June 6th, Met at Mayor and Aldermen's rooms in consequence of their usual place of meeting being occupied by the School committee.

The chairman apprised a previous meeting for the purpose submitted to the board the following Notice:

Whereas this Board by personal inspection of various sections of the city are satisfied that their duties within its limits at the present time necessitate the presence of persons from far and near to which the public health is endangered, they therefore feel called upon in consequence of the aforesaid period of the season to give notice that they shall in pursuance of their duties as Health commissioners assume themselves of the power of authority vested in them by law for the prompt removal of nuisances as here or may hereafter come under their notice. To this end they have been satisfied with the information of all concerned, that the following regulations respecting nuisances caused by privies to sources of inlet adopted by them together with the powers of the statutes of the Commonwealth, will be published in the public newspapers this city called the Lowell Courant, Lowell Advertiser, and the notice is to be read by the members of the board, voted to accept the above notice that it be put into effect. The board having according to a previous vote examined the Health regulations, in force the last year, voted, that they be adopted by this Board for the present year, with the exception of the 17th section which shall be abrogated and replacing it all sections, which are now inconsistent with, are embodied in the subsequent 15 other sections, the substitution of the word, "board" for Board of Health's Commissioners, whereas the phrase occurs in the first through, the document, to the word "shall" for may in the 4th lines of the 7th section and such other trivial alterations not involving a change wherein, as may seem expedient by the Board.
