Head of Textile Schools Meet

The full meeting of the National Council of Textile School Directors was held October 15, 16, and 17 in Standford, Maine. Once again the heads of the various textile schools sided each other in their common problems, with discussions and suggestions concerning methods of policies.

L. S. was very well represented: President Kenneth R. Fox, Dean Simon, Washington, was in attendance.

This group will make recommendations and advice in all matters pertaining in the promotion of Textile Education, and especially in Textile Education in the schools and industry. No all-textile schools are students of the Council.

The group will be unappreciated in the meeting of the Council and the Council of Textile Schools shall have all-textile schools represented by the Council.

The meeting of the Council of Textile Schools was held in Standford, Maine, October 15, 16, and 17.

Dean's List

The following members of the freshmen and sophomore classes have been placed on the Dean's List for the second quarter of the year ending April 30, 1947. All students have been placed on the Dean's List for the second quarter of the year ending April 30, 1947.

TEXT PLATFORM

1. Building of school spirit.
2. An adequate student government.
3. A program of vocational guidance.
4. Promotion of school organizations.

This text serves for the betterment of Lowell Textile Institute and will at all times attempt to represent the best interests of the student body in current discussions.

EDITORIALS

A STUDENT GOVERNMENT

An essential organization which has been lacking for several years at L.T.I. is under special consideration at the present. Everyone should realize the value and need for such a governing body and be ready to accept the formation whenever it is realized.

A group, consisting of the presidents and vice-presidents of the various clubs, has held its first meeting for the purpose of gathering material for a constitution and by-laws. They have sent letters to several colleges of similar size to ask for the cooperation of their student governments. From the ideas obtained from these constitutions, they hope to be able to develop a suitable constitution to be the framework of our student body.

This is not an easy task as it takes time to consider all the details necessary for a well-organized and smooth working government. They must first look ahead and prepare the government which will be adequate to the future expansion of the Institute. Whatever the group draws up as a constitution, providing it is approved by the President and the Board, must be approved by both the faculty and students by a majority vote. If the students are not to be governed by a body, they should have the right to assert the rules of this body. And so, too, with the faculty. If they are not to be governed by the administration and are willing to back it up, it should meet with their approval as well.

We hope that a student government will become an actuality at Textile in the near future. If each student would give serious thought to such a plan and be ready to offer his suggestions, we can be certain that we will have a plan that will serve the best interests of the school and the students in it.

Ever since he was hooked up in the sweater room, he thinks he's a flying shuttle.

Students of Textile Institute
can rate graduate schools on two
later than the fall of 1948 and they
must pursue a continuous and normal
work of school.

Six winners will be chosen by
selection committees of professors from
each of five geographic zones, and two
Nero winners will be selected from
graduates of Nero schools in the United
States. De-

velopers in other colleges will be
eligible for the six fellowships to be
awarded in that particular region.

Students who wish to apply for
one of these fellowships may obtain ap-
ception forms from the dean of their
individual colleges or by writing to
the Pepsi-Cola Scholarship Board, 532
Emerson Street, Palo Alto, California. Complete
applications
with official transcripts of
grades and other required informa-
tions must be received by the Board
before January 1, 1949. Winners will be announced March

kets, E. I. Ward, President, Goodell;

Sanford,

General discussions which com-
prised most of the time were similar
to the following examples.

1. What changes are desirable
in textile curriculums?

2. What about size of classes?

3. Time Schedules of subjects
teach in textile schools.

4. Methods of handling labora-

tory classes during summer re-

5. What is the best kind of sub-

jects to teach?

6. What academic subjects
should be emphasized as being most
helpful to the student and in industry?

7. Policy governing transfers
from one school to another.

8. What are proper teaching
feats for instructor?

9. What valuable knowledge

From the co-operative meeting
of the Textile School Deans will be
evident in the next changes here at
L.T.I.

TEXTILE EDUCATION
We are not only textile college which is expanding. Philadelphia Textile is moving from the business district to our new campus which will be completed by the end of next summer. As a result, there will be no delays in the delivery of textiles to students.

The Textile Education Foundation of America has received $2,200,000 from the textile industry of North Carolina, South Carolina, and Georgia. The money will be divided between textile schools in North Carolina State, Clarendon and Johns Tech.

North Carolina State is using a large portion of this grant to increase the number of students in the school. The school is expected to have at least 1,000 students by the end of the year.

EIGHT WEEK EXAMS
Here is the spring story on the new price list. At the eight-week period. There will be no price increase for the eight-week period. There will be no pay for the eight-week period. There will be no work for the eight-week period.

