2. The shall provide for the business suitable cape, constructed after the manner of those used for the same purpose in the city of Boston.

3. The shall not under any circumstances (unless especially requested by the Health Commissioners in writing) enter the city for the purpose of cleaning any vault before the hour of 9 o'clock P.M.

4th. Whenever any vault is opened, the work about the same, is to be done quietly and as neatly as possible—and when the contents of the vault have been removed, the vault and everything connected therewith, so far as practicable, to be put in the same state as before they had been disturbed.

5th. Whenever the vault of any tenement or building is represented by the occupant thereof, or by any two Health Commissioners, in a state requiring to be cleaned, and he or they request the same to be done, it shall be the duty of the person licensed to obey said request as soon as practicable.

6th. It shall be also his duty to keep a memorandum book, and note down regularly each application—the date of such application—by whom made, and for whose benefit. Also, what was afterwards done by him in reference to the same—how much, and at what time—said memorandum to be preserved and presented to the "Board of Health," whenever called for.

7th. He shall keep an exact account of all work done in connection with the business—each item of said account to be put down separate and distinct, specifying the exact amount of work done—also the precise place and time. Said account to be presented to the Board of Health, for their inspection, whenever demanded.
