Red Hot Organizations At Textile

We have here at Textile a few organizations which are worthy of mention, a few whose devotion to their Alma Mater, their willingness to work for the good of all, or merely to find their own satisfaction, without detection, is most fitting since they are given recognition without either the knowledge or approval of others. We want to see this kind of thing happening more often.

The leading male lady of Textile is the person of John C. Westaway, president of the "Textile Profs". The ladies group is up simply to give the fellows a decent place to play their girls during the Spring House Parties without going outside the campus. It is customary for the program manager to retire, buy a编织 and throw the money after the show is staged. Moral, try andurence program manager of the show.

The club is headed by Arnold Abouy, 127 who runs the way from Draper in a small Massachusetts town (ffice 18 on Broadway, Lowell, Mass.) The club has been a success since Christmas due to the fact that they have handed audiences with cocnets since that time. The stard concert of the year was held Wednesday night in the shop where the club will try to wear the presents of the people. The club and all the rest of the shop are alleged to have "fak

RESTORED PRESTIGE

The scene of this meeting is an assembly room at a certain girl's school in Lowell, Massachusetts which we shall call "The Academy of Tender Young Women With Winning Intentions" (A. T. Y. W. W. I.). An upright, chum-looking, conservatively dressed woman (probably not over fifty years of age) is addressing the Academy Student Body. The young students probably do not exceed the age of twenty, nevertheless, they appear to be intensely concerned with what the lady on the platform is saying. They have probably already deduced that a group of women at this tender age could not possibly concentrate on a speaker and give her their individual attention if she were not talking about one subject—HUN. In order not to let this incident become known to the world at large, we shall call the speaker Miss "Frigid Cold."

The subject was a proposed dance which would be held in that very assembly room later that week. Miss Cold was evidently pleased that this social event could come to pass—and why not? Had it not been years since the Textile fellows had condescended to accept an invitation to grace the dance hall at all? H. T. W. W. I. Held they not been subjected to years of waiting for this great day in their school's history? Had they not been forced to endure the presence of much lower social beings for a long period of time? They most positively had!

Miss Cold was saying something like this, "We were once in great favor with the Textile men at one time and many pleasant parties were held here, but for a while our Academy became howered in the eyes of Textile men by the enrollment of a certain clique of beauties who entered the men away from the dancer and who persisted in wanting to show them the beautiful parts of the school. The Textile men resented this attitude of the Academy girls and have since refused to attend our parties."

"This will be your opportunity to regain lost favor and it is entirely up to you whether the party will be a success or not. I am asking you to treat these fine young men as being their state in life, and remember this: everything that is done during the evening must be done within these four walls."

With that as a parting word—half warning, half advice—Miss Frigid Cold resumed her seat amidst much applause. * * * * *

Social item in local paper the following week: The prestige of the A. F. W. W. I. young ladies has been restored at last. This was demonstrated last Saturday evening when the Textile students attended an informal party at the Academy. All the Textile men were agreed that the Academy possesses some very beautiful buildings.

Top in quality—first in popularity

EXPERIENCED smokers have proved it. Discriminating tobacco lovers by the million rediscover it every day and every evening as the friendly Camels are lighted. There simply is no better cigarette made. The choicest Turkish and Domestic tobaccos grown are bought for Camels—and such blending for taste and fragrance! Only the largest tobacco organization in the world could produce a cigarette like Camel.

In terms of popularity, Camel quality has reflected itself in the greatest preference ever given a cigarette. There never was a tobacco word so famous, or a cigarette so good. First in popularity, because the best—that is the story of Camel, the biggest cigarette success ever known. If you want such smoking enjoyment as you never hoped to find, just try Camel. Smooth, fragrant and mellowy mild, from the first touch of the flame to the final puff. Camel will mean a revelation to you of tobacco goodness. For pleasure unebroidered, for the best that's made regardless of price. "Have a Camel!"

WHEN THEY HAD THEIR PICTURES TOOK

Friends, freshmen and fraternity brothers, lend me your ears—nor fair Alan Mizer, therefore everywhere looked upon as the model of a true student, may I speak the truth. Not only have my classes been for the most part in love with me, but my friends, who are always ready to go out of their way to help me, have been generous in their kindness. In short, I am a happy person, and I am glad to see you all.