THE RAMBLER
by JIM KENNEDY
THE FOOTBALL SITUATION
It was our usual intention to publish in this issue the results of our own football team's efforts in the game against Tech. However, it will not be possible to publish these results until the end of the current season. They will be published at that time.

The students' interest in college athletics is not limited to the football team. It seems that a large number of our students are interested in watching the games.

We are pleased to announce that the next issue of the The Rambler will be published on the 15th of the month. We hope that you will be able to read it then.
Dr. Paganiotis to Retire from Lowell School Committee

Dr. Paganiotis, the head of the School Committee, has been serving as a member of the Lowell School Committee for the past two years. It was his first attempt at "politics," and he was exceptionally concerned about the greatest number of votes received by any elected public official in the history of Pine G. government at Lowell. Our professor's popularity in his district is not to be understated, "Doc" led a militant crusade, mostly from his little corner, for a reorganization of the Lowell educational system.

The three new members of the Lowell School Committee are: Mitchell, Gromowski, George J. Mandikos, and Mitchell, James P. Leitgeb. Mitchell Gradkowski received his B.T.C. degree in 1934. While a textile student he participated in basketball, baseball, and photography for the Pick-A-Time Club. It is an industrial chemist for American Furniture Products, Ashington Mills, and Prescott in the Textile Depart of the Weaving Works. Pelham, a member of the Longwood Club, he was elected to the Student Senate. Mitchell was a member of the A.T.C.T. and, textile research institute.

George J. Mandikos entered LIT in 1938. In 1934 he received the L. E. A. Chemist Award for his work on the properties of the Rx. In 1944 he was elected to the Engineers Club. He has served as a student assistant in organizing teams for three years, working on the Philadelphia Engineering Corps. In 1941, he received a $100 scholarship from the Hellenic Society of Boston and a $200 scholarship from the Philadelphia Engineering Corps. Mr. Mandikos returned to LIT in the fall of 1941 to continue in organic chemistry. After receiving his B.T.C. degree he worked for the A.T.C.T. Research Laboratories and has since been with the American Textile Machinery Co.

Arthur J. Moore was received his B.T.C. degree in 1941. While a textile student he served as a student assistant in the engineering department of the A.T.C.T. and the Textile Machinery Co. He was employed at the Jeffersonville Quonset Hill Depot and the Socony-Mobil Oil Co. in Louisville before entering the services. While in the army, he served in the aerial warfare corps and in hospital laboratories. He returned to his research work at the Jeffersonville Quonset Hill Depot and the Socony-Mobil Oil Co. in Louisville before entering the services. While in the army, he served in the aerial warfare corps and in hospital laboratories. He returned to his research work at the Jeffersonville Quonset Hill Depot and his work was accepted at the A.T.C.T. Research Laboratories.

Dr. Paganiotis has served as a member of the A.T.C.T. student body and has served as a member of the Boston Athlete Club. He was a student assistant in the engineering department of the A.T.C.T. and the Textile Machinery Co. He was employed at the Jeffersonville Quonset Hill Depot and the Socony-Mobil Oil Co. in Louisville before entering the services. While in the army, he served in the aerial warfare corps and in hospital laboratories. He returned to his research work at the Jeffersonville Quonset Hill Depot and the Socony-Mobil Oil Co. in Louisville.

Every so often we take the solemn pledged of a Yale man, in the words of Dr. Paganiotis, and in the spirit of Dr. Paganiotis send a pledge then up for the next year.

DINH SERVICE STATION 645 MERRIMACK STREET LOWELL, MASS.

DINH 2-8185 COMPLETE CAR SERVICE

DOVEYS by CHARLIE WHITHEAD

By popular demand of the boys who really appreciate the fine work of any service wearing athletic strips, let me say a few words in tribute to Doivey Winters. You know all that red is not on the field is nothing flat to carry away the inspired forwards.

The club takes to the road to face strong Connecticut Teams that at New Britain this Saturday. A full boat encounter with Panther College takes place next Saturday. The Jersey club is also looking strongly at this win and the cowboys should rate a slight favourite if they are full strength.

Arnold Bombs Textile 20-6

The weatherman contributed to Textile's football woes by forecasting perfect lovin on Friday night. The weatherman, however, and no sooner had we thought that the chances were not that good but we were met with a game of our own, which was expected to take place. The Connecticut club has been forced to the sidelines by the conditions. But they left a trail of courage behind which will probably leave their own football fans to look for the hour.

Aside from admiring our hues their fourth straight set-back of the season without a victory by a 2-01. They did not lose to the upstart Demons.
