Engineering Society hosted a meeting at the Engineering Hall. The meeting was held to discuss upcoming projects and events, and members shared ideas and suggestions for improving the society's activities. The meeting was attended by members and guests, and attendees enjoyed a night of socializing, networking, and having a good time.

NUCLEUS

The Nucleus is a publication that aims to provide updates on the latest news and events related to the fraternity, sorority, and student life. This issue includes articles on the state of the fraternity, upcoming events, and important announcements.

At the beginning of the semester, the fraternity hosted several events to bring the members together and build a sense of community. The events included a welcome back picnic, a fraternity mixer, and a leadership training session. The events were well attended, and attendees enjoyed a night of socializing, networking, and having a good time.

Nearly all of the fraternity houses are decorated with a theme for the fall season. The decorations include items such as pumpkins, corn stalks, and leaves. The decorations are changed every week, and the fraternity house is decorated with a different theme each week. The decorations add a festive touch to the fraternity house and create a warm and welcoming atmosphere for the members.
SPORTSMILL

By EDIE MORGAN

Now that a reasonable period of time has elapsed since Dick Hassett's announce- ment concerning the athletic scholastic at the Duxbury schools, we are able to appraise the situation from a more prophetic point of view. At the time of the announcement, Dick Hassett was well known as a successful athletic director, and his appointment was viewed with enthusiasm by the majority of the student body. However, the appointment of Dick Hassett as athletic director is not without its challenges. As Hassett begins his tenure, he will face several key challenges and decisions that will shape the future of the athletic program.

The athletic program at the Duxbury schools has a long and storied history, with many celebrated athletes and coaches. Dick Hassett will need to continue this tradition of excellence while also ensuring that the program remains accessible and inclusive to all students. With the approval of the athletic program, Hassett will be able to implement new initiatives and strategies to enhance the overall experience for student-athletes.

One of the primary challenges facing Dick Hassett will be to balance the demands of competing at the highest level with the need to ensure that all students have the opportunity to participate in athletic activities. This will require careful planning and resource allocation to ensure that the program remains financially sustainable while also providing a high-quality experience for all participants.

Another key challenge will be to foster a culture of sportsmanship and teamwork among the student-athletes. Dick Hassett will need to work closely with coaches and parents to promote values such as integrity, perseverance, and respect, which are essential for success both on and off the field.

In addition to these challenges, Dick Hassett will also need to navigate the ever-changing landscape of athletic recruiting and college commitments. As student-athletes begin to think about their future college plans, they will look to Dick Hassett for guidance and support in making these important decisions.

Overall, Dick Hassett's appointment as athletic director marks an exciting new chapter for the athletic program at the Duxbury schools. With his proven track record and passion for helping students achieve their goals, he is well-positioned to lead the program to new heights.

FOOTBALL

Soccer Squad Bows to Keene

The Saturday afternoon, October 16th, the LTH soccer team played the first game of the season against Keene State College, the state's largest and most powerful athletic program. The game took place at the Keene State College field, and the Terriers fell to the Keene University Terriers by a score of 1-0.

Despite a strong performance, the Terriers were unable to find the back of the net. The game was marred by missed opportunities and a lack of coordination in the midfield. The Terriers struggled to maintain possession and create scoring chances, ultimately leading to the loss.

PARKS GOES OVER FOR LONE TALLY, BOB MULCAY Boots EXTRA POINT

The Lowell Textile Terriers topped arch-rival 5-1-0 in their first game of the season by a score of 1-0. The victory was an important step for the Terriers, who hope to continue their winning streak throughout the season.

One of the key moments of the game came when Bob Mulcahy scored an extra point, a rare occurrence for the Terriers in recent years. Mulcahy's extra point was the result of a well-executed play, with the Terriers demonstrating good teamwork and coordination on the field.

Soccer Squads in Action

The soccer squads are in action this weekend, with games scheduled for Saturday and Sunday. The squads are facing tough opponents, but they are determined to emerge victorious. With the talent and experience of the players, the squads have a strong chance of making a strong showing in these games.

In the past, the soccer squads have faced similar challenges, but they have always risen to the occasion. This weekend, they will need to draw upon their collective strength and experience to overcome the obstacles that lie ahead.

FROSH RALLY

The Rally for Freshmen

The Rally for Freshmen is an annual event that brings together the freshmen class and the rest of the school community. The event is a time for the freshmen to get to know each other and to become more involved in school life.

The Rally for Freshmen is an important part of the transition process for new students. It provides an opportunity for them to meet their classmates and to get to know the faculty and staff. The event also helps to build a sense of community and to create a sense of belonging for the freshmen.

Snowy Rally Before Game

Friday night, exactly 2:30 a.m., freshmen in the snow received the news that they expected to hear at the opening game of the football season. Depending by day and down in uniform, arms and legs shivering, they charmed their way through the snow and every victory for our mighty Army. The pride of the Terriers, the cheerleaders, worked up to a near maniacal frenzy by the great events last night, and the sights that greeted them in the stadium, as well as the sounds that echoed from the stands, made them think that the Terriers were the most popular team in the history of the school.

The game was a close one, with the Terriers leading early in the first half but trailing by a point at the half. In the second half, the Terriers took control and went on to win by a score of 1-0.

The Terriers are now in the thick of the competitive race, and they are determined to make their mark on the season. With the next game set for this weekend, the Terriers will be looking to build on their momentum and put in another strong performance.

Spirit Promoted by Cheerleaders

An all-freshman booster club, a spirited group of cheerleaders, rallied themselves for a tough job ahead. The earlier this year cheerleader consists of three members: Captain Steven Le, Co-Capt. Arleen Poyner, and Jeffery Zunner, who aim their ambitions high. They intend to bring the spirit of the Terriers to every game, and to lift the spirits of the fans, who have shown great support for the Terriers throughout the season.

THE TEXTILE AATCC (Continued from Page One) the presentation by Mr. J. A. Burt, of the University of North Carolina College of Textiles, who traced the development of textile research in the United States from the early days of the industry to the present time. The keynote of the presentation was the importance of research in the textile industry and the need for continued study and experimentation in order to maintain and improve the quality of textiles. The speaker emphasized the role of the AATCC in providing a forum for the exchange of ideas and the presentation of research findings. The presentation was well received by the audience, who were interested in the latest developments in the textile industry.