On Thursday afternoon,浦郡youth, your instructors gathered, according to the established tradition, to be photographed. They thought they had made the solemnity of the occasion, but we who were there, old or young, will not soon forget that time. The pictures were to be taken from the Lydia's, the most suitable and the most suitable location. But this time, the evening was not over. On the contrary, they so effortlessly tried the patience and endurance of the photographer with their antics that he was afterwards committed to the Tomahawk Asylum, of necessity, and he now says the long nights beholding his hair and nothing—"Turn your toes out, Linny, like a good boy" and Asylum, Ford, Lambert, and Kennedy, urged to the wisest Machmnan.

shaggy, and fell out, the photographer, thoroughly convinced that the pictures were unsuitable, arranged for a holiday, safe at last, but not a moment too soon. The pictures were not taken, and the group was dispersed. After evening mass, it was discovered that some of the students were absent from the picture-taking, and the photographer, exhibiting what may be construed as remarkable ingenuity and determination, took advantage of the situation, and the group was reassembled. FINALLY

Finally, though even the gods know that the world is in a parlous state, the photographer, with a sob in his voice, had the pictures processed, and the group was dispersed. The Game

The game was played on Sunday, Two in Doc. Drone's yard.
Prof. Cushing was a halfback.
Professor Dow at guard.
The umpire was Prof. Hall.
The referee was the game.
His whistlers played around the field.
He had them with a cane.

Which caused a brief delay.

Cheaps barked the signals.
Walt Hall stabbed his toe.
Shumy Brown marshalled up the ball,
Not knowing where to.

The HBS was striking.
Mr. Scudder said it was,
How could they Shumy run at all
And ask great applause?

And then the show of the game
By Wills was engineered.
A fake move, Judy to Cassie,
Miss Whitley even cheered.

Prof. Judt went speeding down the field.
Not looking left or right.
Also he blamed the leg and fell.
Upon the ground with all his weight.

SPORTING

The National Hockey League Race continues with the teams in practically the same positions as two weeks ago. The New York Rangers and the Chicago Black Hawks continue in the lead in their respective sections. The Can-adians and the Americans are both-ers, a steady battle for second place in the Central division with the former now in the van. The American race's throat is the Boston Bruins, by virtue of their sport of the past three weeks, now four points ahead of Chicago.

Boston University has the licks on Northeastern this year. In both of their contests on the court the BU has owned the victory by one point. It also turned Clark by a solid margin last week.

Notwithstanding the unexpected set-back suffered by them in the Cab-ridge U. last week, Fordham appears to be the best college unit in the East. To date they have won fourteen games in fifteen starts.

Princeton still holds the Eastern League crown, having suffered last week a defeat to date. Columbia, last year's champion has yet to show the form that carried them to the top of the ladder in 1926. The team scored its first league victory after twenty-four consecutive losses when the Bilt-bilts Cornell a 25-24 set back January 29.

Princeton forward leads in scoring. He is, however, closely pressed by Pickens of Dartmouth and by Davidson of North- carolina.

The Millikin A. A. gains in New York on Feb. 2. Straight off some of the best indoor performances of the last few years. Exceptionally brilliant were the performances of Harrington in the pole vault and Halff in the mile "twos". Harrington's mark of 15 feet 2½ inches sets a new indoor record for the vault. The work of Major in winning the high jump by 6 feet 3 inches and by 5 inches inches made him a formidable competitor for the title now held by Harold Osborn.

Two Members of Tau Epsilon Sigma Seen At the Commodore

Notwithstanding its almost impossibly busy, it is persistently rumored that two members of our honorary school fraternity, Tau Epsilon Sigma, were seen at the Commodore, a night club, at the request of the Commodore, at the request of the Commodore.

This, of course, must be a mere fabrication on the part of the Commodore. The Commodore is known to be a very active and very busy man, and it is highly unlikely that he would have time to spend at a club. However, it is possible that the Commodore may have been at the Commodore, as he is known to be a very active and very busy man.
